Capital Construction Program

COUNTY OF LOS ANGELES CAPITAL CONSTRUCTION PROGRAM

The 2002-03 Proposed Capital Construction Program, as outlined in this Capital Projects/Refurbishments Addendum to the County's 2002-03 Proposed Budget (Addendum), reflects the County's ongoing commitment to expand, improve, replace, and renovate its capital assets and infrastructure. This Addendum presents the appropriation and funding contained in the General Fund and certain Special Funds and Special District budgets for acquisition, design, and construction of new capital assets and refurbishments to existing facilities. In accordance with State Controller guidelines, all Special Fund and Special District capital expenditures are reflected as capital projects. This does not apply, however, to certain infrastructure improvements such as roads, bridges, flood control channels, and water systems, which are exempt from the State Controller's requirements.

Budgeting of Capital and Refurbishment Projects

Annual budgets for capital and refurbishment budgets are based upon the costs that are anticipated to complete each project. The nature and level of these future costs primarily reflect the project's phase within its overall life cycle. Project phases entail:

- Development/Programming — in which the need for the project and its scope are defined, funding sources are identified, and land acquired, if necessary;
- Design — during which construction drawings and environmental documents are prepared and permits are obtained from appropriate jurisdictional agencies; and
- Construction — which begins with the advertisement for construction bids and concludes with the County's acceptance of the completed improvements.

The amount of time required during each stage can vary greatly depending upon the complexity and size of the proposed project, the availability of funding for the capital and ongoing operating costs, and the number and type of required jurisdictional reviews. Generally, most capital projects or refurbishments require a minimum of 18 months to two years to complete. Many projects, especially those involving the construction of large, complex facilities or the extensive refurbishment of existing facilities, may require five years or more to complete. As a result, appropriation for projects is often budgeted over several fiscal years.

As a general rule, a project is initially budgeted at its total estimated project cost. Project appropriations are subsequently decreased in following years as design, consultant and construction contracts are awarded and expenditures are incurred. Certain large projects, however, such as the LAC+USC Medical Center Replacement Project, certain Sheriff Stations, and the Department of Health Services' seismic retrofit improvements, are budgeted each year based upon the anticipated requirements for that year.

Project appropriations and funding levels recommended in the 2002-03 Proposed Capital Projects/Refurbishments Budget and displayed in this Addendum are summarized by Function, Supervisorial District, and Budgetary Fund or Department. A detail of each project also is provided by Operating Budget/Program (i.e., County Department or Special Fund).

2002-03 Proposed Capital Projects/Refurbishments Budget

The 2002-03 Proposed Budget contains \$480.9 million in appropriation for capital projects and refurbishments to meet high priority health, public safety, recreation, and infrastructure needs, as recommended in the Proposed Budget for the General Fund, Special Funds, and Special Districts. The total cost to develop, program, design and construct these projects is estimated at nearly \$2 billion. The appropriation contained in the 2002-03 Proposed Budget represents the estimated budgetary needs in 2002-03 for 351 projects, including 36 new projects and 315 continuing projects. The recommended appropriation is offset, in part, by \$292.2 million in anticipated revenue and other financial resources that are available to support the projects. The following table provides a summary of the appropriation by fund:

2002-03 CAPITAL PROJECTS/REFURBISHMENTS BUDGET BY FUND			
	BUDGET FISCAL YEAR 2001-02	PROPOSED FISCAL YEAR 2002-03	CHANGE FROM BUDGET

LESS REVENUE AND AVAILABLE ACO FUNDS	\$ 304,133,000	\$ 292,169,000	\$ -11,964,000
	-----	-----	-----
NET CAPITAL PROJECTS	\$ 219,620,000	\$ 188,755,000	\$ -30,865,000

The recommended appropriation is funded from a variety of sources, the largest of which is the County's General Fund. Since 1997-98, the Board of Supervisors has designated more than \$315 million of one-time funding from the County's General Fund to support the County's Capital Construction Program.

Of the \$480.9 million of capital projects and refurbishments recommended in the 2002-03 Proposed Budget, nearly \$188.8 million, or 39 percent, is funded through net County cost. Of that amount, \$162.0 million represents funding for projects approved and funded in prior fiscal years, while \$26.8 million represents the Chief Administrative Officer's recommendations for additional one-time funding allocations to provide sufficient appropriation in Fiscal Year 2002-03 for high priority projects.

The remainder of the proposed capital projects and refurbishments are funded with revenue of \$292.1 million, including Federal and State grants, Special Districts, Special Funds, and other funding sources.

