

Application Release Notes

Name of Application:	Service Request Log Service
Environment & Date of Deployment:	TST: Initial Release Date: June 29, 2018 Update Date: March 15, 2019 QA: Initial Release Date: September 13, 2018 Update Date: April 26, 2019 PRODUCTION: Initial Release Date: November 10, 2018 Update Date: May 3, 2019

Version Number: 201801

WSDL URL: TST: <https://b2btst.dmh.lacounty.gov/SRLService/SRLServiceInterface.svc?singlewsdl>

QA: <https://b2bqa.dmh.lacounty.gov/SRLService/SRLServiceInterface.svc?SingleWSDL>

PRODUCTION: <https://b2b.dmh.lacounty.gov/SRLService/SRLServiceInterface.svc?SingleWSDL>

Issue #	Description
3584, 3587, 3661, 3663	Fixed the Exception Error returned from BizTalk for Add and Update operations' output.
3630, 3646, 3648, 3649, 3653, 3651	Fixed the issue where incorrect error message was returned for Appointment Date validation policy for Add and Update operation. Fixed the issue where no error message was returned for blank <ReceivingMentalHealthServices> and < EmergentMedicationNeeds> nodes of the payload in Update operation. Fixed the issue with unexpected error message and no error messages for schema validation in Update operation.
3631	Fixed following issues related to data attributes mapping in Search call: <ul style="list-style-type: none"> PotentialClientPhone value not returned. Expected: Existing value from database, Returned: Blank PotentialClientDOB value returned in the wrong format. Expected: YYYY-MM-DD, Returned: YYYY-MM-DD T00:00:00Z RequestDate value is off by 1 day. For example: Expected: 2018-06-18, Returned: 2018-06-17 Record exists in database, however search returns 'No Records Found' Record exists in database, however search returns a successful acknowledgement but no result. Record exists in database, however search returns a blank response.
3632, 3662	Fixed the issue with <i>GetServiceRequest</i> outbound mapping so data attributes and nodes are aligned with the <i>Add</i> and <i>Update</i> operations' input.
3633	Fixed the issue where EarlierApptOffered field is populated with the default value 'No' in the database when the data attribute was not sent with the Add call.
3635, 3639, 3656, 3657, 3659, 3660	Fixed the issues with missing and incorrect error messages returned for missing content in <i>AddServiceRequest</i> operation's input.
3636	Fixed the issue where incorrect error message were returned or no error messages were returned for

Issue #	Description
	input validation in Search call.
3637	Fixed the issue where incorrect error message were returned or no error messages were returned for input validation in Get call.
3638	Fixed the issue where incorrect error message were returned or no error messages were returned for input validation in Delete call.
3641	Fixed the issue where SRL WSDL was showing Dictionary Service namespaces instead of SRL_201801.
3645	<p>Fixed the following time-out issues:</p> <ul style="list-style-type: none"> -When SearchServiceRequest is sent with a valid value in PotentialClientFirstName data attribute with maximum length, operation times out. -When AddServiceRequest is sent with a valid value in RequestRespondStaff data attribute with maximum length, operation times out. -When UpdateServiceRequest is sent with a valid value in RequestRespondStaff data attribute with maximum length, operation times out. -When UpdateServiceRequest is sent with a valid value in LegalGuardianName data attribute with maximum length, operation times out.
3674, 3681	Fixed the schema compliance issues related to <i>SearchServiceRequest</i> and <i>GetServiceRequest</i> outputs.
3675	Fixed the issue related to Disposition node where same name for node and data attribute were creating issues for WSDL import for some providers.
