REQUEST FOR INFORMATION
GAIN Vocational Intermediary and Direct Services

1.0 PURPOSE OF REQUEST FOR INFORMATION

- 1.1 The purpose of this Request for Information (RFI) is to determine the extent of interest from qualified agencies in providing the services listed in Section 3.0, SERVICES.
- 1.2 This RFI is issued solely for information and planning purposes. It does not constitute a Request for Proposals (RFP) or a promise to issue an RFP in the future. This RFI does not commit Los Angeles County (County) to contract for any services whatsoever. The County will not pay for any information or administrative costs incurred in response to this RFI. However, the County reserves the right to select one or more agencies with demonstrated capability to provide the requested services as part of this RFI process.

2.0 BACKGROUND ON THE PROPOSED SERVICES

On April 1, 1998, Los Angeles County implemented the California's Work Opportunity and Responsibility for Kids (CalWORKs) program. The County's CalWORKs plan provides for an array of Welfare-to-Work (WtW) activities to prepare WtW participants for employment and job advancement.

In an effort to ensure the availability of these activities, the Department of Public Social Services (DPSS) needs to develop and maintain service provider directories accessed by social services workers to refer WtW participants for vocational/academic training, work experience and supportive services. Also, DPSS must administer non-salaried and paid work experience in order to assist WtW participants to secure unsubsidized career-ladder employment that will lead to self-sufficiency.

2.1 Transitional Subsidized Employment (TSE)

On March 4, 2003, the Los Angeles County Board of Supervisors approved the implementation plan for the TSE program, which provides WtW participants with Paid Work Experience (PWE), on-the-job training (OJT) and vocational classroom training. On February 27, 2007, the Board expanded TSE to include Work Study to enable participants, enrolled in community colleges, to gain PWE in a public setting related to their course of study.

- 2.1.1 The PWE activity allows participants to work along side an organization's regular salaried employees. Participants are paid the minimum wage while learning new skills that help build confidence and self-esteem, along with the development of good work habits and the establishment of a recent work history. A quality PWE assignment helps prepare the WtW participant for unsubsidized employment and self-sufficiency by encouraging responsibility, dependability and a strong work ethic.

2.1.2 The Work Study activity allows WtW participants enrolled in Community Colleges to gain educational and employment experience while providing them with the opportunity for earnings. In the Work Study program, these earnings do not affect the participants' cash grant or Food Stamp benefits.

2.2 Provider Directories

The directories are an inventory of service providers that details the type of services offered and funding sources available. Some examples of services in these directories are Vocational Educational Training, Vocational English-as-a-Second Language (VESL) and Remedial Education which includes Adult Basic Education, General Education Diploma, High School Diploma and English as a Second Language.

3.0 SERVICES

DPSS is looking for interested and qualified agencies that can provide the following services:

2. Update and maintain an inventory of over 400 vocational training providers on GEARS (GAIN Employment Activity Reporting System), a computerized database.
3. Act as intermediary between County, Community Colleges and work experience providers. Also act as intermediary between County and One Stop Career Centers. These Centers are funded by local workforce investment boards and provide job search and career related information and services.
4. Maintain an on-line network of vocational training providers throughout the County of Los Angeles.
5. Act as the employer of record and provide payroll services to WtW participants.
