VIOLET VARONA-LUKENS  
EXECUTIVE OFFICER

Dear Supervisors:

**APPROVAL OF PERFORMANCE CONTRACT NO. 04-74225-000 WITH  
THE STATE DEPARTMENT OF MENTAL HEALTH FOR FISCAL YEAR 2004-2005  
(ALL SUPERVISORIAL DISTRICTS)  
(3 VOTES)**

**IT IS RECOMMENDED THAT YOUR BOARD:**

1. Accept, conditional upon clarification of the stated scope of the County's geographic area of responsibilities, the State Department of Mental Health's (SDMH) Performance Contract No. 04-74225-000, substantially similar to Attachment I, with the County of Los Angeles - Department of Mental Health (DMH), making DMH responsible for establishing community mental health services in the County of Los Angeles, effective July 1, 2004 through June 30, 2005.
2. Approve and authorize the Chair to sign and execute an original Resolution (Attachment II), specifying that your Board has approved the State Performance Contract for Fiscal Year (FY) 2004-2005.
3. Instruct the Director of Mental Health or his designee to sign six (6) copies of the Performance Contract, substantially similar to Attachment I, with original signatures and forward them to SDMH, after conclusion of negotiations with SDMH to clarify the geographic areas for which the County is responsible for mental health services.

*"To Enrich Lives Through Effective and Caring Service"*

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS**

Board action is requested to accept the Performance Contract between SDMH and DMH for FY 2004-2005. The Performance Contract is retroactive to July 1, 2004, as a result of the late submission of the Agreement to the County by SDMH. Untimely submission of this Board letter meets the exemption criteria shown in the Chief Administrative Officer's September 7, 2000, memo regarding timely submission of Board letters related to contracts.

### **Implementation of Strategic Plan Goals**

The recommended Board action is consistent with the principles of the Countywide Strategic Plan Organizational Goal No. 7, "Health and Mental Health." The approved action will allow the County to fulfill its statutory duties regarding community mental health services.

### **FISCAL IMPACT/FINANCING**

Funding for the implementation of this contract is provided for in DMH's FY 2004-2005 Adopted Budget. This Performance Contract is for the period of July 1, 2004 through June 30, 2005, and will allow use of State and Federal funds allocated for FY 2004-2005 to be expended to maintain mental health programs for the residents of Los Angeles County.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The Performance Contract between the State and the County is mandated under Section 5650 of the Welfare and Institutions Code. The Performance Contract and the Resolution are approved by your Board each fiscal year. The Performance Contract for FY 2004-2005 does not have any material changes from the contract for FY 2003-2004.

The Performance Contract sets forth County authority for the implementation of County mental health programs and summarizes the provisions for each of the local mental health programs. Each summary contains a brief description of the program, the scope of work or work plan, budget requirements, and accountability. Additionally, the Performance Contract outlines the requirements to justify receipt of allocations but does not specify the actual amounts. The Performance Contract also indicates the performance conditions for the County programs including any other contract requirements.

DMH's clinical and administrative staff are assigned to supervise and administer agreements, monitor contract compliance, evaluate programs to ensure that quality services are being provided to clients, and ensure that Agreement provisions and departmental policies are being followed.

The Performance Contract has language indicating that the County of Los Angeles is responsible for establishing community mental health services to "cover the entire area of the Los Angeles County." DMH, in conjunction with County Counsel, has requested that the State modify the contract language beginning FY 2003-2004 because Tri-City Mental Health Center currently has the responsibility for mental health services in a small area of the County under special statutory provisions. Although the State has expressed willingness to address this issue, the parties still have not agreed on acceptable alternative language. Tri-City Mental Health Center filed for bankruptcy on February 13, 2004. The requested change in the Performance Contract will help protect the County in possible negotiations with the State about the provision of services in the Tri-City area.

It should also be noted that the Performance Contract for FY 2003-2004 has not yet been signed off. This is because DMH, in conjunction with County Counsel, is still in discussion with the State over the contract language which suggests that the County is responsible for mental health services which are within the jurisdiction of Tri-City Mental Health Center.

The Mental Health Commission reviewed the Performance Contract on January 27, 2005. The Resolution has been approved as to form by County Counsel.

