Dear Supervisors:

**APPROVAL OF AMENDMENT TO THE DEPARTMENT OF MENTAL HEALTH
LEGAL ENTITY AGREEMENT WITH SPECIAL SERVICE FOR GROUPS
FOR FISCAL YEARS 2005-2006, 2006-2007, 2007-2008, AND 2008-2009
AND
APPROVAL OF REQUEST FOR APPROPRIATION ADJUSTMENT
FOR FISCAL YEAR 2005-2006
(SUPERVISORIAL DISTRICT 2)
(3 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Authorize the Director of Mental Health or his designee to award the contract for the program currently known as South Los Angeles Children and Family Services (SoLA) to Special Service for Groups (SSG) based on a duly executed Request for Proposals (RFP) process. The annual amount of this award is \$3,967,200.
2. Delegate authority to the Director of Mental Health or his designee to prepare, sign, and execute an Amendment (substantially similar to Attachment I) to SSG's existing Department of Mental Health (DMH) Legal Entity (LE) Agreement, DMH-02360, to include the new program to be known as the SSG South Los Angeles Family Center. This action will increase SSG's Maximum Contract Amount (MCA) for Fiscal Year (FY) 2005-2006 by a seven-month prorated amount of \$2,314,200, fully funded in the FY 2005-2006 Adopted Budget, for a revised MCA of \$14,877,020, and the MCAs for FYs 2006-2007 through 2008-2009 by \$3,967,200 for a revised MCA of \$16,530,020. The Amendment will also extend the term and conditions of the existing LE Agreement for a maximum of three (3) fiscal years beyond the Agreement expiration date of June 30, 2006 through June 30, 2009.

"To Enrich Lives Through Effective And Caring Service"

3. Authorize the inclusion of conditions for the use of space in the SSG Amendment (Attachment I) to enable SSG to maintain the program at its current site, a County-owned facility located at 8019 Compton Avenue, Los Angeles, CA 90001, free-of-charge, for program continuity and in consideration of the vital and unique mental health services provided by this program to children and their families in a significantly underserved area of the County.
4. Authorize a five-month Cash Flow Advance (CFA) for the SSG South Los Angeles Family Center program effective December 1, 2005, not to exceed one-seventh of the program's FY 2005-2006 funding, or \$330,600 per month.
5. Approve a Request for Appropriation Adjustment (Attachment II) to shift \$1,651,000 from Salary and Employee Benefits to Services and Supplies for FY 2005-2006 to fund the contract with SSG.
6. Delegate authority to the Director of Mental Health or his designee to prepare, sign, and execute amendments to the Legal Entity Agreement and establish as a new MCA the aggregate of the original Agreement and all amendments, provided that: 1) the County's total payments to the contractor for each fiscal year shall not exceed a change of 20 percent from the applicable revised MCA; 2) any such increase shall be used to provide additional services or to reflect program and/or policy changes; 3) the Board of Supervisors has appropriated sufficient funds for all changes; 4) approval of County Counsel and the Chief Administrative Officer (CAO) or their designee is obtained prior to any such Amendment; 5) County and contractor may, by written amendments, reduce programs or services without reference to the 20 percent limitation and revise the applicable MCA; and 6) the Director of Mental Health shall notify the Board of Supervisors of Agreement changes in writing within 30 days after execution of each Amendment.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The purpose of the recommended actions is to return the directly-operated SoLA program to its former status as a contracted community-based program. This is in accordance with the plan approved by your Board on November 18, 2003. At that time, the DMH LE Agreement with the former provider of these services, Youth Intervention Program (YIP), was terminated effective November 30, 2003, and a two-phase plan that would ensure the least disruption in services was approved. Accordingly, during the first phase, DMH assumed responsibility for maintaining the program as a directly-operated program until the services could be contracted out through a competitive bidding process. The second phase, selection of a new community provider through an RFP process, has now been completed. Approval of the requested actions will enable these new program services to be in place within 24 months of initiation of phase one,

i.e., by December 1, 2005, as previously projected in the Board approved plan cited above.

The requested action pertaining to the space use Agreement included in the SSG Amendment is based on the importance of again maintaining continuity of care for the children and families served by this program. The request for renewal of the entire SSG DMH LE Agreement on December 1, 2005, is intended to prevent the need to return to your Board again approximately six (6) months after the effective date of this action for a routine legal entity renewal action. The requested CFA will enable SSG to meet operating expenses pending receipt of State and Federal Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Federal Financial Participation (FFP) revenue.

