

Library Orientation

Library and Computer Lab

Monday – Thursday

0630-1700

Friday

0730-1400

*Friday closed for lunch from 1200-1300

Closed Holidays and Weekends

Hours may be subject to change

(323) 409-6521 Circulation Desk

(323) 409-6522 Librarian

mtolosa2@dhs.lacounty.gov

In the library and computer labs

- **Always sign-in** on the clipboard

- Include name, semester and reason for use. Please indicate which programs you use—such as “Word, CINAHL, Orchid, etc.” *We use the statistics to evaluate usage*

- No food or open drinks in the computer lab

- Please have phone conversations outside

Loan Policies

- Books: May be checked out for 3 weeks and renewed if not requested by another borrower.

- Journals: Do not circulate, but you can scan for free. E-journals available through CINAHL.

Loan Policies

- Modules: May be checked out for 3 weeks.
- Reserve Materials: Material placed on reserve by College faculty may be obtained at the circulation desk. Check out is limited and is based on faculty request.

Loan Policies

- Reference Books: Library use only
- Yearbooks and Historical Collection:
Library use only

Laptop Loans

Laptop loan applications are available at the start of each semester.

Loans are based on several factors:

- Rotations
- Availability
- Need

Loan periods are for 8 weeks.

You will sign County agreements and adhere to County policies with each loan.

You will be notified via email if your application has been accepted.

Procedure for Checking Out Materials

- Each user will be assigned a barcode (placed on your ID badge)
- When ready to check out, bring materials to the circulation desk
- Your barcode will be scanned, and your materials will be checked out electronically
- Notices and library correspondence will be emailed to email address on record.

Materials

- Fines should be paid immediately.
- Fines of \$3.00 and over MUST be paid completely before the borrower will be allowed to check out any additional material
- Fine Rates
 - Books \$0.20 per book
 - Per business day
 - Laptops \$5.00 per day
 - Transcripts and registration will be held until returned.

NO Checks, **cash only** accepted for fines/lost materials and deposits

Lost Materials

- Should be reported immediately to halt continued accrual of fines
- Fines stop as of the day material is reported lost and the borrower is given time to look for the material before payment is expected.

- Borrower is responsible for the replacement cost of the items.
- A \$5.00 processing fee will be applied to the replacement cost.

The Copy Machine and Printer

- Printing costs .05 for a single-side and .10 for a double-sided print.
- If you are printing something for the Administration Office (Health Clearance, BLS Card, etc.) there is no charge.
- Please pay at the circulation desk.
- We will accept payment later if you inform library staff. Unpaid fees must be repaid by the end of each semester.
- Unpaid fees could result in a hold on registration and/or transcripts.
- Please try and limit printing dark images.
- When you can print double-sided, please do so. Please ask for assistance if you require help with this feature.
- Scanning from the copy machine is free.
- For 2-sided printing/scanning: remember to change the setting to 2-2

Student Learning Outcomes

Students:

- Demonstrate knowledge of available learning resources both in print and electronic form and effectively access, retrieve and analyze information. They utilize these resources for personal and professional growth.
- Demonstrate knowledge of skills development resources by accessing the skills lab and use these resources to enhance learning.
- Demonstrate psychomotor skills, critical thinking and communication skills in the Skills Lab setting to be used in the provision of safe care in the clinical setting to diverse patient populations.

Fundamentals of nursing : the art and science of person-centered care /

Taylor, Carol

Location: Reserve

Call Number: WY 100.1 T2127 2023

ISBN: 9781975168162

Pub. Info: Philadelphia, PA : Wolters Kluwer, 2023.

Notes:

"The preferred nursing fundamentals resources for generations of nursing students and educators, Fundamentals of Nursing: The Art and Science of Person-Centered Nursing Care, 10th Edition, equips beginning nursing students with a holistic, case-based perspective on nursing practice and emphasizes the clinical reasoning and decision-making essential to their success in today's competitive healthcare environment. Promoting nursing as an evolving art and science directed to human health and well-being, this bestselling text is designed to instill in students the highest level of scientific knowledge and technical skill while cultivating the blended competencies crucial to responsible patient-centered care in a wide variety of care settings. Updates throughout this 10th Edition reflect a growing emphasis on clinical judgment and NCLEX® readiness, training students to think like nurses and respond confidently and effectively to clinical challenges. Ample clinical examples, pedagogy, illustrations, and online learning tools and assessments engage students and distill need-to-know information, complemented by a suite of integrated teaching and learning resources that create a seamless, superior learning experience for every student"--

A small town girl, Carol grew up in Central Alberta, Canada, on a farm just west of a small rural community. She is the oldest of three girls. After graduation she moved to Olds with her future husband. ... [Google Books](#)

research within the hospital to answer clinical practice questions and used the research findings to dictate practice changes. Today, few hospitals use findings from their own research to direct clinical nursing practice. As a result of recent advances in information technology, findings from published literature can be found, analyzed, and applied to answer clinically relevant questions. Key databases and search engines may be easily accessed on most work computer stations as well as home computer systems. Many research articles in journals and guidelines developed by expert panels can be downloaded, read, evaluated, and shared with colleagues.

Therefore, the use of EBP mandates the analysis and systematic review of research findings. The first step for you as a student is to be able to read and understand a research article. To help you, the typical format of a research journal article with a description of each part is outlined in Table 2-6. See also Box 2-4 for a helpful checklist to use when reading and critiquing a research article.

FIGURE 2-4. The Johns Hopkins Nursing Evidence-Based Practice model is a powerful problem-solving approach to clinical decision making and is accompanied by user-friendly tools to guide individual or group use. It is designed specifically to meet the needs of the practicing nurse and uses a three-step process called PET: practice question, evidence, and translation. The goal of the model is to ensure that the latest research findings and best practices are quickly and appropriately incorporated into patient care.
