

**Los Angeles County Probation  
COVID-19 Weekly Update**

**April 2, 2021**

**Efforts to address the medically fragile population in detention facilities**

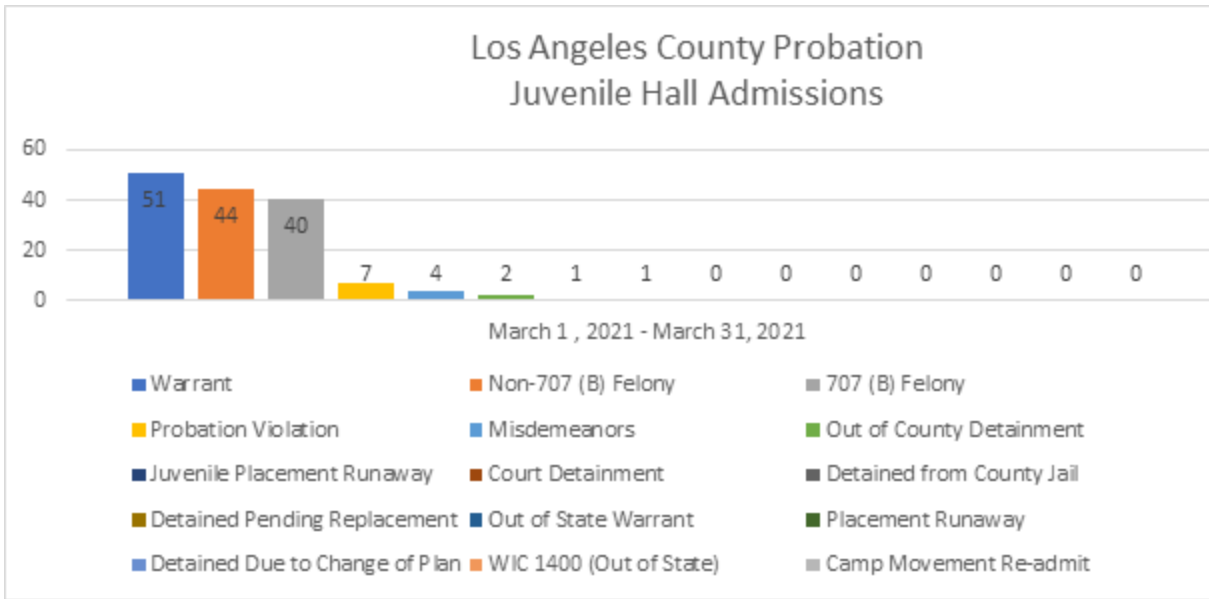

The Probation Department currently does not have any youth with compromised immune systems or other medical conditions placing them at higher risk for COVID-19 infection. As of March 31, 2021, Juvenile Court Health Services (JCHS) has identified 14 youth in care with underlying medical conditions which might exacerbate the impact of such infection. There are 10 youth in the juvenile halls and 4 in camp. If infection were to occur JCHS and the Probation Department will be working together on individualized plans to address their care.