Implementation of Strategic Plan Goals

The recommended actions are consistent with the principles of the Countywide Strategic Plan, Organizational Goal No. 1, "Service Excellence" - Provide the public with easy access to quality information and services that are both beneficial and responsive; and Programmatic Goal No. 5, "Children and Families Well-Being" - Improve the well-being of children and families in the County of Los Angeles. The recommended actions will promote the continuation of the quality and unique character of the services currently provided by SoLA that focus on "whatever is needed" to build resiliency and help children succeed at home and in school.

FISCAL IMPACT/FINANCING

There is no impact on net County cost for FY 2005-2006.

For FY 2005-2006 the seven-month cost of the SSG South Los Angeles Family Center program is \$2,314,200, funded by \$1,136,500 in EPSDT FFP revenue, \$929,000 in EPSDT State General Fund (SGF) revenue, \$13,300 in non-EPSDT FFP Medi-Cal revenue, and \$235,400 in Sales Tax Realignment fund. This amount is included in DMH's FY 2005-2006 Adopted Budget.

The requested Appropriation Adjustment for FY 2005-2006, in the amount of \$1,651,000, will shift budgeted appropriation from Salary and Employee Benefits to Services and Supplies to provide spending authority for this Agreement for the SSG South Los Angeles Family Center program.

The annual cost of the program of \$3,967,200 will be included in DMH's annual budget request process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Following the termination of the YIP LE Agreement on November 30, 2003, DMH temporarily assumed responsibility for the program. In order to do so and to ensure continuity of services and treatment philosophy, your Board approved interim ordinance authority to hire, as temporary staff, the majority of the YIP mental health treatment and support staff, five (5) DMH management, and supervising clinical and support staff to oversee the program. As indicated at that time, the recently completed RFP required that YIP treatment and support staff, assumed by the County for the interim period, would have first priority for jobs with the successful bidder. SSG has agreed to provide this priority and accordingly, upon execution of the contract with SSG, the DMH temporary employees will be released from County employment. The five (5) DMH management and support staff will be placed within DMH existing positions.

The requested actions will enable SSG to assume responsibility for the program temporarily being operated by DMH. It is SSG's intent to enter into a subcontract with the Tessie Cleveland Community Services Corporation (Corporation), a grass-roots agency, for the provision of program services. DMH program administration will work closely with the contractor and subcontractor to ensure a smooth transition from the directly-operated to the contracted program with no disruption of services. The long term intent of the subcontract, in accordance with the intent of the Mental Health Services Act to promote the development of "grass-roots" local community providers, is for SSG to "incubate" the Corporation to prepare it to take over this program as a new Mental Health LE provider when the Corporation is clinically, administratively, and fiscally able to do so.

The SSG South Los Angeles Family Center will serve children, adolescents, and families in Service Area 6, based on a model of community-based and in-home services developed by its predecessor, YIP, and currently provided by SoLA. The program will accept referrals from other mental health services providers, the Department of Public Social Services, the Department of Children and Family Services (DCFS), school districts, and other family service agencies. The treatment components will consist of basic outpatient services, as well as day treatment, therapeutic behavioral services, and school-based services. Outpatient/day treatment services include those for children enrolled in wraparound services provided under contract with DCFS.

Clinical and administrative staff of DMH will also continue to administer and supervise the Agreement, evaluate the programs to ensure that quality services are being provided to clients, and ensure that Agreement provisions and Departmental policies are being followed.

The attached Amendment format has been approved as to form by County Counsel, and the CAO has reviewed and approved the proposed actions.

CONTRACTING PROCESS

On November 1, 2004, DMH issued the SoLA RFP. The RFP was distributed to agencies on the Departmental Bidders' list which includes minority agencies. Announcements were published in local community and ethnic newspapers, and the opportunity was advertised on the Office of Small Business Contracting Internet site, as well as DMH's own Internet site. On November 8, 2004, DMH held a mandatory proposers' conference that was attended by 48 people, representing 39 agencies. DMH received five (5) proposals on or before the final submission date of December 8, 2004. A five-member evaluation committee met between December 10 and 15, 2004, to score the program components of the proposals on a standard evaluation tool. The evaluation committee was comprised of individuals representing the Departments of Health Services, Children and Family Services and Probation, a DMH contract provider, and a family member advocate. The final award to SSG was made by the Director of Mental Health on August 11, 2005.