The proposed 2002-03 appropriation does incorporate \$2.6 million in new funding made available under the Safe Neighborhood Parks, Clean Water, Clear Air, and Coastal Protection Bond Act of 2000 (Proposition 12), which was approved by California voters in 2000. It is anticipated that the County will receive an additional \$56.8 million in 2002-03 under Proposition 12 and will be eligible to compete for an additional \$43.0 million in competitive grant funds.

On March 5, 2002, California voters also approved the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002 (Proposition 40). The County is eligible to receive \$57.9 million in per capita funding under Proposition 40 and will be eligible to compete for \$12.5 million in additional funds once funding guidelines have been established by the State.

The appropriation of any such additional funding will be incorporated into the Capital Projects/Refurbishments budget once funding levels have been determined and allocated to improvement projects at County parks, beaches, museums, and sites of historical or educational importance.

Major Changes from the Final 2001-02 Budget

The 2002-03 Proposed Budget reflects a net reduction in appropriation of \$42.8 million from the Final 2001-02 Budget. This net reduction reflects estimated project expenses of \$154.8 million in 2001-02 for design and consultant agreements, construction contracts, construction management, and acquisition costs on ongoing projects as well as completed projects that will no longer require budgeted appropriation in 2002-03.

During 2001-02, the County awarded dozens of construction contracts for projects including improvements to five County beaches and 17 park facilities, seismic safety improvements to four buildings at Olive View and Martin Luther King Jr./Drew Medical Centers, and construction of two new 120-bed housing units at Central Juvenile Hall and a replacement facility for the San Dimas Sheriff Station.

Major projects completed in 2001-02 include the expansion of animal shelters in Baldwin Park, Gardena and Lancaster; nonstructural seismic safety improvements at all six County medical centers; construction of new gymnasiums at Jackie Robinson and Pamela Parks, a new nature center at Friendship Park, and a community center at Lennox Park; and major refurbishments at Roosevelt, Manzanita and Belvedere Parks.

The reduction in appropriation related to the estimated 2001-02 expenditure of funds is offset by the inclusion of 36 new projects and additional appropriation for those projects budgeted each fiscal year based upon the anticipated requirements each year.

2002-03 Proposed Capital Projects and Refurbishments By Function

The 2002-03 Proposed Budget's appropriation of \$480.9 million for capital projects and refurbishments provides funding to support 351 projects representing some of the County's highest priority needs in the areas of Education (Public Library), General Government, Health and Sanitation, Public Assistance, Public Protection, Public Ways and Facilities, and Recreation and Cultural Services.

The proposed capital improvements and refurbishments include projects necessary to meet mandated requirements, as well as projects intended to support departmental strategic plan goals to increase efficiency and enhance public services.

Education: Public Library

The 2002-03 Proposed Budget includes \$9.0 million in appropriation, offset in part by available one-time revenue, Public Library fund balance and accumulated capital outlay funds, for eight Public Library projects. Of these projects, the replacement of air-conditioning systems at various facilities is in construction and is expected to be completed in 2002-03 and the replacement of the East Los Angeles Library is scheduled for completion in 2004-05 as part of the East Los Angeles Civic Center Project.

The remaining projects are under development and are pending the identification of sufficient project funding. Such pending projects include a new library facility in the Acton-Agua Dulce area and the potential replacement of the Lennox and La Crescenta Libraries.

General Government

The 2002-03 Proposed Budget includes \$38.2 million in appropriation for projects specific to general government purposes, as well as projects with County-wide implications. The recommended budget is highlighted by appropriation for the following projects:

- \$4.0 million for design of a new Data Center, which will house the County's primary data processing equipment in a seismically strengthened facility. The project is estimated to cost \$65.0 million and design is anticipated to begin near the end of 2001-02 with construction completed in 2006-07;
- \$20.2 million for the \$25.0 million redevelopment of the East Los Angeles Civic Center, which will be constructed in phases beginning in 2002-03 and ending in 2004-05; and
- \$7.3 million for design and development of plans to renovate and/or redevelop the County's El Pueblo de Los Angeles site and surrounding properties. The project is currently in the development stage and the first phases of the project are estimated to cost \$10.0 million.

The recommended appropriation also supports a variety of refurbishment projects for General Government departments, as well as beautification of the Civic Center's Central Plant, construction of the Altadena Community Center, and the seismic renovation of the former Torrance Health Center, the future of which is yet to be determined.

