20 JAN 15 2008

Sachi A. Hamai
SACHI A. HAMAI
EXECUTIVE OFFICER

Dear Supervisors:

**DEPARTMENT OF MENTAL HEALTH: AUTHORIZATION FOR ACCEPTANCE OF
THE MENTAL HEALTH SERVICES ACT WORKFORCE EDUCATION
AND TRAINING PLAN FUNDING
AND
APPROVAL OF REQUEST FOR APPROPRIATION ADJUSTMENT
FOR FISCAL YEAR 2007-08
(ALL SUPERVISORIAL DISTRICTS)
(4 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Authorize the acceptance of Mental Health Services Act (MHSA) funding from the California State Department of Mental Health (SDMH) for research, planning, and development of a Workforce Education and Training (WET) Plan for the County of Los Angeles public mental health system in the amount of \$2,450,147. This MHSA funding was awarded for development of a three-year comprehensive multi-lingual, multi-cultural WET Plan. It will address the retention, recruitment, education, and training needs of the existing public mental health workforce and students committed to delivering mental health services to the public post-graduation. The Plan's objective is to improve the delivery of services under the Department of Mental Health's (DMH) implemented MHSA Community Services and Supports (CSS) Plan, as well as services being developed under the MHSA Prevention and Early Intervention Plan (PEI).

2. Authorize DMH to fill 20 ordinance/20 Full-Time Equivalent (FTE) positions, as detailed in Attachment I, in excess of what is provided for in DMH's staffing ordinance, pursuant to Section 6.06.020 of the County Code and subject to allocation by the Chief Executive Office (CEO). The research, planning, and development allocation will provide continued funding for these items until the MHSA WET Plan is submitted, approved by the State, and incorporated in the DMH's Fiscal Year (FY) 2008-09 Budget.
3. Approve the Request for Appropriation Adjustment (Attachment II), fully funded by State MHSA funds, for Salaries and Employee Benefits (S&EB) totaling \$911,000, and Services and Supplies (S&S) totaling \$848,000 for a total amount of \$1,759,000 for FY 2007-08. The Appropriation Adjustment will increase the DMH spending authority for the purpose of developing a workforce development and education plan to support the delivery of mental health services under MHSA. The MHSA funds will be allocated as detailed in the Spending Plan (Attachment III).

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The Department submitted its request for funding of planning, research, and design activities under the WET component of the MHSA on July 18, 2007. SDMH subsequently approved the requested amount of \$2,450,147 on August 3, 2007 (Attachment IV). Board approval of the recommended actions will allow DMH to accept and receive MHSA funding from SDMH. This funding will enable the Department to commence the research, planning, and community outreach necessary to develop a comprehensive public mental health system workforce development and education plan that will improve the County's ability to deliver services under the MHSA plans. These improvements will support recruitment and retention efforts, multi-lingual and multi-cultural service delivery, and early intervention and prevention of mental illness throughout the County.

Implementation of Strategic Plan Goals

The recommended Board actions are consistent with the principles of the Countywide Strategic Plan Programmatic Goal No. 1 "Service Excellence," Goal No. 3, "Organizational Effectiveness," and Goal No. 7, "Health and Mental Health." Board approval of the recommended actions will enable DMH to enhance its client-centered, recovery-focused service efforts by developing a strategic plan to increase system wide the number of multi-lingual, multi-cultural providers; by educating consumers and providers in the facets of the recovery model; and by educating community leaders and other care providers.

FISCAL IMPACT/FINANCING

There is no increase in net County cost.

The MHSA WET Plan development activities are funded by MHSA funding in the amount of \$2,450,147, as part of the overall County of Los Angeles WET Plan funding estimated by SDMH to be \$28,848,800 for FY 2006-07 through FY 2008-09.

The Appropriation Adjustment, fully funded by State MHSA funds, will increase S&EB by \$911,000 and S&S by \$848,000 for a total amount of \$1,759,000 for FY 2007-08. The Appropriation Adjustment will provide spending authority for the purpose of developing the workforce development and education plan to support the delivery of mental health services under MHSA. The MHSA funds will be allocated as detailed in the Spending Plan (Attachment III).

The spending plan includes funding for 20 ordinance/20 Full-Time Equivalent (FTE) positions, that will be housed in DMH's Headquarters building, operating costs, and the purchase of consulting and contract services. The team of consultants will be selected using CEO's Strategic Consultant Master List. A team of consultants will collect data and provide focus on the community groups. Half of the Consultants will collect data on clients, providers and general populations and provide analysis on these groups; and conduct workforce needs assessment and population growth estimates. The other half will assure the inclusion of the underrepresented ethnic populations in all County Service Areas through their outreach and engagement. They will also ensure the broadest inclusion of cultural competency and linguistic capabilities integrated into the Plan.

