I. EXECUTIVE SUMMARY

Juvenile Justice Crime Prevention Act (JJCPA), formerly known as Schiff-Cardenas Crime Prevention Act of 2000, provides the County of Los Angeles (the “County” or “LAC”) with an annual allocation of State funds to develop and implement a comprehensive multiagency juvenile justice plan (CMJJP).¹ As mandated by the JJCPA, the CMJJP is developed by the local juvenile justice coordinating council (JJCC).² The CMJJP shall include, but not be limited to, all the following components:³

1. An assessment of existing law enforcement, probation, education, mental health, health, social services, drug and alcohol and youth services resources which specifically target “at-risk,” also known as “at-promise” youth,⁴ juvenile offenders, and their families.
2. An identification and prioritization of the neighborhoods, schools, and other areas in the community that face a significant public safety risk from juvenile crime, such as gang activity, daylight burglary, late-night robbery, vandalism, truancy, controlled substance sales, firearm-related violence, and juvenile alcohol use within the council’s jurisdiction.
3. A local action plan for improving and marshaling resources to reduce the incidence of juvenile crime and delinquency in the areas targeted pursuant to the prioritized areas and the greater community. The JJCC shall prepare their plans to maximize the provision of collaborative and integrated services of all relevant resources and shall provide specified strategies for all elements of response, including prevention, intervention, suppression, and incapacitation, to provide a continuum for addressing the identified male and female juvenile crime problem, and strategies to develop and implement locally based or regionally based out-of-home placement options for youth who are deemed a ward of the court by the juvenile court.

Since its inception, the County’s CMJJP has included strategies that provide community-level prevention and intervention programs, and services that target “high-risk” neighborhoods and focus on achieving success for probationers and at-promise youth. These services have been and continue to be provided through the collaborative efforts of governmental agencies and community-based organizations. Proper use of JJCPA funding and development of the CMJJP is guided by an integrated and collaborative approach to reducing crime and delinquency through leveraging existing resources and resourcing a continuum of evidence-based and promising programs for youth in communities of high need.

¹ Government Code, section 30061

² See: Welfare and Institutions Code, section 749.22

³ *Ibid.*

⁴ Government Code, section 30061 uses the term “at-risk,” however, the modern trend is to substitute the term “at-promise.” For example, in 2019 California Assembly Bill No. 413 removed the term “at-risk” and replaced it with “at-promise” in the California Education and Penal Codes, such that “at-promise” has the same meaning and effect as “at-risk.” While AB 413 did not change the JJCPA’s use of “at-risk,” the JJCC adopts and affirms the use of “at-promise” to validate the experiences and potential of the young people along the continuum of need and levels of interaction with the justice system. Therefore, the JJCC and this CMJJP shall use the term “at-promise” in lieu of “at-risk.”

The process to develop the annual CMJJP and JJCPA funding allocations legally must include:

- A Mission Statement and clear goals
- Guiding Principles to ensure programs and services align with intended outcomes
- A framework based on a Continuum of Care Model to allocate relevant resources
- Unbiased evaluation of services provided
- Data to prioritize neighborhoods, schools, and other areas that pose a risk to public safety

The methodology used to develop the annual CMJJP, and funding allocations ensures that:

- The JJCC maintains the alignment of JJCPA funded services to the youth population to ensure the County is meeting the needs of its at-risk and justice-involved youth
 - LGBTQIA+, racial disparities, geography, pop. characteristics (2017 Probation Workgroup Report)
- The underlying CMJJP framework is used to allocate JJCPA resources
- The JJCC uses the best data available to define the needs of youth in the County
- The JJCPA funding allocation process remains transparent, efficient, and in line with County budgeting process guidelines
- The CMJJP is based on “programs and approaches that have been demonstrated to be effective in reducing delinquency and addressing juvenile crime for any elements of response to juvenile crime and delinquency, including prevention, intervention, suppression, and incapacitation,” in accordance with the law that governs JJCPA funding.

The JJCC allocates JJCPA funds to:

1. Programs, which are ongoing services supporting at least one strategic goal with clearly defined objectives and outcomes, funded by ongoing revenues. Programs are selected by the JJCC based upon the CMJJP Mission and the Based Funded Goals and Guiding Principles, which may be found in *Section IV., Mission and Guiding Principles*, on pages 21- 22 of this document.
2. Projects, which are temporary endeavors undertaken to create a unique product, service, or result in support of a strategic goal. Projects are considered based upon the CMJJP Mission and the Growth Funded Goals and Guiding Principles, which may be found *Section IV., Mission and Guiding Principles*, on pages 21-22 of this document.

II. JJCPA Evaluator’s Update

a. Summary of 2023 JJCPA Evaluator’s Report from RAND Corporation

Summary Based on: Applegarth, D. Michael, P’trice Jones, and Stephanie Brooks Holliday, Promising Services for Justice-Involved Youth: A Scoping Review with Implications for the Los Angeles County Juvenile Justice Crime Prevention Act. Santa Monica, CA: RAND Corporation, 2023. https://www.rand.org/pubs/research_reports/RRA1663-2.html.

In 2022, RAND Corporation (the JJCPA evaluator) conducted a scoping review of the literature on services for youth involved in the juvenile justice system (Applegarth, Jones, & Brooks Holliday, 2023). Their review included 162 studies published since the year 2000 focused on programs and services administered in the United States. The review found varying levels of evidence for the services described in the literature, with findings summarized here.

Many studies focused on programs offering alternatives to traditional adjudication. **Diversion programs** generally showed evidence of reducing recidivism in youth. There are many types of diversion programs, many of which showed promising results, making it difficult to draw conclusions about the specific program components that result in positive youth outcomes. However, there was evidence that programs using a restorative justice model and mental health diversion programs were associated with reductions in recidivism. Teen courts were the exception, yielding mixed results, and at least one study found that the program had negative effects. Regarding **problem-solving courts**, drug courts appeared to have a small to medium effect on recidivism, and though literature suggests promising outcomes for mental health courts, the literature has been limited.

Many other studies focused on programs delivered in correctional, residential, or community-based settings. Programs providing **care coordination** (e.g., referral and linkage services) had varying results; some were associated with a reduced likelihood of adjudication, whereas others had no significant effect on recidivism. However, these programs are sometimes associated with other positive outcomes, like improved self-efficacy for youth.

Regarding **psychotherapy and other psychotherapeutic interventions**, CBT-based programs addressing criminogenic risk tended to be effective at reducing recidivism. CBT focused on mental health symptoms did have benefits for mental health symptoms, but were not necessarily effective at reducing recidivism. There was not strong evidence that skills training programs effectively reduced recidivism, though victim awareness **psychoeducational** programs were associated with reduced recidivism. Many programs described in the literature focused on **health-related behaviors** in youth, especially sexual risk behavior. These programs yielded mixed results on relevant health outcomes (e.g., increased condom use), and often did not address questions related to recidivism.

Studies also included **family-focused interventions**, such as multisystemic therapy (MST), functional family therapy (FFT), and multidimensional treatment foster care. Both MST and FFT were shown to effectively reduce recidivism.

Substance use is common among juvenile justice-involved youth, and some studies explored treatment facilities and correctional units using a **therapeutic community approach**. These were generally associated with reductions in substance use and improved behavioral health outcomes. Community-based treatment models that were explored yielded mixed results.

Some literature focused on **wraparound program models** that provide youth with multiple types of services within a single program, typically in an effort to holistically address youth needs. Mixed effects were observed for these programs, and it can be difficult to draw conclusions across programs when the treatment components vary. However, there may be models that effectively reduce recidivism.

III. JJCPA AND CMJJP BACKGROUND⁵

a. Origins and Foundations of the JJCPA

The Schiff–Cardenas Crime Prevention Act was passed by the California State Legislature in 2000 to establish a juvenile justice funding source for California counties. Later termed the Juvenile Justice Crime Prevention Act (JJCPA), the funds support the development and

implementation of county juvenile justice plans that provide a “continuum of responses to juvenile crime and delinquency and demonstrates a collaborative and integrated approach for implementing a system of swift, certain, and graduated responses for at-risk youth and juvenile offenders.”

Each county must establish a local multi-agency Juvenile Justice Coordinating Council (JJCC) which, according to Welfare and Institutions Code (WIC) § 749.22, must be chaired by the county’s chief probation officer and composed at minimum of representatives from specific, listed public agencies, as well as community-based organizations and an at-large community representative. The JJCC is charged with developing a Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP) that:

- Assesses existing services and resources that target at-risk and justice-involved youth and their families;
- Prioritizes neighborhoods, schools, and other areas with high rates of juvenile crime;
- Lays out a strategy for prevention, intervention, suppression, and incapacitation responses to juvenile crime and delinquency that is based on programs and approaches with demonstrated effectiveness; and
- Develops information-sharing systems to coordinate actions and support evaluation.”⁶

While the JJCC oversees the development of the CMJJP, the LAC Probation Department plays the primary role of coordinator and administrator of JJCPA funds at the local level in the County.

b. History of the CMJJP (2001-2023)

Since 2001, the County has received 26.5 million- \$28 million each year in base JJCPA funding, in addition to variable growth JJCPA funds since 2015. While JJCPA-funded programming was regularly updated, the CMJJP remained mostly unchanged from 2001-2018. Between March and December 2017, the Board of Supervisors (Board) worked with the LAC Probation Department and community stakeholders to update membership for the JJCC, including adding ten community representatives as voting members to the JJCC.

Noting that the CMJJP had not been changed significantly in almost two decades, on December 19, 2017⁷ the Board mandated that the CMJJP be revamped to reflect best practices, incorporate evaluation findings, and be informed by the needs of youth. In response, on March 28, 2018, the JJCC created a 13-member Ad Hoc CMJJP Taskforce (Taskforce) composed of nine (9) community representatives and four (4) County agency representatives. “In 2018 improvements were launched that include a comprehensive update to the CMJJP and membership on the Juvenile Justice Coordinating Council. Ever since, work has been done to improve the CMJJP update with a focus on the steps to create greater transparency and the process for reviewing funding proposals. This work continues to be done to strengthen the continuum of care.

⁶ Juvenile Justice Crime Prevention Act Gap Analysis Report, prepared by RDA on 4/30/2018.

⁷ Motion by Supervisor Mark Ridley-Thomas and Chair Sheila Kuehl: “Establishing Effective and Diverse Governance of Juvenile Justice Funds”

In November 2018 a community representative and a FUSE Executive Fellow were selected to co-lead the Taskforce. The Taskforce was charged to update and revise a FY 2019-20 CMJJP and to make recommendations as to the spending of FY 2019-20 JJCPA funds. The updated FY 2019-20 CMJJP included a formalized, ongoing planning process to annually redesign the CMJJP and to develop a revised spending plan based on the Resource Development Associates, Inc. evaluation, general research, and other relevant information about the County's population needs, and available youth services and funding resources.⁸

Sustained Efforts for Continuous Improvements to CMJJP

"The Juvenile Justice Coordinating Council (JJCC) adopted a resolution to appoint this FY 2021- 22 Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP) and Juvenile Justice Crime Prevention Act (JJCPA) Spending Allocation Ad Hoc Subcommittee (CMJJP Subcommittee) on August 26, 2020. The CMJJP Subcommittee was charged with proposing an updated and revised CMJJP as well as making recommendations as to the spending of FY 2021-22 JJCPA funds. While the work of this subcommittee is always important, added emphasis was placed on informed decision making, provision of effective services because of the challenges and hardships presented by the COVID-19 pandemic and continuity of services for at-risk youth."

"Revisions and updates to the CMJJP included referring to youth served as "at-risk" instead of "at-risk" throughout the document while still maintaining the federal definition (20 U.S. Code §6472). The mission was revised to reflect a statement on racial equity that brings forward the realities of and current confrontations with structural racism to inform the work plan. Other revisions included the incorporation of how the RAND Corporation will develop future methodologies for evaluation along with including literature reviews on effective programs to ensure alignment with the funding strategies. The CMJJP funding process was expanded to include additional time for the JJCC to deliberate on proposals. The overall funding calendar was updated to indicate more specific deliverables to support the process and to foster improved communication with the JJCC's Community Advisory Committee."

Responding to Impacts of COVID-19

"As a result, and in light of the uncertainty presented by COVID-19, the CMJJP subcommittee recommended to continue into FY 2021-22, using the surplus from programs that will not be continuing to either fund new programs/projects or to increase allocations to existing programs. Several priorities were selected for funding based on the community survey results, input from governmental and community partners, and the subject matter expertise of the subcommittee members. As a result, mental health, public health, homelessness, and the provision of services to the Antelope Valley and South Los Angeles were prioritized for additional funding, as available.

The subcommittee also made a greater focus of carryover fund amounts given the unprecedented COVID-19 pandemic that resulted in temporary modifications and delays in program administration by numerous providers. In order to make the best use of new funding,

the subcommittee used the estimated carryover amounts reported by those currently funded programs/projects to determine how much additional base or growth funding was needed to provide funding consistent to FY 2020-21.

Transparency and Accountability of JJCPA Funding Program

The Ad-Hoc Subcommittee made major strides in creating greater transparency and accountability with regard to justice outcome reporting, enhancing the required submission request information to support these efforts and convening the Ad-Hoc Subcommittee earlier in 2022 for FY 2023-24 to engage in a comprehensive update and aligning the application with the CMJJP to improve our justice outcomes.

Revisions and updates to the CMJJP included areas in the Organization and Implementation of the CMJJP. In the sub-section on CMJJP Planning, Development and JJPCA Funding Allocation Approval Process, where the RAND Corporation's evaluation process will include interviews and/or focus groups with program staff and clients, analysis of program utilization data and program specific outcome data and evaluation of justice outcomes to adequately assess the effectiveness of its programs at reducing crime and delinquency. The overall funding calendar was updated to indicate more specific deliverables to support the process and to foster improved communication with the JJCC's Community Advisory Committee. See *Attachment A, FY 2022-23 CMJJP [87-pages]*. Additional revisions to Appendix B included data collection and submission requirements for all JJCPA funded programs as well as what will occur should agencies not submit data – that failure to submit the required data to Probation may result in loss of grant funds in accordance with monthly reporting submissions. Lastly, JJCPA funded agencies will also be required to continue to submit estimated FY expenditures on a monthly basis to JJCPA Administration; for October 2022, the due date for this information will be October 31, 2022.

Supporting Communities with High and Very High Needs

The Ad-Hoc Subcommittee's intended purpose was to create a funding allocation that maximizes the provision and continuity of services across the continuum of effective youth development. Several priorities were selected for funding based on input from governmental and community partners, and the subject-matter expertise of the Ad-Hoc Subcommittee members. As a result, YDD and PPP and the provision of services to the Antelope Valley and South Los Angeles were prioritized for additional funding, as available. This review of data combined with new service delivery models to support Justice Reimagined initiatives was prioritized.

Aligning with Justice Reimagined Efforts in Los Angeles County

It should be noted that much the Subcommittee's focused on youth justice reimagined and the introduction of the new Youth Development Department. The subcommittees continued to make improvements in the proposal process to reflect the evolving landscape of juvenile justice programming while creating a more defined process in reporting justice outcomes. To that end the CMJJP annual update underscores why the Subcommittee begins with reviewing this document annually, as it guides our overall process for making funding recommendations. Updates to the CMJJP are also intended to document the shifting context of Juvenile Justice.

