Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH

This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Surge Capacity - hospitals can flex additional beds to serve ICU/Isolation patients as needed.

Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.
Los Angeles County Emergency Medical Services Agency
COVID-19 HOSPITAL ASSESSMENT REPORT

**DAILY INTENSIVE CARE UNIT (ICU) CENSUS:** LA County 911 Receiving Hospitals (n=70)
Licensed ICU Beds: ~2,500  Reported ICU Surge Capacity on 4/15/20: 4,067
Estimated 2018 Population: 10,284,981

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH
This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.

Data Source: ReddiNet Daily Hospital COVID Assessment Poll, and Snowflake CHA/CDPH
This is self reported data subject to error, represents 70 designated 9-1-1 receiving hospitals.
Surge Capacity - hospitals can flex additional beds to serve ICU/isolation patients as needed.
Several large hospitals that do not routinely receive 9-1-1 transports also have additional beds that would increase bed capacity in the system.
