

National Cyber Security
Awareness Month

DMH INFORMATION SECURITY REMINDER - CYBERSECURITY EDITION 011

NATIONAL CYBERSECURITY AWARENESS MONTH (NCSAM)
2016 - PROTECT YOUR DATA - PROTECT PATIENT PRIVACY

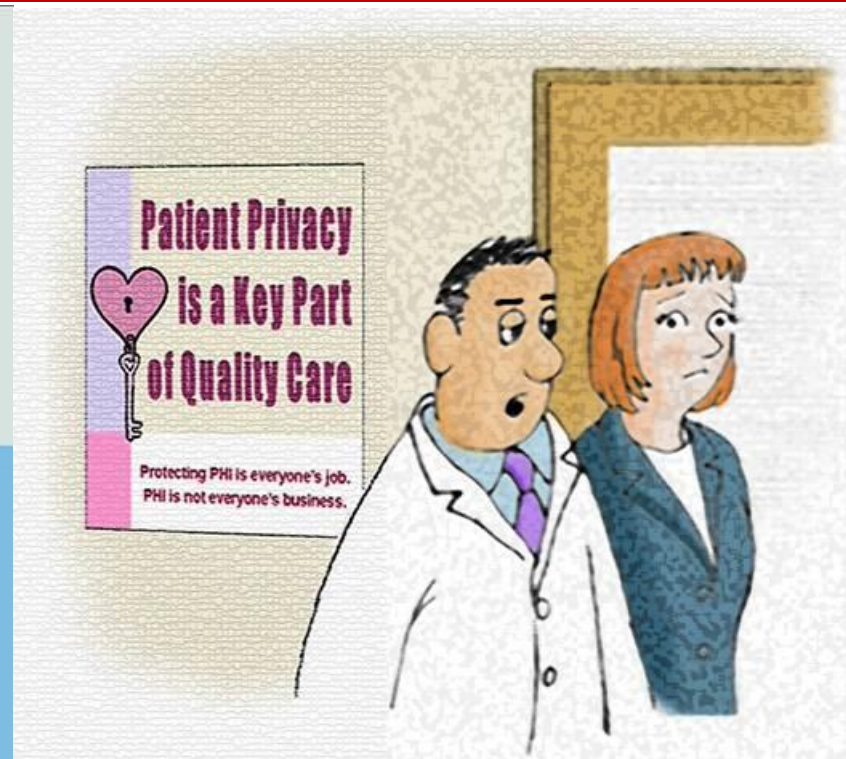

A cartoon illustration of a medical booth labeled "PRIVACY ER". A computer monitor with a face and a red thermometer is on a cart. A doctor, a nurse, and a dog are gathered around the monitor. A sign above the booth reads "PRIVACY ER".

**Take care of
patient data.**

**Don't expose PHI*
to those who
are passing by.**

* Protected Health Information

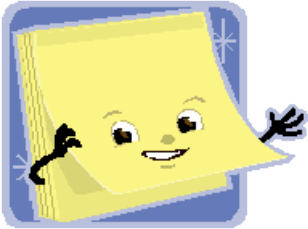

A cartoon illustration of a doctor and a nurse standing in a hallway. A sign on the wall reads "Patient Privacy is a Key Part of Quality Care" and "Protecting PHI is everyone's job. PHI is not everyone's business." The doctor is speaking to the nurse.

**Patient Privacy
is a Key Part
of Quality Care**

Protecting PHI is everyone's job.
PHI is not everyone's business.

"All these privacy regulations are
just common sense and ethics.
Who's got time for that?"

National Cyber Security
Awareness Month

Throughout the month of October, DMH, along with the National Cyber Security Alliance, will call on all Americans to take basic steps to secure their online lives and raise awareness for cybersecurity.

Safeguarding DMH Client Information is every employee's responsibility.

Please exercise caution when working with PHI.

How to Contact DMH Help Desk

◆ **End User Self Service link**
