Dear Supervisors:

**DEPARTMENT OF MENTAL HEALTH: AUTHORIZATION TO AMEND
DEPARTMENT OF MENTAL HEALTH LEGAL ENTITY AGREEMENTS
WITH THREE EXISTING PROVIDERS TO FURTHER IMPLEMENT
THE MENTAL HEALTH SERVICES ACT-COMMUNITY SERVICES AND
SUPPORTS PLAN FOR MENTAL HEALTH SERVICES TO
YOUTH IN PROBATION CAMPS FOR FISCAL YEARS 2007-08 AND 2008-09
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and instruct the Director of Mental Health or his designee to prepare, sign, and execute amendments, effective upon Board approval and substantially similar to Attachment I, to three existing Department of Mental Health (DMH) Legal Entity (LE) Contractor Service Agreements (Agreements) as detailed in Attachment II, who were identified through a Request for Services (RFS) process to provide Probation Camp Services to approximately 200 Transition Age Youth (TAY) ages 16 to 20. The agencies will implement expanded mental health services for Seriously Emotionally Disturbed (SED) TAY residing in the Los Angeles County Probation Camps. The cost of Probation Camp services is \$280,000 for Fiscal Year (FY) 2007-08 and \$420,000 for FY 2008-09 fully funded by Mental Health Services Act (MHSA) Community Services and Supports (CSS) ongoing funding.

2. Delegate authority to the Director of Mental Health or his designee to prepare, sign, and execute future amendments to the Agreements and establish as a new Maximum Contract Amount (MCA) the aggregate of the original Agreement and all amendments, provided that: 1) the County's total payment to the contractor under this Agreement for FY 2007-08 shall not exceed an increase of 20 percent from the applicable revised MCA; 2) any such increase shall be used to provide additional services or reflect program and/or policy changes; 3) the Board of Supervisors has appropriated sufficient funds for all changes; 4) approval of County Counsel and the Chief Executive Officer (CEO) or their designees is obtained prior to any such Amendment; 5) the parties may, by written Amendment, reduce programs or services and revise the applicable MCA; and 6) the Director of Mental Health shall notify the CEO's office after execution of the Amendment.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

Board approval of the recommended actions will enable DMH to further develop and expand the current level of mental health services available to SED youth residing in the Probation Camps. Approximately 40 percent of the 5,000 youths sentenced to the County's eighteen Probation Camps each year have serious mental health problems. The Department currently provides mental health services at nine of the camps. The proposed program will significantly expand the mental health service delivery capacity at these nine camps in alignment with the Probation Department's Camp Redesign by locating staff on site at all nine camps and increasing the number of staff assigned to this program. The Camp Redesign aims to achieve positive behavioral change in youth in the camps through evidence-based practices. It also aims to prepare these youth for successful reintegration into the community.

Multi-disciplinary teams of DMH and Probation staff, along with parents, parent/peer advocates, substance abuse counselors and TAY MHSA system navigators, will develop an individualized integrated case plan based on the unique needs of each youth with an emphasis on community reintegration upon release. Intervention practices will be evidence-based and/or excellence-based with proven and/or promising outcomes. Parent/family support services will include outreach and engagement, family therapy, educational information regarding mental illness and co-occurring disorders, and transportation assistance to promote family participation in the youth's treatment during the period of camp placement through his or her transition back into the community. It is anticipated that many of these youth will be enrolled, concurrently upon release from camp, in a MHSA Full-Service Partnership (FSP) program where their intensive mental health service needs will continue to be addressed.

As noted in the CSS Plan, the goal of expanded services in the Probation Camps is critical to assisting TAY with mental health and co-occurring substance abuse disorders to reach their maximum potential, and avoid deepening their entanglement and entry into the adult criminal justice system. In addition to furthering the goals of MHSA, the recommended actions are intended to fill a longstanding gap in access to mental health services in the Probation Camps.

Implementation of Strategic Plan Goals

The recommended Board actions are consistent with the principles of the Countywide Strategic Plan Goal No. 1, "Service Excellence," Goal No. 3, "Organizational Effectiveness," Goal No. 5 "Children and Families' Well-Being," and Goal No. 7, "Health and Mental Health." The Probation Camp Mental Health Services Program is expected to improve delivery, efficiency, and effectiveness of mental health services for youth residing in the Probation camps and their families.

FISCAL IMPACT/FINANCING

There is no increase in net County cost.