Steps to Improve Review of Funding Proposals

“The Ad-Hoc Subcommittee made major strides in creating greater transparency and accountability with regard to justice outcome reporting, enhancing the required submission request information to support these efforts and convening the Ad-Hoc Subcommittee earlier in 2022 for FY 2023-24 to engage in a comprehensive update and aligning the application with the CMJJP to improve our justice outcomes.

Funding Review and Allocation Process

- Formalized Process for Review Teams and Equipped them with Guiding Questions to Report Out
- Calibration of Findings
- Introduced a Rubric for Scoring
- Identified funding allocation framework that builds on the strategy and funding type to also considers carryover, rising program costs vs program expansion, equity increases, CBO allocations
- Created greater alignment between the proposal and evaluation
- Applied current youth development frameworks identified by RAND to funding proposals

Strengthening Youth Development Frameworks

The work of the Probation Working Group in 2017 to develop a “Countywide Juvenile Justice Strategic Plan” is especially relevant. The principles adopted by the JJCC for the CMJJP are in large part based on that Plan, calling for “a comprehensive strategic framework focused on greater interagency collaboration, resources, and systemic changes to prevent additional trauma, reduce risk factors, and increase protective factors by connecting families, youth, and children to supportive systems within their communities.”

There exist several opportunities to improve the alignment between the JJCPA CMJJP and best practices (Whittaker, Smucker and Holliday, 2022). For example, the JJCC and the Los Angeles County Probation Department envisions those programs offered include a youth developmental approach and that they are culturally responsive and trauma-informed (Whittaker, Smucker and Holliday, 2022). The JJCC conducts an annual literature scan on best practices approaches in juvenile justice programming, and strives to: 1) provide a continuum of services for different risk and need levels, 2) draw from a positive youth development approach, 3) ensure programs are family-focused and community-led, 4) apply a racial-equity framework to programming, 5) offer culturally responsive programming and 6) use evidenced-based practices (Whittaker, Smucker and Holliday, 2022).

FY 2024-25 JJCC-CMJJP Ad-Hoc Subcommittee’s Final Report

Final Report of the FY 2024-2025 Juvenile Justice Coordinating Council- Comprehensive Multi-Agency Juvenile Justice Plan and Juvenile Justice Crime Prevention Act Spending Allocation Ad-Hoc Subcommittee

November 29, 2023

I. Introduction

The Juvenile Justice Coordinating Council (JJCC) adopted a resolution to appoint this FY 2024-2025 Comprehensive Multi-Agency Juvenile Justice Plan (JJCC-CMJJP) and Juvenile Justice Crime Prevention Act (JJCPA) Spending Allocation Ad-Hoc Subcommittee on January 19, 2023. The JJCC-CMJJP Ad-Hoc Subcommittee was charged with updating and revising the CMJJP as well as making recommendations as to the allocation of FY 2024-2025 JJCPA funds.

It should be noted that much of last year's Ad-Hoc Subcommittee's Report remains true as we continue with youth justice reimagined and the introduction of the new Youth Development Department. This, with priorities from the Board, such as the "Anti-Racism, Diversity & Inclusion (ARDI) (articulates an anti-racist agenda that will guide, govern and increase the County's ongoing commitment of fighting racism in all its dimensions), the "Better Reaching the 95%" (for individuals who have substance use disorders), the implementation of the Countywide Cultural Policy (that provides direction and guidelines for how the County and its Departments will ensure that every resident has meaningful access to arts and culture), Youth@Work "Reinvesting in Our Youth" (supports youth ages 16 to 24 in gaining work experience and employment as part of healing and recovery from COVID-19), continues to inform the funding recommendations of the Ad-Hoc Subcommittee.

Additionally, the Ad-Hoc Subcommittee continues to enhance the JJCPA funding request proposal and evaluation process to reflect the evolving landscape of juvenile justice programming, while creating a more defined process in reporting justice outcomes among service providers across the continuum. It is very important to the Ad-Hoc Subcommittee to ensure the processes for review of carryover funds is continuously improved to further assist with making informed funding recommendations to the JJCC. Additionally, the Ad-Hoc Subcommittee worked with several agencies to reimagine the implementation of their interventions and service delivery models to evolve juvenile justice initiatives to meet the needs of today's youth, families, and communities.

As a continued part of the process, the Ad-Hoc Subcommittee reviewed prior Fiscal Year (FY) expenditures, carryover history and impacts from the COVID-19 pandemic and considered program implementation/service delivery methods since 2019-2020. Current FY estimated expenditures and the addition of new programs/services was carefully deliberated upon considering shifting and emerging needs of youth, families, and communities. While this review created a more protracted timeline, these highlights capture the depth of work performed by the Ad-Hoc Subcommittee, which built upon previous years' work and demonstrates a commitment to continuous improvement in administering this program.

The Ad-Hoc Subcommittee was intentional in continuing to support funding recommendations for the Public Private Partnerships (which includes Fiscal Intermediary Services and Capacity Building). This was further supported by the incorporation of the Department of Youth Development's (DYD's) leadership and oversight of at-promise youth data collection determination, process for submission and evaluation of these, and other at-promise youth related JJCPA funded programs.

Finally, last year the Ad-Hoc Subcommittee included an opening statement in the CMJJP that underscores "WHY" the Ad-Hoc Subcommittee begins with reviewing this document annually. The CMJJP guides the overall process for making funding recommendations. The focus of this work continues to keep LA County youth at the center, and in the forefront of all our collaborations to build and sustain a continuum of care services model to foster positive youth development. The Ad-Hoc Subcommittee took great care in updating the FY 2024-25 CMJJP to inform funding recommendations, while also setting the direction for future improvements, which is described in the co-chairs annual final report.

c. A Snapshot of JJCC-CMJJP Ad-Hoc Subcommittee Scheduled Meeting Hours Within the Past Three Fiscal Years (FY 2021-2022 - FY 2024-2025)

- FY 2021-2022: A total of 13 Scheduled Meeting Hours
- FY 2022-2023: A total of 20.5 Scheduled Meeting Hours
- FY 2023-2024: A total of 25 Scheduled Meeting Hours
- FY 2024-2025: A total of 29 Scheduled Meeting Hours (Total Hours: 44 hours)

It should be noted that the number of scheduled meeting hours more than doubled from 13 hours to 29 hours since FY 2021-2022. Additionally, this year, the Ad-Hoc Subcommittee provided their total hours worked outside the scheduled meetings for 44 hours of work, compared to the 13 hours in FY 2021-2022. The additional hours of study and dialogue among the Ad-Hoc Subcommittee was necessary to analyze proposals to prepare for making funding recommendations. This is a testament to the dedication and incredible work the Ad-Hoc Subcommittee commits to in providing measured and thoughtful updates to

the CMJJP, and to the funding recommendation process. The collaboration and effort to build consensus among leaders serving youth at-promise to inform is needed to guide an ever-evolving landscape of justice re-imagined for youth, families, and communities of Los Angeles County

III. JJCC-CMJJP Ad-Hoc Subcommittee Recommendations to the Juvenile Justice Coordinating Council (JJCC)

Recommended: Adopt the CMJJP for FY 2024-25. The CMJJP has been developed based on a philosophy of partnership between diverse public agencies and community-based organizations to promote positive youth development and prevent youth delinquency through shared responsibility, collaboration, and coordinated action. The CMJJP serves as a theoretical and practical foundation on which programs and services are selected, implemented, evaluated, and continuously improved to maximize benefit to our youth population served in Los Angeles County. Previously, the Ad-Hoc Subcommittee made major strides in creating greater transparency and accountability with regard to justice outcome reporting, enhancing the required submission request information to support these efforts, and convening the Ad-Hoc Subcommittee earlier in Spring for FY 2024-25 to engage in a comprehensive update, and re-alignment of the application with the CMJJP to improve the review and evaluation process of funded organizations/departments. This enhanced process of review began in 2022 and continues to date.

Revisions and Updates to the CMJJP included the following:

Reviewing the CMJJP for updates before considering funding proposals ensures the Ad-Hoc Subcommittee's work reflects the realities of today's ever-evolving justice reimagined landscape in Los Angeles County. Updates made uplift the continued direction of greater accountability in ensuring funds meet the urgent and specific needs of at-promise and probation youth and their families in a targeted manner, specifically around managing carryover balances. The Ad-Hoc Subcommittee deliberated extensively on how to manage carryover balances with new funding requests and developed a more defined process for this. Applying the updated frameworks to proposal evaluation also resulted in a more coherent discussion on how services are being reimagined to address the developmental needs for youth. The work to update the CMJJP continues to strengthen the continuum of care. Below includes information regarding significant updates for FY 2024-25 CMJJP.

Funding Review and Allocation Process

- Revised the formalized process for review teams and equipped them with guiding questions to report out and meet and confer outside the formal Ad-Hoc Subcommittee meeting to develop follow-up questions for the organizations/departments requesting funds, and to calibrate proposal scores.
- Applied the new youth development frameworks outlined in the CMJJP to proposal review, which informed funding considerations.
- A new level of review was created this year to enhance Ad-Hoc Subcommittee members' processes in the review and evaluation of funding requests submissions. As in previous years, there has been a greater focus on the reasons and impacts of carryover fund amounts given the unprecedented COVID-19 Pandemic as previously reported in FY 2021-22 Co-Chair report. Last year carryover was reviewed, and some funding requests be granted to retain carryover amounts, rather than recommending the addition of new funding. Because some carryover balances are persisting, it was determined that additional review

and analysis was required to review and address these reasons to inform and direct for funds to be allocated to meet the urgent needs of youth and their families.

More importantly, meetings coordinated with organizations/departments with large carryover balances to obtain their potential plan to spend down carryover amounts. The engagement with these organizations/departments provided, the Ad-Hoc Subcommittee members with the opportunity to ask direct questions. It was determined to be a successful process that included agencies who were willing to return some unspent funds. This process will continue as it provided an opportunity for the Ad-Hoc Subcommittee members to engage with the agencies far beyond reviewing their submissions and pursuing back-and-forth emails, which did not get at the root cause. This engagement occurred prior to deliberations, and the information was utilized by the Ad-Hoc Subcommittee in their recommendations for FY 2024-25.

Updates to the CMJJP

- Met with the JJCPA Evaluator RAND in evaluation and applied GAP Analysis findings to update the CMJJP.
- Aligned the proposal with the evaluation form to strengthen the proposal review and evaluation, which encouraged more depth review and discussions among the Ad-Hoc Subcommittee.
- Continued to monitor and document the shifting context of Juvenile Justice and actively engaged in discussion with other Departments on best practices.
- Continued with the bifurcated process of the CMJJP update in Spring 2023 and followed-up with additional work to the CMMJP in the Fall of 2023.
- The Ad-Hoc Subcommittee met with Chief Executive Office's Anti-Racism, Diversity, and Inclusion (ARDI) Executive Director. The funding recommendations include a first-year allocation amount to begin to explore working in collaboration with ARDI to determine parameters and set up a new way of analyzing data.
- Enhanced Step 1 by adding to the FY 2025-26 JJCC-CMJJP Ad-Hoc Subcommittee Resolution to enhance the previously adopted version. The new language includes there shall be a minimum of two (2) JJCC Community Members (Non-Permanent JJCC Members) based upon self-nomination. Should the self-nomination process not yield two (2) JJCC Community Members, the self-nomination process will repeat for an additional opportunity for self-nomination. This has been added to ensure JJCC Community Member involvement priority and support the self-nomination process.
- Additionally, enhanced Step 1 to indicate that the funding request submission review process will include JJCC-CMJJP Ad-Hoc Subcommittee members assignment to teams of (2) by utilizing a random drawing process. Once teams are established, the total funding request submissions are divided and evenly distributed among the assigned teams, based upon a random number process. A review is completed to ensure no JJCC-CMJJP Ad-Hoc Subcommittee members are assigned their own funding request submission(s). For any found, a random drawing process is utilized to revise the assignment; this process has been in effect and repeated annually since the FY 2020-21 JJCC-CMJJP Ad-Hoc Subcommittee.
- A New Step has been added based to include the invitational meeting process with agencies regarding carryover balances. Additionally, carryover amounts for all agencies will be considered when new funding requests are received requesting additional funding beyond carryover amounts

that remain. The goal is to reduce carryover by having agencies prioritize utilizing this available funding as well as reviewing their program's record of previously expending funding when making annual recommendations to the JJCC. This may take more than one (1) year to accomplish, however, the Ad-Hoc Subcommittee has made strides to recommend funding with these consideration.

- a. Recommended: Adopt the FY 2024-25 JJCPA Funding Allocations Recommended by the CMJJP Ad-Hoc Subcommittee at the next JJCC meeting. The Ad-Hoc Subcommittee's intended purpose was to propose funding allocation recommendations that maximize the provision and continuity of services across the continuum of effective youth development.

Section b.

"The Ad-Hoc Subcommittee's intended purpose was to create a funding allocation that maximizes the provision and continuity of services across the continuum of effective youth development."

c. **CMJJP Requirements and Limits under Government Code Sections 30061 and 30062**

Under the JJCPA, a CMJJP must serve "at-risk," also known as "at-promise", and/or probation youth.¹² It must also be based on components like an assessment of available resources and priority areas to fund, a continuum of effective responses, collaboration and integration, and data collection and evaluation. Specifically, the law requires:

- Pursuant to Government Code 30061, specifically the law states: assessment of existing law enforcement, probation, education, mental health, health, social services, drug and alcohol, and youth services resources that specifically target at-risk juveniles, juvenile offenders, and their families.
- An identification and prioritization of neighborhoods, schools, and other areas in the community that face a significant public safety risk from juvenile crime, such as gang activity, daylight burglary, late-night robbery, vandalism, truancy, controlled substances sales, firearm-related violence, and juvenile substance abuse and alcohol use.
- A local juvenile justice action strategy that provides for a continuum of responses to juvenile crime and delinquency and demonstrates a collaborative and integrated approach for implementing a system of swift, certain, and graduated responses for at-risk youth and juvenile offenders.
- A description of the programs, strategies, or system enhancements that are proposed to be funded pursuant to this subparagraph.

Programs, strategies, and system enhancements proposed to be funded under this chapter shall satisfy all of the following requirements:

- Be based on programs and approaches that have been demonstrated to be effective in reducing delinquency and addressing juvenile crime for any elements of response to juvenile crime and delinquency, including prevention, intervention, suppression, and incapacitation.
- Collaborate and integrate services of all the resources set forth in subparagraph (A), to the extent appropriate.
- Employ information sharing systems to ensure that county actions are fully coordinated and designed to provide data for measuring the success of juvenile justice programs and strategies.

d. JJCC's Collaborative Approach to the CMJJP

The approach to annually revise the CMJJP in Los Angeles recognizes that there has already been a wealth of collaboration and coordination across City and County agencies, researchers, advocates, youth and community-based organizations to develop strategies and recommendations to improve youth, family and community well-being, and that there is increasingly so.

