I.   Welcome and Introductions

Attendees went around the room and introduced themselves and their role in their agency.

II.   Updates

M. Villaescusa announced past Learning Network summaries are being posted on the OMA Wiki and RCADS trainings are scheduled for July 30 and October 22, 2014 from 9:30am to 12:00pm, with registration information on the OMA Wiki.

III.   Review of Reports
- Review of new available reports
- How is data being shared with clinical staff and clients?
- How is data being utilized?
- What data/information may be helpful in future meetings?

A. Silva presented and explained the Compliance Stats by Provider report, which will replace the Counts by Provider report, then explained the Exception report and informed providers to request the Exception Report for future Learning Networks because will not be automatically generated for future Learning Networks. A. Silva suggested participants contact PEI Admin if there are concerns about potential billing errors that place client who should not be, on the exception report.

G. Eckart described a couple of tables in the aggregate report and then presented "A Closer Look," PowerPoint that broke clients entering CPP into 6-month intervals based on start date to show potential trends over time in rates of unable to collect and dropout, and then had participants hypothesize about potential factors associated with the trends.

S. Meyers reviewed Core Services reports with participants, asking participants to watch out for high percentage of services billed to plan development (code H0032) and he then read the February 9, 2012 QA # 12-01 bulletin that described parameters for billing to code H0032 and an email from QA that stated billing more than 180 minutes for a client to H0032 per quarter may be seen as a red flag by auditors and if a client is billed more than 180 minutes per quarter, to document justification.

IV.   Open Forum
  - Dr. Maricela Mendez-Sherwin: How to effectively utilize CPP Supervision Fidelity Measures: enhance and support the supervision process
  - Training Opportunities: Contact **CIITrainingCenter@ChildrensInstitute.org**

M. Mendez-Sherwin presented a PowerPoint called "Introduction of CPP Fidelity Toolkit" in which the CPP Procedural Fidelity Checklists were described; a handout "Introducing the Child to CPP" was presented which is used to help guide the initial session with the client; CPP training requirements were reviewed; and important considerations at termination were discussed. After the presentation there was a question and answer period.

M. Mendez Sherwin stated CII will be hosting CPP trainings and to email CIITrainingCenter@ChildrensInstitute.org if interested in attending.

V.   Next PPLN Meeting

Date/location TBD.
