

SECTION XIX: MEDICAL TRANSPORTATION SERVICES

All requests for client transportation services, such as ambulances or medical vans, are processed through the ACCESS Center at (800) 854-7771.

- Payment of transportation services will only be reimbursed for transports authorized by the ACCESS Center.
- Prior authorization for client transportation services from the ACCESS Center is required for payment.
- No reimbursement for client transportation service shall be made without the prior authorization of the ACCESS Center.

In a psychiatric emergency, transportation services can only be requested by appropriate Local Mental Health Plan (LMHP) administrative, clinical or contractor staff who have been certified by the LMHP to evaluate clients in psychiatric emergencies and prepare involuntary holds pursuant to Welfare and Institutions Code Sections 5150 and 5585. The ACCESS Center will authorize and activate evaluation services for hospitalization in the event of an emergency.

The LMHP is not responsible for providing, arranging or payment for transportation services, except when the purpose of the medical transportation service is to transport a Medi-Cal beneficiary from a psychiatric inpatient hospital to another psychiatric inpatient hospital or another type of twenty-four-hour care facility because the services in the facility to which the Medi-Cal beneficiary is being transported will result in lower costs to the LMHP.

TRANSPORTATION AUTHORIZATION FOR MEDI-CAL BENEFICIARIES ENROLLED IN PRE-PAID HEALTH PLANS

Transportation authorization or reimbursement services for Medi-Cal beneficiaries who are members of a Plan Partner of LA Care or Health Net are the responsibility of the Plan Partner. A client must be Medi-Cal eligible on the date of service in order to receive reimbursement.