IV. ORGANIZATION AND IMPLEMENTATION OF THE CMJJP

This section describes the components of the CMJJP and the process by which the CMJJP and JJCPA funding allocation should be revisited annually.

a. Structure of the CMJJP

The CMJJP has been developed based on a philosophy of partnership between diverse public agencies and community-based organizations to promote positive youth development and prevent youth delinquency through shared responsibility, collaboration, and coordinated action. The CMJJP serves as a theoretical and practical foundation on which programs and services are selected, implemented, evaluated, and continuously improved to maximize benefit to the youth population served.

b. Key Stakeholders –

- California Board of State and Community Corrections (BSCC)
- Los Angeles County Board of Supervisors (Board)
- Public Safety Cluster (District 1-5 Board Justice Deputies)
- Los Angeles County Juvenile Justice Coordinating Council (JJCC)
 - JJCC-Community Advisory Committee (JJCC-CAC), a Standing Subcommittee
 - Annual JJCC-CMJJP and JJCPA Spending Allocation Ad Hoc Subcommittee (CMJJP Subcommittee), an Ad Hoc Committee
- Youth Justice Advisory Group
- Los Angeles County Probation Department
- Governmental Departmental partners
- Community-Based Organization (CBO) service providers
- RAND Corporation, the contracted JJCPA evaluator
- Los Angeles County Youth Commission

c. FY 2025-26 CMJJP Planning, Development, and JJCPA Funding Allocation Approval Process

Step 1:

JJCC Convene CMJJP Ad-Hoc Subcommittee to Review JJCPA Gap Analysis and Update CMJJP (March 2024 and Complete May 2024) and reconvene to review funding submissions in Fall 2024 (September 2024 through December 2024)

JJCC Adopts a Resolution to Create the FY 2025-26 JJCC-CMJJP Ad-Hoc Subcommittee (January 2024)

The FY 2025-26 CMJJP Ad-Hoc Subcommittee is formed by the JJCC to utilize the data and recommendations prepared by the JJCC, the JJCC-CAC, and JJCPA Evaluator (RAND Corporation) to draft an annual update to the CMJJP and JJCPA funding allocations for the ensuing fiscal year. The membership of the FY 2025-26 CMJJP Ad-Hoc Subcommittee should proportionally reflect the composition of permanent and non-permanent members of the JJCC. Annually a Resolution is created to be presented during the January/February JJCC meeting.

The Resolution includes the JJCC-CMJJP Ad-Hoc Subcommittee Member Composition.

- Comprised of up to 13 JJCC Members
- Co-Led by a JJCC member elected by the JJCC-CMJJP Ad-Hoc Subcommittee members at their first meeting and that includes:
 - The JJCC Chair and,
 - Up to six (6) permanent members and up to six (6) non-permanent members
 - Those members selected based first on self-nomination and, if necessary, by random drawing of those self-nominated.
 - The self-nomination must include a commitment by the nominee to be present for Ad-Hoc Subcommittee meetings. The imperative work of the JJCC-CMJJP Ad-Hoc Subcommittee can only be completed with full attendance and participation including completion of assigned work.
 - A process is included to maintain the percentage based upon the JJCC's Permanent Members and Non-Permanent Members (17 Permanent and 11 Non-Permanent) to ensure equitable distribution of JJCC Representation.

- The membership shall include at minimum two (2) JJCC Community Members. Should the self-nomination process not yield the two (2) JJCC Community Members, the self-nomination process will be sent to JJCC Community Members to provide one additional opportunity for self-nomination. In the absence of JJCC-Community Membership, the JJCC Chair shall utilize a random drawing process to select two (2) community members.
- The Ad-Hoc Subcommittee members choose a Co-Chair during the first meeting. The Co-Chair facilitates meetings when the Chair is unavailable. Additionally, the Co-Chair completes the JJCC-CMJJP Ad-Hoc Subcommittee Report. The Co-Chair provides the updates during the JJCC and JJCC-CAC meetings.
- The Ad-Hoc Subcommittee members are responsible for their commitment to be present for Ad-Hoc Subcommittee meetings. Additionally, the Ad-Hoc Subcommittee members complete the evaluations of funding request submissions and present the information during the Ad-Hoc Subcommittee meetings.

JJCC-CMJJP Ad-Hoc Subcommittee Funding Request Submission Review Process

- As part of the Funding Recommendation review process, the JJCC-CMJJP Ad-Hoc Subcommittee members review the Funding Request Submissions received from Governmental Partners. To begin the review of the documents, all JJCC-CMJJP Ad-Hoc Subcommittee members are assigned in teams of two (2) by utilizing a random number generator to determine the teams. Once teams are established, the total funding request submissions are divided and evenly distributed among the assigned teams based upon a random number generator. A review takes place ensure no JJCC-CMJJP Ad-Hoc Subcommittee member be assigned their own funding request submission. For any found, a random number generator is utilized to ensure a team member does not review their own funding request submission. This process has been in effect and repeated annually since FY 2020-21 JJCC-CMJJP Ad-Hoc Subcommittee.

Rules of the Road: In order to assist in a process to complete the funding meetings, since 2020, the Rules of the Road are adopted prior to the Funding Recommendations Agenda Item.

- Subcommittee (and JJCC) may recommend categories (e.g. primary prevention or intervention), programs and projects (e.g. substance abuse prevention in A City), but can only recommend specific providers if those providers are governmental agencies or subject to a Board approved contract (e.g. the P/PP). We cannot recommend any other specific providers (i.e. named CBOs).
- Conflict of interest rules apply to our work in the subcommittee, so be thoughtful about recommendations for funding.
- If the JJCC representative is a county department, it does not present a conflict of interest. If you are a JJCC member affiliated with a listed program, you will have to determine how those rules apply to you.
- If surface issues are identified by Ad-Hoc Subcommittee members, they are asked to provide solutions in concert with the issues.
- The CMJJP Ad-Hoc Subcommittee's work was a two-part mission: to complete the CMJJP and to bring forth the recommended funding allocations. Should there be surface issues identified by a JJCC Member, it was requested that the member provide solutions along with the identified issues.
- To ensure deliverables, they would need to remain mission-focused on the work before them. Should any identifiable issues be raised that are outside of the two-part mission, the identified issues would be redirected to the appropriate channels.

The County Executive Office (CEO) maintains the Conflict of Interest (COI) and Statement of Economic Interests (Form 700). County Commission members (including JJCC Members and Alternates) must submit their information by completing the Assuming/Leaving Office and Annual forms.

- **The COI Website** includes frequently asked questions, information regarding the Statement of Economic Interests and how to complete the forms.
- **The Los Angeles County Commission Manual** states:
 - “Conflicts of Interest and Statement of Economic Interests (Form 700) Commission members must keep their personal interests separate from their Commission duties and responsibilities and avoid conflicts of interest. A conflict of interest occurs if Commission members allow their personal relationships, money (or the promise of money), or other outside factors to influence how they perform their Commission duties and responsibilities. A conflict of interest also exists if Commission members use information acquired in their capacity as Commission members for personal gain. To avoid potential conflicts or the appearance of any conflicts, Commission members may not participate in discussions, deliberations, or recommendations regarding issues in which they have a personal or financial interest. In addition, they may not accept gifts from lobbyists or anyone doing business with the County or who may come before the Commission. This is against County policy and may be illegal.”
- The JJCC received an Overview of the Brown Act Training from County Counsel on October 19, 2016, July 26, 2019, and on October 4, 2023.
- The JJCC received Conflict of Interest Training from the County Counsel on July 26, 2019.

FY 2024-25 JJCC-CMJJP AD-HOC SUBCOMMITTEE MEMBERSHIP		
JJCC MEMBERSHIP	AGENCY/COMMUNITY	REPRESENTATIVE
Permanent Member	Los Angeles County Probation (Co-Chair)	Sharon Harada
Permanent Member	Los Angeles County Parks and Recreation (Co-Chair)	Mercy Santoro
Permanent Member	Los Angeles County Department Mental Health	Karen Streich
Permanent Member	Los Angeles County Public Defender's Office	Luis Rodriguez
Permanent Member	Superior Court – Juvenile Special Needs Court	Tricia Penrose
Permanent Member	Los Angeles County Office of Education	Tapau Osborne

The JJCPA Evaluator (RAND Corporation) will review the methodologies for evaluation to include literature reviews of effective programs. The evaluation process of JJCPA funded programs will include the following: interviews and/or focus groups with program staff and clients; analysis of program utilization data and program-specific outcome data; and evaluation of justice outcomes to adequately assess the effectiveness of its programs at reducing crime and delinquency. The evaluation of JJCPA funded programs is carried out to assess services and programs impacts on youth, families and communities served. The JJCPA evaluator will also conduct a gap analysis, which may help to understand the disproportionate involvement

of JJCPA funded program youth in the juvenile justice system and identify youth service gaps that might exist. See *Appendix B* for data to be submitted by funded organizations.

The gap analysis and evaluation of funded programs to update the CMJJP is especially needed in light of the COVID-19 pandemic, which may have exacerbated service challenges. What we now know about ACEs (Adverse Childhood Experiences). Equally important is assessing how information sharing of data governed by Federal and State Laws...

Step 2: JJCC-CMJJP Ad-Hoc Subcommittee's Review of Carryover Allocation amounts (As Part of the JJCC-CMJJP Ad-Hoc Subcommittee's work)

The JJCC-CMJJP Ad-Hoc Subcommittee will review high carryover and will incorporate a follow-up meeting with agencies to address the reasons for carryover as well as articulate a plan to spend down the funding. Carryover amounts will be considered in the recommendations prior to for any new (additional recommended) funding. The goal is to reduce carryover balances by having agencies prioritize and utilize available carryover prior to recommending additional funding. The Subcommittee anticipates that agencies with a history of increasing expenditures will utilize carryover further reduce balances for the next Fiscal Year. The Ad-Hoc Subcommittee continues to enhance efforts to provide adequate funding to agencies, as well as an opportunity to spend down previously unspent funds. Additionally, it was determined that there is a need to work with agencies to assist with enhancing methods of implementing programs as designed in the current climate of juvenile justice.

Step 3: JJCC-CAC Community Feedback Survey (Publish July 1, Close October 1, 2024)

The JJCC-CAC shall engage the community in identifying needs, proven strategies, and systemic issues of JJCPA operations by means of a survey. The survey is meant to gather information from stakeholders connected to or impacted by the juvenile justice system (e.g. community members, youth and families, governmental agencies, and community-based organizations) about the unmet needs of justice-involved and at-risk youth in the County of Los Angeles. This information will provide insight and guidance to the JJCC-CAC and the JJCC on how JJCPA funding can better support young people and close gaps in the services provided to them. Convene a JJCC-CAC survey ad hoc committee. The survey should at minimum be designed to solicit answers to the following questions:

- ☐ What types of services and strategies are most in need of funding in the County of Los Angeles to better serve at-risk youth and/or youth who have had contact with the justice system?
- ☐ What categories of youth programming should be targeted to?
- ☐ What geographic areas in the County are in most need of services?

Formalize survey process to improve coordination of the survey design (including sample size), ensure survey reliability, and outreach and engagement efforts, supervisorial districts to align with RAND findings community/youth/provider input and develop and communication and outreach plan.

Step 4: JJCC-CAC Community Feedback on Programs and Projects (Publish July 1, Close September 1, 2024)

The JJCC-CAC shall solicit and accept feedback on programs and projects that improve youth and family wellness and community safety by increasing access to opportunities to strengthen resiliency and reduce delinquency consistent with the CMJJP. While the JJCC-CAC may learn

about programs or projects, it cannot and will not recommend specific providers receive funding.¹³ The purpose of this feedback process is informational only. See *Appendix A* recommended submission format and example.

Step 5: Governmental Requests for Funding (Send July 1, 2024, to September 1, 2024, 5:00 PST) The LAC Probation Department will solicit requests for funding from relevant governmental partners who provide or contract for services and resources consistent with the CMJJP Mission Statement and Guiding Principles. See *Appendix B* for a recommended request format and example.

Step 6: JJCPA Evaluation Report Presented to the JJCC (Spring 2024)

Based on the submission of required data from JJCPA funded agencies, throughout the year, the JJCPA Evaluator (RAND Corporation (Corp.)) will conduct process and outcome evaluation of some JJCPA funded programs and services and will provide data collection support for all JJCPA-funded programs at Probation Department direction.

JJCPA Evaluator (RAND Corp.) will provide the JJCC with an analysis of target population and community needs in addition to reports that document the outcomes of select JJCPA funded programs and services, providing recommendations as requested by the JJCC to ensure alignment with literature reviews of effective programs. The presentation to the JJCC will include public feedback and discussion of recommended changes. Thereafter, the JJCC will appoint a FY 2025-26 CMJJP and JJCPA Spending Allocation Ad-Hoc Subcommittee (FY 2025-26 CMJJPA-Hoc Subcommittee) to develop a draft of the FY 2025-26 CMJJP and JJCPA funding allocation for JJCC consideration and approval.

Step 7: CMJJP Ad-Hoc Subcommittee Presents Draft FY 2025-26 CMJJP and FY 2025-26 JJCPA Funding Allocation to the JJCC-CAC in October 2024

The CMJJP Ad-Hoc Subcommittee presents a draft of the FY 2025-26 CMJJP and high-level FY 2024-25 JJCPA funding allocation to JJCC-CAC approximately half-way through the Ad-Hoc Subcommittee's allocated meeting time. The JJCC-CAC holds a public meeting to receive input on the drafts. Feedback from the JJCC-CAC is considered and incorporated into the draft CMJJP and annual JJCPA funding allocation by the CMJJP Ad-Hoc Subcommittee.

Step 8: JJCC Approves the FY 2025-26 CMJJP and the CMJJP Ad-Hoc Subcommittee Presents its Final FY 2025-26 JJCPA Funding Allocation Recommendations (December 2023)

The FY 2025-26 CMJJP Ad-Hoc Subcommittee presents its findings and recommendations as well as a draft FY 2025-26 CMJJP and FY 2025-26 JJCPA funding allocation for the JJCC's consideration. All drafts should be submitted to the JJCC seven calendar days before the JJCC meets to ensure adequate time for JJCC member review.

¹³ Consistent with the opinion of LAC Counsel, the JJCC can recommend categories (e.g. primary prevention or intervention), programs and projects (e.g. gang reduction in SPA No. X or substance abuse prevention in Y City) but can only recommend specific providers receive funding if those providers are governmental agencies or subject to certain a Board contracts. The JJCC may not recommend any other specific providers (i.e. named CBOs).

Step 9: JJCC-CMJJP Ad-Hoc Subcommittee Presentation of Funding Request Recommendations JJCC Meeting (December 2024) and the JJCC will Agendize and vote during the January/February JJCC Meeting (2025). Final Draft FY 2025-26 CMJJP after allowing a window of at least six (6) weeks available for review. Additional JJCC-CAC meeting to be held prior to the funding meeting in January/February.

Step 10: CMJJP Ad-Hoc Subcommittee Presents Draft FY 2025-26 CMJJP and FY 2025-26 JJCPA Funding Allocation to the JJCC-CAC (December 2024)

The CMJJP Ad-Hoc Subcommittee presents its FY 2025-26 JJCPA funding allocation to JJCC-CAC. The JJCC-CAC holds a public meeting to receive input on the final CMJJP Ad-Hoc Subcommittee recommendations. A report summarizing the community feedback is prepared by the Chair of the JJCC-CAC and submitted to the JJCC seven calendar days before the JJCC meets in January 2025 to ensure adequate time for JJCC member review

Step 11: JJCC Approves the FY 2025-26 JJCPA Funding Allocation (January 2025)

The JJCC approves the Draft FY 2025-26 CMJJP FY 2024-25 JJCPA funding allocation and the FY 2024-25 CMJJP Ad-Hoc Subcommittee is dissolved. The JJCC-approved versions of the FY 2024-25 CMJJP and the FY 2024-25 JJCPA funding allocation are forwarded to the County of Los Angeles's Board of Supervisors for initial review by their justice deputies at a Public Safety Cluster meeting.

Step 12: Los Angeles County Board of Supervisors Approves CMJJP and Annual JJCPA Funding Allocation (Spring 2024)

The Board of Supervisors considers and adopts the FY 2024-25 CMJJP and FY 2024-25 JJCPA funding allocation by means of a Board Motion.

