<b>PREVENTION SERVICES AND ACTIVITIES MATRIX</b>						<b>Attachment I</b>		
PREVENTION PRACTICE	DESCRIPTION	AGE RANGE	TRAINING PROTOCOLS	FACE-TO-FACE /TELEPHONIC	MODALITY	LOCATION OF SERVICE	TYPE OF STAFF	DURATION OF SERVICE CYCLE (NO. OF VISITS)
Psychological First Aid/Skills for Psychological Recovery	<p>Psychological First Aid (PFA) and Skills for Psychological Recovery (SPR) are evidence-informed approaches for assisting children, adolescents, adults, and families in the aftermath of disaster and terrorism. PFA is intended to provide disaster and crisis survivors with immediate assistance in the days and weeks after a disaster. SPR is intended to assist disaster and traumatic events survivors in the recovery phase. SPR places greater emphasis on teaching specific skills to meet survivor needs and is used to reinforce skills upon follow up. Both practices are partnerships between the National Child Traumatic Stress Network and the National Center for PTSD. The Core Actions of PFA include: Contact and Engagement; Safety and Comfort; Stabilization; Information Gathering; Current Needs and Concerns; Practical Assistance; Connection with Social Supports; Information on Coping; and Linkage with Collaborative Services. SPR teaches six main skills: Gathering Information and Prioritizing Assistance; Building Problem-Solving Skills, Promoting Positive Activities, Managing Reactions, Promoting Helpful Thinking, and Rebuilding Healthy Social Connections. In addition to the English-language editions of PFA and SPR there are versions in Spanish, Japanese, and Chinese. Along with the several language translations, NCTSN members have worked to develop PFA adaptations for community religious professionals, schools, Medical Reserve Corps members, and for staff at facilities for families and youth who are experiencing homelessness. The trainings for PFA/SPR and the Field Operations Guides and accompanying handouts are available online.</p>	0-100	<p>Completion of a 6-hour PFA online course. Completion of a 5-hour SPR online course. Note: Trainings can be completed individually or combined.
