

Los Angeles County Probation COVID-19 Weekly Update October 2, 2020

L.A. County Probation COVID-19 at a glance for the week ending Oct. 2, 2020

Youth testing positive for COVID-19 this week	5 (Tested positive upon admission)
Number of youth currently isolated from general population due to a positive COVID-19 test	5
Total number of youth testing positive upon intake since pandemic began	52
Total number of existing youth testing positive since pandemic began	21
Youth tested for COVID-19 this week	66
Total number of youth tested for COVID-19 since pandemic began	1,776 (1,047 youth tested upon admission; 502 tested from juvenile hall general population, 222 tested from camp general population.)
Probation staff testing positive for COVID-19 this week	4
Probation Juvenile Institution staff testing positive for COVID-19 since pandemic began	76
Probation field and administrative staff testing positive for COVID-19 since pandemic began	90
Number of youth currently under quarantine due to exposure to individual testing positive for COVID-19	49

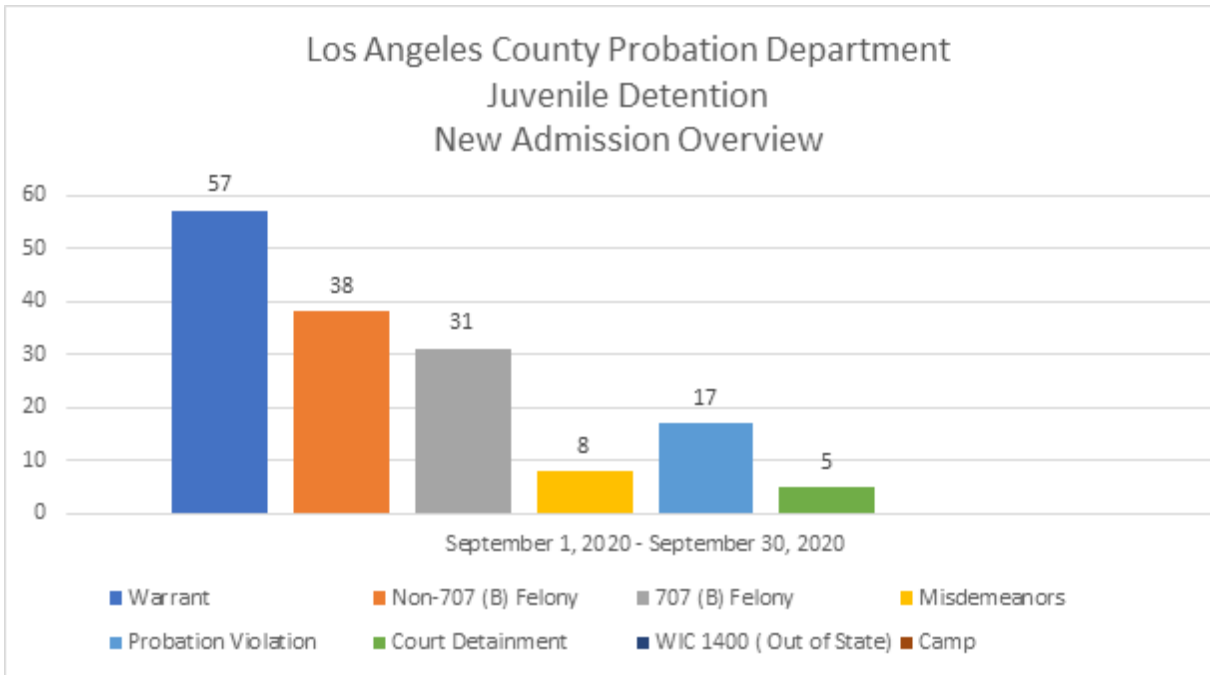

Juvenile Division

Reducing the Population in Juvenile Facilities

Over the last week, the Los Angeles County juvenile hall population rose from 308 to 322 and the juvenile residential camp population dropped from 200 to 195 over the same period. Since March 2, the juvenile hall population has decreased by 229 youth, or 41.6% and the juvenile camp population has decreased by 94 youth, or 32.5%.

