ODR MISSION

- Develop and implement county-wide criminal justice diversion for persons with mental health and/or substance use disorders and provide reentry support services to vulnerable justice involved populations.

- The goals of ODR include reducing the number of inmates with mental health and/or substance use disorders in the Los Angeles County Jails, reducing recidivism, and improving the health outcomes of justice involved populations who have the most serious underlying health needs.
ODR APPROACH

- **The Assessment**: ODR carefully and thoroughly assesses each individual patient in custody, both clinically and legally before requesting a court date to have that person removed from custody and placed into ODR’s programs.

- **The Hearing**: Whether or not an individual patient is placed into an ODR program is determined by a judge during an adversarial process where prosecution and defense argue their positions.

- **The Conditional Release**: If the judge allows release, the patient is ordered to ODR, and only an ODR program may pick-up the individual from jail.

ODR HOUSING

- A permanent supportive housing and treatment program that serves individuals who are incarcerated in the Los Angeles County Jails, are homeless, and have a serious mental health disorder.

- Clients are connected to interim housing upon release and continue on to permanent supportive housing.

- Since August 2016, ODR has served 2,384 homeless clients.
MIST-COMMUNITY BASED RESTORATION

Prior to MIST, Billy was homeless and uncared for in the streets of Los Angeles. When recalling what it was like when he first arrived at the house, he stated “I was a mess and I was in hell. When I got here, I thought I died and came to heaven,” he chuckled. “They welcomed me in, it felt warm and cozy. People were nice to me. Ms. Carolyn [resident aide] was the nicest lady ever. She gave me a stack of clean clothes and soap and immediately took a shower.”

Today Billy is 130 days sober from all substances, he is clean and well groomed, he is insightful, cheerful, tender, and remorseful for the way he was behaving in prior months. He independently apologized to the other residents for being so disruptive stating “I hear voices. I’m sorry for the way I was acting.” He is stable for the first time in over a decade.

Recalling the support he received from MIST provider HR360, he complemented the resident aide staff: “they were like a father kind of to me. And it felt so good to be treated that way.” When mentioning his clinicians his eyes instantly beam. “Reyna has had the biggest influence on me out of anyone by far. Anytime I have a problem I can go to her and she treats me the way I should get treated. The way I wish to be treated.” Reyna has reconnected Billy with his mother and has been supporting him in developing a healthy relationship with her. “[Reyna’s] my hero.”