Health and Sanitation

The 2002-03 Proposed Budget includes \$86.8 million in appropriation for Department of Health Services projects. Of the total amount, \$54.2 million reflects the 2002-03 budgetary requirements for construction of the \$818.0 million LAC+USC Medical Center Replacement Project, which is fully funded from State and Federal disaster aid monies, short and long-term financing mechanisms, and fund balance in the LAC+USC Replacement Fund.

Site preparation work for the LAC+USC Medical Center Replacement Project, including demolition of existing buildings and major grading activities, began in March 2001 and is scheduled to be completed in October 2002. Construction of the 1.5 million square foot replacement hospital is anticipated to begin in late 2002 and to be completed in 2006-07.

The recommended budget also includes \$13.9 million in General Fund appropriation to provide design services for projects at the Department of Health Services' five other hospitals to meet requirements under Senate Bill 1953 for structural and nonstructural seismic retrofit of acute care facilities by January 1, 2008. The projects include the retrofit of existing acute care inpatient facilities at Harbor-UCLA Medical Center, High Desert Hospital, Martin Luther King Jr./Drew Medical Center, and Olive View Medical Center at a total estimated cost of \$155.8 million, as well as construction of a 321,000 square foot replacement facility at Rancho Los Amigos National Rehabilitation Center at an estimated cost of \$161.6 million.

The replacement building at Rancho Los Amigos was approved by the Board of Supervisors in December 2001 as a cost-effective alternative to retrofitting the existing buildings that was consistent with the Department's Strategic Plan for service consolidation. These projects began design in 2001-02 and are scheduled to complete construction in 2006-07 and 2007-08.

The remaining projects include various refurbishment projects at existing facilities, including 15 projects funded, in part, by Federal Emergency Management Agency Hazard Mitigation grants. The appropriation also provides for relocation and refurbishment of modular buildings for a new health clinic on the grounds of the Sun Valley Middle School and the possible construction of a satellite health center in Reseda as a companion to the Mid Valley Comprehensive Health Center.

Many of these smaller refurbishment projects are currently being reviewed by the Department to determine whether they should proceed based upon their consistency with the Department's emerging Strategic Plan objectives. All the Department's projects will be continually reviewed and re-evaluated as the Department's Strategic Plan is further developed and refined.

Public Assistance

The 2002-03 Proposed Budget includes \$8.6 million of appropriation for projects supporting public assistance programs. The recommended budget includes \$1.9 million for construction of \$3.0 million in childcare facilities and \$4.8 million for renovation of the MacLaren Children's Center, including renovation/reconfiguration of the dental office and construction of two types of cottages to meet housing and program needs. The MacLaren Children's Center project began design in 2001-02 and is anticipated to complete construction in 2003-04. The recommended budget also includes appropriation to complete the construction of family restrooms at County parks and beaches, as well as renovations to Patriotic Hall.

Public Protection

The 2002-03 Proposed Budget includes \$147.8 million of appropriation for projects supporting the Sheriff, Fire and Probation Departments, as well as the Courts and other public protection agencies.

Coroner: The recommended budget provides \$9.6 million in appropriation for design and construction of a laboratory/autopsy annex for the Coroner. Programming for the facility was completed and design began in 2001-02. Completion of the facility is anticipated in 2005-06.

Courts: The recommended budget provides \$26.8 million in appropriation for projects at County court buildings, offset in part by funding from the Criminal Justice Facilities Temporary Construction Fund and the Courthouse Construction Fund. The recommended budget includes appropriation for the following projects:

- \$12.7 million for the \$14.0 million renovation and expansion of the Long Beach Courthouse, which began design in 2001-02 and is scheduled to be completed in 2004-05;
- \$2.9 million for the \$3.5 million construction of replacement courtrooms at the Santa Monica Courthouse, which is scheduled to begin construction in early 2002-03;
- \$2.3 million for the \$2.5 million refurbishment of the Mental Health Court, which is scheduled for completion in 2002-03;
- \$1.3 million for construction of a new \$1.5 million jury assembly room at the Foltz Criminal Justice Center (formerly the Criminal Courts Building), which began design in 2001-02; and
- \$1.1 million for construction of a \$2.5 million modular replacement courtroom and new jury assembly room annex at the Huntington Park Court, which is scheduled to begin construction in 2002-03.

The remaining appropriation of \$6.6 million supports a variety of projects at various court facilities throughout the County.