All of the mental health services funded by Realignment funds are handled through Statutory Trust Accounts and are not included in SDMH's total contract encumbrance amount to the County.

### **IMPACT ON CURRENT SERVICES**

The Performance Contract will enable DMH to maintain quality mental health programs for Los Angeles County residents.

The Honorable Board of Supervisors  
May 19, 2005

**CONCLUSION**

The Department of Mental Health will need one (1) copy of the Board's action and one (1) certified copy of the attached Resolution. It is requested that the Executive Officer of the Board notifies the Department of Mental Health's Contracts Development and Administration Division at (213) 738-4684 when these documents are available.

Respectfully submitted,

## **Article II – Local Mental Health Programs**

### **Children's System of Care (CSOC)**

#### **Article 1 – Performance Conditions**

##### **Section 1 – Program Reference**

###### **Submission of Proposals**

Authorized under the Children's Mental Health Services Act, Welfare and Institution (W&I) Codes, § 5850 – § 5883

Title XIX Part B of the Public Health Service Act

###### **Program Description:**

The Children's System of Care: An Interagency Enrollee-Based Program (CSOC- IEBP) promotes the development of comprehensive county or regional interagency service systems for seriously emotionally disturbed (SED) children, adolescents and their families. For FY 04-05, the counties of Stanislaus, Merced, and Monterey are defined as "fully funded" system of care counties. These counties must comply with the requirements under State and federal law by implementing and maintaining:

1. A defined range of interagency services, blended programs and program standards that facilitate appropriate service delivery in the least restrictive environment as close to home as possible. The system should use available and accessible intensive home and school-based alternatives;
2. Defined mechanisms that ensure that services are child-centered and family-focused with parental participation in all aspects of the planning and delivery and evaluation of service;
3. A formalized multi-agency policy and planning committee that collaborates to provide a coordinated, goal-directed system of care for the service populations;
4. A defined interagency case management system designed to ensure identification of appropriate children and youth, and to facilitate services to the defined service populations. The roles and responsibilities of these groups are specified in Interagency Agreements (IA) or Memoranda of Understanding (MOU), or both;
5. A roster of enrolled SED children and youth who have a history of, or are at risk of, out of home placement, hospitalization, incarcerated or school nonattendance who are the focus of this effort;
6. Annual enrolled client and cost performance goals and expected levels of attainment, and,
7. Defined mechanisms to ensure that services are culturally competent.

For FY 04-05, the following counties are defined as "partially funded": Los Angeles, San Luis Obispo, Humboldt, and Placer.

Counties which are "Partially funded" as defined by DMH will be required to meet those elements of above stated requirements which are agreed upon by DMH and the county

Contract No. : 04-74225-000

Contractor : Los Angeles County Department of Mental Health

as appropriate and achievable considering their specific level of funding through the CSOC-IEBP Scope of Work Plan and Budget Requirements process.

## **Section 2 – Scope of Work Plan and Budget Requirements**

Under § 5855.5 of the W&I Code, the County must submit an annual Scope of Work Plan and corresponding budget and budget narrative for each fiscal year that funding is received for County participation. The CSOC-IEBP Scope of Work Plan should outline the County's major strategies for achieving the overall infrastructure requirements, outcome goals and core activities.

Counties as recipients of SAMHSA Community Mental Health Services Block Grant funds must abide by specific conditions of Title XIX Part B of the Public Health Service Act, as well as those conditions established by other Federal and State laws, regulations, policies, and guidelines. Counties are required to submit an application, prepared in accordance with the SAMHSA Planning Estimate and Renewal Application Instructions. The Block Grant funds are allocated on a formula basis and a competitive basis and include the Base Allocation, Dual Diagnosis Set Aside, and seven Children's System of Care programs.

## **Section 3 – Accountability**

Pursuant to § 5880 of the W&I Code, expected levels of attainment of the CSOC-IEBP include improved child functioning, reduced interactions with juvenile justice, reduced out-of-home placement costs, reduced out-of-home placements of special education pupils, and reduced use of psychiatric hospitals. Assuring quality outcomes for children and youth requires the integration of the activities of multiple child-serving agencies and systems to ensure the provision of necessary services to include mental health, substance abuse, special education, child welfare, social services, public health, and increasingly, juvenile justice services.

