CPT Code Changes - Psychological and Neuropsychological Testing Services

CPT Code Changes - Psychological and Neuropsychological Testing Services

Beginning January 1, 2019, there will be changes to procedure codes for psychological and neuropsychological testing services. The current codes, 96101-96103 and 96118-96120, will be inactivated and replaced by new procedure codes. DMH is evaluating the use of the new (replacement) psychological and neuropsychological testing procedure codes.

Please hold all claims for dates of service on or after January 1, 2019 for psychological testing services that utilize the following inactivated procedure codes.

Code	Description
96101	Psychological Testing - PSYD/MD
96102	Psychological Testing - Technician
96103	Psychological Testing - Computer
96118	Neuropsychological Testing - PSYD/MD
96119	Neuropsychological Testing - Technician
96120	Neuropsychological Testing - Computer

Any claims for dates of service on or after January 1, 2019 that utilize these codes will be denied.
*Note: The eliminated codes may be used for a date of service **prior** to January 1, 2019.*

DMH will notify providers as soon as possible regarding the use of the replacement procedure codes in order for providers to resume claiming.

Provider Bulletins are posted on the DMH website at: http://lacdmh.lacounty.gov/hipaa/ffs_UIS_Special.htm
