GoPeer			GoPeer (GoPeer.org) approved college students to give 10,000 free hours of tutoring to K-12 students. Beginning today, college students are approved to give 10,000 free hours of tutoring (two hours per family so many students can benefit), online (avoiding virus entirely), to students between the ages of 5–18. Instruction will be live 1-on-1 sessions with vetted college students in an online classroom using tools like real-time face-to-face video conferencing, photo/document sharing, and a virtual whiteboard/notepad to collaborate or edit essays. With everything going on right now, college students want to contribute something positive to the community. Here's an article with the information: https://medium.com/gopeer/10-000-free-hours-virtual-tutoring-for-k-12-students-e744aaa03f5e	GoPeer approved college students to give 10,000 free hours of tutoring to students between the ages of 5–18.	Link to GoPeer

Inquiry-Based Distance Learning Curriculum around the question "How can we be together when apart?"	Link to InquirED
InScribe	Community Support	Higher Education	InScribe is a virtual community that helps colleges build an on-demand support system to connect students to the answers, resources, and individuals they need to succeed. Our Q&A communities create a space for your students to engage with the experts on campus – advisors, instructors, even alumni. Students can search for answers and post questions when they need help. Expert answers are tagged and stored, so everyone benefits from the conversations that came before. Ultimately, students find the help they need more quickly, and experts spend less answering the same questions over and over again.	To help institutions streamline communication and support, InScribe is offering free access through spring term to all colleges, universities, or programs facing campus closure due to COVID-19.	Link to InScribe
InScribe Continuity Planning and Support Community	Institutional Resources	Higher Education	This community is freely available to all education professionals and is a space to ask questions, share ideas, and find solutions during this time of change and uncertainty. Please join us as we work to support each other during this time of uncertainty.	Support Community	Link to InScribe Continuity Planning

MIT Edgerton Center - Instructables page			These lessons are great ways for kids in grades 3 -8 to be introduced to and practice 3D modeling, coding, and hand fabrication. All projects have opportunities to learn skills and customize the final product. The Edgerton Center at the Massachusetts Institute of Technology is a home for experiential learning for students of all ages. We support the MIT community, K-12 schools, and STEAM education organizations seeking to learn by doing and have fun along the way.	3D printing projects and Coding projects, involving math and other K-12 subjects	Link to MIT Edgerton Center
Mobile Guardian	Mobile Device Management Software	To assist Teachers & IT Administrators with MDM for remote learning	Mobile Guardian is a powerful, mobile device management (MDM) solution purpose-built for districts and schools.	Mobile Guardian is providing remote Classroom Management Tools and premium Web-Filtering free to all schools subject to enforced closures. This enables teachers to monitor what students are doing in lessons on their Chromebooks in real-time from their Mobile Guardian dashboard. They can also view how students spent their time during class. Web-filtering allows schools to secure devices that are now going home, as well as facilitate an academic environment.	Link to Mobile Guardian
MobyMax			MobyMax offers the only complete and comprehensive K-8 curriculum for 27 subjects, including math, reading, phonics, language, vocabulary, spelling, writing, science, social studies, and state test prep. MobyMax's digital courseware solution can be used at any time, on any device with an internet connection, whether it's a desktop at school or a tablet at home.	MobyMax announced on March 6, 2020 that it will provide its award-winning educational software free to all schools and school districts forced to close to protect against COVID-19. MobyMax has also developed a Contingency Learning Plan strategy that will help all schools access online learning while schools are closed. Given that most schools do not have plans in place to keep students learning if the physical school has to close, Moby has taken a very bold move in offering our solution to schools and districts for free, understanding school closures could start to snowball. School administrators will need to reach out to MobyMax. Teachers won't be able to set up the access.	Link to MobyMax
Modern States Education Alliance	Math, Reading, Science, Social Studies, Over 30+ courses aligned with the College Level Examination Program	High School, Higher Education	a philanthropy dedicated to making a college degree more affordable and accessible for everyone. Great for high school students looking to stay occupied and earn free college credit.	Modern States is a "free credit-for-college" website where you can sign up for an account and register for free online courses taught by college professors which will help you prepare for the CLEP exams and Advanced Placement (AP) exams. After completing the courses, answering all the practice questions and passing the practice exams, you can request vouchers for each CLEP exam you plan on taking (this pays for the \$89 test registration fee per exam which is purchased on the College Board website). You then sign up to take the test at a test center near you (you can locate one at the College Board website).	Link to Modern States Education Alliance

