SUBJECT: **B & I GROUP HOME INC., ALVARADO SITE CONTRACT COMPLIANCE
MONITORING REVIEW**

We have completed a review of B & I Group Home-Alvarado Site, operated by B & I GROUP HOME, INC. The Group Home contracts with the Los Angeles County Probation Department.

B & I Group Home consists of two (2) six-bed facilities, which provides care for boys ages 13-17 years who exhibit behavioral, emotional and social difficulties. At the time of the monitoring review, B & I Group Home-Alvarado Site was providing services to six (6) Probation youth. The B & I Group Home-San Francisco Site provides care for Department of Children & Family Services (DCFS) boys only. This site is currently being monitored by DCFS and was not inspected by the Los Angeles County Probation Department at the time of this monitoring review.

The B & I Group Home-Alvarado Site is located in Los Angeles County, First District.

SCOPE OF REVIEW

The purpose of our review is to determine whether the Agency is providing the services as outlined in their Program Statement. In addition, the review covers basic child safety and licensing issues and includes an evaluation of the Agency's Program Statement, internal policies and procedures, child case records, a facility inspection, and interviews with children placed at the Group Home at the time of this review. Interviews with children are designed to obtain their perspectives on the program services provided by the Agency and to ensure adherence to the Foster Youth Bill of Rights.

SUMMARY

Based on youth interviews and the contents of the Needs and Services Plans reviewed, the Agency is providing the services as outlined in their Program Statement. However, there are two major deficiencies in the "Notable Findings" section that require an intensive corrective action plan. There were a few minimal deficiencies regarding the interior and exterior of the Group Home facility which required attention, such as low water pressure, graffiti in the

bedrooms, and loose light fixtures and dresser drawers. All of the residents interviewed expressed that they feel safe living in the Group Home, and all child and staff records appeared to be in order.

NOTABLE FINDINGS

The following are the notable findings of our review:

- Youth in the home were not receiving the required medical examinations within first 30 days of arrival.
- Youth in the home were not receiving the required dental examinations within first 30 days of arrival.
- Minimal facility and environment deficiencies cited.

EXIT CONFERENCE

In attendance:

Irene Kiuruwi, Owner/Executive Director
Billy McDaniel, Program Administrator
Doris Edwards, Facility Manager

Highlights:

The Exit Conference was conducted on November 4, 2010. The deficiencies cited were addressed at the time of the exit conference. The representatives present were in disagreement with the medical examination findings of the review. Those in attendance understood that residents are to have medical and dental examinations for the youths within 30 days of entry into the program; however they were not aware that they were specifically required to provide these services. According to Program Administrator, Billy McDaniel, the agency's understanding of this requirement was that the Probation Department provided medical examinations to Probation youths as their "discharge examination" from Juvenile Hall to the Group Home and this qualified as the initial medical examination. Therefore, all Probation youths received medical examinations provided by the Probation Department. They agreed that they were out of compliance by not providing dental examinations within 30 days of entry to the Group Home.

During the exit conference, it was made clear to the Group Home that they are specifically required to provide all residents with medical and dental examinations within 30 days of arrival into the Group Home. Mr. McDaniel and Ms. Kiuruwi understood the importance of their compliance with the Master Agreement Contract for Group Home Foster Care Services and the Community Care Licensing, Title 22 Regulations. They have also agreed to make all necessary corrections in the areas of compliance, and repairs or replacements. A written Corrective Action Plan was submitted on November 30, 2010, and has been approved. Two (2) separate follow-up visits were conducted, one on November 4, 2010 (same day as exit conference) and one on April 28, 2011, to ensure that all deficiencies have been corrected. The results for the follow-up visits can be found on the final page of the "Compliance Monitoring Review".

FACILITY AND ENVIRONMENT

Based on our walk through inspection of B & I Group Home-Alvarado Site and interviews with six (6) Probation placed children, B & I Group Home was in compliance with three (3) out of the six (6) elements in the area of "Facility and Environment": Sufficient Recreational Equipment, Sufficient Educational Resources, and Adequate Perishable and Non Perishable Food. The Group Home was not in compliance with the following elements: Exterior Well Maintained, Common Areas Maintained, and Children's Bedrooms/Interior Maintained.

B & I Group Home-Alvarado Site is located in a residential community. Although, the exterior of the Group Home appeared well maintained, there was a set of loose plant bricks used to border the plant area at the rear of the home which needed to be secured in place. For this reason the Group Home was not in compliance with the element "Exterior Well Maintained". The field and surrounding areas are clean and adequately landscaped with trimmed bushes and a mowed lawn. The exterior walls of the site were properly painted with a clean gutter system and a well maintained roof.

