2019
STATEWIDE MEDICAL AND HEALTH EXERCISE

Scenario: Flood

The 2019 Statewide Medical and Health Exercise, sponsored by Los Angeles County, will take place on November 21, 2019. The scenario for this year’s exercise is a Flood Event. The purpose of this exercise is to:

- Provide all exercise participants an opportunity to evaluate their response plans to a flood event
- Encourage the participants to determine how to address an event with potential for prolonged impact to staffing, resources, and patient surge

This year’s exercise emphasizes testing health care coalitions’ response while utilizing established surge plans, policies and procedures.

If your organization/agency would like to participate in this year’s Statewide Medical and Health Exercise please click HERE

Registration closes on October 31, 2019.

If your facility/organization has more than one location, each location must register separately.

The actual exercise will be held at your own agency/location.