Step 13: Annual JJCPA Funding Allocation Submitted to Board of State and Community Corrections (May 1, 2024)

As required by statute, the FY 2024-25 CMJJP is submitted annually to the BSCC no later than May 1st, 2024.

V. MISSION AND GUIDING PRINCIPLES

1. CMJJP Mission Statement

The mission of the Comprehensive Multi-Agency Juvenile Justice Plan is to improve youth and family wellness and community safety by increasing equitable investments in and access to opportunities to strengthen resiliency and reduce delinquency.

The Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP) provides the County of Los Angeles with a strategy that focuses on building healthy and safe communities, using a comprehensive and coordinated plan partially funded by JJCPA to prevent recidivism and reduce delinquency.

2. Statement on Racial Equity

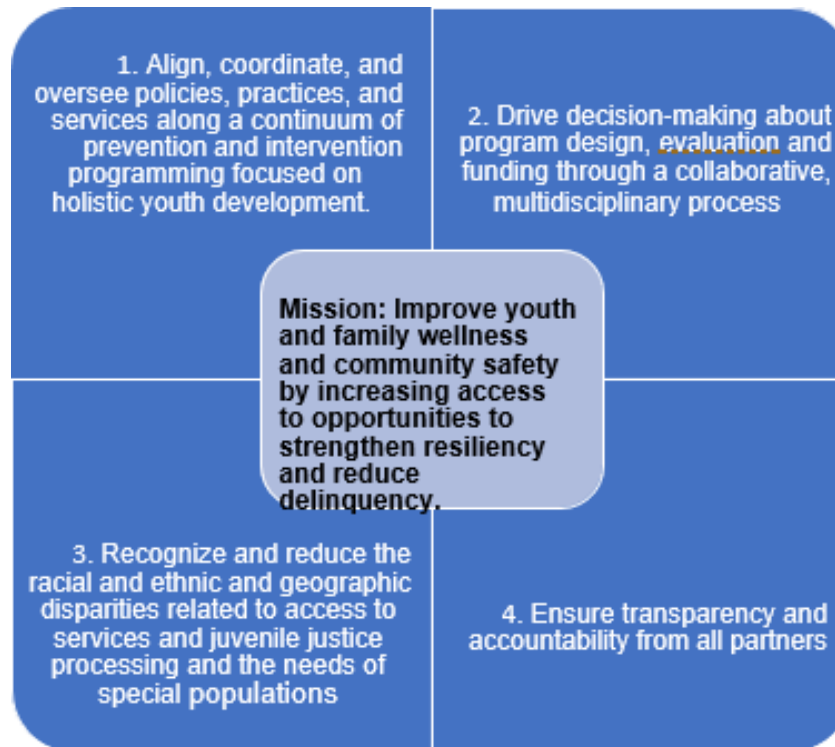

The youth justice system reflects racial and ethnic disparities (RED) resulting from historical, structural inequities – including greater investments in the custody, control and punishment of Black, Indigenous and People of Color (BIPOC), purported to achieve public safety, and underinvestment in public and community institutions promoting health and well-being. In 2020, the discourse and contention with racial equity, especially in the context of the criminal justice system, has reached an inflection point. On July 21, 2020, the Los Angeles Board of Supervisors passed a motion creating an Antiracist, Diversity and Inclusion Initiative “to identify and confront explicit institutional racism.”¹⁴ In the meantime, projects like the Alternatives to Incarceration Initiative and the Youth Justice Workgroup are embarking on sweeping transformations to the youth and criminal justice systems that are explicitly guided by racial equity principles.

In keeping with the realities of and current confrontations with structural racism, the CMJJP should embrace a call for anti-racism as it is guided by a commitment to and investment in BIPOC and their communities.

¹⁴ Revised Motion by Supervisor Mark Ridley-Thomas: “Establishing an Antiracist Los Angeles County Policy Agenda.”

3. CMJJP Guiding Principles

To accomplish this mission, the following guiding principles were developed to drive the work of key partners in Los Angeles County to:

Specifically, the Guiding Principles encompass the following objectives:

1. Align, coordinate, and oversee policies, practices, and services along a continuum of prevention and intervention programming focused on holistic youth development. The youth development system should:
 - Whenever possible, reduce contact between youth and the juvenile justice system with diversion programs and other community-based resources.
 - Deliver services using a continuum of promising practices, best practices, and evidence-based programs that build on youth's strengths and assets and support the development of youth's skills and competencies.
 - Use strength-based screening and assessment tools to assess youth and family needs, build meaningful case plans and appropriately connect youth and families to appropriate services.
 - When the use of out of home placements—non-secure or secure—is necessary, utilize family-based settings (e.g., relative, a nonrelative extended family member, and foster care placements) whenever possible, maintain safe environments in placements, engage/deliver services within a therapeutic milieu, and provide reentry services to ensure a seamless and positive return to the community.

2. Drive decision-making about systems coordination and integration, programming and direct services, evaluation and funding through identifying, developing and resourcing opportunities for collaborative, multidisciplinary partnerships among county agencies, community-based organizations (CBOs), youth and parents that have been impacted by the juvenile justice system, and other interested stakeholders.
3. Recognize and reduce the racial and ethnic and geographic disparities related to investments in custody, control and punishment approaches, access to services and juvenile justice processing and the needs of special populations including (but not necessarily limited to): females, LGBTQ-2A youth, crossover/dually-involved youth, youth who become parents, undocumented, and transitional age youth without family/caretakers/support systems.
4. Ensure transparency and accountability from all partners engaged in youth development service delivery for fiscal management, measuring outcomes related to their work, and implementing effective practices.
 - Collect and report consistent and meaningful outcomes on program impact and effectiveness on an annual basis (at minimum) to assess the effectiveness and equitable impact of policies, practices, and programs.
 - Develop and support capacity of all partners to conduct consistent and meaningful data collection and evaluation.
 - Ensure studies involve research methodologies that are aligned with the perceptions and experiences of communities of color.

4. Growth Fund-Specific Goals and Guiding Principles

The goal of the JJCC in allocating JJCPA Growth Funds is to promote innovative services, programs, and strategies through JJCPA funding to change and transform lives of youth involved in or at-risk of involvement in the probation system, and lower recidivism.

The Guiding Principles for Growth Funds are to:

1. Provide financial support across the continuum of youth development prevention, intervention, and diversion.
2. Support innovative projects, including pilot projects or one-time costs (consistent with County Board policy that ongoing costs be funded by ongoing revenues/continuing expenditures with continuing revenues, in compliance with *Board Policy 4.030 - Budget Policies and Priorities*). Examples of these include:
 - a. Training and capacity building to improve organizations in more effective and efficient programming
 - b. One-time events/programs

- c. Enhancements to and evaluations of existing programming and employment opportunities for youth (enhanced arts programming, tutoring, sports, internships, and activities that allow youth to connect with natural and cultural resources in the LA area)
 - d. Improvements to environments where youth programming is provided
 - e. Technology, art supplies, books, etc.
 - f. Improvements for energy efficiency and environmental sustainability and long-term cost savings
 - g. Youth emergency funds, such as for:
 - i. Life necessities (housing, food, clothing, etc.)
 - ii. Transportation
 - iii. Counseling
3. Prioritize funding for community-based service provision, including:
- a. By community-based service providers with less access to funding and potential to provide and scale up services effectively
 - b. In areas with high levels of youth arrest (based on up-to-date data) and/or under served
 - c. Organizations who target programming to youth with highest needs
 - d. May support JJCC infrastructure, evaluation, juvenile justice cross-system collaboration and coordination development (including both County agencies and CBOs), and governance beyond base-fund allocations, as deemed appropriate by the JJCC.

VI. FRAMEWORK

Based on the mission and guiding principles, the CMJJP uses the following definitions for Youth Development and model for a continuum of services, to outline five funding strategies: primary prevention, focused prevention/early intervention¹⁵, intervention, capacity-building, and evaluation and infrastructure.

Trauma-informed Care: Estimates suggest that up to 90 percent of youth involved in the juvenile justice system have been exposed to at least one type of trauma (Abram et al., 2004), which has led to an increasing recognition of the importance of offering trauma-informed care to this population (Skinner-Osei et al., 2019). The National Child Traumatic Stress Network (2015) has outlined several ways in which a juvenile justice system can be trauma-informed, including by having trauma-informed policies and procedures, doing screenings and assessments to identify youth who have experienced trauma, ensuring that staff have been trained in trauma-informed approaches, and providing trauma-informed programming. Additional resources on trauma-informed care for youth across the spectrum of risk can be found through resources such as the National Child Traumatic Stress Network.

Racial Equity Framework: Black, Indigenous, and People of Color (BIPOC) are more likely to come into contact with law enforcement and be rearrested, though their rates of involvement in delinquent behavior are similar to their White peers (McGlynn-Wright et al., 2020; Mitchell, 2005; Onifade et al., 2019). Juvenile justice programs should aim to address these inequities. This might include approaches such as ensuring that these youth are being offered services, enrolled in services, and equally benefitting from services. It may also include understanding whether youth from diverse racial backgrounds have different needs or are experiencing different challenges to engagement and ensuring that those are being equitably addressed. - Annie E. Casey Foundation, 2015, Race Equity and Inclusion Action Guide. Baltimore, MD: Author. https://assets.aecf.org/m/resourcedoc/AECF_EmbracingEquity7Steps-2014.pdf

Culturally Appropriate and Responsive Programming: Culturally responsive programming includes elements reflecting the cultures of the youth being served, which can include language, communication styles, and other factors (Feldman et al., 2010). Offering culturally responsive programming is one way to address racial and ethnic disparities in the juvenile justice system, as it can increase the effectiveness of the programming for diverse racial and ethnic groups (Cabaniss et al., 2007; Hoytt et al., 2001). Some examples of ways that programs can be culturally responsive include offering programming in multiple languages; understanding cultural norms related to the role of family, and adapting programming to include family elements as appropriate; and understanding cultural norms surrounding interactions with authority figures, and identifying ways to improve youth and family member comfort levels with program leadership.

Evidence-Based Practices: Ideally, juvenile justice systems are offering evidence-based programs – that is, those that have been demonstrated to result in positive outcomes for participating youth. Typically, a program is designated as “evidence-based” after multiple high-quality evaluations have demonstrated its effectiveness, and ideally it has been tested in a similar context and population as the juvenile justice system is targeting. However, there can be substantial variability in the types of settings, populations, and outcome measures used in evaluation studies (Applegarth, Jones, & Brooks Holliday, forthcoming), and programs should be mindful about applying findings from studies to their local context. It is also important that these practices be implemented with fidelity in the local setting to increase the likelihood they will accomplish the expected outcomes for this reason, conducting local evaluations of the implementation and outcomes of programs and services is important.

Vision for Supporting Family’s Needs: Best practices for juvenile justice systems indicate that programming should be family-focused. Evidence demonstrates that strong bonds between children and families can promote pro-social behavior (e.g., Brook et al., 1998), and therefore programming should promote engagement of family members (Luckenbill and Yeager, 2009; Osher et al., 2012; Pennell, Shapiro, and Spigner, 2011; Shanahan and diZerega, 2016). It is also important that family be conceptualized broadly and include not just biological parents, but also foster or adoptive parents and extended family as relevant.

Supporting Communities with High and Very High Need w/Target Prevention Services

The risk-need-responsivity model is an evidence-based approach to providing services to individuals involved in the legal system (Bonta & Andrews, 2016). This model indicates that the intensity of services should be matched to a youth’s risk level, such that higher risk and need youth should receive more intensive services. Services should also be matched to the specific needs of the youth – for example, if a youth has a substance use problem, there should be an intentional effort to provide substance use treatment services to that individual. This match between services and youth risk and need levels is important, as there is evidence that providing overly intensive interventions to low-risk youth can have iatrogenic effects (e.g., increase the likelihood of justice system contact) (Dowden and Andrews, 1999). For this reason, it is important to ensure that services target the highest need youth. Ideally, this begins with the provision of prevention programs for at-risk youth, and then moving toward graduated sanctions and treatment programs for youth who have committed delinquent acts (Wilson and Howell, 1993).

a. Youth Development and Empowerment

Youth Development has become recognized both as theoretical framework and practice based

on adolescent stages of development. In theory, Youth Development supports research that youth are continuing to change and develop; and as practice, Youth Development programs prepare youth to meet the challenges of adolescence by focusing and cultivating their strengths to help them achieve their full potential. For systems including justice, child welfare and education, Youth Development approaches can serve “as an alternative approach to community health and public safety that builds on the strengths of youth, families and communities, addresses the root causes of crime and violence, prevents youth criminalization, recognizes youth leadership and potential, and turns young people’s dreams into realities.”¹⁶ Youth Development as a framework for service delivery works with youth in a place-based, asset-based, holistic and comprehensive way.

Based on research, youth development should be a system, a collective impact model, with its own infrastructure and resources to ensure effective coordination, efficacy and accountability across public agencies and community-based organizations.¹⁷ Ultimately, Youth Development systems and supports would achieve outcomes through activities and experiences that help youth develop social, ethical, emotional, physical, and cognitive competencies. For instance, youth development should:

- ❑ Help young people develop identity, agency, and orientation towards a purposeful future;
- ❑ Cultivate young people’s academic and critical thinking skills, life-skills and healthy; habits, and social emotional skills;
- ❑ Link youth to holistic support systems; and,
- ❑ Empower youth to engage in the betterment of their communities and the world.

Additionally, we understand that child-serving systems alone do not fully meet the needs of vulnerable youth. Youth and children are part of family units, and further are connected to their larger community, and social ecology which necessitates looking comprehensively at the underlying social, economic, and environmental conditions that impact vulnerable children, youth, and families. Therefore, a key aspect of advancing positive youth outcomes, is ensuring that there are youth and family empowerment opportunities to engage with the systems throughout all stages of their system involvement.

¹⁵ It is recognized that systems may use different terminology, like “focused prevention” or “secondary prevention,” to describe similar youth populations and stages of prevention and intervention.

b. Continuum of Services

As stated above in *Section II.a.*, state law requires that the CMJJP include a “local juvenile justice action strategy that provides for a continuum of responses to juvenile crime and delinquency.” Funding should go to “programs and approaches that have been demonstrated to be effective in reducing delinquency and addressing juvenile crime for any elements of response to juvenile crime and delinquency, including prevention, intervention, suppression, and incapacitation.” Thus, the CMJJP should be grounded in a continuum of responses in Los Angeles County, even though JJCPA funds may only fund part of that continuum.

Research and local cross-sector initiatives have supported the importance of developing a continuum of services targeted at discrete populations of youth. The CMJJP defines the following three populations as its focus:

- **Pre-system connected/at-risk youth**¹⁸ – Risk or “risk factors” are considered alongside strengths or “protective factors” in determining what responses should happen to prevent or reduce the likelihood of delinquency. The CMJJP adopts the definition of risk from a 2011 guidebook on delinquency intervention and prevention by the National Conference of State Legislators:

There are identified risk factors that increase a juvenile’s likelihood to engage in delinquent behavior, although there is no single risk factor that is determinative. To counteract these risk factors, protective factors have also been identified to minimize a juvenile’s likelihood to engage in delinquent behavior. The four areas of risk factors are: individual, family, peer, and school and community.

