Module One: Individual Reports

■ You can use this report to...

- ❑ Monitor the entry rate of clients in the your PEI OMA System
- ❑ Determine over-all client status in your practice (e.g. Completed, Dropped, In Tx)
- ❑ Monitor the “Drop-out Rate” in your practice (to be discussed more fully in Session Three)

Module One: Individual Reports

- **You can use this report to...**
 - ❑ Compare your progress in implementation/data collection to countywide numbers
 - ❑ Generate hypotheses about the health of the implementation/data collection process at your agency, make changes if necessary and then monitor the effectiveness of your changes by examining the data at some future point in time

Module One: Individual Reports

- **This report will help you to...**
 - ❑ Determine which clients are active/inactive in a practice and for how long
 - ❑ Monitor “client status” and EBP completion with reference to date of first session, diagnosis and primary therapist (cohort?)
 - ❑ Survey the kinds of Dx’s are found among our clients

Unable to Collect (UCS) Report

Individual Provider Data Since Inception

Module One: Individual Reports

- **This report will help you to...**
 - ❑ Identify the most prominent reasons for uncollected Pres, Posts and Updates in your practice
 - ❑ Explore what UCS factors seem to be local as opposed to countywide
 - ❑ Determine whether the percentage of UCS is interpretable (e.g. is there enough n to make a judgment about the UCS percentage?)
