Dear Supervisors:

*Sachi A. Hamai*  
SACHI A. HAMAI  
EXECUTIVE OFFICER

**AUTHORIZATION TO AMEND DEPARTMENT OF MENTAL HEALTH LEGAL  
ENTITY AGREEMENTS WITH 10 EXISTING PROVIDERS TO IMPLEMENT THE  
MENTAL HEALTH SERVICES ACT – COMMUNITY SERVICES AND SUPPORTS  
PLAN FOR WELLNESS / CLIENT-RUN CENTERS  
FOR FISCAL YEARS 2006-07 AND 2007-08  
AND  
APPROVAL OF REQUEST FOR APPROPRIATION ADJUSTMENT  
(ALL SUPERVISORIAL DISTRICTS)  
(4 VOTES)**

**IT IS RECOMMENDED THAT YOUR BOARD:**

1. Authorize the Director of Mental Health or his designee to prepare, sign, and execute amendments, effective upon Board approval and substantially similar to Attachment I, to ten (10) existing Department of Mental Health (DMH) Legal Entity (LE) Service Agreements (Agreements) as detailed in Attachment II, who were identified through a Request for Services (RFS) process to provide Adult Wellness/Client-Run Centers (W/CRC). The Fiscal Year (FY) 2006-07 cost of the W/CRCs is \$1,635,000, consisting of \$1,331,000 in Mental Health Services Act (MHSA) funding and \$304,000 in Federal Financial Participation (FFP) Medi-Cal revenue (Attachment II). The FY 2007-08 cost is \$6,537,000, consisting of \$5,320,000 in MHSA funding and \$1,217,000 in FFP Medi-Cal revenue.
2. Approve the Request for Appropriation Adjustment (Attachment III) for FY 2006-07 in the amount of \$355,000 to increase Services and Supplies (S&S) to provide the additional spending authority for the implementation of contracted W/CRC programs. The Appropriation Adjustment is fully funded with MHSA funding budgeted in the Designation in the amount of \$195,000, and additional FFP Med-Cal revenue in the amount of \$160,000.

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS**

Board approval of the recommended actions will enable ten (10) existing DMH providers to develop seven (7) Wellness Centers and eight (8) Client-Run Centers, located in strategic areas throughout the County, in keeping with the MHSA Community Services and Supports (CSS) Plan approved by your Board. These W/CRCs are designed to offer options to clients who no longer need the intensive services offered by the Full Service Partnership (FSP) programs or traditional adult outpatient services and who are ready to take increasing responsibility for their own wellness and recovery.

As noted in the CSS Plan, Wellness Centers are managed by professional staff, with at least 50 percent mental health consumer staffing, and provide client-run services with adjunctive professional support, emphasizing wellness, healthy living, and community integration. Client-Run Centers are 100 percent staffed and managed by mental health consumers and, potentially, family members, with a wide array of self-help groups, peer support services, educational/social/recreational activities, and linkage services.

In addition to furthering the goals of the MHSA, the recommended actions are intended to fill a longstanding gap in the service delivery system by serving clients that are in advanced stages of recovery, thus offering a cost-effective alternative to ongoing maintenance visits at outpatient clinics. Development of the W/CRCs will enhance the Department's ability to concentrate the majority of its outpatient resources on meeting the needs of unserved/underserved populations and providing intensive services to those in need of that level of care. The ultimate goal of the Centers is to reduce reliance on the mental health system by building a sustaining network of community-based support systems for clients no longer requiring more traditional care.

### **IMPLEMENTATION OF STRATEGIC GOALS**

The recommended Board actions are consistent with the principles of the Countywide Strategic Plan, Goal No.1, "Service Excellence," Goal No. 3, "Organizational Effectiveness," and Programmatic Goal No. 7, "Health and Mental Health." The W/CRC services are expected to improve the delivery, efficiency, and effectiveness of mental health operations.

### **FISCAL IMPACT/FINANCING**

There is no increase in net County cost.

The FY 2006-07 cost of the requested actions is \$1,635,000, funded with \$1,331,000 in MHSA funding and \$304,000 in FFP Medi-Cal revenue.

The Appropriation Adjustment in the amount of \$355,000 will increase S&S to provide the additional spending authority for the implementation of contracted W/CRC programs. This amount is fully funded with FY 2005-06 unexpended MHSA funding in Designation Budget Uncertainties in the amount of \$195,000 and additional FFP Medi-Cal revenue in the amount of \$160,000. The State Department of Mental Health has allowed counties to carry forward the unexpended MHSA funding for FY 2006-07.

The FY 2007-08 annualized cost of \$6,537,500, consisting of \$5,320,000 in MHSA funding and \$1,217,000 in FFP Medi-Cal revenue, will be included in the FY 2007-08 Final Changes budget process.

#### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The focus of the State-approved MHSA CSS Plan is on recovery-oriented services for people who are diagnosed with severe and persistent mental illness. Accordingly, over 50 percent of Los Angeles County's CSS Plan funding is devoted to the provision of FSP programs for individuals who are at risk of homelessness, incarceration, or placement in long-term locked mental health facilities because of their mental illnesses. In order to support the work of the FSPs, to provide options for clients no longer requiring intensive or traditional outpatient care, and to promote client-directed care and community integration, the County's CSS Plan also included a limited amount of funding for W/CRCs. Since submission and approval of the County's CSS plan, it has become increasingly evident that an expanded W/CRC program is critical in order to forward the overall goals of the MHSA, support clients as they advance in their recovery, and assist in mitigating the Department's structural deficit by providing a cost-effective alternative for clients who currently utilize traditional clinic-based maintenance services.

With the availability of unexpended MHSA funding from FY 2005-06, DMH plans to implement both directly operated and contracted W/CRCs, strategically located throughout the County. Program design and staffing patterns will vary, based on the needs, resources, and cultural/linguistic composition of the communities served. However, basic components will include self-help groups, peer support services, social/recreational activities, medication evaluation and support services, integrated services and supports for co-occurring disorders, physical health screening/assistance with accessing physical health care, and healthy living and health management activities. The W/CRCs will also provide linkage to other services such as employment, education, housing, benefits maintenance, and short-term or crisis mental health

services; they may be co-located in a mental health outpatient center, although the majority will be free-standing in the community or located in a multi-service or other type of community center.

In November 2006, your Board approved the Directly Operated Wellness Center plan that funded 14 Wellness Centers operated by our Department throughout the County. This current action, combined with the previous Directly Operated Wellness Center Board action, results in a \$14,706,476 plan for W/CRCs funded by the MHSA. The overall plan provides for services in all eight (8) Service Areas commensurate with local planning data on percent of population at the poverty level.

The attached Amendment format has been approved as to form by County Counsel. The Chief Administrative Office (CAO) has reviewed and approved the proposed actions. Clinical and administrative staff of DMH will continue to administer and supervise the W/CRC, evaluate the programs to ensure that quality services are being provided to clients, and ensure that Agreement provision and Department policies are being followed.

### **CONTRACTING PROCESS**

DMH invited community-based agencies to pre-qualify prior to applying for MHSA funds by submitting a Statement of Qualifications (SOQ) in response to a Request for Statement of Qualifications (RFSQ) open solicitation process. The SOQ process was to ensure that each agency demonstrated a basic level of capability (e.g., financial viability, proof of liability insurance, registration as a County vendor) and for agencies to identify the types of services, age groups to be served, and geographical locations where they want to provide services. If agencies met MHSA requirements, DMH executed MHSA amendments with current DMH providers and MHSA Agreements with new agencies that placed them on the Department's MHSA Master Agreement List, making them eligible to receive Request for Services (RFS) related to their service provision capabilities and interests.

On September 22, 2006, DMH issued RFS No. 7 to 26 qualified bidders on the Master Agreement List indicating an interest in providing W/CRCs on their SOQ. DMH sent agencies who expressed interest in providing W/CRC services a notice of the release of the RFS along with a compact disc of the RFS and invited them to a mandatory Proposers' Conference on October 10, 2006. Representatives from 20 contract agencies attended the Proposer's Conference.

Agencies were required to identify whether they were requesting funding for Wellness Centers and/or Client-Run Centers and address the respective specifications outlined on the RFS. DMH received 12 Wellness Center proposals and 7 Client-Run Center proposals from 13 agencies by the deadline of November 11, 2006. Two (2) agencies were disqualified – one (1) was ineligible, and the other's proposal was non-responsive.

During October 2006, the Department began soliciting volunteer reviewers for MHSA funding proposals. A total of 15 individuals, who were ethnically diverse and play different roles in the local mental health system (e.g., family member, consumer, staff of DMH, and other County departments), evaluated proposals for the W/CRCs. These review panels assessed and scored proposals individually and then met to discuss and determine consensus scores for each. Simultaneously, reviews of budgets and reference contacts were conducted by DMH staff. Total scores were then reviewed by the Department's Executive Management Team, which finalized recommendations of the amount to award ten (10) agencies by carefully analyzing the equity and balance of the W/CRC program service level for each Service Area.

One (1) agency did not receive an award due to its overall score being lower than other agencies bidding for Wellness Centers in the same Service Area. This agency has requested a Debriefing and still has the right to request a Contractor Selection Review. However, these contract awards should not be delayed pending any such review because DMH will identify sufficient MHSA funding and will return to your Board in the next fiscal year if the provider is successful in its appeal.

### **IMPACT ON CURRENT SERVICES**

Implementation of these W/CRC programs is anticipated to improve the efficiency and effectiveness of mental health operations. Through the Centers, the locus of services for many clients will be shifted from outpatient clinics to the community. In addition to fostering clients' community integration and achievement of quality of life goals, these Centers will contribute to a significant reduction in the number of clients served by the outpatient clinics.

**CONCLUSION**

The Department of Mental Health will need one (1) copy of the adopted Board actions. It is requested that the Executive Officer of the Board notify DMH's Contracts Development and Administration Division at (213) 738-4684 when this document is available.

Respectfully submitted,

Marvin J. Southard, D.S.W.