Fire Department: The Proposed 2002-03 Budget reflects \$19.9 million in funding for facility renovations and improvements, completion of several projects, and land acquisition, design, and construction of new facilities. The total includes \$8.4 million, offset by developer fees, for land acquisition, development, and construction of new fire stations to serve the high-growth areas of Stevenson Ranch, Valencia, Santa Clarita, and Agoura Hills. The Department's Developer Fee Program was implemented by the Board of Supervisors in August of 1990 to finance additional fire station construction in the Fire Department's urban-expansion areas. Two components of the program are updated annually upon conclusion of a public hearing: the Developer Fee Detailed Fire Station Plan and the Fee Amount. The remaining appropriation provides funding for a variety of refurbishment projects at Fire Department facilities, including two fire camps.

Probation Department: The recommended budget provides \$41.2 million of appropriation, offset in large part by funding from State and Federal grants and revenue from the Criminal Justice Facilities Temporary Construction Fund, for Probation Department projects and is highlighted by:

- \$33.7 million for construction of two 120-bed housing units and an 85-car parking structure at Los Padrinos Juvenile Hall. The \$37.1 million project began design in 2001-02 and is scheduled to complete construction in 2004-05;
- \$6.0 million to complete construction of two 120-bed housing units and a 140-car parking structure at Central Juvenile Hall. The \$36.5 million project began construction in 2001-02 and is scheduled to be completed in 2003-04; and
- \$0.7 million to enclose a portion of the Eastlake Court entry to provide a public waiting area and weapons screening. The \$1.0 million project began design in 2001-02 and is scheduled to complete construction in 2002-03.

The remaining \$830,000 in appropriation provides funding for provision of female showers at Camp Holton and Camp Munz, refurbishment of the female dormitory, and construction of a modular building at Camp Scott, all of which are scheduled for completion in 2002-03.

Sheriff Department: The 2002-03 Proposed Budget includes \$50.6 million in appropriation, offset in part by available one-time funds, for various projects at Sheriff Department facilities. The recommended budget includes appropriation for the following projects:

- \$15.2 million for construction of the \$18.7 million Palmdale Sheriff Station, which is scheduled to begin construction in 2002-03 and to be completed in 2003-04;
- \$9.8 million for the relocation of the Special Enforcement Bureau from its current location in East Los Angeles to the Sheriff's Biscailuz Training Center. The project began design in 2001-02 and is scheduled for completion in 2004-05.
- \$8.4 million for the closure of the landfill at Peter J. Pitchess Honor Rancho and establishment of the required maintenance program, assessment and remediation of fuel contamination at three Sheriff stations, and installation of water clarification systems at 24 Sheriff facilities.
- \$7.3 million for development of the Sybil Brand Institute's Infrastructure Upgrade and construction of dormitories at Peter J. Pitchess Honor Rancho, which are in development pending identification of funding for ongoing operating costs;
- \$3.2 million for completion of construction of the \$12.8 million San Dimas Sheriff Station, which began construction in 2001-02 and is scheduled to be completed in early 2003-04; and
- \$1.4 million for Phase I improvements at the Altadena Sheriff Station, consisting of the replacement of the vehicle service building. Design is expected to start at the beginning of 2002-03 with construction completed in 2003-04.

The remaining \$5.3 million in appropriation supports various refurbishments and capital improvements, including the establishment of a satellite Sheriff Station in East Los Angeles and expansion of the Sheriff facilities in the Lennox/Athens communities.

Public Ways and Facilities

The 2002-03 Proposed Budget includes \$44.7 million in appropriation, fully offset by revenue from State and Federal grants, special funds and other revenue, to provide improvements to Department of Public Works' facilities and the County's infrastructure. The recommended appropriation reflects the following projects:

- \$10.6 million for the Grand Avenue Realignment and Pedestrian Improvements Project. The \$12.7 million project will realign Grand Avenue between Temple Street and Second Street in downtown Los Angeles to enhance pedestrian access along Grand Avenue, to the County Mall and to the Music Center. The project began design in 2001-02 and is scheduled to complete construction in early 2003-04.
- \$7.3 million for land acquisition and various improvements at the County-operated airports that will be completed in 2002-03;
- \$18.5 million for the \$20.0 million seismic upgrade of the Flood Control District's headquarters building, which is scheduled to begin construction in early 2002-03; and
- \$2.9 million for construction of a \$3.4 million traffic management center, which is scheduled to start construction in 2002-03 and be completed in 2003-04.

The remaining appropriation of \$5.5 million provides funding for improvements to various facilities supporting the Flood Control District, the Road Division, and the Sewer Maintenance District.