The chart below illustrates the new admission overview for the month of September:

The chart below illustrates the cumulative new admissions and releases for the month of September:

There were 150 new admission youth detained in juvenile halls during the last 30 days. The population has remained steady due to the number of releases from juvenile hall and camps. There were a combined 166 releases from detention.

Health Care Services

Juvenile Court Health Services (JCHS) continues to work with Probation facility staff regarding the care of the youth in the Quarantine and Isolation units to prevent potential spread of disease. JCHS nurses have trained selected Probation staff at the juvenile halls and camps for the use of infrared thermometers on all staff and visitors upon entry to the facility. A DHS Infectious Disease specialist is assigned to assist correctional facilities. He is a clinical resource for medical staff to help workflow and answer clinical questions.

The Department has continued to partner with JCHS to develop telemedicine services for assessment and consultation by medical staff and to build 24/7 capacity that currently does not exist. Telemedicine workstations are now operational in all juvenile halls and camps.

L.A. County Probation and Juvenile Court Health Services (JCHS) continues to closely monitor the health of youth in Probation juvenile facilities. Besides testing youth displaying possible COVID-19 symptoms, all youth who are entering and departing juvenile hall for another facility are tested for COVID-19. Youth who have tested positive are housed in a designated isolation unit, separate and apart from other youth until cleared by medical staff to return to a traditional housing assignment. Additionally, all youth in juvenile facilities are provided with masks.

Staff Health and Screening Measures

The Department is screening every person entering a juvenile detention facility. Those attempting to enter a juvenile hall or camp at any time are required to verbally respond if they currently have new or worsening symptoms of a respiratory illness. If the individual's response is that they are experiencing symptoms, they will be restricted from entering the facility that day.

The department is also conducting infrared temperature checks on all individuals entering juvenile facilities.

Employees testing positive are legally entitled to privacy and we will provide no further details at this time. For each employee who has tested positive, the County will notify potential workplace contacts, including other employees who may have been in close contact with the COVID-19 positive individual. All Probation staff have been instructed to wear face coverings in line with County and State Health Orders as part of an employee outreach campaign.

Staffing of Juvenile Facilities

The Department ensures that all critical security and safety posts are staffed as required by the Board and State Community Standards and in accordance with the Department's Emergency Operations Plan. Contingency plans have been developed and put in place if facilities are not adequately staffed. Juvenile and Adult Field Operations have been designated to assist and have continued to report to the halls and camps since March 23, 2020. Additionally, 43 transportation deputies have recently been deployed to halls and camps.

Expanded Precautions at Probation Offices and Facilities

In addition to efforts outlined in past updates, Probation has made additional efforts to keep youth and staff safe from COVID-19:

- The Department has issued masks to all staff and youth in juvenile halls and residential camps.
- Flu shot clinics are being planned for staff in juvenile institutions. JCHS is making plans for the vaccination of youth against the seasonal flu as well.
- The Probation Department continues to receive additional supplies to assist with cleaning and enhanced safety measures. The field offices have continued to establish safety plans and ordered equipment such as plexiglass barriers necessary for public reopening.
- All Probation facilities have been instructed to conduct additional deep-cleaning efforts in high-traffic, high-volume areas, including visiting and health care facilities. Staff have also been granted permission to carry personal-use hand sanitizer. Public Health guidelines are reinforced daily to all staff and youth of the importance of social distancing and frequent handwashing.
- The Department held a town hall with staff October 1 to answer staff questions about COVID related issues, including reopening of facilities and procedures if staff are sick.

