n=No. of responses  
 av.=Mean  
 md=Median  
 dev.=Std. Dev.  
 ab.=Abstention

### 1. Pre-Registration

Please enter your responses in the boxes provided, thank you.

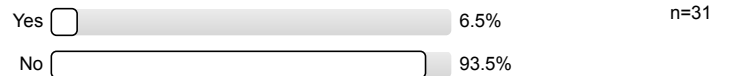

1.2) Are you bilingual?

1.5) Do you plan to challenge any courses?

1.6) Are you interested in Carpooling?

1.7) If you are interested in carpooling, may I give your name and telephone to another interested student?

1.8) Are you employed by County of Los Angeles?

1.10) Are you the first person in your family pursuing a college degree?

1.11) Does your mother have a College degree?

## 2. Financial Plan

2.1) Will you be signing the Tuition Agreement Contract?

2.2) Are you planning to apply for financial aid?

If Yes, Proceed to the next 2 questions

2.3) Have you submitted your Federal Application for Student Financial Aid (FAFSA)?

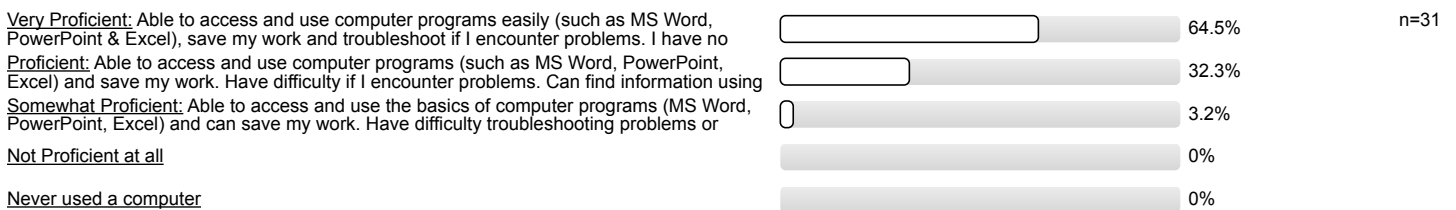

2.4) Have you received Federal Financial Aid from schools you are currently attending or previously attended?

## 3. Technology

3.1) Please rate yourself on your computer skills:

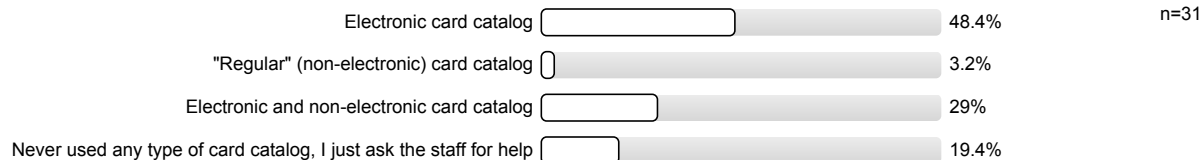

3.2) If available, would you take classes to improve your computer skills?

3.3) How often have you used a library to assist you in finding information?

3.4) If you use a library, how did you find information about the library's books and journal collection?

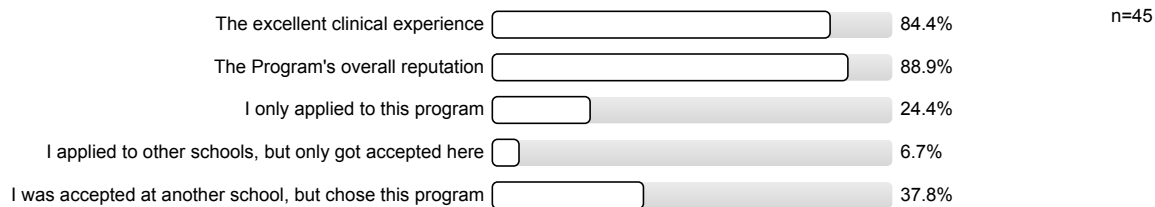

3.5) Do you have a printer at home?

3.6) Do you have a computer or laptop?

