Christina Kubojiri	DMH QA Bulletin – Included Diagnosis list updates		
	<ul> <li>Some of these changes are result of conversations with the state started years</li> </ul>		
	<ul><li>ago.</li><li>DMH may be removing the "allowable" diagnosis construct to decrease</li></ul>		
	confusion between included and allowable lists		
	A member indicated some allowable diagnosis were removed last		Į
	year, but should be included diagnosis for clients. In this case a heat		
	ticket should be requested to add the valid diagnosis back to your		
	client that was mistakenly removed.		
	Discussion occurred about last claims being denied when the dx is changed to an		
	excluded dx as of the same date as the discharge.		
	o Jen Hallman said she was contacting agencies regarding this. As long as		
	documentation is clear about the reason for change of diagnosis at end of		
	treatment, documentation is okay.		
	o Some agencies change to non-included dx the day after the last billable claim		
	to avoid denials.		
	<ul> <li>NACT Webinar is scheduled to occur for Legal entities and Directly Operated.</li> </ul>

Agenda Item & Presenter	Discussion & Findings	Decisions, Recommendations, Actions, Scheduled Tasks	Responsible Person / Due Date
	■ Having a "blanket policy" not to accept meds only clients is not recommended. It is not okay to make receiving one type of service contingent upon another.  ■ ICC/IHBS expansion:  □ Anabel Rodriguez is working with prevention bureau currently.  □ Establishing how to distinguish services being provided to lower level of care versus intensive  ■ Mental Health Rehabilitation Specialist (MHRS) criteria reminder:  □ BA degree + 4 years clinical experience  ■ Additional +2 years education if does not have the 4 years experience  □ What focus does the BA degree need to be in?  ■ Should be consistent with the clinical experience needs at some level (ex: human resources or social services). Someone asked of criminal justice would suffice and the answer was yes.  ■ November — SRL data from EHRs need to be submitted to DMH. No further info discussed on how that data is submitted or issues with EHR vendor barriers.  □ Children's Institute, Inc. provided a brief presentation on their QI/QA process. Talked about their review of charts, forms used, New Hire Trainings occurring monthly as well as Core Practice Model, Assessment Training, and Intern specific trainings. Showed examples of our New Hire Manuals and examples available as resources to our staff. Christina Kubojiri  ■ Volunteers obtained to provide a brief presentation on their agency's QI/QA process: January 2019 — Children's Bureau; February 2019 — St. Anne's.  ■ Discussion occurred regarding several agencies looking for recommendations for translation services. Reminded members a list of DMH used translation services was also provided at a prior meeting.