Nessy Learning			For schools closed by Coronavirus (COVID-19), Nessy is offering the free use of our digital learning platform* to support the continued education of children. The structured language programs automatically guide the instruction of phonics, reading, spelling and writing to all children aged 5-12 years. Teachers may monitor student progress remotely. We are offering our programs at no charge to contribute to the community effort to stop the spread of Coronavirus (COVID-19) and because we want to ensure children do not miss out on their learning. No credit card information is taken. Schools will not be billed.	Nessy Reading & Spelling and Writing Beach	Link to Nessy Learning
netboard.me			It's online tool to curate, organize and share any content in a form of a Web page (netboard). Using netbord, teacher can easily create Web pages with texts, links, documents, videos, photos, presentations and other content. It is already actively used by teachers in different countries. It suggests (both free) personal and organization accounts. With organization account teacher can create user accounts for students and other teachers (no emails required) and organize collaborative work, sharing educational materials and enabling students to create own netboards, commenting and voting other students' and teachers' content. Teachers can create students groups and decide what to publish for each group.	Unlimited number of boards	Link to Netboard
New American History			Access to digital learning resources and tools developed by Dr Ed Ayers for American History/Geography/Current Events	Free	Link to New American History
New Jersey Center for Teaching & Learning					Link to New Jersey Center for Teaching and Learning

News-O-Matic	Reading, Science, Social Studies, ESL	K - 2nd, 3rd - 5th, 6th - 8th	News-O-Matic is a daily newspaper for kids. It provides an engaging nonfiction experience for children, complete with valuable literacy tools for the classroom.	For the rest of the school year, teachers and students can access News-O-Matic for free from our app or web site. We feature five daily news stories, written at a variety of reading levels from grades K through 8. Every story is translated by native speakers from English into Spanish, French, and Arabic. And all these texts — at all levels and languages — are read out loud so kids can listen along. Teachers have access to a special dashboard to track students' reading progress, change their reading levels, and see students' answers to comprehension questions for each article.	Link to News-O-Matic
News2You					Link to News2You

Prodigies - Music			Prodigies is a colorful music curriculum for kids 1-12 that will teach your kids how to play their first instrument, how to sing in tune & how to understand the language of music!	21 Days Free	Link to Prodigies - Music
Prodigy			Prodigy Education connects students, parents, teachers and school districts with resources that promote a lifelong love of learning. Anyone with an internet connection is welcome to create a free account and try the most effective and engaging K-8 math platform in the world. Prodigy Game is an educational computer game, where a student needs to solve math problems to play the game.	Prodigy Education's business model allows for users without membership to play the math game to its full extent. The educational component is identical to that of the users with memberships. The only component that would be missing is the cosmetic features (player's outfits, items in the game to decorate with etc.). There is no in-game purchasing.	Link to Prodigy
Project Exchange	Foreign Language, Study Abroad	6th - 8th, High School	Project Exchange is an international 501c3 nonprofit increasing access to cross-cultural learning experiences for middle & high school students around the world through digital programs.	Participate in a free study abroad experience, all online. Middle & high school students are matched with a peer from a different country, and over 12 weeks, participate in weekly video calls and activities to simulate the exchange experience. Our Spring 2020 cohort will run from April 6-June 26, and we're currently accepting applications from middle & high school students around the world here until March 27 and are hoping that this can be an opportunity for students to continue connecting with others and engaging in culture, even as we're limiting our daily in-person interactions.	Link to Project Exchange

