

# **Engagement Approaches & Requirements**

# Information Sharing

This approach allows agencies to update their communities on the status of a project or a plan without actively seeking community feedback.

This approach is most appropriate when agencies have previously engaged the community and seek to provide updates throughout the duration of the project.

Information sharing methods should be appropriate in accessibility and visibility to the particular community.

This approach may be required at various stages of the grant administration process.

### Concurrent Engagement

This approach allows agencies to discuss Measure A-funded projects and plans in conjunction with other community meetings.

This may include meetings scheduled around community plans, regularly scheduled council meetings, or other events that aim to engage the community and solicit feedback pertaining to spending priorities within a Study Area.

**Concurrent engagement** methods should be appropriate in scale and type to the particular community.

Depending on project cost, this approach may be required before or after submission of the grant application.

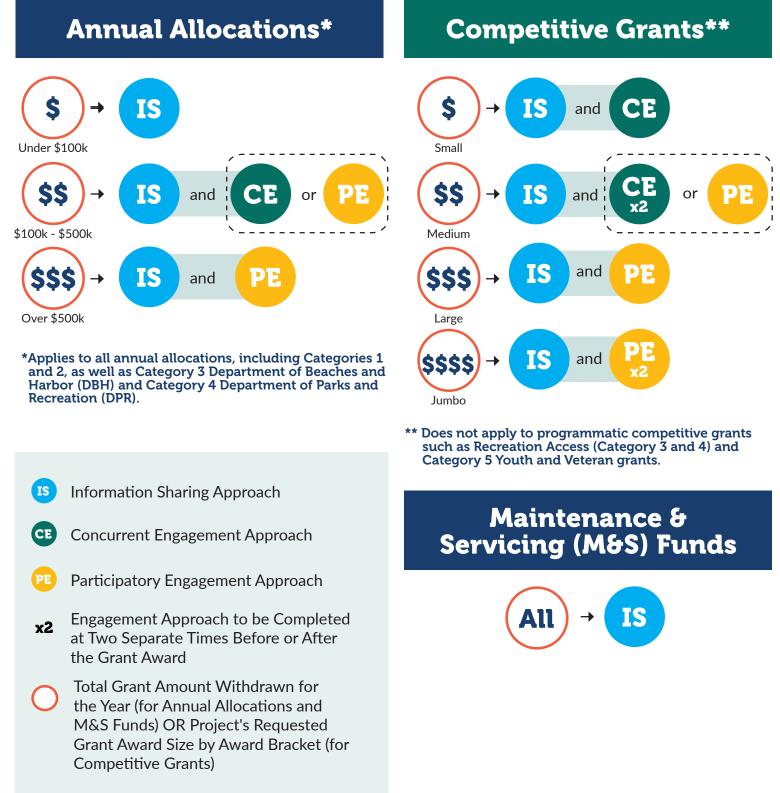

# **Participatory** Engagement

This approach includes meetings, workshops, and other events that solely discuss priority spending of Measure A funds. These events focus entirely on parks and recreation priorities and how Measure A funds should be directed to those priorities

Meetings must intentionally engage the community and solicit meaningful feedback. Participatory engagement methods should be appropriate in scale and type to the particular community.

Depending on project cost, this approach must be used either before and/or after submission of the grant application.

# Find your grant type and award size to determine minimum community engagement requirements:

- **Social Media**
- **Newsletters**

- Community Events
- **City/Neighborhood Council Meetings**

- Workshops
- Town Hall Meetings