Unspent funds from this initial funding request will revert back into the overall MHSA WET Plan funding allocated to the County, and can be carried over and available for use in FY 2008-09.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The MHSA, adopted by the California electorate on November 2, 2004, created a new permanent revenue source, administered by SDMH for the transformation and delivery of mental services provided by State and County agencies and requires the development of integrated plans for prevention, innovation, and system of care services. There are five substantive plans that must be developed to access available MHSA funding: CSS, WET, PEI, Capital Facilities and Information Technology, and Innovation. CSS, the first plan to be released, is a conceptual framework designed to create a culturally competent mental health system, which promotes recovery and wellness for adults and older adults with severe mental illness and resiliency for children and youth with serious emotional disorders

and their families. Developed in cooperation with stakeholders and approved by SDMH on February 14, 2006, and subsequently approved by your Board on May 30, 2006, the CSS Plan is being implemented by DMH to serve specific age groups and provide cross-cutting services for all age groups.

On July 24, 2007, SDMH released Proposed Three Year Program and Expenditure Plan Guidelines for FYs 2006-07, 2007-08, and 2008-09 for the second MHSA plan, the WET component, for the development of a comprehensive workforce recruitment, retention and development strategy by each county. Understanding counties' immediate need for substantial research and planning to meet requirements in a timely manner, as well as early implementation of foundational education programs, SDMH is allowing each county access to 15 percent of its estimated three-year funding allocation, or \$4,327,320 of \$28,848,800 for the County of Los Angeles. DMH is requesting early allocation in two stages. This initial request, in the amount of \$2,450,147, will enable the Department to commence the research and planning necessary to develop a comprehensive plan for the recruitment, retention, development and education of the public mental health workforce. This WET Plan will improve the County's ability to deliver services under MHSA. A second early funding request for approximately \$1,877,173 will be submitted to enable the Department to replicate, translate, expand and deliver successful, transformative mental health education programs to service providers, consumers and family members Countywide.

DMH proposes to develop a comprehensive local MHSA WET Plan in collaboration with mental health stakeholders using the existing MHSA Stakeholder process. The planning process is directed at the five WET focus areas. (1) Workforce Staffing Support will enhance the existing CSS Plan and DMH training infrastructures needed for initial workforce assessment, educational program research, community planning, and curriculum design activities. (2) Training and Technical Assistance will involve data collection and analysis methodologies; community outreach and public meeting facilitation; and contract provider participation and liaising. (3) Mental Health Career Pathway Programs will develop career tracks within our public mental health system that will allow all individuals to enter and advance along pre-defined career paths. (4) Residency and Internship Programs will strengthen existing relationships and establish additional partnerships and affiliations with local academic training programs to ensure that psychiatrists, clinical social workers, clinical psychologists, nurses, and marriage and family therapists are prepared with specialized knowledge and skills needed to function successfully in a recovery-oriented public mental health system. (5) Financial Incentive Programs will develop strategies to meet current and future needs via incentives such as targeted stipends, scholarships, and loan forgiveness programs.

CEO and County Counsel have reviewed the proposed actions.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Authorization to accept SDMH funds for MHSA WET planning will enable DMH to expand its workforce's support of the County's MHSA CSS Plan and upcoming PEI Plan. DMH will expand its strong promotion of fidelity to the principles and intent of the MHSA legislation by identifying and addressing the workforce recruitment, development and education needs of individual communities and the County overall. When fully developed and implemented, the WET Plan will facilitate significant transformation of service delivery consistent with the MHSA.

CONCLUSION

The Department of Mental Health requests one (1) copy of the adopted Board actions. It is requested that the Executive Officer, Board of Supervisors, notify the Department of Mental Health, Contracts Development and Administration Division, at (213) 738-4684 when this document is available.

Respectfully submitted,

WILLIAM T FUJIOKA
Chief Executive Officer

Marvin J. Southard, DSW, Director
Los Angeles County Mental Health
550 South Vermont, 12th Floor
Los Angeles, CA 90020

Dear Mr. Southard:

On July 23, 2007, the California Department of Mental Health (DMH) received the "Request for Funding" from Los Angeles County. We are pleased to approve your "Request for Funding" under the Mental Health Services Act (MHSA) Workforce Education and Training Component. This letter constitutes the Department of Mental Health's intent to amend your three-year program and expenditure plan contract based on your county's response to DMH Information Notice 07-06. Funding will be provided in the amount of \$2,450,147.

We encourage you to involve individuals in your planning process who can assist you with developing a workforce education and training plan that will contribute to remedying any shortage of qualified individuals to provide services to address severe mental illness, and to transform service delivery according to the intent of the MHSA. These individuals may include:

- Program, administrative, training and line staff from the county and community based organizations providing public mental health services, to include those organizations responsible for providing services to unserved, underserved, immigrant, Native American and rural and urban communities
- Individuals with consumer and family member experience
- Representatives who can speak to workforce diversity needs and solutions, to include organizations representing race/ethnicity, gender, sexual orientation, age and urban and rural communities
- Educational entities, to include high schools, adult education, regional occupational programs, community colleges, universities, private schools, trainers, consultants and professional organizations
- Community partners who assist in the delivery of public mental health services, such as social services, behavioral health and vocational rehabilitation services

RECEIVED

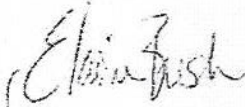

AUG 11 2007

DIRECTOR OF MENTAL HEALTH

Marvin Southard
August 3, 2007