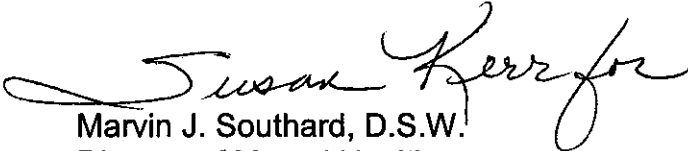

IMPACT ON CURRENT SERVICES

It is anticipated that, as with the first phase of this transition plan, there will be a smooth transition in service provision with South Los Angeles Family Center clients being able to continue to receive services at the same location and with their same clinicians. It is anticipated that service levels and quality will be maintained, if not enhanced, and that there will be no negative impact on current services.

CONCLUSION

The Department of Mental Health will need one (1) copy of the adopted Board's action. It is requested that the Executive Officer of the Board notifies the Department of Mental Health's Contracts Development and Administration Division at (213) 738-4684 when this document is available.

Respectfully submitted,

DAY TREATMENT INTENSIVE SERVICES

(Children/Adolescents)

(REHABILITATION OPTION)

(MODE OF SERVICE 10)

1. GENERAL: Day Treatment Intensive means a structured, multidisciplinary program of therapy, which may be an alternative to hospitalization, avoid placement in a more restrictive setting or maintain the client in a community setting. For clients who are seriously emotionally disturbed children and adolescents, day treatment intensive services provide a range of services to assist clients in gaining social and functional skills necessary for appropriate development and social integration.

The Mental Health Plan (MHP) of the Los Angeles County, Department of Mental Health (LAC-DMH), will authorize all day treatment intensive services.

Determination of medical necessity and service necessity will be based on an assessment of each client's individual needs, not on the basis of the client's level of placement.

A key component of these services is contact with the clients' families.

The services to be provided hereunder are generally described in Title 9, Chapter 11, California Code of Regulations (CCR) Division 1 and DMH Information Notices.

The definition of SFC unit for purposes of determining the number of units of services provided by Contractor hereunder shall be as established by Director. Billing restrictions for these services shall apply as set forth in the Title 9, Chapter 11, California Code of Regulations (CCR) Division 1 and DMH Information Notices.

Contractor shall be certified by LAC-DMH as a Short-Doyle/Medi-Cal Mental Health Rehabilitation Provider. At a minimum, the certification process will include an on-site visit and a review of the contractor's program description and staffing patterns to ensure that Title 9, CCR and all applicable State DMH Information Notice requirements

have been incorporated.

2. **AUTHORIZATION REQUIREMENTS:** The State DMH and the LAC-DMH/MHP require a payment authorization system for day treatment intensive. To this end, contractor will be required to obtain payment authorization **prior to initiating day treatment intensive services as a condition for reimbursement for the service.**

ADDITIONALLY, contractor will be required to obtain payment authorization:

- prior to providing services more than 5 days a week;
- every three months for continued day treatment intensive services; and
- prior to providing counseling, psychotherapy or other similar therapeutic intervention, (mental health services) as defined in Title 9, CCR, Section 181 0.227), excluding services to treat emergency and urgent conditions (see Title 9, CCR, Sections 1810.216 and 1810.253). (Mental Health Services, e.g., Individual, Group, and Family therapy are expected to be provided as part of the day treatment intensive services).
 - The Contractor must request payment authorization for continuation of these services on the same cycle required for continuation of day treatment intensive services.

3. **HOURS OF OPERATION AND CONTACT:** Services shall be provided between three hours and twenty-four hours each day. Services in half-day programs shall be provided between three hours and four hours each day. Services in full-day programs shall be provided between four hours and twenty-four hours each day.

Services must be provided in a therapeutic milieu and must be provided in a continuous block of time.

Clients are expected to be present for all scheduled hours of operation for each day. When a client is unavoidably absent for some part of the hours of operation, the client will only be eligible for Medi-Cal reimbursement if present for at least 50 percent of the scheduled hours of operation for that day. For example, if the client is present for less than one and a half hours of a three-hour half-day program because of illness, the service for that client for that day will not be Medi-Cal reimbursable.

4. **STAFFING:** In addition to other staffing requirements of this Agreement, Contractor shall assure that these services are provided with a staffing ratio of one (1) staff person for eight (8) clients.