3.10) The primary reason I chose to attend this program is: (Check all that apply)

### 3. Technology

3.7) My primary strength as a student is:

My primary strength is my focus and determination to do well in all areas of my education. I am determined to get good grades and excel in the program and I put all of my focus in to that. Another strength is my ability to create study guides that really help me learn and retain the material I am taught.

Time management, willing to work hard to meet my goals, good grade, never withdraw any course before.

taking good notes, and going over them

My strength as a student is committing myself to my profession despite outside factors that may distract me. I always try my best at whatever I do.

My desire to learn and to do the best job I can do. I work hard, and I study hard.

I am very good with memorizing and I can understand the materials quick.

Organization, good note taking skills, and utilizing proper study time

my willingness to learn. My strength is also my family, my children in particular. They're what keeps me going and makes me strive to be successful.

My primary strength as a student is my dedication and passion to learn. I'm capable of finding different ways to obtain knowledge and apply it.

my ability to become very focused on the course at hand. Also, I have excellent multi-tasking skills that allows me to prioritize and juggle multiple courses and tasks at once without compromising my ability to try my best.

being able to challenge myself academically and be on top of school work, so I can be prepared to class. I like feeling that I am on page with the material and also have more understanding of the lectures.

I am a hard-working student. I can work independently and ~~in~~ in a group.

I'm excellent at studying and retaining new information.

As a student I am very organized and driven. I want to succeed and do well in this program. I love learning new things and am always excited to become more knowledgeable.

diligence

Work and Research.

I am a very good listener. I give my 100% full attention during lecture! I am able to sort out important information. I am fairly sharp at grasping concepts.

Collaborating with other students. Comprehending challenging material through independent outlooks. Knowing that there is a constant need to learn.

My focus and determination to finish what I've started.

My capacity for learning and my skills as a phlebotomist.

- STUDY HARD
- ACTIVE TO ASK IF THERE IS A QUESTION (NOT SURE OF LECTURE MATERIAL)
- EMPATHY TO OTHER

I am very organized and I work well with other students.

- Willingness to learn new material and expose myself to unfamiliar situations
- Adapting to new environments

I stay focused, ~~study~~ <sup>have</sup> good study skills, do well with time management, work well with others, proficiency, dedicated to understanding all material, have good research skills, think critically, ~~organization~~, and I am always prepared.

My primary strength as a student is my eagerness to learn new material & apply it in ways that will help me remember it for future reference.

My primary strength as a student is organization. I organize my notes, paperwork, and studying time well. I often refer back to my notes, so being organized allows me to know where to search.

Interest to learn and understand how different processes and systems work, with a eagerness to find solutions and knowledge from all things learned.

Time management skills and wanting to learn new material and continue to learn

I read the assigned chapters ahead of class meetings and review my homeworks often to pass the class with high grades.

I am a quick learner. I can pick things up easily if I apply myself.

I am a good reader. I also have strong writing skills.

I am organized, a hard worker. I am not afraid to ask questions. I am willing to help others. Although I may not always do well, <sup>on exams</sup> I try my best & push myself to always do better the next time.

BEING ABLE TO FIND A WAY TO STUDY THAT HELPS ME LEARN THE MATERIAL IN A MANNER MOST BENEFICIAL TO ME, ~~THE~~ THAT DOESN'T CONSUME TOO MUCH TIME.

I am very dedicated and fast learner.

My primary strength as a student is staying focused and taking good notes.

I am a fast learner, and I learn better by observing and doing.

The ability to work well with others. After lecture, I try to gather a study group & go over the material again. In a way, also try to teach the lesson or explain it better to the group.

My primary strength is that I am a good listener and will always ask question to improve my understanding.

Able to learn by doing. Open to new ideas and new ways at looking and learning a subject.

My primary strength as a student is that I work hard to make sure things are done ~~pro~~ and turned in on time. I never miss class.

### Critical Thinking

I learn concepts quickly and am able to draw parallels from topics that may seem unrelated. Also, I don't shy away from putting in the hours to make sure I succeed.

I put my school work before anything else.  
I will focus on my work and won't get distracted

The ability to stay focused during my study time and my ability to look/research information more in depth in order to become more comfortable and knowledgeable with the material.