Recreation and Cultural Resources

The 2002-03 Proposed Budget includes \$120.7 million of appropriation, offset in large part by Regional Park and Open Space District, State and Federal grants, as well as other revenue sources, including funding under Proposition 12 for park, beach, and museum improvement projects.

Beaches and Harbors: The recommended budget provides \$24.3 million in appropriation for Department of Beaches and Harbors projects, including

- \$7.6 million for the \$9.0 million replacement of facilities at Dockweiler State Beach, which are anticipated to begin construction in early 2002-03 and be completed in 2003-04;
- \$2.4 million for construction of a \$3.1 million water infusion system at Marina Beach including the removal and replacement of existing sand, which will begin programming in 2002-03;
- \$2.5 million for the continuation of the \$4.5 million lifeguard tower replacement project, which began in 2001-02 and is anticipated to be completed in 2002-03; and

- \$2.8 million for the \$3.3 million renovation and construction of amenities at Venice Beach, which is scheduled to begin and end construction in 2002-03.

The remaining appropriation of \$8.95 million provides funding for a variety of refurbishments and improvements at various other County beaches.

Museum of Natural History: The recommended budget includes \$475,000 of appropriation for the Museum of Natural History to upgrade its electrical system panel and to provide improvements to meet requirements of the Americans with Disabilities Act.

Parks and Recreation: The recommended budget includes \$95.4 million of appropriation for improvement projects at Department of Parks and Recreation facilities, including the acquisition of additional open space resources. The recommended budget includes appropriation for the following projects:

- \$3.5 million for construction of a gymnasium and renovation of existing facilities at Adventure Park, at an estimated total cost of \$4.2 million. The project began design 1999-2000 and is scheduled to complete construction in 2003-04;
- \$1.9 million for the \$2.2 million renovation of El Cariso Community Regional Park, which began design in 2001-02 and is scheduled to complete construction in 2003-04;
- \$15.2 million for the \$22.0 million renovation of the Hollywood Bowl, which will be constructed in phases and is scheduled to be completed in 2004-05;
- \$0.6 million to complete construction of a \$6.0 million pool building at Jesse Owens Community Regional Park, which began construction in 2001-02 and is scheduled to be completed in 2002-03;
- \$0.7 million for completion of construction of a new \$3.6 million soccer field complex at Kenneth Hahn State Recreation Area, which began construction in 2001-02 and is scheduled to be completed in early 2003-04; and
- \$0.2 million for completion of the \$2.3 million community center expansion and general improvement project at Valleydale Park, which began construction in 2001-02 and is scheduled to be completed in 2002-03.

The remaining appropriation supports a variety of refurbishments and capital improvements at various park facilities throughout the County.

Other Projects

The 2002-03 Proposed Budget includes other appropriation of \$25.2 million, which represents funding provided for high priority projects in each Supervisorial District, for improvements in response to regulatory and/or safety requirements, and for design and development of structural upgrades to the County's identified Un-reinforced Masonry Buildings. No specific locations or facilities have been identified for use of these funds and, therefore, the funding is not identified to a specific function.

Capital Projects Addendum Format

The Addendum organizes and presents projects under each operating budget or program heading as either “Funded” or “Unfunded” based on the Chief Administrative Officer’s funding recommendations. Such recommendations are based upon each project’s level of priority with respect to health and safety requirements, legal commitments, and operational needs, as well as the availability of viable and sufficient financial resources to fund the project’s completion and any future operational expenses.

“Funded” projects include those projects that have been previously approved by the Board of Supervisors and are currently funded and underway, as well as new projects that address a department’s critical capital needs and which can be sufficiently funded.

The Operating Budget/Program Detail in the Addendum provides the following information for each “Funded” project:

- the facility or location of the project and the project name;
- the phase in which the project is anticipated to be as of July 1, 2002;
- the month and year that the project is anticipated to complete construction;
- a summary of the estimated project cost by cost category;
- the total estimated project cost;
- actual project expenditures and revenue in 2000-01;
- estimated expenditures and revenue in 2001-02;
- final budgeted appropriation and revenue in 2001-02;
- the department’s request for appropriation and revenue in 2002-03;
- the Chief Administrative Officer’s proposed appropriation and revenue in 2002-03;
- the change in appropriation and revenue from the 2001-02 final budget; and
- a narrative description of the project, its current status, and the source(s) of project funding.

“Unfunded” projects include capital needs that departments have identified and requested as part of their 2002-03 budget requests, but which are not being recommended for funding by the Chief Administrative Officer. These projects require further study to properly assess the nature and the extent of the capital need, the appropriateness and feasibility of proceeding with the project, and the viability of identifying adequate funding resources for the capital costs and any ongoing operational costs associated with completion of the project.