The work plans and budgets and any subsequent updates are not attached to the contract but are incorporated herein and made a part hereof by this reference. DMH or the County may update these work plans and budgets periodically as required by program and/or budget directives. DMH shall provide the County with said work plans and budgets under separate cover. The County shall maintain on file all work plans and budgets and any subsequent periodic updates referenced herein.

## **Program for Assistance in Transition from Homelessness (PATH) Base Program**

### **Article 1 – Performance Conditions**

#### **Part A – General Assurances and Program Principles**

##### **Section 1 – Program Reference**

Title V, Part C, § 521 of the Public Health Service Act

##### **Program Description:**

Counties receiving federal PATH funds can create new services, as well as augment and enhance services that are now available to the target population. All PATH funding must pertain to one or more of the following services:

1. Outreach services

4. Community mental health services
5. Alcohol and/or drug treatment services
6. Staff training (for individuals who work in shelters, mental health clinics, substance abuse programs, and other sites where individuals require homeless services)
7. Case management services, including:
  - A. Preparing a plan for the provision of community mental health services to the eligible homeless individual involved and reviewing such plan not less than every three months
  - B. Providing assistance in obtaining and coordinating social and maintenance services for the eligible individuals, including services relating to daily living activities, personal financial planning, transportation services, habilitation and rehabilitation services, pre-vocational and vocational services, and housing services
  - C. Providing assistance to the eligible homeless individual in obtaining income support services, including housing assistance, food stamps, and SSI benefits
  - D. Representative payee services
  - E. Referrals for other appropriate services
8. Supportive and supervisory services in residential settings
9. Referrals for primary health services, job training, educational services, and relevant housing services
10. Housing (limited to 20 percent of the PATH grant). Federal law does not permit the use of PATH funding in support of emergency shelters or for emergency beds.

DMH awards the PATH base funding to counties based on a legislated formula. The goal of this formula allocation is to provide a stable, flexible, and non-categorical funding base that the counties can use to develop innovative programs or augment existing programs within their systems of care, as long as the programs meet specific PATH requirements.

Contract No. : 04-74225-000

Contractor : Los Angeles County Department of Mental Health

In an effort to ensure compliance and ongoing quality improvement in the local mental health programs related to funding provided to them by the PATH grant program, policies and procedures have been established. These policies and procedures define the necessary requirements, process for monitoring, ongoing communication and technical assistance. Refer to the PATH Planning Estimate and Renewal Application for PATH Grant Funds (sent out by DMH as numbered PATH Letter), which shall be sent to the County under separate cover, for applicable policies and procedures.

Annual allocations for County programs operating under the terms and conditions of this contract shall not be determined until final approval of the Budget Act for Fiscal Year 2004-05 and any associated trailer bills that impact program funding. Funding is contingent on the availability of funds and successful compliance with the Work Plan and Budget requirements.

The PATH Planning Estimate and Renewal Application for PATH Grant funds shall be sent to each County under separate cover. This PATH Letter transmits the Planning Estimate Worksheet, which provides the County's proposed total expenditure level for the State Fiscal Year, and the renewal application instructions (with all appropriate forms) for the grant. An application with the required documentation is due to DMH by June 30 of each year.

## **Section 2 – Work Plan and Budget Requirements**

In order to receive the formula allocation, the County is required to submit to DMH an annual application or expenditure plan for the PATH Grant funds. The application must include a narrative that details the County's intended use of the funds. In addition, the County application must include: 1) signed assurances accepting the grant dollars under the conditions established by governing federal and state laws, regulations and guidelines, as well as specific conditions included in the County application.

### **Program Narrative:**

Refer to the PATH Planning Estimate and Renewal Application for PATH Grant funds (PATH Letter), which shall be sent to the County under separate cover, for specific application submission requirements, including Program Narrative requirements and page limitations.

### **Program Budget:**

## **Community Mental Health Services Grant (SAMHSA) Base Program**

### **Article 1 – Performance Conditions**

#### **Part A – General Assurances and Program Principles**

##### **Section 1 – Program Reference**

Title 42 U.S.C. 300x-1 et seq. Part B of the Public Health Service Act

##### **Program Description:**

Community Mental Health Services Block Grant funds (known as SAMHSA Block Grant funds) are allocated to 58 Local County mental health agencies. Those mental health agencies provide a broad array of treatment services within their System of Care. These programs are providing services to the following target populations: children and youth with serious emotional disturbances (SED), adults and older adults with serious mental illnesses (SMI).