Individual risk factors include early antisocial behavior, poor cognitive development, hyperactivity, and emotional factors, such as mental health challenges. Family risk factors include poverty, maltreatment, family violence, divorce, parental psychopathology, familial antisocial behaviors, teenage parenthood, single parent family and large family size. Peer-related risk factors include association with deviant peers and peer rejection. School and community risk factors include failure to bond to school, poor academic performance, low academic aspirations, neighborhood disadvantage, disorganized neighborhoods, concentration of delinquent peer groups, and access to weapons. Many of these risk factors overlap. In some cases, existence of one risk factor contributes to existence of another or others.¹⁹

¹⁸ A federal definition of “at-risk youth” also exists under 20 U.S. Code § 6472: “The term ‘at-risk’, when used with respect to a child, youth, or student, means a school aged individual who is at-risk of academic failure, dependency adjudication, or delinquency adjudication, has a drug or alcohol problem, is pregnant or is a parent, has come into contact with the juvenile justice system or child welfare system in the past, is at least 1 year behind the expected grade level for the age of the individual, is an English learner, is a gang member, has dropped out of school in the past, or has a high absenteeism rate at school.”

- **Probation youth** – These youth include those under community supervision on informal or formal probation (Welfare and Institution Code sections 654, 654.2, 725, 790, 601 and 602).

To support these populations, the CMJJP will fund the following continuum of youth development services that must be part of a broader continuum of responses to prevent or reduce delinquency in Los Angeles County. The continuum below is based on the holistic youth development framework defined above.

Recognizing that the terms primary prevention, focused prevention/early intervention and intervention are used in a variety of fields – including juvenile justice, delinquency, dependency and child welfare, public health, and education, the CMJJP further defines these terms in the next section, adopting the holistic, health- oriented terms that the field of juvenile justice has increasingly embraced. ²⁰

b. Continuum-Based Funding Strategies

The following funding strategies for the CMJJP correspond with the continuum of services. Each strategy is designed to be flexibly applied based on the individuals and specific services involved, but should always adhere to the CMJJP guiding principles and youth development framework:

²⁰ The U.S. Department of Justice Office of Juvenile Justice and Delinquency Prevention’s definitions also provide helpful context when considering the development of a continuum of services:

-Prevention: “Programs, research, or other initiatives to prevent or reduce the incidence of delinquent acts and directed to youth at risk of becoming delinquent to prevent them from entering the juvenile justice system or to

- **Strategy 1: Primary Prevention:** Provide children and families (focusing on those at-risk) and the identification of conditions (personal, social, environmental) that contribute to the occurrence of delinquency) with an array of upfront supports within their own communities to minimize their chances of entering the juvenile justice system and maximize their chances of living healthy and stable lives.²²
- **Strategy 2: Focused Prevention/Early Intervention:** Provide upfront supports and services to children and families, whose holistic needs put them at greater risk of delinquency system involvement, in order to intervene early and prevent involvement or further penetration into the delinquency system (see pages 18-19 for a definition of "risk").
 - o *Diversion Intervention to Community-Based Services* – Redirects system responses and provides children and families to avoid involvement or further involvement in delinquency with community-based supports and services to prevent a young person's involvement or further involvement in the justice system. Although there is wide variation in diversion programming nationwide, evidence suggests that diverting young people from the juvenile justice system as early as possible is a promising practice.²³

Departments or agencies that may refer youth to diversion programs include, but are not limited to, schools, service organizations, police, probation, or prosecutors.²⁴

intervene with first-time and non-serious offenders to keep them out of the juvenile justice system. This program area excludes programs targeted at youth already adjudicated delinquent, on probation, and in corrections."

-Intervention: "Programs or services that are intended to disrupt the delinquency process and prevent a youth from penetrating further into the juvenile justice system."

²¹ See *Section VI., Service Strategy and Appendix E, Probation Youth Demographic Data* for data supporting these estimates.

- **Strategy 3: Intervention:** Provide children and families who are already involved in delinquency with supports and services to address the factors leading to their behavior and reduce the likelihood of reoccurring delinquency.²⁵
 - *During Community Supervision* – Provide children who are on community supervision (including those reentering their homes and communities after a period of placement or detention) and their families with community-based supports and services to prevent the further involvement in the justice system.
 - *In-Custody* – Provide in-custody children and their families with community-based supports and services prior to and while preparing to reenter their homes and communities to prevent their further involvement in the justice system.
- **Strategy 4: Capacity Building of Community-Based Organizations:** Support community-based organizations with capacity-building, training, and cross-training, evaluation, and to regularly track and monitor outcomes and use the results to drive County policy and practice change.
- **Strategy 5: JJCPA Evaluation and Infrastructure:** Support annual evaluation and ongoing training and supports for the JJCC and JJCC-CAC to provide leadership on the development and implementation of the CMJJP.

²⁵ Denise Herz, Probation Workgroup Report, 3.3.17.

VII. SERVICE STRATEGY

Based on a broad needs assessment, the CMJJP has identified additional service parameters and priorities within the continuum of youth development prevention and intervention strategies.

a. Landscaping the Need

Strategically targeting JJCPA funds should be informed by a landscape of “need” – consistent with state law requirements that a CMJJP be based on assessment of resources and priority areas to fund. To define need, the following categories of information have been deemed important:

- **Youth** – demographic data about at-promise and probation youth
- **Programs and services** – mapping of existing programs and services for the focus populations
- **Funding** – available resources and gaps for such programs and services.

The information presented in the CMJJP are consolidated from available and accessible sources; they do not reflect a comprehensive mapping, only an attempt to be more informed about how JJCPA is situated in a broader context. Ultimately, the question that should drive the CMJJP and funding allocation is: “how should JJCPA funds best serve at-promise and probation youth’ needs in Los Angeles County given its available programs and funding resources?”²⁶

i. At-Promise Youth²⁷

	Estimated Number
Estimated Total Youth in Los Angeles County (under age 18)	2,144,549
Estimated at-promise groups	
-Number of youth living below poverty line	514,692
-Number of chronically absent youth, minus those in the SES disadvantaged group (2019)	33,570
-Number of unduplicated suspensions (2019)	29,819
-Number of youth using substances, above poverty threshold	142,120
Total in at-promise groups	720,201 (33.58% of youth)

²⁶ See Appendix C for a list of Sample Existing, Relevant Programs, Services, and Initiatives.

²⁷ See Appendix D for At-Promise Youth Demographic Data

Identifying at-promise youth is not a straightforward process, as the definition is expansive and there are limited data sources available that provide information about relevant risk factors. Some potential indicators are more widely available, such as those related to poverty and suspensions. Others are difficult to estimate at the population level, such as family violence, parental psychopathology, and association with deviant peers. Moreover, available data come from a variety of sources, which use different methods and have different operational definitions of some constructs (e.g., poverty), making it difficult to synthesize estimates while accounting for duplicates (as some youth are likely to be identified as “at-promise” based on multiple indicators). However, estimates based on available data provide some guidepost as to the size of this population, which in turn helps to inform funding levels across categories (i.e., prevention, intervention).

Status Offense arrests	3,948	2,568	2,189	1,277	863	614	347

The table of Overall Youth Arrests shows marked decreases in the total arrests as well as felony, misdemeanor and status offense arrests from 2012 to 2018. These reductions are part of a steep decline in juvenile arrests in the State over the past decades (<http://www.cjci.org/news/11883>).

From 2018 to the present, there appears to have been a reduction in the youth on active supervision. Reductions were observed across all supervision dispositions, but proportionally speaking, were notably large for 654 (a 85% reduction from the 2018 snapshot to the 2021 snapshot), 654.2 (a 62% reduction from the 2018 snapshot to the 2021 snapshot), and DJJ (a 43% reduction from the 2018 snapshot to the 2020 snapshot).³¹ Of note, it is somewhat difficult to determine what might account for these reductions, especially from 2019 to 2020, given the influence of COVID-19 on County agencies (e.g., Courts were only hearing a subset of cases). In addition, stay at home orders may have reduced the number of youth interacting with Probation during 2020.

2. Youth on Probation by Geography

The highest numbers of youth under probation supervision live in the following areas and zip codes:

³¹ The number of youth on out-of-state/courtesy supervision also declined substantially but includes a relatively small number of youth.

These data indicate the areas of the County with the most Probation-involved youth have remained stable over the past three years. This may suggest the ongoing need for investment in these areas, not just in intervention services but also in prevention services.

b. Recommended Service Categories and Approaches

Along the continuum of prevention and intervention services structured around a youth development framework, the CMJJP should support the following service categories and approaches. With a few modifications, these categories and approaches were the recommendations of the JJCPA evaluation conducted by Resource Development Associates. These approaches should be built into requests and contracts for services by public and community-based service-providers.

Physical Health, Mental Health, and Substance Abuse Treatment
<ul style="list-style-type: none"> • Provide target youth populations with appropriate health, mental health, and substance abuse treatment that target their individual needs • Specifically, fund community-based, trauma informed behavioral health interventions and more community-based substance abuse treatment in neighborhoods with high density of youth on probation
Schools/Educational Support
<ul style="list-style-type: none"> • Fund educational advocacy and system navigation for parents/guardians • Fund an asset-based, family and community centered approach to truancy reduction that helps families address issues that limit regular school attendance • Fund community-based providers in schools to provide tutoring/academic support for youth, and educational advocacy and system navigation for youth and families • Fund intervention workers to facilitate violence prevention and safe neighborhoods • Fund access to support remote/online learning
Employment/Career/Life Skills
<ul style="list-style-type: none"> • Increase focus on job development, including career readiness and professional skill-building, vocational training, creative and alternative career training • Strengthen educational pathways to community college courses to promote Career Technical Educational Certifications • Providers should be able to subsidize employment for up to 6-months to increase the likelihood that employers will hire youth • Increase opportunities for vocational skill development, and align vocational training with career opportunities • Loosen the restrictions on the type of accepted employment opportunities to support internships, seasonal employment, and subsidized employment that support career pathways • Leverage and align high-risk/high-need employment with existing LA County youth employment programs, such Youth Workforce Innovations and Opportunity Act-funded Youth Source Centers • Support life skills (e.g., financial literacy, self-care, and stress management) components to employment and educational programs

Socio-Emotional Support
<ul style="list-style-type: none"> • Support community-based programs with a focus on racial equity, historical trauma, and racism • Provide programming focused on personal growth and expression, including creativity, mindfulness, and spirituality • Provide peer and adult mentoring services, particularly for young people of color • Provide gender-specific, culturally, and racially responsive services to at-risk youth • Provide LGBTQ+ specific support services for youth • Partner with schools and CBOs to provide social justice curriculum and restorative justice models in spaces serving youth to promote youth advocacy and voice • Provide CBOs discretionary funding that can be used for supplemental services to support youth and their families (e.g., incentives, household goods, field trips) • Increase services that serve youth and families together, as well as those specifically for parents/caregivers • Prioritize providers who work across the continuum to provide continuity of services For youth
Housing
<ul style="list-style-type: none"> • Support housing linkage assistance for youth and families with unstable housing • Support alternative housing for youth who cannot live at home • Partner with the Los Angeles Homeless Services Authority (LAHSA) and LA County Homeless Initiative, particularly housing navigation and housing problem-solving for transitional aged youth (TAY) • Establish pathways to LA County's Coordinated Entry System (CES)
Parent/Caregiver Support
<ul style="list-style-type: none"> • Fund wraparound services that include the family • System navigation and referral to basic needs providers • Fund individual and group mental health support to parents/caregivers
Arts, Recreation and Well-Being
<ul style="list-style-type: none"> • Support arts-focused programming in the areas of employment/career and socio-emotional development • Provide out-of-school time opportunities in safe spaces and access to mentors • Access to health, fitness, life skill and self-care classes and workshops • Support for cultural events, sports, and recreational activities that promote positive youth development

c. System, Service Delivery, and Youth/Family Outcomes

Ultimately, the success of the CMJJP and any program funded by JJCPA must be guided by an evaluation of its implementation and impact. The following outcomes at three levels – system implementation, service provision, and youth and family impact – can guide evaluation and systems and program improvement.³²

³² The outcomes for service delivery and improved youth and family well-being are adopted from the 2017 Probation Working Group's report.

CMJJP FUNDING ALLOCATIONS AND JJCPA FUNDING

f. Overview

Each year, the County receives approximately \$28 million in JJCPA funds from the State at the beginning of the new fiscal year– these are known as “base funds” and support ongoing programs.³³ Mid-way during the fiscal year, the County also receives an allocation of “growth funds” – the amount of which varies. Growth funds have been used for one-time projects.³⁴

Below are additional funding parameters and the allocation goals of the CMJJP. It is important to note that:

- The FY 2024-25 JJCPA funding allocation will more closely reflect the model allocation – considering variables including the one-time allocation of accumulated funds in recent years that still need to be spent down, and the need to conduct further assessment and/or planning to significantly reduce or end JJCPA funding for some programs. Additional time should be committed to further research, especially about other available funding sources to accurately assess whether a program or service should receive JJCPA funding versus other funds, or no funds because the program is not supported by outcomes data or best practices research.
- The JJCC should ensure that that the implementation of the model allocation continues to be phased in over the next several fiscal years.

g. Additional Funding Parameters

The following funding parameters should further focus the allocation of JJCPA funds in each of the five funding strategies (primary prevention, focused prevention/early intervention, intervention, capacity-building and evaluation and infrastructure):.

- 1) Maintain the increased amount of JJCPA funding that goes toward programming and direct services provided to clients by and in coordination with CBOs.³⁵
- 2) Prioritize the funding of public agency personnel's time to specifically facilitate service referral to, coordination, and delivery partnerships with CBOs.
- 3) Rather than dividing services equally by the five clusters, target services by needs, demographics, gaps in services, and existing resources, such as the Service Planning Areas (SPA) developed by the LA County Department of Public Health.³⁶

h. Model Base-Funding Allocation

The following allocation goals of the CMJJP for base funding were based on an assessment of youth, program, and funding needs in Los Angeles County. The intent of having allocations is to provide the JJCC a set of guidelines for making funding decisions, not a firm set of rules to adhere to.

<i>Funding strategy</i>	<i>Allocation</i>	<i>Approximate \$ (based on \$27.5 million funding)</i>
Primary Prevention	25%	6,875,000
Focused Prevention/Early Intervention	35%	9,625,000
Intervention	30%	8,250,000
Capacity-building of community-based organizations	5%	1,375,000
JJCPA Evaluation and Infrastructure	5%	1,375,000

County of Los Angeles Juvenile Justice Coordinating Council (JJCC) Fiscal Year 2025-26 Community Input on Programs and Projects

Each year the County of Los Angeles supports programs and projects that prevent and reduce youth crime. To help guide programming decisions, the JJCC developed and adopted a Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP), which serves as a theoretical and practical guide for selection, implementation, and evaluation to maximize benefit to the youth population served. The CMJJP can be accessed at:

The JJCC is accepting input on existing or proposed programs and projects that improve youth and family wellness and community safety by increasing access to opportunities to strengthen resiliency and reduce delinquency consistent with the CMJJP.

The JJCC is interested in learning about both programs (ongoing services supporting at least one strategic goal with clearly defined objectives and outcomes, funded by ongoing revenues) and projects (temporary endeavors undertaken to create a unique product, service, or result in support of a strategic goal).

- Programs are considered in light of the CMJJP Mission and Guiding Principles, which may be found on pages 21-22 of the CMJJP
- Projects are considered in light of the Growth Fund Goals and Guiding Principles, which may be found on pages 21-22 of the CMJJP

While the JJCC may learn about programs or projects, it cannot and will not recommend specific providers receive funding. The purpose of this input process is informational only.

