In July 2018, ODR launched the Felony Incompetent to Stand Trial-Community Based Restoration (FIST-CBR) program to divert individuals facing felony charges who are found incompetent to stand trial into community based settings to be restored to competency.

Since July 2018 a total of 133 clients (44 between January to March 2019) have been removed from jail and connected to community based treatment including through PC 1370 (a)(1)(G) which allows those on the list who have become competent to be adjudicated and diverted to housing and care in the community.
In 2018 California passed legislation creating a new way for courts to authorize pre-trial diversion for individuals with serious mental disorders who are charged with certain felony or misdemeanor crimes.

Since the launch of the program on March 1 to March 31st, the Department of State Hospital Mental Health Diversion (DSH Diversion) program diverted 5 clients.

As part of the legislation, funding was set aside for LA County to divert clients who are likely to become FIST. ODR was awarded a contract by the Department of State Hospitals to serve 200 individuals over three years.
Under the directive of the LA County Board of Supervisors, ODR has prioritized diverting pregnant women from the jails to the community with supportive services and housing provided by ODR. ODR Housing Maternal Health Diversion Program launched in April 2018.

A majority of these pregnant women reside in specialized interim housing settings that allow women to remain with their children until they can move into permanent supportive housing.

As of December 2018, 73 pregnant women were diverted from LA County Jails. 9 new pregnant women clients came into the program between Jan 1 – March 31, 2019. 19 women are currently in permanent supporting housing.
18-bed ODR Psychiatric Unit at Olive View-UCLA ("6C") opened July 16, 2018 and serves the most acute psychiatric patients in custody.

Patients come primarily from the jail's Forensic Inpatient Unit (FIP) watch list.
- Patients are selected based on acuity and ability to divert charges.
- 6C addresses the acute psychiatric bed crisis in the jail and helps LAC meet its obligations under the DOJ settlement agreement.

Beginning July 16, 2018 to March 31, 2019, we have admitted 116 (38 between Jan to March 2019) patients with a combination of clients from ODR’s FIST, MIST and ODR Housing programs.

FIST-CBR CLIENT SUCCESS STORY

Judith King* is a 60-year-old woman who entered the ODR Felony Incompetent to Stand Trial Community Based Restoration (FIST-CBR) Program on September 12, 2018. Since her arrival at Christ Centered Ministries Restoration House, she has been determined and dedicated to receiving the most she can from the program.

Although she initially experienced difficulties related to her mental illness (e.g., isolation, responding to internal stimuli), she soon learned to engage with peers and the clinical team. She is now more mobile with her cane, completes life skills such as making her bed, and performs light chores for the space she currently calls home.

She enjoys watching television with her peers and frequently starts friendly conversations with staff as they walk into work. Ms. King demonstrates independence through being on time and taking her medication. She became stronger in advocating for herself and verbalizing her wants and needs. She also developed an authentic bond with a peer close to her age in the house.

Ms. King is currently awaiting her transition into an ODR permanent supportive housing location and has expressed excitement about moving forward into the next chapter of her life. She continues to have the support of her clinical team in her growth.

The residential sites provide room and board, amenities for daily self-care, clothing, and a welcoming home environment. Supportive services includes mental health treatment, family reunification, life skills, mentorship, and a variety of support groups.