**Efforts to further reduce population in adult and juvenile detention facilities while balancing public safety**

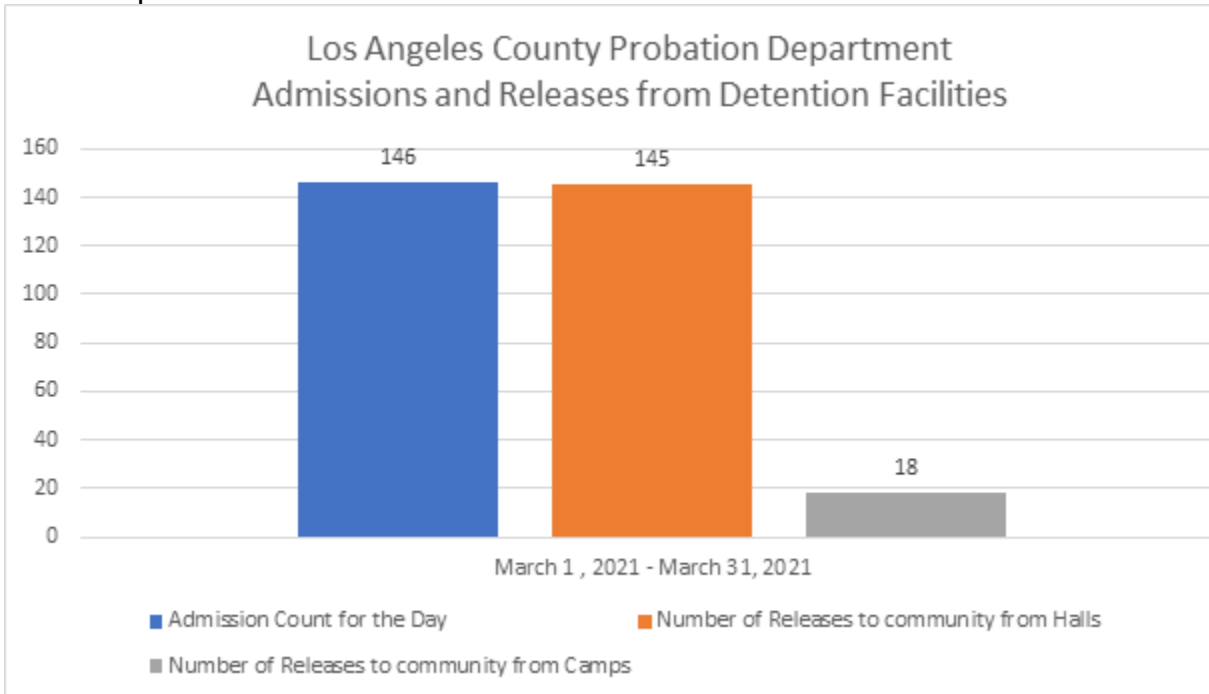

The Probation Department's juvenile detention population has declined during the COVID-19 pandemic. On March 2, 2020, the total juvenile detention population was 840.

On March 31, 2021, the total population was 411. The population for the two juvenile halls was 266 and the population for the five camps was 145. Since last week, the population in the juvenile halls increased by 22 and the camp population decreased by five.

The chart below illustrates the new admissions into detention for March 2021. During the month of March, a total of 150 youth entered juvenile hall. The vast majority were detained for felony offenses (56%) and outstanding bench warrants (34%).

The chart below illustrates the total number of youth that were admitted to juvenile hall and the number of youth released from juvenile hall or camp during the month of March. There were 146 admissions and 163 releases. Of the 163 releases, 145 youth were released to the community from a juvenile hall, and 18 were released from camp.

The California Department of Corrections and Rehabilitation (CDCR) continued to schedule early releases from California prisons to the Probation Department AB109

program. For the month of March, there were 44 early releases. Since April 2020, 2,990 individuals were released early from CDCR.

### **Efforts to provide resources to support those released from jails, and juvenile detention facilities to prevent homelessness**

The Probation Department continues to make efforts to reduce the population in juvenile halls by releasing youth to parents, guardians, and suitable placements when appropriate. Youth are not released into the community without a place to live.

The Probation Department continues to partner with CDCR to receive early releases from California prisons to AB109 supervision in the communities. All homeless adult clients are provided with housing referrals. In the month of March, the AB109 program received 9 CDCR releases that required referrals for housing.

### **Plans for quarantining and isolating youth in custody**

The Probation Department continues to utilize the plans for quarantine and isolation in accordance with the Public Health Order to reduce the transmission of COVID-19. All isolations and quarantines in detention facilities continue to occur in partnership with JCHS personnel. Upon entry to probation facilities, all youth continue to be tested for COVID-19 and remain apart from the general population and living units under quarantine.

As of March 31, 2021, 226 youth have tested positive for COVID-19. There were 113 youth who tested positive for COVID-19 upon admission and 113 youth who tested positive while in care. The youth in care were from the following facilities: 44 at BJNJH, 15 at CJH, 15 at Camp Joseph Paige (CJP), 14 at Dorothy Kirby Center (DKC), 9 at Camp Glenn Rockey (CGR), 7 at Camp Clifton Afflerbaugh (CBA), and 9 at Campus Vernon Kilpatrick (CVK).

As of March 31, 2021, there were no youth under quarantine due to a possible exposure to a person testing positive for COVID-19. Youth residing in quarantine living units do not interact with youth in non-quarantine living units.

All juvenile hall living units and camps under quarantine have full programming. Youth under quarantine continue to have access to virtual visiting and an increase in telephone communication with families. The youth in quarantine continue to participate in programming with their living unit, with limits set to avoid interaction with the non-quarantined youth. The youth under quarantine in juvenile halls have individual laptops for virtual remote learning services, provided by the Los Angeles County Department of Education (LACOE).

The quarantined youth in camp continue to have programming and activities. The camps under quarantine remain closed to newly admitted youth who have been given camp dispositions from juvenile court. Quarantined units are precautionary measures that have been placed due to a possible COVID-19 exposure and the youth are monitored to identify illness if present.

### **Increased washing of hands, hygiene, additional cleaning supplies and custodial services**

The Probation Department has continued to utilize the hygiene and cleaning plans outlined in the first weekly update. The Probation Department continues to receive additional supplies to assist with cleaning and enhanced safety measures. The field offices have safety plans in place that evolve to keep pace with local and state health orders.