Appendix B

Recommended Format for Governmental Partner Funding Requests

Section 1. CMJJP Guiding Principles

CMJJP GUIDING PRINCIPLES:

Describe how the funding request of a program aligns with the Guiding Principle and indicate the Specific Principle it Aligns with and How it Aligns with the Guiding Principle.

The following guiding principles were developed to drive the work of key partners in Los Angeles County to:

- 1. Align, coordinated, and oversee policies, practices, and services along a continuum of prevention and intervention programming focused on holistic youth development.**
- 2. Drive decision-making about program design, evaluation and funding through a collaborative, multidisciplinary process**
- 3. Recognize and reduce the disparities related to access to services and juvenile justice processing and the needs of special populations**
- 4. Ensure transparency and accountability from all partners.**

Section 2. Frameworks

Describe How the Framework(s) (applicable to your submission) Are Used

- Trauma Informed Care**
- Vision for Supporting Family's Needs**
- Culturally Appropriate and Responsive Programming**
- Evidence Based Practices**

Section 3. Statement of Need (Character limit of 2500)

- a. Describe the problem that the program/project will attempt to address.
- b. Describe the population that will be served.

Section 4. Program/Project Description Summary (Character limit of 2500)

- a. Program Summary – One paragraph to articulate and summarize program
 - This information will be utilized and provided as the program description for the annual JJCC meeting that includes voting on programs/projects.
- b. Describe the program/project and provide information on how it will be implemented. Include specific approaches, modalities, and/or curricula used by your program/project, as application. Include information on what will be accomplished and the desired outcomes.
- c. Provide the evidence upon which the program/project is based; includes references to local outcome data and/or applicable research studies.
- d. How many young people will the program/project serve annually?
- e. What Service Planning Area(s) (SPA) does the program/project serve?

<http://publichealth.lacounty.gov/chs/SPAMain/ServicePlanningAreas.htm>

- f. Which Supervisorial District(s) does the program/project serve?
- g. Which service strategies does the program/project support (Primary Prevention, Focused Prevention/Early Intervention, Intervention, Capacity-building of community-based organizations, JJCPA Evaluation and Infrastructure)?
- h. Include percentage of requested funding allocation designated for CBO contracts/sub-contracts. Service Strategies include the following:
 - Primary Prevention
 - Focused Prevention/Early Intervention
 - Intervention
 - Capacity Building of Community-Based Organizations
 - JJCPA Evaluation and Infrastructure
 - What are your metrics of success?
 - What are your program costs per capita of youth served?

CMJJP Service Strategy category definitions are included for submitters to complete the applicable required information that align(s) with the program/projects submitted.

“Strategy 1: Primary Prevention: Provide children and families (focusing on those at-risk) and the identification of conditions (personal, social, environmental) that contribute to the occurrence of delinquency) with an array of upfront supports within their own communities to minimize their chances of entering the juvenile justice system and maximize their chances of living healthy and stable lives.

Strategy 2: Focused Prevention/Early Intervention: Provide upfront supports and services to children and families, whose holistic needs put them at greater risk of delinquency system involvement, in order to intervene early and prevent involvement or further penetration into the delinquency system (see pages 18-19 for a definition of "risk").

Diversion Intervention to Community-Based Services – Redirects system responses and provides children and families to avoid involvement or further involvement in delinquency with community-based supports and services to prevent a young person’s involvement or further involvement in the justice system. Although there is wide variation in diversion

programming nationwide, evidence suggests that diverting young people from the juvenile justice system as early as possible is a promising practice.²³

Departments or agencies that may refer youth to diversion programs include, but are not limited to, schools, service organizations, police, probation, or prosecutors.²⁴

- o **Strategy 3: Intervention:** Provide children and families who are already involved in delinquency with supports and services to address the factors leading to their behavior and reduce the likelihood of reoccurring delinquency.²⁵
- o *During Community Supervision* – Provide children who are on community supervision (including those reentering their homes and communities after a period of placement or detention) and their families with community-based supports and services to prevent the further involvement in the justice system.
- o *In-Custody* – Provide in-custody children and their families with community-based supports and services prior to and while preparing to reenter their homes and communities to prevent their further involvement in the justice system.

- o **Strategy 4: Capacity Building of Community-Based Organizations:** Support community-based organizations with capacity-building, training, and cross-training, evaluation, and to regularly track and monitor outcomes and use the results to drive County policy and practice change.
- o **Strategy 5: JJCPA Evaluation and Infrastructure:** Support annual evaluation and ongoing training and supports for the JJCC and JJCC-CAC to provide leadership on the development and implementation of the CMJJP.”
- o Note: If your program supports more than 1 Service Strategy category, it is recommended that you divide the allocation amounts proportionally between the service categories.

Section 5: CMJJP Guiding Principles and Additional Questions:

- a. How does your program align, coordinate, and oversee policies, practices, and services along a continuum of prevention and intervention programming focused on holistic youth development?
- b. How does your program recognize and reduce the racial and ethnic and geographic disparities related to investments in custody, control and punishment approaches, access to services and juvenile justice processing in the needs of special populations including (but not necessarily limited to): females, LGBTQ-2A youth, crossover/dually involved youth, youth who became parents, undocumented, and transitional age youth without family/caretakers/support systems?
- c. How does your program ensure transparency and accountability from all partners engaged in youth development service delivery for fiscal management, measuring outcomes related to their work, and implementing effective practices?
 - Collect and report consistent and meaningful outcomes on program impact and effectiveness to assess the effectiveness and equitable impact of policies, practices, and programs.
 - Develop and support capacity of all partners to conduct consistent and meaningful data collection and evaluation.
 - Ensure studies involve research methodologies that are aligned with the perceptions and experiences of communities of color.
- d. Include provider challenges (if applicable)
- e. Does the program reach target recipients?
- f. Describe the return on investment of taxpayer money.
- g. What are your alternate sources of funding?

Section 6. Timeline and Milestones (e.g., contracting processes, when service delivery will begin, report submissions, etc.). **(Character limit of 2500)**

Section 7. Budget by Service Strategy

- a. For each service strategy category, provide a budget breakdown explaining by category how the funds will be used (e.g. salaries and benefits, services, supplies, indirect costs, etc.).

Note: If your program supports more than one service strategy, it is recommended that you divide the administrative and overhead costs proportionally between the service categories. See pp.30-33 of the CMJJP for descriptions of the service strategies.

Note: It is recommended that you include a brief narrative of expenses along with a table of individual cost components.

- b. What is the cost per youth served?
- c. Why was this program/project not included in your departmental budget?
 - Alternatively, list the amount of departmental funding or support the program/project will receive from other source(s)

Section 8. Evaluation Provide information through approved JJCPA Evaluation Process

(Note: The JJCPA Evaluator may provide limited technical assistance for data collection to programs that receive JJCPA funding, however, preliminary plans for evaluation metrics should be in place at the time funds are requested).

Section 9. Required Data Collection and Evaluation of JJCPA Programs

According to a recent JJCPA State audit (The California State Auditor's Report: Juvenile Justice Crime Prevention Act Weak Oversight Has Hindered Its Meaningful Implementation (ca.gov) Report 2019-116, issued May 12, 2020), the following finding was documented: "Los Angeles should collect data on all participants in each JJCPA program and service to adequately assess the effectiveness of those programs at reducing juvenile crime and delinquency."

This restates the requirement for JJCPA funded agencies to collect and submit data to the Probation Department (for Probation youth) and/or DYD (for At-Promise youth) for purposes of reporting on and evaluating specific program and justice outcomes (by the JJCPA Evaluator) through the full evaluation process.

By submitting this request for JJCPA funding and upon the County's/JJCC approval/adoption, agencies agree to be responsible for developing the process to collect and submit the mandatory identifiable data for Probation youth served through the JJCPA funded program/service to Probation and/or de-identified data for At-Promise youth served through the JJCPA funded program/service to DYD.

Submission of this required JJCPA Data on all youth served includes, but is not limited to the following:

Monthly submission of the following data for Probation youth served, by program/program site will be due on the 15th of the following month; for the last month of the Fiscal Year, 2024-25, the data will be due on July 15, 2025

- Agency Name
- Name and Type of Program/Service
- One Time or On-Going
- Date and Timeframe
- Session Location
- Program/Service Start Date
- Program/Service End Date
- At the end of the funded Fiscal Year, status of each youth: completed, did not complete and reason or in progress (for applicable program/service)
- Required additional data in order to adequately assess program effectiveness at

reducing juvenile crime and delinquency (for full program specific evaluation)

Failure to submit the required data to Probation may result in loss of grant funds in accordance with monthly reporting submissions.

Submission, as determined by DYD, of the following data for At-Promise youth served, by program/program site:

- Agency Name
 - Type of Service
 - Program Start Date (if applicable)
 - Program Completion Date (if applicable)
 - Age
 - Race/Ethnicity
 - Gender Identity
 - Service Area Zip Code (area where services are provided)
-
- Required additional data in order to adequately assess program effectiveness at reducing juvenile crime and delinquency (justice outcome reporting and full evaluation)
 - At the end of the funded Fiscal Year, status of each youth: completed, did not complete and reason or in progress (for applicable program/service)

Section 10. The California State Auditor's Report: Juvenile Justice Crime Prevention Act Weak Oversight Has hindered its Meaningful Implementations (ca.gov) Report 2019-115, issued May 12, 2020, included the following finding for all California Counties: "Los Angeles should collect data on all participants in each JJCPA program and service to adequately assess the effectiveness of those programs at reducing juvenile crime and delinquency."

This restated the requirement for JJCPA funded agencies to collect and submit data to the Probation Department (for Probation youth served) and/or the Department of Youth Development (for At-Promise youth served) for purposes of reporting on and evaluating specific program and justice outcomes (by the JJCPA Evaluator) through the full evaluation process.

By submitting the request for JJCPA funding and upon JJCC approval/adoption, agencies agree to be responsible for developing the process to collect and submit data for all youth served through the program/service to Probation and/or DYD as previously indicated above.

1. **If you have carry-over (unspent) funds from previous years, that carry-over will be applied, and your funding allocation request may be adjusted accordingly. Carryover will need to be spent on the program/project originally approved by JJCC.**
2. **One additional attachment will be accepted regarding a budget sheet that includes cost breakdown. Any additional information will not be considered part of the submission.**

SUBJECT: **FISCAL YEAR 2025-26 JUVENILE JUSTICE CRIME PREVENTION ACT FUNDING**

Dear NAME,

We greatly appreciate your continued partnership in support of Juvenile Justice Crime Prevention Act's (JJCPA's) programs and services for our Los Angeles County's at-promise young people and youth on probation. During Fiscal Year (FY) 2024-25 **AGENCY** received an approved Juvenile Justice Crime Prevention Act (JJCPA) funding allocation in the amount of \$ to support **PROGRAM NAME**.

JJCPA funded agencies are required to submit estimated expenditures on a monthly basis to the JJCPA Administration email address by the 15th of the following month. For October 2022, the due date for this information is October 1, 2024.

JJCPA funded agencies are required to collect and submit data to Probation (for Probation youth participants) and/or the Department of Youth Development (for At-Promise youth participants) in each JJCPA program and service in order to adequately assess the effectiveness of those programs at reducing juvenile crime and delinquency. JJCPA funded agencies are required to collect and submit additional program specific data to Probation and participate in the evaluation process for all JJCPA programs (see CMJJP Appendix B, Section 7 for additional detailed information).

- Required Data for JJCPA Program/Service to evaluate youth justice outcomes shall include, but not be limited to the following:

Monthly submission of the following data, by program/program site (automated data collection template to be provided by Probation) for Probation youth (to Probation) includes the following:

- o Agency Name
- o Name and Type of Program/Service
- o One Time or On-Going
- o Date and Timeframe
- o Session Location
- o Program/Service Start Date
- o Program/Service End Date
- Required additional data in order to adequately assess program effectiveness at reducing juvenile crime and delinquency (justice outcome reporting and full evaluation)

- o At the end of the funded Fiscal Year, status of each youth: completed, did not complete and reason or in progress (for applicable program/service)

Submission of the following data, by program/program site for At-Promise youth (as determined by DYD) includes the following:

- o Agency Name
- o Type of Service
- o Program Start Date (if applicable)
- o Program Completion Date (if applicable)
- o Age
- o Race/Ethnicity
- o Gender Identity
- o Service Area Zip Code (area where services are provided)
- Required additional data in order to adequately assess program effectiveness at reducing juvenile crime and delinquency (justice outcome reporting and full evaluation)
 - o At the end of the funded Fiscal Year, status of each youth: completed, did not complete and reason or in progress (for applicable program/service)

If the applicant believes that one or more of the requested data is in contradiction to any State and/or Federal law and/or regulation, the applicant must present such position for consideration and discussion. Once funds are received the applicant agrees to provide all above listed data unless there are changed circumstances that necessitate re-consideration of what data cannot be provided. "Changed Circumstances" include changes in legislation and/or regulations.

To better align the JJCPA funding schedule with the County budget timeline, this year, the Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP) and JJCPA Spending Allocation Ad-Hoc Subcommittee (CMJJP Ad-Hoc Subcommittee) will be meeting in early Spring 2024 and between September – December 2024 to prepare recommendations for the FY 2024-25 spending allocation plan. The spending plan will be considered for approval by the full JJCC at their meeting on December 2024. To begin this process:

- ☐ If your agency is interested in continued funding for FY 2024-25 to support PROGRAM NAME, please send an email, with the information requested in *Attachment I*, describing how the funds will be utilized to serve at-promise or probation youth, to: JJCC-Admin@probation.lacounty.gov with a courtesy copy (CC) to: JJCPA ADMINISTRATOR EMAIL ADDRESS at probjicpaadmin@probation.lacounty.gov
- ☐ and a subject line of: FY 2025-26 AGENCY NAME JJCPA Funds for PROGRAM NAME
- ☐ If your agency would like to request funding for a new or additional program or project, please use same format as for existing programs (above) and a subject line: FY 2025-26 New Program/Project, AGENCY NAME.
- ☐ **Email submissions are due by 5:00 PM on September 1, 2024.**

I look forward to continuing our work together in advancing partnerships between diverse public agencies and community-based organizations to promote positive youth development and prevent youth delinquency through shared responsibility, collaboration, and coordinated action.

Information to Complete Funding Request Form:

Below is the guidance information (CMJJP Appendix B that lists Sections 1-8) to reference for the completion of the attached 2025-2026 funding request submission form. Included in this guidance is the foundation of the Guiding Principles and additional information regarding JJCPA Programming Alignment. Please review the information below to assist you in completing the form.

Provide answers to all of the questions below. If the question is not applicable, please use "N/A" to answer the question.

FY 2025-26 CMJJP APPENDIX B (FY 2025-26 CMJJP Page 43)

Section 1. CMJJP Guiding Principles from FY 2023-24 CMJJP (Page 16 (Character Limit: 650 per Guiding Principle))
CMJJP MISSION: Improve youth and family wellness and community safety by increasing access to opportunities to strengthen resiliency and reduce delinquency.

Describe how the funding request of a program aligns with the Guiding Principle and indicate the Specific Principle it Aligns with and How it Aligns with the Guiding Principle.