DMH's goal is to use the Block Grant to assist participating Counties in providing an appropriate level of community mental health services to the most needy residents who have a mental health diagnosis, and/or residents who have a mental health diagnosis with a co-occurring substance abuse disorder. The services are provided through an intensive coordination process and include targeting persons with a mental illness who are: 1) homeless, 2) minorities, or 3) within the criminal justice system.

DMH awards the SAMHSA funding to each County based on a legislated formula. The goal is to provide a stable, flexible, and non-categorical funding base that the Counties can use to develop innovative programs or augment existing programs within their Systems of Care (SOC).

Federal law does not permit the use of SAMHSA funds for any of the following purposes:

- To provide inpatient services
- To make cash payments to intended recipients of health services
- To purchase or improve land, purchase, construct, or permanently improve (other than minor remodeling) any building or other facility, or purchase major medical equipment
- To satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of federal funds
- To provide financial assistance to any entity other than a public or nonprofit private entity

In an effort to ensure compliance and ongoing quality improvement in the local mental health programs related to funding provided to them by the SAMHSA Block Grant program, policies and procedures have been established. Refer to the SAMHSA Planning Estimate and Renewal Application for SAMHSA Block Grant funds (sent out by DMH as a numbered SAMHSA Letter), which shall be sent to the County under separate cover, for applicable policies and procedures.

Contractor : Los Angeles County Department of Mental Health

Annual allocations for County programs operating under the terms and conditions of this contract shall not be determined until final approval of the Budget Act for Fiscal Year 2004-05 and any associated trailer bills that impact program funding. Funding is contingent on the availability of funds and successful compliance with the Work Plan and Budget requirements.

Federal SAMHSA Funds: The SAMHSA Planning Estimate and Renewal Application for SAMHSA Block Grant funds shall be sent to each County under separate cover. This SAMHSA Letter shall transmit the Planning Estimate Worksheet, which provides the County's proposed total expenditure level for the State Fiscal Year, and the renewal application instructions (with all appropriate forms) for the Block Grant. Payments shall not be made until all documents are received and the application has been approved.

## **Section 2 – Work Plan and Budget Requirements**

In order to receive the formula allocation, the County is required to submit to DMH an annual application and expenditure plan for the SAMHSA Block Grant funds. The application must include a narrative that details the County intended use of the funds. In addition, the County application must include a Federal Grant Detailed Provider Budget for each program and signed assurances accepting the Block Grant dollars under the conditions established by governing Federal and State laws, regulations and guidelines, as well as specific conditions included in their County application.

### **Program Narrative:**

Refer to the SAMHSA Planning Estimate and Renewal Application for SAMHSA Block Grant funds (SAMHSA Letter), which shall be sent to the County under separate cover, for specific application submission requirements, including Program Narrative requirements and page limitations.

## **Section 3 – Accountability**

Pursuant to Public Laws (PL) 98-509, 100-690 and 102-321, DMH, as the recipient of Substance Abuse and Mental Health Services Administration (SAMHSA) Federal Block Grant funds, shall monitor sub-recipient grant programs for compliance with Federal and State requirements, on which the grants are contingently allocated.

Each project provides permanent supportive housing to the target population, as defined in the SHIA. Specifically, supportive housing means housing with no limit on length of stay that is occupied by the target population and that is linked to onsite or offsite services. These services assist the tenant in retaining the housing, improving his or her health status, and maximizing his or her ability to live and (when possible) work in the community.

The target population is defined as adults with low incomes having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for services under the Lanterman Developmental Disabilities Services Act and may, among other populations, include families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, or homeless people.

Housing is provided in apartments, single-room occupancy residences, or single-family homes. The County/City shall ensure that, for the duration of the grant period, housing is provided to program participants. Each project involves a minimum of five (5) SHIA-assisted units.

SHIA grant funds awarded for the service component of the application are for a period of up to three years. The County/City must expend all grant funds and submit to DMH all invoices for services provided no later than three years from the effective date of the contract.

