EXECUTIVE OFFICER

Dear Supervisors:

**APPROVAL OF PERFORMANCE CONTRACT NO. 03-73139-000 WITH
THE STATE DEPARTMENT OF MENTAL HEALTH FOR FISCAL YEAR 2003-2004
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Accept, conditional upon clarification of the stated scope of the County's geographic area of responsibilities, the State Department of Mental Health's (SDMH) Performance Contract No. 03-73139-000, with the County of Los Angeles Department of Mental Health (DMH), making DMH responsible for establishing community mental health services in the County of Los Angeles, effective July 1, 2003 through June 30, 2004.
2. Approve and authorize the Chairman to sign and execute an original Resolution specifying that the Board has approved the State Performance Contract for Fiscal Year (FY) 2003-2004.
3. Authorize the Director of Mental Health, or his designee, to sign six (6) copies of the Performance Contract, substantially similar to the one attached, with original signatures and forward them to SDMH, after conclusion of negotiations with SDMH to clarify the geographic areas for which the County is responsible for mental health services.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The Board action is requested to accept the Performance Contract between SDMH and DMH for FY 2003-2004. The Performance Contract is retroactive to July 1, 2003 as a result of the late submission of the Agreement to the County by SDMH. Untimely submission of this Board letter meets the exemption criteria shown in the Chief Administrative Officer's September 7, 2000 memo regarding timely submission of Board letters related to contracts.

Implementation of Strategic Plan Goals

The recommended Board action is consistent with the County's seventh Goal - "Health and Mental Health". Board approval of this request will allow the County to fulfill its statutory duties regarding community mental health services.

FISCAL IMPACT/FINANCING

There is no impact on net County cost. This Performance Contract is for the period of July 1, 2003 through June 30, 2004 and will allow use of State and federal funds allocated for FY 2003-2004 to be expended to maintain mental health programs for the residents of Los Angeles County.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Performance Contract between the State and the County is mandated under Section 5650 of the Welfare and Institutions Code. The Performance Contract and the Resolution are approved by the Board each fiscal year. The Performance Contract for FY 2003-2004 does not have any material changes from the Contract for FY 2002-2003.

The Performance Contract sets forth County authority for the implementation of County mental health programs and summarizes the provisions for each of the local mental health programs. Each summary contains a brief description of the program, the scope of work or work plan, budget requirements and accountability. Additionally, the Performance Contract outlines the requirements to justify receipt of allocations but does not specify the actual amounts. The Performance Contract also indicates the performance conditions for the County programs including any other contract requirements.

Clinical and administrative staffs of DMH are assigned to supervise, administer and evaluate the programs to ensure that quality services are being provided to clients and to ensure that Agreement provisions and Departmental policies are being followed.

The Performance Contract has language indicating that the County of Los Angeles is responsible for establishing community mental health services to "cover the entire area of the Los Angeles County." DMH, in conjunction with County Counsel, has requested that the State modify the contract language to say that the County is responsible for mental health services covering the entire area "within the county's responsibility." This modification was requested because Tri-City Mental Health Center currently has the responsibility for mental health services in a small area of the County, under special statutory provisions. Tri-City Mental Health Center filed for bankruptcy on February 13, 2004. The requested change in the performance contract will help protect the County in possible negotiations with the State about the provisions of services in the Tri-City area.

The Mental Health Commission reviewed the Performance Contract on March 25, 2004 and the attached Resolution has been approved as to form by County Counsel.

All of the mental health services funded by Realignment funds are handled through Statutory Trust Accounts and are not included in SDMH's total contract encumbrance amount to the County.

CONTRACTING PROCESS

This subject does not apply.

IMPACT ON CURRENT SERVICES

This agreement will enable DMH to maintain quality mental health programs for Los Angeles County residents.

CONCLUSION

The Department of Mental Health will need one (1) copy of the Board's action and one (1) certified copy of the attached Resolution. It is requested that the Executive Officer of the Board notify the Department of Mental Health's Contracts Development and Administration Division at (213) 738-4684, when these documents are available.

Respectfully submitted,

Title XIX Part B of the Public Health Service Act

Program Description:

The Children's System of Care: An Interagency Enrollee-Based Program (CSOC- IEBP) promotes the development of comprehensive County/City interagency service systems for seriously emotionally disturbed (SED) children, adolescents and their families. Counties receiving funds must comply with the requirements under State and federal law by implementing and maintaining:

- A formalized multi-agency policy and planning committee that collaborates to provide a coordinated, goal-directed system of care for the service populations;
- A defined interagency case management system designed to ensure identification of appropriate children and youth, and to facilitate services to the defined service populations. The roles and responsibilities of these groups are specified in Interagency Agreements (IA) or Memoranda of Understanding (MOU), or both;
- A roster of enrolled SED children and youth who have a history of, or are at risk of, out of home placement, hospitalization, incarcerated or school nonattendance as the focus of this effort.
- Annual enrolled client and cost performance goals and expected levels of attainment, and defined mechanisms to ensure that services are culturally competent.

Article 1 – Performance Conditions

Part A – General Assurances and Program Principles

Section 1 – Program Reference

Title 42 U.S.C. 300x-1 et. seq. Part B of the Public Health Service Act

Program Description:

Community Mental Health Services Block Grant funds (known as SAMHSA Block Grant funds) are allocated to 55 Local County/City mental health agencies. Those mental health agencies provide a broad array of treatment services within their System of Care. The services are provided through an intensive coordination process and include targeting persons with a mental illness who are: 1) homeless, 2) minorities, or 3) within the criminal justice system.

DMH awards the SAMHSA funding to each County/City based on a legislated formula. The goal is to provide a stable, flexible, and non-categorical funding base that the counties/cities can use to develop innovative programs or augment existing programs within their Systems of Care(SOC).