I AM ABLE TO WORK/STUDY AND FOCUS EVEN UNDER/DURING A STRESSFUL SITUATION AND I NEVER BACK DOWN TO ANY CHALLENGE

My ABILITY TO FOCUS ON THE MATERIAL AND My STUDY HABITS

3.8) To become a successful RN, I am most concerned about:

I am most concerned about being able to retain all of the new and very detailed information & being able to apply my knowledge in the clinical setting when caring for patients. I know with focus and determination I can provide the necessary care. @

-precaution and safety of the work place or environment  
- child care

applying the skills, I will need a lot of practice in order for me to feel comfortable

I am most concerned about the skills. I am NERVOUS to make any mistakes.

Learning and retaining all the material I am taught, and being able to apply it in real life situations.

my ability and knowledge to take care of patient. I am concerned that my judgement can lead to serious condition for patient.

I am mostly concerned with providing an equal amount of time to all my patients and satisfying their care plan to get them home and healthy.

that I am most concerned about balancing all aspects of my life while keeping up with the large academic workload that will be a part of being successful in this program. Time management will need to be utilized. I'm also concerned about stress management and not letting anxiety get the best of me on exams.

managing patient's outcome  
dealing with the patient's family/loved one(s)

Authority. I've been my own boss for twenty years.

working on my critical thinking skills. Being able to notice what a patient needs and providing that to the best of my ability in a comfortable manner and also bringing some positivity and light into their lives.

How my patient can be treated in the short term and how they will thrive in the long term.

Time management and keeping a regular exercise schedule to maintain health.

Overcoming or balancing daily life with study schedule.

- MY KNOWLEDGE & SKILL

- WHICH SPECIFIC FIELD OF DEPARTMENT THAT I WILL BE AT

- My learning curve
- Course material difficulty
- Study habits and Time management.
- Rigorous course instruction

I am most concerned with time management pertaining to work and study time.

I am most concerned about ~~the~~ overthinking the care that I am giving. I tend to over think & make myself anxious/nervous.

I am most concerned about the amount of time I will need to study. I am currently an employee and I'm afraid my occupation might interfere with study time.

Patient excellent care, I believe that is at the forefront of Nursing. Nursing is constantly evolving in order to provide best care.

Being excellent at bedside care and using the knowledge I learn in theory and applying it to patient care

How to do a research paper. Waking up early in the morning is not my usually schedule of each day.

Learning the vital procedures an RN would perform and learn them in a way I can consistently perform them effectively.

retaining the information needed to do well.

Staying on top of my assignments, time management, family time & extra curricular activities.

MANAGING MY HOME LIFE, SO IT DOESN'T INTERFERE W/MY STUDIES. IF HOME ISN'T STABLE, IT'LL BE HARD TO MAINTAIN SCHOOL.

being able to retain all information/education needed to successfully ~~that~~ be a RN.

The pressure to always do everything correctly and not make any mistakes because if I do it will affect the patient

Managing time. for studying and clinicals.

Time management & test taking skills. = have anxiety when taking tests & sometimes have trouble managing my time.

I am most concerned about being able to keep up and master skills in the clinical area.

Being able to communicate with people who speak different languages

I am most concerned about the stress and school work for the program.

Retaining information.

not screwing up! Of course, I will make mistakes, but I never want to make a mistake that would cost someone their life. In terms of the actual process of becoming an RN, I am most concerned about managing my time properly to make sure I am effective in learning what I need to know.

Learning the skills and being able to communicate with people the way I should.

Knowing/acquiring the skills/knowledge required to assist me in providing the best possible care for my patients. Also knowing how to act/respond in an emergency situation.

MAKING SURE THAT I AM FOLLOWING ALL THE POLICIES AND GUIDELINES EXPECTED FROM ME OF THE INSTITUTION I WILL BE WORKING FOR.

## METRIC CONVERSIONS

3.9) What can the College do to help you succeed?

The college can provide course outlines and good study material to follow. ~~and also support~~ Also, the support and encouragement of students to succeed is important.

- Information regarding child care, since the clinical begin early, many child care centers are open around 7AM.

The college can help by giving one on one attention to students and their needs.

The college can help me overcome my fear of the nursing skills, and become a better nurse.

