

LOS ANGELES COUNTY – DEPARTMENT OF MENTAL HEALTH
TRAINING AND QUALITY IMPROVEMENT DIVISIONS
IN COLLABORATION WITH HEALTH NET

Beyond Silos: Collaborative Care for Older Adults

Special Presentation by Marshal Folstein MD

Author of the Mini Mental Status Examination (MMSE)

Thursday, November 17, 2011
California Endowment Center
8:00 AM – 12:30 PM

Educational Objectives

At the conclusion of this presentation, attendees will be able to:

- Understand the use of the MMSE tool and identify the process for including this screening tool in primary care practice
- Identify the resources available to patients with cognitive impairment
- Identify elder abuse and neglect by learning the signs and symptoms presented during the primary care visit
- Understand the role of the patient-centered medical home in managing cognitively impaired older adults
- Understand the consultation model and co-managing older adults to improve outcomes
- Describe psychosocial issues of caring for cognitively impaired older adults
- Identify the resources available to patients, families and providers caring for older adults

A CME co-sponsored by LA County Department of Mental Health and Health Net has been approved for AMA PRA Category 1 Credit(s)TM by the LAC-DMH Continuing Medical Education Committee, William Arroyo, M.D., CME Chairperson.

Los Angeles County Department of Mental Health (LAC DMH) is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide medical education for physicians. LAC DMH takes responsibility for the content, quality and scientific integrity of this activity. LAC DMH designates this educational activity for a maximum of **4.0 hours AMA PRA Category 1 Credit(s)TM**. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CME Certification in Continuing Medical Education.

PANEL DISCUSSION

- **Dr. Roderick Shaner** – Discusses how DMH is integrating mental health services into primary care settings, and how to use consultation as a core service within the integration model
- **Dr. Ursula Baffigo** – Discusses principles of a patient-centered medical home, drawing on her experience at Northeast Valley Health Corporations and Health Net, incorporating the DHCS and CMS vision of the health home, including the use of consultation by mental health and ongoing treatment through primary care to improve assessment, treatment and care coordination
- **Dr. Marshall Folstein** – Serves as a resource for discussing screening, consultation and care coordination of cognitively impaired older adults
- **Dr. Diana Schneider-Homeier** – Serves as a resource for screening, coordination and consultation of elder abuse
- **Dr. Debra Cherry** – Discusses resources specific to older adults with cognitive impairment, including consultation and care coordination
- **Dr. Sarah Gelberd** – Discusses bridging some gaps in assessment in consultation/referral using MDT consultation model of OACT (older adult consultation team) to train general psychiatrists to work with older adults in field-based settings
