This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

2009 Population Source: LA County Internal Services Department (based on the 2000 US Census and CA Department of Finance estimates).

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates.

2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Per the FBI UCR Guidelines Homicide, Rape and Aggravated Assault are counted by victim. All other crimes are counted by incident, except Arson which is always counted.

2009 Population Source: LA County Internal Services Department (based on the 2000 US Census and CA Department of Finance estimates).

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates.

2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates.

2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Per the FBI UCR Guidelines Homicide, Rape and Aggravated Assault are counted by victim. All other crimes are counted by incident, except Arson which is always counted.

2009 Population Source: LA County Internal Services Department (based on the 2000 US Census and CA Department of Finance estimates).

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates.

2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Per the FBI UCR Guidelines Homicide, Rape and Aggravated Assault are counted by victim. All other crimes are counted by incident, except Arson which is always counted.

2009 Population Source: LA County Internal Services Department (based on the 2000 US Census and CA Department of Finance estimates).

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates.

2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

 2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates. 2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.  
 Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates. 2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates. 2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

 2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates. 2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.  
 Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

Per the FBI UCR Guidelines Homicide, Rape and Aggravated Assault are counted by victim. All other crimes are counted by incident, except Arson which is always counted.

2009 Population Source: LA County Internal Services Department (based on the 2000 US Census and CA Department of Finance estimates).

2013 Population Source: LA County Internal Services Department (based on the 2010 US Census and CA Department of Finance estimates). 2014 YTD Crime Rates based on 2013 population estimates. 2013 population estimates updated for the city of Santa Clarita and the Santa Clarita Valley Station unincorporated area, due to 2012 year end annexations.

Crime counts for patrol station areas only; red depicts +30% increases and green depicts -30% decreases. N/C = Not Calculable

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.

This PRELIMINARY INFORMATION is used on an ongoing basis by the LASD for strategic planning and as a tactical early warning system. This data is not final and thus is not the crime data that is reported to the FBI Uniform Crime Index (UCI). This is because some of the most recent reports have not been written yet, nor reviewed by investigators. Once it is reported by investigators and supervisors, the crime data is reported to the FBI/UCI and is available via the pertinent LASD patrol station, pending publication by the FBI/UCI. Once it is reported by the LASD to the FBI, the FBI/UCI crime data is considered the most accurate.
