

Los Angeles County

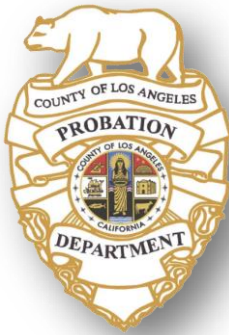

PROBATION DEPARTMENT

PUBLIC DATA SHARING 2019 QUARTER ONE REPORT

Capturing data for the following time period:

January 2019 through March 2019

INFORMATION IS SUBJECT TO CHANGE

DEFINITIONS

ASSAULT: Any instance in which a youth or staff member is involved in a physical contact with another individual(s), even if no one is injured. This includes unprovoked and provoked attacks and sexual assaults. Distinctions should be made between assaults and fights where fights are defined as mutual physical attacks.

DIRECT ASSAULT:

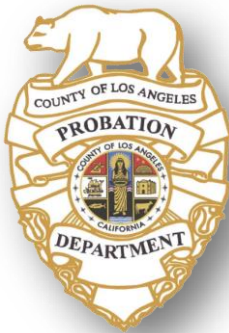

- a. Intentionally struck by the youth.
- b. Intentionally grabbed or pushed by the youth but not struck.
- c. Hit by a stationary object, door or fell to the floor due to youth.

INCIDENTAL ASSAULT:

- a. Struck or injured by youth during a restraint or a fight.
- b. Youth pushed past the staff attempting to block their path.
- c. Youth hit the staff's hands or grabbed an object from them.

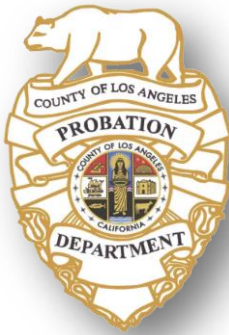

OTHER/MISCATEGORIZED:

- a. Attempted Assault/Did not make contact.
- b. Miscategorized/Undetermined.

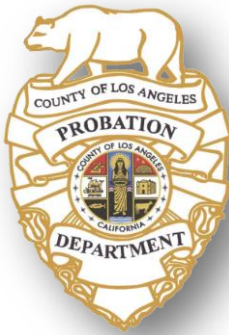

Safe Crisis Management: Physical intervention utilized by deputized Probation staff to physically restrain or separate youth. Our intervention levels are defined below:

- a. **LV1: Step Between (Disengagement)** – The Officer physically places themselves between youth and object/person of aggression and utilizes an open hand guiding movement to separate them.
- b. **LV2: Extended Arm Assist (Standing Assist)** – The Officer uses straight extended arms and hands to control the youth by holding them by the arm and shoulder to physically redirect them away from the situation or prevent escalation of negative behavior.
- c. **LV3: Cradle / Upper Torso / Hook Carry Transport** – These interventions involve an Officer physically restraining the youth's upper body or arms so that they cannot move or act out physically to harm themselves or others.
- d. **LV4: Seated Cradle / Seated Upper Torso / Hook Carry to The Floor** – These interventions involve an Officer physically restraining the youth while he/she is in the seated position, they begin from LV3 interventions where the youth is standing then physically transitioned to a sitting position to afford more control to the staff member.
- e. **LV5: Prone Torso / Prone Bridge / Supine Torso / Supine Extension** – These interventions involve the youth being restrained while on the ground in some form of laying position for a higher level of control used on combative youth. If any of the above listed interventions (LV1-LV4) result in the youth falling to the ground (even if accidental), it is considered an LV5 assist.
- f. **LV6-SR: Soft Restraints** – Staff utilizes department approved soft restraint devices to secure a combative youth's limbs to prevent them from causing harm to themselves or others.
- g. **LV6-OC: Chemical Agent** – The Officer utilizes OC spray in an emergent situation or after other interventions have failed.

HOPE Center: Assignment of a youth to the HOPE Center for stabilization purposes provides a temporarily supervision alternative designed to minimize dangerous behaviors that compromised the safety and security of the youth and staff in the facility. HOPE centers contain spaces where youth may “cool down” as well as single rooms to be used as a last resort for stabilization to preserve safety for everyone.

- a. Adjacent Juvenile Camps share HOPE Centers. The following camps utilized HOPE Centers in supporting camps:
 - i. Camps Afflerbaugh and Paige utilize the Camp Rockey HOPE Center.
 - ii. Challenger Memorial Youth Center (CMYC) HOPE Center includes: Camp McNair, Camp Onizuka and Campus Kilpatrick.
