**Agenda Item IV**

1. Gregg Johnson

Department of Arts and Culture has been requested to immediately begin the planning and implementation of services to youth in the BJN compound. For this and other reasons, please advocate for Arts and Culture to be apprised of the approval for carry-over funding from 20-21. Many of those funds were prevented from being utilized because of the pandemic, and there are high priorities for the reallocation of this carryover amount..