The County/City is required to match its SHIA grant award with fifty (50) cents for each one dollar awarded in the first year, one dollar for each one dollar awarded in the second year, and one dollar and fifty cents for each one dollar in the third, and (in the case of rental subsidies) all subsequent years. As specified in Section 53275(b)(2) of the SHIA legislation, the match shall be a contribution to the project that is made in cash or in kind.

The County/City must notify DMH of the failure of any third parties to provide the committed matching funds, whether in cash or in kind, and of the County/City's plan for restoring the lost match. This requirement is delineated in detail in the contract with

DMH. Failure to meet the match requirements at any time during the contract term may lead to contract termination.

SHIA grantees are notified of the funding amount for the full grant period at the time of contract award. The annual amount of funding is determined based on the annual budgets submitted by the grantee in its application, and approved by DMH.

## **Section 2 – Work Plan and Budget Requirements**

### **Project Narrative:**

The County/City submitted a project narrative as a part of its application in response to the SHIA RFA. The County/City shall adhere to the provisions of its SHIA contract with DMH, which includes the commitments made in the project narrative included in the SHIA application.

### **Project Budget:**

The County/City submitted a project budget as a part of its application in response to the SHIA RFA. The County/City shall adhere to the project budget submitted in its application.

### **Project Goals and Objectives:**

The purpose of the SHIA program is to encourage the development of affordable, permanent housing with supportive services that enables low income Californians with disabilities to stabilize their lives and regain a stake in the community.

### **Timeline and Major Benchmarks:**

The County/City shall adhere to the provisions of its SHIA contract with DMH, including any and all timelines stipulated in its application.

## **Section 3 – Accountability**

### **Site Visits and Monitoring:**

The County/City shall provide DMH, at a minimum, all required information specified in Health and Safety Code § 53311, and all information necessary to enable DMH to complete the evaluations specified in § 53305(b) of that Code, on a schedule to be determined by DMH. **Pilot Project Grants for Community Placement for Individuals Residing in Institutions for Mental Disease (IMDs)**

**Article 1 -- Performance Conditions**

**Part A -- General Assurances and Program Principles**

**Section 1 -- Program Reference**

AB 452 -- Chapter 895, Statutes of 1999  
Government Code § 12803.2

**Program Description:**

These pilot programs, funded through grant awards, are part of a larger initiative to promote community placements by the Long Term Care Council. The intended goal of these programs is to facilitate the transition of individuals residing in IMDs to alternative, less restrictive, community placements. To accomplish this, programs must develop and demonstrate a process/protocol that: (1) determines an individual's placement readiness; (2) identifies and reduces barriers to this transition; and (3) can be replicated statewide. The programs must employ recovery-based, culturally competent services. An additional underlying principle is that the individuals who are targeted for community placement want community placement, and the treatment team agrees that this is appropriate. Pilot programs must also participate in an evaluation of their efforts that includes collecting and reporting data to the state and/or contract evaluator.

Annual allocations for County pilot projects operating under the terms and conditions of this contract shall not be determined until final approval of the Budget Act for Fiscal Year 2004-05 and any associated trailer bills that impact program funding. Funding is contingent on the availability of funds and successful compliance with the Work Plan and Budget requirements.

These plans include but may not be limited to: project narratives describing the target population to be served, program goals and strategies, a description of the services to be provided, a general description of program staff available (County and contracted staff), a description of the County's evaluation design and data collection, the reporting process, and a line-item budget. These work plan requirements may vary from year to year and may be customized for each County pilot project. Guidelines for work plan submissions shall be provided by DMH annually.

The work plans and budgets and any subsequent updates are not attached to the contract but are incorporated herein and made a part hereof by this reference. DMH or the County may update these work plans and budgets periodically as required by program and/or budget directives. DMH shall provide the County with said work plans and budgets under separate cover.   - b. This Contract may be amended upon mutual consent of the parties. A duly authorized representative of each party shall execute such amendments.
  - c. It is mutually agreed that if the Budget Act does not appropriate sufficient funds for the program, this Contract shall be void and have no further force and effect. In such an event, the State shall have no further liability to pay any funds whatsoever to the County/City or to furnish any other considerations under this Contract, and the County/City shall not be obligated to perform any provisions of this Contract or to provide services intended to be funded pursuant to this Contract.