Staffing is multi-disciplinary and is consistent with the requirements of Title 9, CCR, Section 1840.350 and Section 1810.254. Additionally, contractor is reminded that waived/registered staff may not practice independently and must receive appropriate licensed clinical supervision as dictated by their respective State professional boards. Staffing must include at least one person who can provide psychotherapy within his/her scope of practice.

At least one (1) day treatment intensive staff must be continuously present and available to the group in the treatment milieu during all scheduled hours of operation.

If services are provided at a residential program or a school based facility, staff providing the services must be differentiated from staff providing care and supervision and from educational staff.

Persons who are not solely used to provide day treatment intensive, may be utilized according to program needs, but shall not be included as part of the above ratio formula. Contractor shall insure there is a clear audit trail of the number and identity of the persons who provide day treatment intensive and function in other capacities.

5. **LOCKOUTS:** Day Treatment Intensive services are not reimbursable on days when Crisis Residential Treatment services, Inpatient Services or Psychiatric Health Facility Services are reimbursed, except for the day of admission to those services.

Two half-day programs may not be provided to the same client on the same day.

6. **PERSONS TO BE SERVED:** Contractor shall provide services to the target population as identified in Contractor's Negotiation Package/Addenda who reside primarily within Los Angeles County Mental Health Service Areas identified on the Service Delivery Site Exhibit and who either are referred to Contractor by Director or voluntarily apply for and receive services with the subsequent consent of Director.

Clients shall satisfy the Short-Doyle/Medi-Cal criteria for Medical Necessity as described in Title 9, CCR, Sections 1830.205 and 1830.210.

7. **SERVICE DELIVERY SITE(S)**: Contractor's facility(ies) where services are to be provided hereunder is (are) located at: Site(s) as identified on the Service Delivery Site Exhibit and in the Contractor's Negotiation Package/Addenda. Contractor shall obtain the prior written consent of Director at least sixty days before terminating services at such location(s) and/or before commencing such services at any other location(s).

8. **QUALITY IMPROVEMENT**: Contractor shall comply with all applicable provisions of WIC, CCR, Code of Federal Regulations, SDHS policies and procedures, SDMH policies and procedures, and DMH quality improvement policies and procedures. Contractor shall establish and maintain a complete and integrated quality improvement system.

9. **SERVICE COMPONENTS**

THERAPEUTIC MILIEU--DEFINITION

The therapeutic milieu:

- Provides the foundation for the provision of day treatment intensive and differentiates these services from other specialty mental health services.
- Includes a therapeutic program that is structured by well-defined service components with specific activities being performed by identified staff.
- Takes place for the continuous scheduled hours of operation for the program (more than four hours for a full-day program and a minimum of three hours for a half-day program).
- Creates a supportive and nurturing interpersonal environment that teaches, models, and reinforces constructive interaction.
- Supports peer/staff feedback to clients on strategies for symptom reduction, increasing adaptive behaviors, and reducing subjective distress.
- Empowers clients through involvement in the overall program (such as the opportunity to lead community meetings and to provide feedback to peers) and the opportunity for risk taking in a supportive environment.
- Supports behavior management interventions that focus on teaching self-management skills that children and youth may use to control their own

lives, to deal effectively with present and future problems, and to function well with minimal or no additional therapeutic intervention.

COMMUNITY/MILIEU MEETING

Day treatment intensive provides for community meetings that occur at a minimum once a day, but may occur more frequently as necessary, to address issues pertinent to the continuity and effectiveness of the treatment milieu. The meeting must actively involve staff and clients. The meeting must include a staff person whose scope of practice includes psychotherapy. The content of the meeting should include a variety of items including, but not limited to: what the schedule for the day will be; any current events; individual issues clients or staff wish to discuss to elicit support of the group milieu process; conflict resolution within the milieu; planning for the day, the week, or for special events; old business from previous meetings or from previous day treatment experiences; and debriefing or wrap-up.

THERAPEUTIC MILIEU SERVICE COMPONENTS

The following menu of services must be made available during the course of the therapeutic milieu for at least an average of three hours per day for full-day programs and an average of two hours per day for half-day programs. For example, a full-day program that operates five days per week would need to provide a minimum of 15 hours per week; a program that operates seven days per week would need to provide a minimum of 21 hours. **Please note: day treatment intensive also includes components that occur outside the therapeutic milieu, e.g., family therapy, travel, documentation, and contacts with significant support persons.)**

Day treatment intensive programs includes psychotherapy, skill building groups and adjunctive therapies as described below. Day treatment intensive may include process groups in addition to psychotherapy.