- Have staff that is really willing and wanting to teach students.
- Offer different resources to help us learn and practice what we've learned.

Provide the knowledge and skills in most possible way during Clinic and Studying so that I can learn and see what I can apply to my own future career as a nurse.

The college can act as a secondary family for support when things get overwhelming. Provide assistance with any material that is to be learned and at times emotional support when needed.

Going to college can give you better opportunities to succeed.

It always helps knowing how supportive our college is and what programs are offered to help us thrive. Also maybe having someone reminding us the programs available since it's hard to remember all the information !!  

to provide free and accessible educational resources to help absorb and solidify the studying material.

---

Have counsel for those students who are struggling (if necessary) and how to be able to improve their weaknesses.

---

I want to learn more from tutor groups to enhance the knowledge.

---

Provide me with resources and have continual feedback from instructors as to what I can do to succeed in my classes.

---

The college can help me succeed by being supportive and willing to help whenever I may need it. ~~How~~ Perhaps workshops on stress management and test taking tips would be helpful. Also providing resources, ~~with~~ test reviews, and helpful tips in how to study.

---

provide strong support network

So far so good. Pass me on the Pharmacology exemption :-)

I feel that study guides are the best way to help us ~~and~~ focus our learning. Tutoring services and workshops are very helpful.

Provide a structured environment with teachers that have a passion for teaching. Exposure to as much experience as a student

Stay informative on scheduling ahead of time to accurately plan the weeks ahead of time.

- PROVIDE KNOWLEDGES & SKILLS THAT I NEED
- FINANCIAL AID WISE, SO I WON'T HAVE TO BE STRESS ABOUT FINANCIAL WHILE I'M IN PROGR

Having professional and knowledgeable instructors are very important. Also, if there can be tutoring time would also be great.

- Provide the tools for us to succeed and learn
- Communicate w/ students to ensure understanding
- Allocate enough time and resources for students to balance out.

I believe by being available would be the best thing the college can do to help me be successful.

The College can help me succeed by teaching the newest techniques & practices used in medical settings. They can also help me succeed by also including holistic & non-traditional medical techniques that can help benefit any patient I come in contact with.

Tutoring sessions with tutors or instructors will help me succeed.

Provide the knowledge, wisdom and experience through clinical and classroom expertise, as well as knowledgeable staff provides proper guidance as we enter our Nursing Career journey.

Being available to answer questions and help with any areas I might be struggling in

- ① Class @ 9am ? Clinical @ 9am - 4pm would help a lot -"
- ② Class on how to write a research paper.

DO NOT GO EASY ON ME! I am a procrastinator and I need to stay on the ball in my routine, if not ahead, in order to be successful at the level I am aiming for.

- approachable staff
- access to research materials
- access to skills lab

TO IMPLEMENT WHAT I'VE LEARNED + APPLY IT TO  
MY PATIENT CARE

provide resources to study and pass courses.

provide study areas and computers/labs which are  
all already available.

---

Provide tutoring in case something isn't clear during lecture. a tutor can reinforce it with a graph.

---

Have tutoring & keep study rooms as often as possible

---

I want the college to challenge me as a student and push me to work the hardest.

---

Be supportive and understanding, and push me when I need to be pushed.

---

~~that~~ I've heard many good things about this school, and I hope to gain the knowledge and clinical experience I need to succeed as a RN. I also hope that the school is a great reference for my future as a RN.

---

Everything is fine for now.

It seems like there are already a number of programs in place - ones that I hadn't even considered, so at this point, I can't think of anything. However, I will not hesitate to speak up if I think of anything.

If the teachers are ~~always~~ there for me and could help I should be good. I will always put in the work to succeed.

Provide one on one time if needed with the instructors.

BY PROVIDING ME WITH ALL THE NECESSARY INFORMATION AND TIPS OF UNDERSTANDING EACH AND EVERY LESSON, I BELIEVE THESE WILL HELP ME SUCCEED

I WOULD SAY ACCESS TO THE STAFF AND INSTRUCTORS SHOULD  
I HAVE ANY QUESTIONS ,COMMENTS OR CONCERNS ABOUT MATERIAL.

---
