DESCRIPTION: The goal of this training is to provide participants with a comprehensive understanding of Antisocial Personality Disorder including criteria, assessment and treatment. This training will focus on the treatment of underserved consumers, specifically justice-involved populations diagnosed with Antisocial Personality Disorder. The clinical history of Antisocial Personality Disorder as well as current diagnostic criteria for the disorder will be covered. Furthermore, this training will address the manifestation of Antisocial Personality Disorder in different cultures. Appropriate treatment modalities and countertransference, as well as, validity research concerning violence, risk and treatment outcomes will also be discussed.

TARGET AUDIENCE: Adult DMH directly operated and contract providers only

OBJECTIVES: As a result of attending this training, participants should be able to:
1) Identify criteria for Antisocial Personality Disorder.
2) Discuss how to assess consumers diagnosed with Antisocial Personality Disorder.
3) Describe potential cultural variations when treating this diagnosis.
4) Identify three treatment techniques to implement in the clinical work with consumers.
5) Describe the differences between Psychopathy and Antisocial Personality Disorder.
6) Explain the changes of the Antisocial Personality Disorder Diagnosis from DSM-IV to DSM-V.
7) Discuss three reasons why psychopathy positively correlates with violence risk.