Federal law does not permit the use of SAMHSA funds for any of the following purposes:

Each project provides permanent supportive housing to the target population, as defined in the SHIA. Specifically, supportive housing means housing with no limit on length of stay that is occupied by the target population and that is linked to onsite or offsite services. These services assist the tenant in retaining the housing, improving his or her health status, and maximizing his or her ability to live and (when possible) work in the community.

The target population is defined as adults with low incomes having one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health conditions, or individuals eligible for services under the Lanterman Developmental Disabilities Services Act and may, among other populations, include families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, or homeless people.

Housing is provided in apartments, single-room occupancy residences, or single-family homes. The County/City shall ensure that, for the duration of the grant period, housing is provided to program participants. Each project involves a minimum of five (5) SHIA-assisted units.

SHIA grant funds awarded for the service component of the application are for a period of up to three years. The County/City must expend all grant funds and submit to DMH all invoices for services provided no later than three years from the effective date of the contract.

As specified in Section 53275(b)(2) of the SHIA legislation, the match shall be a contribution to the project that is made in cash or in kind.

The County/City must notify DMH of the failure of any third parties to provide the committed matching funds, whether in cash or in kind, and of the County/City's plan for restoring the lost match. This requirement is delineated in detail in the contract with

Pilot Project Grants for Community Placement for Individuals Residing in Institutions for Mental Disease (IMDs)

Article 1 – Performance Conditions

Part A – General Assurances and Program Principles

Section 1 – Program Reference

AB 452 – Chapter 895, Statutes of 1999
Government Code § 12803.2

Program Description:

These pilot programs, funded through grant awards, are part of a larger initiative to promote community placements by the Long Term Care Council. The intended goal of these programs is to facilitate the transition of individuals residing in IMDs to alternative, less restrictive, community placements. To accomplish this, programs must develop and demonstrate a process/protocol that: (1) determines an individual's placement readiness; (2) identifies and reduces barriers to this transition; and (3) can be replicated statewide. The programs must employ recovery-based, culturally competent services. An additional underlying principle is that the individuals who are targeted for community placement want community placement, and the treatment team agrees that this is appropriate. Pilot programs must also participate in an evaluation of their efforts that includes collecting and reporting data to the state and/or contract evaluator.

Annual allocations for county pilot projects operating under the terms and conditions of this contract shall not be determined until final approval of the Budget Act for Fiscal Year 2003-04 and any associated trailer bills that impact program funding. Funding is contingent on the availability of funds and successful compliance with the Work Plan and Budget requirements.

Section 2 – Work Plan and Budget Requirements

Ongoing Programs:

An annual work plan is required from the pilot programs within timeframes identified by DMH. These plans include but may not be limited to: project narratives describing the target population to be served, program goals and strategies, a description of the services to be provided, a general description of program staff available (County and contracted staff), a description of the County's evaluation design and data collection, the reporting process, and a line-item budget. These work plan requirements may vary from year to year and may be customized for each County pilot project. Guidelines for work plan submissions shall be provided by DMH annually.

The work plans and budgets and any subsequent updates are not attached to the contract but are incorporated herein and made a part hereof by this reference. DMH or the County may update these work plans and budgets periodically as required by program and/or budget directives. DMH shall provide the County with said work plans and budgets under separate cover. The County shall maintain on file all work plans and budgets and any subsequent periodic updates referenced herein.

B. Budget Contingencies

All parties agree that the Contract is based upon the following:

1. **Federal Budget**
 - a. It is mutually understood between the parties that this Contract may have been written before ascertaining the availability of congressional appropriation of funds. This was done to avoid program and fiscal delays, which would occur if it were written after that determination was made.
 - b. It is mutually agreed that, if the Congress does not appropriate sufficient funds for the program, the State has the option to void the Contract or to amend the Contract to reflect any reduction of funds. Such amendment, however, shall require County/City approval.
 - c. The Contract is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress which may affect the provisions, terms, or funding of this Contract in any manner.
 - d. The State and the County/City agree that if Congress enacts such changes during the term of this Contract, both parties shall meet and confer to renegotiate the terms of this Contract affected by the restrictions, limitations, conditions, or statute enacted by Congress.
2. **State Budget**
 - a. This Contract is subject to any restrictions, limitations, or conditions enacted by the Legislature and contained in the Budget Act or any statute enacted by the Legislature which may affect the provisions, terms, or funding of this Contract in any manner. The State and the County/City mutually agree that if statutory or regulatory changes occur during the term of this Contract which affect this Contract, both parties may renegotiate the terms of this Contract affected by the statutory or regulatory changes.
 - b. This Contract may be amended upon mutual consent of the parties. A duly authorized representative of each party shall execute such amendments.
 - c. It is mutually agreed that if the Budget Act does not appropriate sufficient funds for the program, this Contract shall be void and have no further force and effect. In such an event, the State shall have no further liability to pay any funds whatsoever to the County/City or to furnish any other considerations under this Contract, and the County/City shall not be obligated to perform any provisions of this Contract or to provide services intended to be funded pursuant to this Contract.
3. **General Terms and Conditions**
 - a. **APPROVAL:** This Agreement is of no force or effect until signed by both parties and approved by the Department of General Services, if

 - g. **TERMINATION FOR CAUSE:** The State may terminate this Agreement and be relieved of any payments should the Contractor fail to perform the requirements of this Agreement at the time and in the manner herein provided. In the event of such termination the State may proceed with the work in any manner deemed proper by the State. All costs to the State shall be deducted from any sum due the Contractor under this Agreement and the balance, if any, shall be paid to the Contractor upon demand.