### **Screening of youth, focus on healthy staffing in the detention facilities**

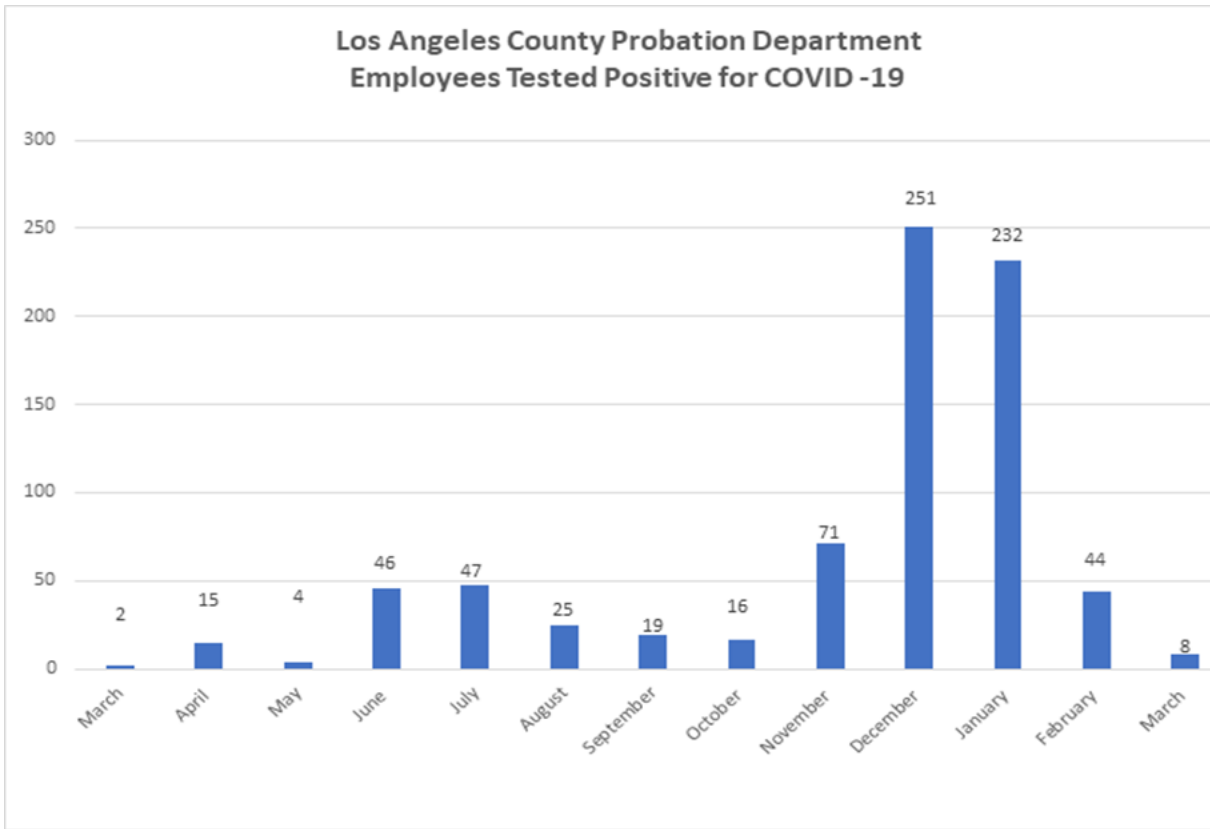

The Probation Department continues to screen newly detained youth upon their arrival to juvenile hall. They are separated from other youth until negative COVID-19 results are received. Employees continue to be screened prior to their entrance into detention facilities. Youth who have tested positive remain in medical isolation and those youth who potentially have been exposed are quarantined and continue to be monitored by JCHS.

Additional information:

- As of March 31, 2021, there have been 3,991 youth that have tested for COVID-19 since testing was initiated on May 3, 2020.
- There have been 2,195 youth tested upon admission in juvenile halls; 1,280 tested from juvenile hall's general population; and 516 tested from the camp population.

### **Information on Probation Employees' COVID-19 status**

As of March 31, 2021, 780 Probation Department employees have tested positive for COVID-19. Of the 780 employees, 388 employees work in juvenile facilities and 392 work in field offices, which includes 3 contract employees. During the month of March, there were 8 employees who tested positive for COVID-19 which is a significant drop from last month's total of 44 employees. The chart below illustrates the monthly breakdown of COVID-19 positive cases among Probation employees since tracking them in March 2020.

The Probation Department continues monitoring to ensure employees are wearing masks, washing hands, and maintaining physical distancing.

**In person visitation and virtual visitation continue to keep families connected and increase communication.**

There were 144 in-person visits in the juvenile halls and camps this past weekend, the same amount as the previous weekend. Specifically, 104 visits occurred in the juvenile halls and 40 occurred in the camps.

**Additional Information**

As of March 31, 2021, there were 242 youth in Short Term Residential Treatment Programs (STRTP) and 19 youth with Resource Families. There were no youth who had to quarantine in their STRTP for possible exposure to someone with COVID-19. In addition, no youth have tested positive COVID-19.

 SHARE

*The Los Angeles County Probation Department is committed to rebuilding lives and providing for healthier and safer communities for all 10 million residents of Los Angeles County. Through a variety of programs, community partnerships and services, the Probation Department's mission is to enhance public safety, ensure victims' rights and effect positive probationer behavioral change. The Probation Department comprises nearly 6,100 employees and has an operational budget of \$900 Million as of 2019.*
