Explore Your Solar Power Potential!

It's as easy as 1-2-3!

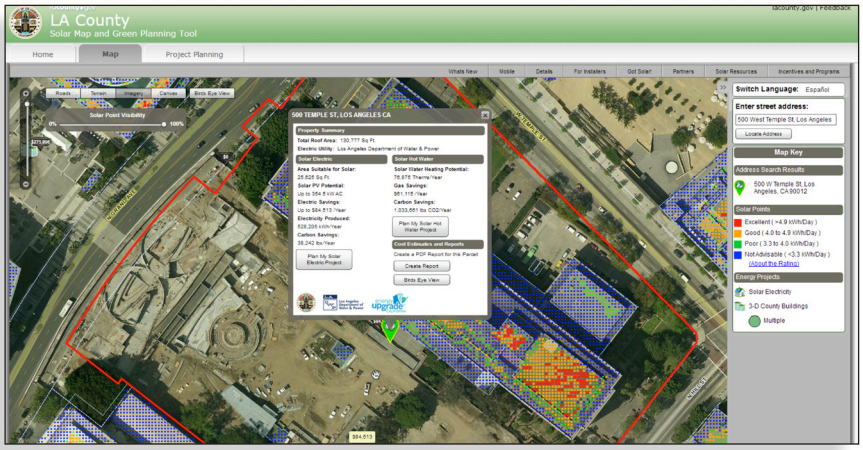
With the *LA County Solar Map and Green Planning Tool*

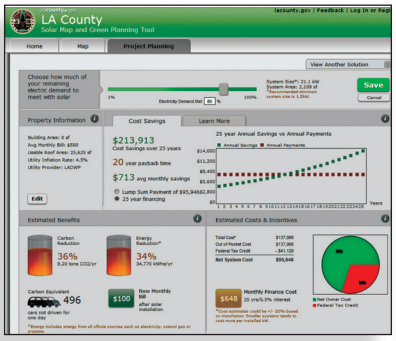
Go to **solarmap.lacounty.gov**

Step 1

Type in your address to find your:

- Roof size
- System size you can install
- Potential electricity production per year
- Electricity savings in dollars per year
- Carbon reduction
- Nearby solar installations and case studies





Step 2

Plan your projects and find:

- The cost of installing solar electric and solar hot water
- Your monthly savings
- Your payback time
- Energy efficiency options from Energy Upgrade CA in Los Angeles County
- Your carbon reduction

Step 3

Find an installer, see **rebates and incentives** and **move forward** with your project.
