

## Wellness for Children and Families Proposal

Children's Systems of Care Administration

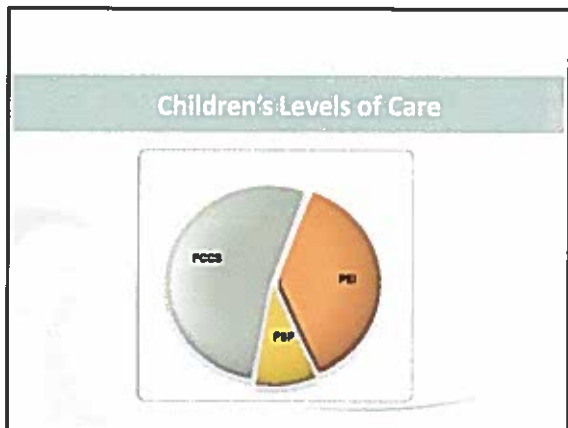

Los Angeles County Department of Mental Health's, Children's System of Care is dedicated to *improving* the lives of children and their families who are experiencing mental health challenges by providing a wide range of client centered, family focused services. The goals are to:

- Provide quality, strength based mental health services to children
- Help children achieve success at school and in the community
- Strengthen and empower family relationships by fostering hope, wellness and resiliency