Youth-Parent Communications

Last weekend, 76 youth received a visit in the juvenile halls and 75 youth received a visit in the camps. During in person visitations, parents and family members follow safety precautions put in place, including outdoor visits, physical distancing, usage of hand sanitizing stations and having their temperature checked via infrared thermometers as well as a designated custodian who is responsible for cleaning chairs and tables after each visit. Procedures for visiting are sent out to parents as well as posted on the [Probation website](#). Increased collaboration and partnership with JCHS and the Department of Public Health takes place to ensure health and safety is properly addressed as visiting sessions are reopened. The resumption of visitation at facilities is taking place as a phased, week by week approach, with safety focused criteria dictating the pace and locations.

In addition to in person visiting, the Department utilizes virtual platforms to keep families connected. Youth are able to make free phone calls to families and are also provided with

supplies for letter writing. The Department pays for all postage regardless of the number of letters a youth sends out.

Other Juvenile Facilities Highlights

- Probation Education Services has partnered with the Los Angeles County Registrar-Recorder's office to provide voter registration information to youth in the detention facilities. This initiative builds a sense of belonging, civic responsibility, and assists in community building. Education Services staff trained in voter education and are actively engaging with the youth to support them into the voter registration process. The pre-registration services are provided to youth between the ages of 16 and 17. The youth who are 18 years of age and older have completed their voter registration forms and are eligible to vote during elections.
- The Los Angeles County Office of Education has begun a project to install Wi-Fi networking in the living units at juvenile facilities.

Efforts to Address the Medically Fragile Population in Detention Facilities

The Probation Department does not currently have any youth with compromised immune systems or other medical conditions placing them at higher risk for COVID-19 infection. Juvenile Court Health Services (JCHS) has identified two youth in care with underlying medical conditions which might exacerbate the impact of such infection if one were to occur and JCHS and the Probation Department are working together on individualized plans to address their care.

Mental Health Services

The Department of Mental Health (DMH) implemented virtual counseling kiosks in Juvenile facilities to supplement the existing in person services provided to youth.

School for Youth in Juvenile Facilities

Los Angeles County Office of Education (LACOE) efforts to provide a quality education to youth in Probation facilities during the pandemic can be found at <https://www.lacoe.edu/LACOE-Schools/Covid-19-Distance-Learning-Plan>.

Virtual Court Hearings

Video Court for the juvenile facilities continue to operate effectively. A youth that needs to attend court but is in a quarantined unit will not be transported to court.

Juvenile Placement Update

As of October 1, there are 259 youth placed in short term residential treatment programs (STRTP). There are 208 youth placed in state and there are 30 youth placed in out of

state residential programs and 21 youth placed with resource families. There are six STRTP youth in quarantine in state and six in quarantine out of state.

On September 27, a youth placed at the Penny Lane Satellite STRTP tested positive for COVID-19. The youth remains isolated and is in compliance with the safety measures set in place. The Department of Public Health (DPH) provided support and guidance for all safety protocols. The youth and staff who were in direct contact with the positive youth have been quarantined for 14 days.

Adult Division

Field Probation COVID-19 Precautions and related activities

Area offices remain closed to the public. Deputy Probation Officers continue to maintain contact with probation clients by phone, email and videoconference. Clients are encouraged to reach out to their assigned probation officer as well. The Department continues to conduct field visits and is prioritizing cases where there are vulnerable victims, sex offenders, and any other circumstances that are considered high risk or require special attention. In addition to conducting safety checks, officers are providing COVID-19 Public Health information and resources. Additionally, the Department released a notice instructing adult field DPOs to work with clients experiencing financial difficulty as it relates to fines and fees. Adult clients continue to receive housing support through contracts with the Health Right 360 housing services.

Deputy Probation Officers assigned to the Adult Division also continue to support the staffing in juvenile institutions.

CDCR Accelerated Release Project

The Probation Department continues to receive new clients for AB109 supervision due to early prison release dates from the California Department of Corrections and Rehabilitation (CDCR). There have been 2622 early releases from April through Sept. 30. The AB109 Program continues to provide housing referrals to clients who are experiencing homelessness. During the month of September there were 27 clients identified as homeless. All homeless clients were provided housing referrals. As of Sept. 30, there have been 12 CDCR early releases on isolation status and 142 on quarantine status.

