Performance Counts!

A performance measurement framework implemented in 2004-05 to report:

- Program Results – do they meet the intent of the County’s efforts?
- Indicators – data available to measure results
- Operational measures – analysis of program quality
Performance Counts!

The performance measurement report helps us answer two fundamental questions:

• **Are County programs achieving the intended results?**

  Example: Are youth employed or in secondary education six months after exiting job training programs?

• **Are County programs provided in the right way?**

  Was the cost of providing service reasonable?
  Was the most effective provider selected?
  Were clients satisfied with the service provided?
Performance Counts!

The 2005-06 Proposed Budget includes a pilot project involving six departments, to align budget with *Performance Counts!* Programs.

At least ten more County Departments will align budget with *Performance Counts!* Programs in the 2006-07 budget, and the program will be expanded to all departments over the next three years.

The Fiscal Year (FY) 2005-06 Children and Families Budget (Budget) continues the implementation process of linking program performance measures with budget allocations, actual expenditures, and funding sources. This Budget represents year four of a five-year implementation plan.

The Budget supports County Strategic Plan Goal 5: Children and Families’ Well-Being by measuring the contribution the County and its partners are making towards improving the five outcomes adopted by the Board:

- Good Health
- Safety and Survival
- Economic Well-Being
- Social and Emotional Well-Being
- Education and Workforce Readiness
The FY 2005-06 Children and Families Budget is $5.2 billion which reflects a 3.6 percent increase of approximately $182.3 million as compared to FY 2004-05.

Proposed spending for children and families accounts for 28.2 percent of the County’s total Proposed Budget of $18.5 billion.
The proposed budgets for the following seven departments account for 98.2 percent of the total Children and Families Budget. The remaining 14 participating departments with programs serving children and families account for 1.8 percent of the total Budget.
Federal, State, Block Grant, and other revenue sources offset 87.8 percent of total program costs. The remaining funding is provided by the County General Fund (12.2 percent).

County departments identified 93 unique revenue sources. DPSS is experiencing the greatest growth in revenue and DCSS is experiencing the greatest decline in revenue.