Total:	\$ 3,125,000

Construction of a water infusion system to increase water circulation at Marina Beach and the removal and replacement of existing sand. These improvements are based on the 1999-2000 Los Angeles County Grand Jury Final Report. The estimated cost for the project is \$3.125 million. \$2.0 million has been allocated from the Governor's Clean Beach Initiative (CBI), which requires a 20% matching requirement of \$400,000. Beaches will transfer \$400,000 from the Marina ACO fund to satisfy this requirement and Beaches is requesting \$500,000 from the State Water Resources Control Board's Cleanup and Abatement Account to fund Phase III of the overall project. Beaches will pursue other grant sources to fulfill the remaining \$225,000 needed for the project.

Construction of a new vehicle ramp and one ADA accessible pedestrian ramp. The project also includes resurfacing the parking lot; replacing the kiosk and portions of the retaining walls/fencing/stairs; and refurbishing the restroom and concession. Construction is scheduled to start in April 2002 and to be completed in November 2002. The project is funded by Regional Park and Open Space District.

Funding held for undetermined future costs associated with Proposition A projects for the Department of Beaches and Harbors within the Third District. Funds to be transferred to individual projects as they are identified.

Funding held for undetermined future costs associated with Proposition A projects for the Department of Beaches and Harbors within the Fourth District. Funds to be transferred to individual projects as they are identified. The increase in the proposed 2001-02 appropriation represents the transfer of prior year appropriation from the Point Vicente Fishing Access project which is on hold until the scope is finalized and funding is identified.

Replacement of 158 existing lifeguard towers that are dilapidated or deteriorating. ISD developed the prototype in 2001-02 and construction of the remaining towers is to be completed in June 2003. This project is currently funded by prior year net County cost from the Fourth District discretionary Capital Project Fund.

Reconstruction or refurbishment of three restrooms to meet ADA accessibility requirements; three parking lots and expansion of one parking lot to restore its original size; and construction of a play area and three concession buildings. Construction is scheduled to begin in November 2002 and to be completed in June 2003. The project is funded by Regional Park and Open Space District.

Construction of a strongback reinforcement system which restored the structural integrity of 728 seawall panels at Marina del Rey and the installation of a cathodic protection system which will mitigate further deterioration of the seawall and extend the usefulness of the seawall for another thirty to forty years. This project is funded primarily through a State loan and the Marina Accumulated Capital Outlay Fund. 2001-02 appropriation budgeted for warranty period incidentals. 2002-03 request represents additional scope for tie rod covers and to fill voids between the seawall and Marina seabed. Approval of the change in scope is pending funding verification and Board approval.

Realignment of Grand Avenue between Temple and Second Street to provide improved pedestrian access along Grand and to the County Mall and Music Center; provision of disabled access to County Mall from Grand Avenue; and enhanced landscaping. Project is funded by State and Metropolitan Transportation Agency grants and other revenue provided by the Music Center and other sources.

Refurbishment of the cafeteria in the basement of the Hall of Administration including improvements to the infrastructure and physical changes to the dining areas and serving lines. Project was completed in 2000-01. Negative estimated actual expenditures in 2001-02 represent cancellation of a prior year commitment.

Structural upgrades to comply with requirements of Chapter 96 of the Los Angeles Building Code related to strengthening of unreinforced masonry buildings. Project is funded by prior year net County cost.

Construction of an alternate exit from the Children's Court parking structure (First District) to an adjacent roadway for use as emergency ingress or egress because the Courthouse has only one vehicular access road. Cost breakdown and schedule to be determined during preliminary design. Expenditures in 2001-02 reflect County costs for: determining easement requirements; negotiation with adjacent property owner; and architect selection. Project is funded by prior year First District Capital Projects net County cost.

=====							

Replacement of existing Antelope Valley Court complex with a new four-story 382,000 square foot facility on Avenue M at Fourth Street West in Lancaster. The courthouse includes: 15 finished full-service custody/jury courtrooms; unfinished space for six more courtrooms; up to 33 judges' chambers; parking for 1,135 vehicles; offices for County departments which support court operations; and a public cafeteria. The project was long-term financed in 2000 with debt service to be paid from the Courthouse Construction Fund. Construction began in the fall of 2000-01 with completion scheduled for the end of 2002-03.