CMJJP GUIDING PRINCIPLE 3 (Character Limit Per Principle: 650)

The following guiding principles were developed to drive the work of key partners in Los Angeles County to:

1. Align, coordinate, and oversee policies, practices, and services along a continuum of prevention and intervention programming focused on holistic youth development.
2. Drive decision-making about program design, evaluation and funding through a collaborative, multidisciplinary process
3. Recognize and reduce the disparities related to access to services and juvenile justice processing and the needs of special populations
4. Ensure transparency and accountability from all partners

Section 2. Frameworks:

Describe How the Framework(s) (applicable to your submission) Are Used (Character Limit: 750)

- Trauma Informed Care
- Vision for Supporting Family's Needs
- Racial Equity Framework
- Culturally Appropriate and Responsive Programming
- Evidence Based Practices

Section 3. Statement of Need (Character Limit: 1200 per Description)

- a. Describe the problem that the program/project will attempt to address.
- b. Describe the population that will be served.

Section 4. Program/Project Description Summary

- a. Describe the program/project and provide information on how it will be implemented. Include specific approaches, modalities, and/or curricula used by your program/project, as applicable. Include information on what will be accomplished and the desired outcomes.
- b. Provide the evidence upon which the program/project is based; includes references to local outcome data and/or applicable research studies.
- c. How many young people will the program/project serve annually?
- d. What Service Planning Area(s) (SPA) does the program/project serve?
<http://publichealth.lacounty.gov/chs/SPAMain/ServicePlanningAreas.htm>
- e. Which Supervisorial District(s) does the program/project serve?
- f. Which service strategies does the program/project supports (Primary Prevention, Focused Prevention/Early Intervention, Intervention, Capacity-Building of community-based organizations, JJCPA Evaluation and Infrastructure)?
- g. **Include percentage of requested funding allocation designated for CBO contracts/subcontracts**
Service Strategies include the following:
 - Primary Prevention

- Focused Prevention/Early Intervention
- Intervention
- Capacity Building of Community-Based Organizations
- What are your metrics of success?
- What are your program costs per capita of youth served?

*CMJJP Service Strategy category definitions are included for submitters to complete the applicable required information that align(s) with the program/project submitted. For Additional Information on Strategies, please see the end of this form.

Section 5: CMJJP Guiding Principles and Additional Questions:

- How does your program align, coordinate, and oversee policies, practices, and services along a continuum of prevention and intervention programming focused on holistic youth development?
- How does your program recognize and reduce the racial and ethnic and geographic disparities related to investments in custody, control and punishment approaches, access to services and juvenile justice processing in the needs of special populations including (but not necessarily limited to): females, LGBTQ-2A youth, crossover/dually involved youth, youth who became parents, undocumented, and transitional age youth without family/caretakers/support systems?
- How does your program ensure transparency and accountability from all partners engaged in youth development service delivery for fiscal management, measuring outcomes related to their work, and implementing effective practices?
 - Collect and report consistent and meaningful outcomes on program impact and effectiveness to assess the effectiveness and equitable impact of policies, practices, and programs.
 - Develop and support capacity of all partners to conduct consistent and meaningful data collection and evaluation.
 - Ensure studies involve research methodologies that are aligned with the perceptions and experiences of communities of color.
- Include any service delivery challenges the program/provider may experience (if applicable)
- Does the program reach target recipients? (Explain)
- Describe the return on investment of taxpayer money.
- What are your alternate sources of funding?

Section 6. Timeline and Milestones (e.g., contracting processes, when service delivery will begin, report submissions, etc.). (Limit : 2500)

Section 7. Budget by Service Strategy (Character Limit: 2500)

- For each service strategy category, provide a budget breakdown explaining by category how the funds will be used (e.g., salaries and benefits, services, supplies, indirect costs, collection and submission of data, etc.).

Note: If your program supports more than one service strategy, it is recommended that you divide the administrative and overhead costs proportionally between the service categories. See pp.30-33 of the CMJJP for descriptions of the service strategies.

Note: It is recommended that you include a brief narrative of expenses along with a table of individual cost components.

- What is the cost per youth served?
- Is any portion of the programs funding included in your departmental budget?
 - Explain any departmental budget inclusion or omission.
 - Alternatively, list the amount of departmental funding or support the program/project will receive from other source(s)

Section 8. Evaluation Provide information through approved JJCPA Evaluation Process

(Note: The JJCPA Evaluator may provide limited technical assistance for data collection to programs/projects)

that receive JJCPA funding, however, preliminary plans for evaluation metrics should be in place at the time funds are requested).

Section 8. Required Data Collection and Evaluation of JJCPA Programs

According to a recent JJCPA State audit (The California State Auditor's Report: Juvenile Justice/Crime Prevention Act Weak Oversight Has Hindered Its Meaningful Implementation (ca.gov) Report 2019-116, issued May 12, 2020), the following finding was documented: "Los Angeles should collect data on all participants in each JJCPA program and service to adequately assess the effectiveness of those programs at reducing juvenile crime and delinquency."

FY 2025-26 JJCPA FUNDING REQUEST SUBMISSION FORM

Section 10. The California State Auditor's Report: Juvenile Justice Crime Prevention Act Weak Oversight Has hindered its Meaningful Implementations (ca.gov) Report 2019-115, issued May 12, 2020, included the following finding for all California Counties: "Los Angeles should collect data on all participants in each JJCPA program and service to adequately assess the effectiveness of those programs at reducing juvenile crime and delinquency."

This restated the requirement for JJCPA funded agencies to collect and submit data to the Probation Department (for Probation youth served) and/or the Department of Youth Development (for At-Promise youth served) for purposes of reporting on and evaluating specific program and justice outcomes (by the JJCPA Evaluator) through the full evaluation process.

By submitting the request for JJCPA funding and upon JJCC approval/adoption, agencies agree to be responsible for developing the process to collect and submit data for all youth served through the program/service to Probation and/or DYD as previously indicated above.

1. If you have carry-over (unspent) funds from previous years, that carry-over will be applied, and your funding allocation request may be adjusted accordingly. Carryover will need to be spent on the program/project originally approved by JJCC.
2. One additional attachment will be accepted regarding a budget sheet that includes cost breakdown. Any additional information will not be considered part of the submission.

AGENCY NAME			
PROGRAM NAME - SUBMIT ONE (1) FUNDING REQUEST FOR EACH PROGRAM			
<p>Important Information: Every program must identify a Program Manager with contact information. The program manager will be the primary contact for the programs. The agency is responsible for coordinating internally within their organization. These include but are not limited to the following: Coordinate any MOU, Statement of Work; Budget modifications submissions and fiscal and funding tracking. If the submission is received from an agency that has a JJCC member, the agency must coordinate with the JJCC member regarding funding allocations and information regarding JJCC meetings. Additionally, the program manager and any identified team members should join JJCC meetings to receive updates and related information of the funding processes and the funding recommendation outcomes and JJCC annually adopted fiscal year funding.</p>

- a. For each service strategy category, provide a budget breakdown explaining by category how the funds will be used (e.g., salaries and benefits, services, supplies, indirect costs, ~~colleces~~ collection and submission of data, etc.).

Note: If your program supports more than one service strategy, it is recommended that you divide the administrative and overhead costs proportionally between the service strategies. See pp.30-32 of the CMJJP for descriptions of the service strategies.

Note: It is recommended that you include a brief narrative of expenses along with a table of individual cost components.

- b. What is the cost per youth served?
 c. Why was this program/project not included in your departmental budget?
 d. Will this project/program be included in your Departmental budget?

SECTION 8: Evaluation Provide information through approved JJCPA Evaluation Process

The information is from the CMJJP regarding Strategies and can be found on pages 30-32

***Strategy 1: Primary Prevention:** Provide children and families (focusing on those at-risk) and the identification of conditions (personal, social, environmental) that contribute to the occurrence of delinquency) with an array of upfront supports within their own communities to minimize their chances of entering the juvenile justice system and maximize their chances of living healthy and stable lives.

Strategy 2: Focused Prevention/Early Intervention: Provide upfront supports and services to children and families, whose holistic needs put them at greater risk of delinquency system involvement, [in order to](#) intervene early and prevent involvement or further penetration into the delinquency system (see pages 18-19 for a definition of "risk").

o **Diversion Intervention to Community-Based Services** – Redirects system responses and provides children and families to avoid involvement or further involvement in delinquency with community-based supports and services to prevent a young person's involvement or further involvement in the justice system. Although there is wide variation in diversion programming nationwide, evidence suggests that diverting young people from the juvenile justice system as early as possible is a promising practice.²³

Departments or agencies that may refer youth to diversion programs include, but are not limited to, schools, service organizations, police, probation, or prosecutors.²⁴

Strategy 3: Intervention: Provide children and families who are already involved in delinquency with supports and services to address the factors leading to their behavior and reduce the likelihood or reoccurring delinquency.²⁵

o **During Community Supervision** – Provide children who are on community supervision (including those reentering their homes and communities after a period of placement or detention) and their families with community-based supports and services to prevent the further involvement in the justice system.

o **In-Custody** – Provide in-custody children and their families with community-based supports and services prior to and while preparing to reenter their homes and communities to prevent their further involvement in the justice system.

Strategy 4: Capacity Building of Community-Based Organizations: Support community-based organizations with capacity-building, training, and cross-training, evaluation, and to regularly track and monitor outcomes and use the results to drive County policy and practice change.

Strategy 5: JJCPA Evaluation and Infrastructure: Support annual evaluation and ongoing training and supports for the JJCC and JJCC-CAC to provide leadership on the development and implementation of the CMJJP.²⁶ (This refers to the official JJCPA Evaluator that is contracted through JJCPA funding. All JJCPA funded programs shall be evaluated by the official JJCPA Evaluator).

o Note: If your program supports more than 1 Service Strategy category, it is recommended that you divide the allocation amounts proportionally between the service categories.²⁷

Appendix D

Sample of Existing, Relevant Programs, Services, and Initiatives

The CMJJP should leverage, link and resource existing collaborations and programs and services that can serve at-promise and probation youth. The following is a non-exhaustive list of potentially relevant initiatives and service providers.

1. **Department of Youth Development (DYD) (Formerly the Office of Diversion and Reentry, Youth Diversion and Development (YDD))** – YDD was created in 2017 as the result of a collaboration to develop a countywide blueprint for expanding youth diversion at the earliest point possible; in January 2018, YDD selected 9 service providers as the first cohort to receive law enforcement diversion referrals. YDD retained funding and it was moved to the new DYD once DYD was created in 2022.
2. **Public/Private Partnership (P/PP) for Fiscal Intermediary Services and Capacity Building Services with contracted CBOs**– The P/PP was created to serve as a passthrough for countyfunding to be granted directly to community-based service organizations; technical assistance will also be available to those service providers.
3. **Office of Child Protection’s Prevention Plan** – Created in 2015, the Office of Child Protection released a comprehensive countywide prevention plan in 2017 for reducing child maltreatment. The plan was developed through collaboration across public agencies and community groups.
4. **Department of Children and Family Services Prevention-Aftercare Networks** – DCFS institutionalized its community-based networks of service providers in 2015 and established ten countywide Prevention and Aftercare networks (P&As). These include a broad range of public, private, and faith-based member organizations—groups that bring resources to the shared goal of preventing child abuse and neglect, along with designated lead agencies responsible for convening, organizing, and leading local grassroots groups. The P&A organizations are part of a critical web of providers across the county that effectively reach out to and engage parents, assisting them as they navigate often complex systems of services. In so doing, providers develop relationships with these parents, building upon their natural assets through the Strengthening Families Approach. Those relationships in turn create trusting environments that encourage parents to disclose family needs and access appropriate services earlier, as family stressors occur.³⁷
5. **Trauma-informed schools** – A new initiative was launched by the Los Angeles County Office of Education (LACOE) in September 2018 to support a trauma-informed approach in schools countywide. The initiative brings together LACOE, the County Department of Mental Health, UCLA, and other agencies to enhance schools' capacity to address trauma, which impacts at least one in four students. The effort will involve professional

³⁷ OCP prevention plan.

development as well as enhancing resources at or near schools through partnerships with county agencies.³⁸

6. **Performance Partnership Pilot (P3)** – has a 2017-2020 strategic plan to improve education, employment, housing and well-being for disconnected youth; an effort of the City of Los Angeles, the County of Los Angeles, Los Angeles Unified School District, Los Angeles Community College District, local Cal State Universities (CSU 5), Los Angeles Chamber of Commerce, Los Angeles Housing Service Agency, and over 50 public, philanthropic and community-based organizations to improve the service delivery system for a disconnected young adult population ages 16-24 and improve their educational, workforce, housing and social well-being outcomes.

In addition to the above six initiatives, other relevant initiatives and providers include:

7. Office of Violence Prevention
8. Trauma Prevention Initiative
9. Capacity Building Training and Technical Assistance
10. Incubation Academy
11. Whole Person Care
12. SEED School
13. Master Service Agreement Vendors (RFSQ #6401706)

 - Proportion of youth age 0-17 living below the Federal poverty threshold and qualifying for free/reduced lunch
 - <https://www.kidsdata.org/export/pdf?loc=364>

Method

Attempts were made to deconflict data sources to the extent possible.

- For example, though the California State Department of Education defines “socioeconomic disadvantage” more broadly than individuals living below the poverty line, the assumption was made that these could be approximating the same group.
- A study in Washington State suggests that 70% of youth who use marijuana also use alcohol (<https://adai.uw.edu/mjsymposium/slides/2018/Lee.pdf>).
- Proportion of youth estimated to be using substances using those youth living above the poverty threshold as the base, so as not to re-count those in the population living below the poverty threshold.

Limitations:

- As noted, some of the data sources focused on restricted ranges of ages. For example, the substance use data focused on youth age 12-17, but I was only able to find the census breakdown for youth age 10-19. The population of youth age 10-19 is used as

the base population, but there may be different rates of substance use in those age 10/11 and 18/19.

- Certain data sources could not be unduplicated because they did not report on subgroups, like the suspension data.

Cumulative and Enrollment regardless of Cumulative enrollment consists of the total number of unduplicated primary short-term enrollments within the academic year (July 1 to June 30)

Whether the student is enrolled multiple times within a school or district.

Cumulative enrollment is calculated at each reporting level (e.g., school, district, county, and state), and therefore is **not** necessarily additive from one reporting level to the next. For example, if a student is enrolled in multiple schools within a district during the academic year, they are counted once at each school, but only once in the district's cumulative enrollment.

Chronic Absenteeism Enrollment

This count uses the Cumulative Enrollment of the selected entity as the baseline and removes students that were not eligible to be considered chronically absent at that entity. Students that are expected to attend less than 31 instructional days at the selected entity who were enrolled but did not attend the selected entity are **not** eligible to be considered chronically absent at that entity. This is calculated by looking at the number of expected days to attend and actual days attended that LEAs submit for each student in CAPOADS. Students with exempt status are also removed from Chronic Absenteeism eligibility. Students are exempt if they are enrolled in a Non-Public School (NPS), receive instruction through a home or hospital instructional setting or are attending community college full-time.

Chronic Absenteeism Count	Total count of ALL chronically absent students at the selected entity for the selected population using the available filters. Students are determined to be chronically absent if they were eligible to be considered chronically absent at the selected level during the academic year and they were absent for 10% or more of the days they were expected to attend. Chronic absenteeism is calculated for each student at each reporting level (e.g., school, district, county, and state) based on the expected days of attendance and actual days attended reported by local educational
	agencies (LEAs) in the California Longitudinal Pupil Achievement Data Systems (CALPADS). Expected attendance days are determined for each student at each reporting level based on the total number of days a student was scheduled to attend. Days attended are determined for each student at each reporting level based on the total number of days the student attended the school. A day attended is defined as any day a student attended for all or part of a school day.
Chronic Absenteeism Rate	The unduplicated count of students determined to be chronically absent (Chronic Absenteeism Count) divided by the Chronic Absenteeism Enrollment at the selected entity for the selected population using the available filters.