- Psychotherapy: Psychotherapy means the use of psychosocial methods within a professional relationship to assist the person or persons to achieve a better psychosocial adaptation, to acquire greater human

realization of psychosocial potential and adaptation, to modify internal and external conditions that affect individuals, groups, or communities in respect to behavior, emotions, and thinking, in respect to their interpersonal and interpersonal processes. Psychotherapy is provided by licensed, registered, or waived staff practicing within their scope of practice. There will be at least one (1) fully licensed staff person as part of the day treatment intensive staffing pattern. Psychotherapy does not include physiological interventions, including medication intervention.

- Skill Building Groups: Staff help clients to identify barriers/obstacles related to their psychiatric/psychological experiences and, through the course of group interaction, become better able to identify skills that address symptoms and behaviors and to increase adaptive behaviors.
- Adjunctive Therapies: Staff and clients participate in non-traditional therapy that utilizes self-expression (art, recreation, dance, music, etc.) as the therapeutic intervention. Participants do not need to have any level of skill in the area of self-expression, but rather be able to utilize the modality to develop or enhance skills directed towards client plan goals.

CONTACT WITH SIGNIFICANT SUPPORT PERSONS

Day treatment intensive must allow for at least one contact (face-to-face or by an alternative method (e.g., e-mail, telephone, etc.) per month with a family member, caregiver or other significant support person, or one contact per month with the legally responsible adult for a client who is a minor. The contacts and involvement should focus on the role of the significant support person in supporting the client's community reintegration.

CRISIS RESPONSE

Day treatment intensive must have an established protocol for responding to clients experiencing a mental health crisis. The protocol must assure the availability of appropriately trained and qualified staff and include agreed upon procedures for addressing crisis situations. The protocol may include referrals for crisis intervention, crisis stabilization, or other specialty mental health services

necessary to address the client's urgent or emergency psychiatric condition (crisis services). If clients will be referred to crisis services outside the day treatment intensive, the staff must have the capacity to handle the crisis until the client is linked to the outside crisis services.

SCHEDULE

Day treatment intensive programs must have and make available to clients and, as appropriate, to their families, caregivers or significant support persons a detailed written weekly schedule that identifies when and where the service components of program will be provided and by whom. The written weekly schedule will specify the program staff, their qualifications, and the scope of their responsibilities.

DOCUMENTATION REQUIREMENTS

Documentation requirements for day treatment intensive will include daily progress notes on activities and a weekly clinical summary. The provider, with the participation of the client, will develop client plans that include specific observable or quantifiable goals to be achieved through treatment and interventions that are consistent with the client's diagnoses and client plan goals.

5. Alterations and Improvements to Facilities: Contractor shall not make either structural or non-structural alterations or improvements to the Facility space utilized by it without the prior written consent of Director. Director shall approve or disapprove such alteration, improvement, or installation requests from Contractor within 30 calendar days of receipt of Contractor's written request. The performance of any such alteration or repair shall be subject to the State Constitution, and Federal and State statutes and regulations, including but not limited to, the Americans with Disabilities Act, the prevailing wage and hour provisions of the California Labor Code, local laws and codes, and County ordinances, as well as the prior written approval of Director. Any alteration or repair of County premises hereunder shall become County property, or at Director's sole election, County may require Contractor, at Contractor's expense, to restore County Premises to the condition that

existed prior to any such alteration or repair, except for normal wear and tear.

All personal property, fixtures, and equipment which have been installed or placed by Contractor on the Premises, shall be removed by Contractor by the expiration or termination date of this Agreement. In the event of failure to remove such property or fixtures in accordance herewith, title to such property or fixtures shall vest in County, or County may elect to have such property or fixtures removed and stored, the cost of which shall be borne by Contractor. At Director's written request, Contractor shall restore Premises to the original condition, excepting normal wear and tear.

Except as noted above, all permanent alterations, additions, or betterments to the Premises furnished by Contractor or by County during the term of this Agreement shall remain the property of County upon the termination of this Agreement.

6. Title: Contractor hereby acknowledges the title of County in and to the Premises and covenants and agrees never to assail, contest, or resist said title.

7. Occupancy: While this Agreement confers on Contractor permission to occupy the space described herein in accordance with the terms and conditions hereinabove specified, it does not grant or reserve to Contractor any other interest or estate therein. Therefore, Contractor shall not assign, hypothecate or mortgage the Premises or any portion thereof, by, through, or pursuant to the Agreement.