Project Wayfinder	SEL / Advisory	High School	Imagine if adolescent education was designed for all students to develop lives of meaning and purpose. In 2015 Project Wayfinder was founded at the Stanford d.school to answer this call. We partner with educators to design innovative learning experiences that foster meaningful relationships and guide students to navigate their lives with purpose.	Project Wayfinder is committed to providing the greater educational community with resources to navigate these times of uncertainty with purpose. We will be proactively curating topical response tools from our existing programs and sharing them in virtual format, such as: - Free lessons from our toolkits to download. - Tips for managing meaningful distance learning. - Regular Waybinar check-ins to counteract loneliness during this period of "social distancing." We are first providing a download to a lesson from our signature Purpose Toolkit: Sharing Resources to do yourself, with your students, or your colleagues!	Link to Project Wayfinder

Read to Lead	Reading, Writing, Intervention Resources, Career Exploration	6th - 8th, High School	Read to Lead is a digital literacy learning game, where students are empowered to be the boss while reading their way through a virtual internship. It is a fun, engaging, and relevant way to blast through traditional reading barriers and promote workplace readiness and skill building. By playing our learning games, youth increase reading achievement, find motivation, and see, often for the first time, a real connection between learning, career aspirations, and their futures. Read to Lead is geared for students in 5th - 9th grades and provides a diverse representation of characters to showcase that ALL of our students can be the Boss! Additionally, Read to Lead provides community action projects, coaching, and implementation support for an enriching educational experience! Our staff is committed to turn-key (ready-to-use) implementation and support to build the capacity of educators.	All resources on our platform are FREE that includes community action projects, lesson plans, and unlimited educator and student accounts to access our games. Additionally free virtual support in the form of webinars, one on one coaching sessions, and online communities, and video tutorials are offered on a weekly basis and free to access.	Link to Read to Lead
ReadAskChat	Reading, Early Childhood	Early Childhood	ReadAskChat is a highly curated, beautifully illustrated digital library that provides parents, caregivers, and teachers of children six months to four years with all the guidance they need to lay a strong foundation for reading and love of learning.	During this time of school disruption and uncertainty, we are making the full library free to families through April 2020. Use organization code 5RVLD4 when registering.	Link to ReadAskChat
Readers 4SC			A critical thinking activity that incorporates novels and famous books, argumentation, and key themes together. Lesson plan, suggest topics per book, and publishing students' work on the website are all free.		Link to Readers 4SC
Reading Egg			This is one of my favorite supplemental reading programs! It helps children become stronger readers and boosts comprehension. I've used this with many struggling readers that I've tutored over the years and have had excellent results each time. It's great for any child 2-13 years old. This link gets you 30 free days to use the program (no credit card required)	30 day free trial no credit card required	Link to Reading Egg

Always free	Link to Toy Theater
Tradepal	Math, Reading, Writing, Science, Social Studies, ESL, Foreign Language, STEM, Intervention Resources, Campus Tutors	Higher Education	Not everyone has access to high-speed internet during this time of social distancing, and the simplest way to connect everyone may be to jump on an audio conference call. A solution that could be most economical for both faculty and students may be the use of the following: 1) a centralized module on Tradepal to connect all participants in the course, 2) a group chat, and 3) a free conference dial-in to deliver the lesson. During this time, Tradepal has opened the solution for free to any faculty who need a way to deliver remote instruction for all students no matter what device or if they have limited WiFi. It works on any device -- Smartphone, tablet, laptop or desktop, and there is no need to download anything to access the solution.	In response to the shift to online, Tradepal will provide free and immediate access to its REMOTE LEARNING PLATFORM to help faculty members and tutors support their students during spring semester.	Link to Tradepal