Comparisons across the last four reporting periods were limited by the differing lengths of the first three reporting periods (14 months, 10 months, 8 months), as well as the impact of COVID-19 on provision of services beginning in March 2020. However, there are still certain trends worth considering:

- First, accounting for the different reporting periods, there appears to have been substantially fewer investigations in the last two reporting periods (November 2019 to June 2021). However, this might reflect a reduced likelihood to be referred for an investigation during the COVID-19 stay-at-home orders, as youth were more likely to be home and not in school, and are the top arresting agency.
- Second, there have been some changes in the proportion of WIC 654 dispositions over time. In the reporting period from January to October 2019, a smaller proportion of investigations were resolved through WIC 654 dispositions (a combined 33%). In the period from November 2019 to June 2020, the proportion resolved through WIC 654 dispositions had increased to 46%, more like the data from 2017-2018, however, for July 2020 through June 2021, decreased to approximately 22%.
- Third, fewer cases were sent to the District Attorney in the most recent period, though these cases reflected a similar proportion of the overall number of investigations as in previous periods (about 33%).

During the last reporting period, the most common arrest categories remained consistent with previous reporting periods. These included battery-related, theft-related, drug-related, and vandalism-related charges. Absolute numbers of charges in each of these categories declined, consistent with the overall reduction in WIC 652 investigations.

Total	7,251	6,656	5,698	4,814	4,106	3,673	2,730	1,990

From 2018 to 2019, the number of youth served by School-Based Supervision decreased substantially, as did the number of probation officers. In part, this reflects a scaling back of the School-Based Supervision program to focus on youth in high school who are under supervision by Probation. The size of the population served by School-Based Supervision remained similar in 2020.

As reported by the United States Census Bureau as of 2020, the percentage of youth (ages 10-17) race/ethnic groups in the County of Los Angeles, 55.7% of youth are Hispanic or Latino and 7.5% are African American. Based on these data, Black youth continue to be overrepresented among those on active supervision, in camps, and in halls.

Appendix G

Summary of Results from the 2020 Juvenile Justice Coordinating Council - Community Advisory Committee County of Los Angeles Youth Service Needs Assessment

Background: Each year since 2001, counties across the state have received roughly \$100 million in Juvenile Justice Crime Prevention Act (JJCPA) funds meant for effective programs that prevent and reduce youth crime. The County of Los Angeles receives approximately \$28 million in JJCPA funds at the beginning of the new fiscal year, with additional variable growth funds each Fall based on a legislative change in 2011. To help guide funding decisions, the JJCC developed and adopted a new Comprehensive Multi-Agency Juvenile Justice Plan (CMJJP) in February 2020, which serves as a theoretical and practical guide for funding, implementation, and evaluation to maximize benefit to the youth population served.

To better refine this framework and plan, the Juvenile Justice Coordinating Council (JJCC) and the JJCC's Community Advisory Committee (JJCC-CAC) are seeking community input on how funds can best be allocated to improve youth and family wellness and community safety by increasing access to opportunities to strengthen resiliency and reduce delinquency.

The CMJJP can be accessed at:

Purpose of this Survey: This survey is meant to gather information from stakeholders connected to or impacted by the juvenile justice system (e.g. community members, governmental agencies, and community-based organizations) about the unmet needs of justice-involved and at-risk youth in the County of Los Angeles. This information will provide insight and guidance to the CAC and the JJCC on how JJCPA funding can better support young people and close gaps in the services provided to them.

You will be asked about:

- ☐ Types of services and the strategies that are most in need of funding in the County of Los Angeles to better serve at-risk youth and/or youth who have had contact with the justice system;
- ☐ Categories of youth you feel this programming should be targeted towards;
- ☐ Geographic areas in the County which are in most need of these services; and,
- ☐ A few questions about yourself to better understand your perspective.

Disclaimer: This is not an application for funding. Any individual or organization who submits information to the CAC is under no guarantee for future contracts under the JJCPA. All interested providers must participate in the contracting process in accordance with applicable County contracting procedures. Do not include proprietary, confidential information, or trade secrets in the fields below.

Juvenile Justice Coordinating Council - Community Advisory Committee 2023 County of Los Angeles Youth Service Needs Assessment

ANSWER CHOICES	RESPONSES	
Physical Health, Mental Health, and Substance Abuse Treatment • Provide target youth populations with appropriate health, mental health, and substance abuse treatment that target their individual needs. Specifically, fund community-based, trauma informed behavioral health interventions and more community-based substance abuse treatment in neighborhoods with high density of youth on probation	73.53%	25
Schools/Educational Support • Fund educational advocacy and system navigation for parents/guardians. Fund an asset-based, family and community centered approach to truancy reduction that helps families address issues that limit regular school attendance. Fund community-based providers in schools to provide tutoring/academic support for youth, and educational advocacy and system navigation for youth and families. Fund intervention workers to facilitate violence prevention and safe neighborhoods. Fund access to support remote/online learning	73.53%	25
Employment/Career/Life Skills • Increase focus on job development, including career readiness and professional skillbuilding, vocational training, creative and alternative career training. Strengthen educational pathways to community college courses to promote Career Technical Educational Certifications. Providers should be able to subsidize employment for up to 6-months to increase the likelihood that employers will hire youth. Increase opportunities for vocational skill development, and align vocational training with career opportunities. Loosen the restrictions on the type of accepted employment opportunities to support internships, seasonal employment, and subsidized employment that support career pathways. Leverage and align high-risk/high-need employment with existing LA County youth employment programs, such Youth Workforce Innovations and Opportunity Act-funded Youth Source Centers. Support life skills (e.g., financial literacy, self-care, and stress management) components to employment and educational programs	38.24%	13
Socio-Emotional Support • Support community-based programs with a focus on racial equity, historical trauma, and racism. Provide programming focused on personal growth and expression, including creativity, mindfulness, and spirituality. Provide peer and adult mentoring services, particularly for young people of color. Provide gender-specific, culturally, and racially responsive services to at-risk youth. Provide LGBTQ+ specific support services for youth. Partner with schools and CBOs to provide social justice curriculum and restorative justice models in spaces serving youth to promote youth advocacy and voice. Provide CBOs discretionary funding that can be used for supplemental services to support youth and their families (e.g., incentives, household goods, field trips). Increase services that serve youth and families together, as well as those specifically for parents/caregivers. Prioritize providers who work across the continuum to provide continuity of services for youth	32.35%	11
Housing • Support housing linkage assistance for youth and families with unstable housing. Support alternative housing for youth who cannot live at home. Partner with the Los Angeles Homeless Services Authority (LAHSA) and LA County Homeless Initiative, particularly housing navigation and housing problem-solving for transitional aged youth (TAY). Establish pathways to LA County's Coordinated Entry System (CES)	26.47%	9
Parent/Caregiver Support • Fund wraparound services that include the family. System navigation and referral to basic needs providers. Fund individual and group mental health support to parents/caregivers	14.71%	5
Arts, Recreation and Well-Being • Support arts-focused programming in the areas of employment/career and socio-emotional development. Provide out-of-school time opportunities in safe spaces and access to mentors. Access to health, fitness, life skill and self-care classes and workshops. Support for cultural events, sports, and recreational activities that promote positive youth development	20.59%	7
Total Respondents: 34

6	I feel that youth in the County of Los Angeles who are at risk / are lacking motivation and support systems. In my experience, the youth who come to our facility do not like being at home, and speak of their parent's not caring about them at the least. I feel like they don't have people in their lives who want to see them succeed or who can show them different avenues to be successful. They do not have desires to graduate highschool, and don't believe they can ever go to college, even though California has made community college more accessible than ever. They are not receiving the information to help them to succeed from their teachers, and if they are, their day to day problems prevent them from applying it in a useful way.	8/22/2023 1:46 PM

8	Youth need free or low cost access to sports, extra curricular activities, employment training and these opportunities should be available within schools or within the local community to increase access. Youth have interests in joining programs but barriers include location, lack of transportation, high enrollment fees, space limits. 10	The programing for mental health and substance abuse along with educational support and advocacy for youth and job resources is a great need for youth in LA county. Many youth do not have enough access to these services and the parents have limited resource to assist the youth in gaining access based on their lack of knowledge of the existing resources, advocacy skills, and the financial security to try and get the youth to these resources which are very scarce in these communities. Also, depending on where the schools and resources are located, due to past gang affiliation, some youth can not attend these services since they may become a target of other gangs and parents cannot always transport them to the services. Also, the type of jobs offered the youth need to be expanded (working with computers, culinary, machinery) where the youth would be able to make a decent living, with paid on the job training or apprenticeships. Some of these trainings should be incorporated into the local schools granting more access.	7/31/2023 11:53 AM
11	I think the programming most in need of funding is the Youth Justice Reimagined because even though the county is supposed to be committed to "care firs, and jail last" model, there's still more funding things that put jails first and care last.	7/31/2023 10:40 AM

teenager, On the same issue, teenagers needs to feel understand and not judge, At the adolescence stage most of them feel unwanted and judge especially for all adults, Programs that help both will help families stay strong, By creating, such support for parents and teenagers the y can have a better communication and family bounding that would prevent teenager to get in trouble.

15	Youth need to have the best quality education possible to become life-long learners and be able to compete in today's global economy. In order to acquire the necessary academic and social-emotional skills education needs to be funded adequately. At risk-youth need mental health services to learn healthy coping skills. Many are still impacted by the losses suffered during COVID19 shut downs, from losing a loved one, to missing out on important events such as graduation ceremonies and birthdays. Parents are still having a hard time coping with the fast-paced changes in our new "normal", therefore, we can rest assured that children and youth are still in need of support to learn how to cope with their pre-COVID and post-COVID challenges (financial, housing, access to healthcare, etc). Keeping in mind Maslow's hierarchy of needs, it is also crucial for our youth to have access to housing. Living on the streets will inevitably lead to contact with law enforcement, which impacts employment and educational opportunities (convictions exempt you from eligibility for educational grants for example, thus effectively reducing the chances of personal and professional growth).	7/26/2023 10:54 AM
16	Self esteem classes	7/25/2023 12:03 PM
17	Kids belong with their families, not in cages and not in other "suitable placement" facilities made up of paid staff who care more about a job than they do about the kids. A child should NEVER be in lock up longer because there is no where safe to house them. While our agency does not even work in housing, and it's not in our self interest, the NUMBER ONE thing we need to do is fix housing for kids. In most cases that means appropriate supports for their own family to be able to successfully keep that young person close and safe and on track. Investing in FAMILIES is the priority. And when the immediate and extended family really can't be there, then other forms of safe housing with as much supports as possible need to be created to keep our youth off of the streets and out of institutional facilities.	7/25/2023 9:59 AM

Outreach and Support Services: Creating outreach teams to connect with homeless youth and provide them with basic necessities, mental health services, and case management, 3. Education and Employment Programs: Offering educational support and job training to help homeless youth gain skills and secure stable employment, 4. Prevention and Early Intervention: Implementing programs to prevent homelessness among at-risk youth and intervene early to address underlying issues, 5. Family Reunification: Facilitating family reconciliation efforts when appropriate, to provide a stable environment for the youth, 6. Legal Support: Providing legal assistance to address any barriers or challenges homeless youth may face, 7. Youth-focused Health Services: Ensuring access to healthcare, including physical and mental health services, 8. Collaboration with Community Organizations: Partnering with local nonprofits, churches, and other organizations to extend support networks for homeless youth, 9. Youth Advisory Boards: Including homeless youth in decision-making processes to better understand their needs and perspectives, 10. Public Awareness and Advocacy: Raising awareness about youth homelessness and advocating for policy changes to address the issue effectively. Remember, a multi-faceted and collaborative effort is crucial to making a meaningful impact on youth homelessness in LA.	7/24/2023 5:40 PM

After school programming helps keeps kids too busy to get into trouble.

APPENDIX H

HISTORICAL REFERENCE OF THE CMJJP (2001-2023-24)

In November 2018 a community representative and a FUSE Executive Fellow were selected to co-lead the Taskforce. The Taskforce was charged to update and revise a FY 2019-20 CMJJP and to make recommendations as to the spending of FY 2019-20 JJCPA funds. The updated FY 2019-20 CMJJP included a formalized, ongoing planning process to annually redesign the CMJJP and to develop a revised spending plan based on the Resource Development Associates, Inc. evaluation, general research, and other relevant information about the County's population needs, and available youth services and funding resources.⁸

The Taskforce met more than 13 times from March 2018-April 2019 to develop a revised FY 2019-20 CMJJP⁹ based on a philosophy of partnership between diverse public agencies and community-based organizations to promote positive youth development and prevent youth delinquency through shared responsibility, collaboration, and coordinated action. The FY 2019-20 CMJJP served as a theoretical and practical foundation on which programs and services are selected, implemented, and evaluated to maximize benefit to the youth population served.¹⁰ Of particular interest to the Taskforce was finding meaningful ways to fund community-based organizations in areas and service categories with the highest needs in the most time efficient way possible while also empowering community-based organizations that had not previously been party to a County contract.

On March 18, 2019, the Taskforce submitted the FY 2019-20 CMJJP to the JJCC for approval. The JJCC unanimously approved the updated FY 2019-20 CMJJP. A March 26, 2019 Board motion praised the FY 2019-20 CMJJP as "data-driven" and stated that it "creates the foundation for improved JJCPA allocation for years to come that can serve to enhance youth development and delinquency prevention Countywide."¹¹ The March 26, 2019 Board motion also required that the JJCC, to the best of its ability, adopt a FY 2019-20 JJCPA fiscal allocation that was aligned to the FY 2019-20 CMJJP.

On April 5, 2019 the Taskforce finalized the FY 2019-2020 fiscal allocation, which allocated \$68.9 million in JJCPA funds to provide services to more than 25,000 justice-involved and at-risk youth. The spending plan also passed as much as 75-80% of the funding to community-based organizations, reversed from previous spending plans where funds were 67%+ spent by governmental agencies. The FY 2019-2020 fiscal allocation was approved by the JJCC on April 15, 2019 and then by the Board on April 30, 2019.

In November 2018 a community representative and a FUSE Executive Fellow were selected to co-lead the Taskforce. The Taskforce was charged to update and revise a FY 2019-20 CMJJP and to make recommendations as to the spending of FY 2019-20 JJCPA funds. In accordance with the FY 2019-20 CMJJP, on December 10, 2019, the JJCC appointed an ad hoc subcommittee to update and revise the FY 2020-21 CMJJP and to make recommendations as to the spending of FY 2020-21 JJCPA funds (FY 2020-21 CMJJP Subcommittee). The FY 2020-21 CMJJP Subcommittee met in the months of December 2019-February 2020 and delivered its final report, the FY 2020-21 CMJJP, and the FY 2020-21 JJCPA funding allocation at the JJCC meeting on February 7, 2020. The JJCC unanimously approved the FY 2020-21 CMJJP.

⁸ In 2017, Resource Development Associates was contracted by the Los Angeles Probation Department to conduct a more comprehensive evaluation of JJCPA than has been attempted in the County since the funding was created.

Their three reports -- Juvenile Justice Crime Prevention Act Landscape Analysis Report, Juvenile Justice Crime Prevention Act Gap Analysis Report and Juvenile Justice Crime Prevention Act Program Effectiveness Report -- are based on quantitative data and qualitative research conducted over the course of approximately one year.