Major refurbishments and infrastructure improvements for the Mental Health Court to maintain current operating levels and mitigate further facility deterioration. The project was approved mid-year by the Board of Supervisors to provide upgrades and/or replacement of: entire building roof; HVAC system; heating boilers and pumps; main electrical service; motor control center; and toilets/lavatories, as well as refurbishment of the public patio/waiting area and painting of the building. Expenditure in 2001-02 reflects mid-year appropriation adjustment.

SOUTH GATE COURTHOUSE (Cont.)							
Project Phase:	Development						
Completion Date:	TBD						
Project Cost Summary	The original project concept was the addition of a modular civil courtroom adjacent to the existing 3-courtroom facility. The project was initiated prior to the merging of municipal courts into one Superior Court system. The project remains on hold due to issues including: lack of additional parking required by adding a courtroom; higher than anticipated construction cost; and reconsideration by the Superior Court of the facility's operational needs in relation to the Court merger.

Total: \$ 11,700,000

Renovation of the East Los Angeles Civic Center including additional parking lot areas; new vehicular access road and new pedestrian walkways; improved security lighting and directional signage; renovation of the park area including the lake and amphitheater; traffic improvements on Third Street and Mednik Avenue; new transit bus stops; child care facility to be developed by a nonprofit organization; and renovation of the existing library facility for use as a municipal services building in accordance with the Strategic Plan for Municipal Services to Unincorporated Areas. Construction will be done in phases beginning in July 2002 and ending in October 2004. Estimated expenditures reflect land acquisition for a new parking lot on Third Street, encumbrance of supplemental architectural design agreements and building demolition. Project is funded by prior year First District Capital Project funds.

Project Phase: Development							
Completion Date: 06/2004							
Project Cost Summary		Construction of a new 6,000 to 8,000 square foot additional station in the vicinity of Plum Canyon Road and Whites Canyon Road. The Fire Department is exploring an agreement with a developer, under which the developer would provide land and construct the station and the Department would purchase the site and facility upon completion, partially offset by developer fees. The new station would be based on the Fire Department-approved Prototype Station Model [developed with DPW in 2001-02] using County inspection and plan-check. The total project cost is a preliminary estimate. Actual cost and schedule will be determined during development and design.

Construction of a 12,000 square foot station at another location to replace existing Fire Station 37 which is too small and antiquated for its service responsibilities. The City of Palmdale will donate land. Design is targeted to begin in 2002-03 with construction completion anticipated for 2004-05.

Replacement of a 63-year old facility that is beyond economical refurbishment with a new 6,000 to 8,000 square foot station. Appropriation will be requested after land acquisition and design start dates are determined.

Renovation of the 10th floor office space located at 3333 Wilshire Boulevard, which is the Department's primary location for examinations and training. Renovations include the relocation of a wall to accommodate the purchase and installation of new modular furniture and related telephone/data equipment for staff offices. Project was funded from savings in the Department's 2001-02 operating budget.

Programming and design of a countywide data center. The facility is to house the County's primary data processing equipment in a seismically strengthened facility. To provide continuous operations the facility will include seismic reinforcement and redundant power systems; air conditioning; and data support systems. The recommended appropriation is funded by unexpended prior year net County cost.

Construction of a 1.5 million square foot state-of-the-art replacement hospital on the LAC+USC Medical Center campus. Site preparation work including demolition of buildings; street improvements; relocation of the entrance to the outpatient building; and grading is scheduled for completion in October 2002. Construction of the major building components is scheduled to begin in December 2002 and to be substantially completed in October 2006. Replacement project is anticipated to have a positive fund balance at year end based upon anticipated expenditures and revenues in 2001-02. Project is funded by Federal and State disaster aid monies; Commercial Paper Proceeds; and fund balance.

Renovation of facilities to comply with Americans with Disabilities Act. The improvements will be completed by the Fairplex Association. The decrease in the 2002-03 Capital Project reflects a transfer of appropriation and prior year net County cost to the Project and Facility Development Fund which will reimburse the Fairplex Association for project costs.

Replacement and installation of storm drain and other infrastructure improvements were completed by the Department of Public Works. There is no project activity reflected in the Capital Project. Project expenditures were accounted for and funded in the Flood Control Budget.

NET COUNTY COST	\$	\$	\$	\$	\$	\$	
Project Phase:	Development						
Completion Date:	TBD						
Project Cost Summary	Development of 9 acres of the 12-acre park site to include: parking lot; restroom; play area; picnic shelter; concrete walkway; landscaping and irrigation; site furniture; park identification signs; equestrian/hiking trail; and fencing. Street improvements to be completed by County Public works. 2001-02 budget adjustment decreased appropriation and revenue to fully fund the land acquisition under C.P. 69189 and to account for prior year expenditures. Proposed project is partially funded by the Regional Park and Open Space District. The balance of the necessary project funding is requested in unfunded C.P. 12971.