The chart below illustrates the early releases from CDCR to the Los Angeles County Probation Department since April 2020.

Of the 2,622 projected early releases there were 1,975 clients that reported to the Probation Department hubs for orientation. 184 were issued warrants, 82 remained in custody and 381 were released to areas out of Los Angeles County, received closed cases or were referred to the State Parole department for supervision.

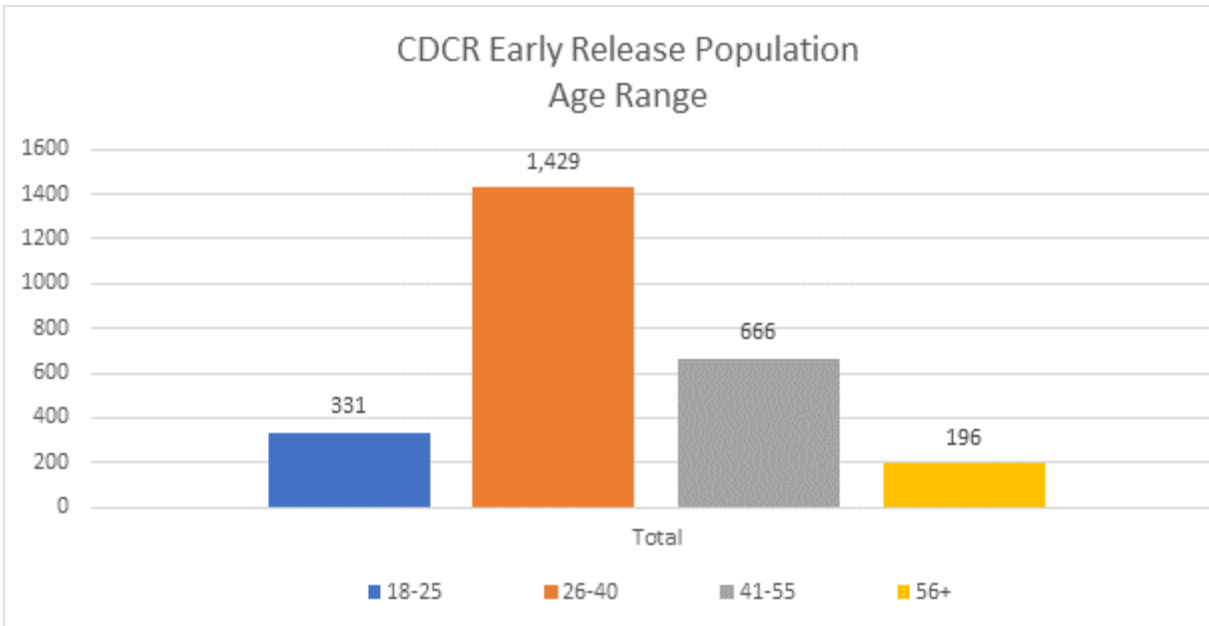

The chart below illustrates the CDCR early releases by supervisorial district:

Communication with the Public

For information or services, clients and members of the community may call the juvenile facilities. For general questions, please contact the Probation Information Center at 866-931-2222 Monday-Friday from 8 a.m. to 5 p.m.

Future Updates

The care of youth in Probation facilities is a joint effort between the L.A. County Probation Department, Juvenile Court Health Services, Department of Mental Health and the Los Angeles County Office of Education. During the COVID-19 crisis, these agencies have collaborated to create an environment of safety and stability for the youth under their care.

We are pleased that the situation in our juvenile facilities has remained largely stable during the COVID crisis and this creates an opportunity to respond to your needs for additional information about the situation. Accordingly, we invite questions related to the County's response to COVID-19 in its juvenile probation facilities or topics you would like to see addressed in future updates. Please email any questions to prob-news@probation.lacounty.gov and we will select questions and provide responses in future weekly updates. Please note that we cannot discuss the circumstances of any individual youth assigned to probation facilities or any pending litigation.
