

PEDIATRIC DISASTER RESPONSE AND EMERGENCY PREPAREDNESS

MGT-439

This course addresses pediatric emergency planning and medical response considerations, needs identified in a 2010 report by the National Commission on Children and Disasters. Based on the needs assessment, a training gap exists for emergency management personnel reducing their effectiveness in responding to pediatric patients and their unique needs/considerations. The course addresses pediatric emergency planning and medical response considerations through a combination of lectures, small group exercises, and a table-top exercise.

Topics

- Introduction to Pediatric Response
- Emergency Management (EM) Considerations
- Implications for Planning and Response
- Functional Access Needs Considerations
- Mass Sheltering
- Pediatric Triage and Allocation of Scarce Resources
- Pediatric Reunification Considerations
- Pediatric Decontamination Considerations