Demolition of the existing concession building and construction of a new recreation building. Project is to be funded under the Proposition 12 Per Capita Program. Appropriation and revenue will be included in the Capital Projects Budget upon execution of a State grant agreement.

Refurbishment of the recreation building included: replacement of existing heating and air-conditioning system; interior painting; and replacement of irrigation equipment at the softball field. 2001-02 budget adjustment decreased appropriation and revenue to account for prior year expenditures. Project was funded by the Regional Park and Open Space District.

Design and remediation improvements to mitigate the slope failure. Project is funded by a grant from the Asset Development Implementation Fund and prior year net County cost.

Construction of a new gymnasium with restroom, lobby, and custodial, utility, and storage rooms; installation of a new septic tank/leach field; renovation and expansion of the Carroll Building to include a senior citizens room with ADA compliant restrooms; and construction of public restrooms with outdoor access. 2001-02 budget adjustment decreased appropriation and revenue to account for prior year expenditures. Project is funded by the Regional Park and Open Space District.

Project Phase:	Design						
Completion Date:	12/2004						
Project Cost Summary	Construction of: baseball field; basketball court; open picnic area; restroom; parking lot expansion; multipurpose play field and installation of the park exterior lighting; and general site improvements. 2001-02 budget adjustment increased appropriation and revenue to account for the land acquisition from the non-profit local park association. Project improvements (except for the park exterior lighting portion) will be constructed and funded by the Lighting and Landscape Act Special Assessment Fund. Park acquisition and exterior lighting portion of the project is funded by the Regional Park and Open Space District.

Refurbishment and expansion of existing community building and senior center, landscaping, irrigation, and drainage; and renovation of security lighting and existing parking lot. 2001-02 budget adjustment decreased appropriation and revenue to account for prior year expenditures. Project is funded by the Regional Park and Open Space District; Housing and Community Development Act grant; residual State funding; Park In-Lieu Fees; and prior year net County cost.

Construction of a new gym and additional parking area. Project costs have increased due to increased construction costs. 2001-02 budget adjustment increased appropriation and revenue to fund the additional costs. Project is funded by the Regional Park and Open Space District and Park In-Lieu Fees.

Total: \$ 1,921,556

Slurry seal dual runways, north taxiway, and asphalt overlay of aircraft parking ramp (approximately 1.5 million square feet of asphalt pavement area). Estimated 2001-02 expenditure reflects a mid-year appropriation adjustment which transferred appropriation and revenue from the County Aviation Fund. Project is funded by Federal and State Aviation funds and County Aviation Fund.

seismic retrofit of Department of Public works headquarters including asbestos removal. Recommended appropriation in 2002-03 reflects an increase in scope to accommodate a new seismic retrofit system. Project is funded through Hazard Mitigation Grant funds of \$9.8 million and Flood Control District fund balance.

Pilot program for the design and remodel of Department of Public works headquarters to accommodate a consolidation of staff. This initial project entailed the reconfiguration and remodel of the building's 5th floor. Project is funded by Flood Control District fund balance.

Multiyear refurbishment and reconfiguration of all division office space at the headquarters to be completed in phases. This action is necessitated by the reorganization and space requirements of several divisions; obsolescence of existing workstations due to technological change and ergonomic requirements and the wear and tear of existing furnishings from 13 years of occupancy in the headquarters building. Recommended appropriation in 2002-03 is to complete Phase III of this multiyear project. Project is funded by Flood Control District fund balance.

Programming, design, and construction of a multi-agency regional forensic crime lab to be located on the campus of California State University at Los Angeles. Programming and pre-design activities were funded by State revenue from the Office of Criminal Justice Planning. The decrease in appropriation and revenue reflects a transfer to a trust fund to properly account for non-County capital expenditures.

Refurbishment and upgrade of the existing systems in the currently closed custody facility to meet current code and jurisdictional standards in order to reopen the facility with a 972 rated bed capacity for female inmates. Project costs decreased to reflect a transfer of prior year net County cost to the Altadena Sheriff Station Phase I Service Building Project C.P. 77050 for design and construction. Project is funded by the Inmate Welfare Fund.

Installation of new water clarifier system to environmentally control run off water from car washing. Project is funded by surplus interest earnings on bond proceeds.