The FY 2007-08 total cost of the contracted Probation Camp services cost is \$280,000, which is fully funded by MHSA CSS ongoing funds and is included in the Department's FY 2007-08 Adopted Budget. The \$280,000 is based upon an implementation date of November 6, 2007 allowing approximately eight months for contract providers to provide supplemental treatment services at the nine camps during afternoon, evening, night and weekend hours.

The FY 2008-09 total annualized cost of \$420,000, fully funded by MHSA CSS on-going funding, will be included in the Department's FY 2008-09 budget request.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The focus of the State-approved MHSA – CSS Plan (Plan) is on recovery-oriented services for people who are diagnosed as SED and/or with Severe and Persistent Mental Illness (SPMI), as well as resiliency for children and youth. The Plan is designed to reduce and/or prevent homelessness, unnecessary hospitalization, and incarceration. Additionally, the Plan supports services that contribute to the reduction of recidivism rates for TAY with mental illness and co-occurring disorders that are at risk of incarceration in jail and juvenile justice settings.

Consistent with State guidelines and the Probation Camp Services program requirements, the Department will allow one (1) month of FY 2007-08 funding to providers to be used to cover allowable one-time costs. Providers may distribute such funding as allowable by the State, among several one-time non-Medi-Cal billable costs.

The attached amendment format has been approved as to form by County Counsel, and the CEO has reviewed the proposed actions. Clinical and administrative staff of DMH will administer and supervise the Probation Camp projects, evaluate each project to ensure that quality services are provided, and ensure that Agreement provisions and Department policies are followed.

CONTRACTING PROCESS

The Department of Mental Health invited community-based agencies to pre-qualify prior to applying for MHSA funds by submitting a Statement of Qualifications (SOQ) in response to a Request for Statement of Qualifications (RFSQ) open solicitation process. The SOQ process was to ensure that each agency demonstrated a basic level of capability (e.g. financial viability, proof of liability insurance, registration as a County vendor) and for agencies to identify the types of services, age groups to be served, and geographical locations where they want to provide services. If agencies met MHSA requirements, DMH executed MHSA amendments with current DMH providers and MHSA Agreements with new agencies that placed them on the Department's MHSA Master Agreement List, making them eligible to receive RFS related to their service provision capabilities and interests.

On February 9, 2007, DMH issued RFS No. 13 to 28 qualified bidders on the Master Agreement List indicating an interest in providing Probation Camp Services on their SOQ. The Department of Mental Health sent agencies who expressed interest in providing Probation Camp Services a notice of the release of the RFS along with a compact disc of the RFS and invited them to a mandatory Proposers' Conference on February 27, 2007. Representatives from 15 contract agencies attended the Proposer's Conference.

The Department of Mental Health received proposals from six agencies by the deadline of April 9, 2007.

During December 2006, the Department began soliciting volunteer reviewers for MHSA funding proposals for Probation Camp Services. Ten individuals, who were ethnically diverse and play different roles in the local mental health system (e.g. family member, consumer, staff of DMH, and other County departments) evaluated proposals for the Probation Camp Services program. These review panels assessed and scored proposals individually and then met to discuss and determine consensus scores for each. Simultaneously, reviews of budgets and reference contacts were conducted by DMH staff. Total scores were then reviewed by the Department's Executive Management Team, which finalized recommendations for agencies awarded MHSA funding for Probation Camp Services.

None of the three agencies, which were not awarded funding under RFS No. 13, has requested Contractor Selection Reviews; therefore, no appeals are pending.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

During FY 2006-07, there were approximately 2,000 minors (of the 5,000 admitted) in the Probation Camps that were provided with mental health services. While youth move to the Probation Camps from the Juvenile Halls where their mental health needs have been identified, current mental health staffing patterns in the Camps are not sufficient to address their on-going treatment needs. Increased mental health staffing levels are also required for DMH to fully participate in the Probation Camp Redesign.

Mental Health Services Act funding will provide a significant increase in staff providing mental health and co-occurring substance abuse treatment in the Probation Camps. The enhanced programming will provide access to these services to approximately 200 camp youth who have heretofore been unserved or underserved, and support DMH's transformation to recovery-oriented services. In addition, this enhanced mental health services delivery program will promote efforts to reduce recidivism, integrate families and other support systems in the youth's treatment, and work towards successful transitions from the Camps back into community settings.
