This training will provide an overview of Latino Immigrants’ experience and the need for clinical interventions, and support services that promote integrated, collaborative, and transcultural services. This training will address the bio-psychosocial determinants that play a role in mental health and in treatment approaches based on the trauma Latino immigrants have encountered in their native countries, in their immigration journey to the United States, and challenges faced living in California. As a result of this training, attendees will be able to identify amended immigration policy criteria resulting from Executive Order: Enhancing Public Safety in the Interior of the United States as well as identify proactive strategies for unauthorized immigrants to utilize when in contact with immigration authorities.

TARGET AUDIENCE: DMH and DMH contracted clinical and rehabilitative staff.