The interior of the Group Home required minor repairs. As a result, the Group Home was not in compliance with element "Common Areas Maintained". Following are the deficiencies cited:

- Kitchen-drawer missing a handle.
- Bathroom-Sink water pressure too low.
- Bathroom-Shower curtain moldy.

Each bedroom also had minor deficiencies that needed repair. As a result, the Group Home was not in compliance with element "Children's Bedrooms/Interior Well Maintained". Following are the deficiencies cited:

- Bedroom #1-Closet shelf broken.
- Bedroom #1-Graffiti on entrance doorway frame.
- Bedroom #2-Closet had graffiti.
- Bedroom #3-Closet light loose.

Aside from the aforementioned deficiencies cited, the common quarters appear neat and clean, there is adequate furniture and lighting, and the Group Home provides a home-like environment. The fire escape/evacuation routes were posted in visible areas and the smoke detectors and fire extinguishers were fully operational and updated.

Children's bedrooms are clean, orderly and have age-appropriate personalized decorations. There is adequate furniture, lighting and storage space. Window coverings and window screens are in good repair. The mattresses are comfortable, the beds all

have a full complement of linens, and the children's sleeping arrangements are appropriate.

The Group Home maintains age-appropriate and accessible recreational equipment. The living room has two working televisions and a DVD player. There are books and resource materials as well as board games that are easily accessible to the residents in the home. There is a working computer which the residents are allowed to use as needed.

There is a sufficient supply of perishable and non perishable foods as well as a fresh supply of fruit stored in the home that adequately meets the needs of the youths.

Recommendations:

1. B & I shall ensure that the aforementioned deficiencies cited will be corrected and repaired in a timely fashion in order to ensure the safety and security of all residents placed at the Group Home.

The one (1) element the Group Home was in compliance with was Medication Logs. Reviews of the resident files revealed that all medical and dental appointments and visits are properly documented for each youth in the home. However, the file reviews also revealed that the Group Home was not conducting the initial medical and dental examinations for each resident upon entry into the Group Home. As a result, there were no follow up appointments set for the youths living in the home. Based on our review of B & I Group Home-Alvarado Site and the review of nine (9) staff files, B & I Group Home was in compliance with 11 out of the 12 elements in the area of "Personnel Records": Education/Experience Requirement, Criminal Fingerprint Cards Timely Submitted, CAIs Timely Submitted, Signed Criminal Background Statement Timely, Employee Health Screening Timely, Signed Copies of GH Policies and Procedures, Initial Training Documentation, CPR Training Documentation, First Aid Documentation, On Going Training Documentation, and Emergency Intervention Training Documentation. The Group Home was not in compliance with one (1) element: Valid Driver's License.

A random check of employee records was completed. All training and background checks were completed and current. All staff had first aid training and de-escalation and restraint training. All files reviewed had the required educational documentation and criminal and child abuse clearances for their employees prior to being hired. However, one of the employees did not have a current driver's licenses on file. As a result, the Group Home was not in compliance with element "Valid Driver's License".

Recommendations:

1. B & I shall ensure that the aforementioned deficiency cited will be corrected in a timely fashion by verifying and obtaining a copy of a valid driver's license for Facility Manager, Claretta Hart prior to transporting any residents in the home, in order to ensure the safety of all residents. In addition, a copy of the current driver's license shall be placed in the employee's file.

FOLLOW-UP VISIT

On November 4, 2010, a follow-up visit was conducted at B & I Group Home-Alvarado Site to verify that all recommendations had been completed.

A walk through of the facility revealed that all of the deficiencies cited in the area of "Facility and Environment" were all corrected as requested under the recommendations section of this report. The loose bricks at the rear of the home were secured into the ground with a properly decorated plant area. An inspection of the common quarters and the youth's rooms revealed that the Group Home replaced the missing drawer handle in the kitchen, increased the home's water pressure, replaced the moldy shower curtain, fixed the broken shelf and removed the graffiti in bedroom one (1), removed the graffiti in bedroom two (2), and fixed the loose light in bedroom three (3).

On April 28, 2011, a second follow-up visit was conducted to ensure that the deficiencies cited in the area of "Children's Health-Related Services" were corrected. A review of all six (6) Probation placed children's files was conducted. At the time of the follow-up, there were two (2) youths still living at the home from the initial monitoring review. Both of their files had documentation that they received physical and dental examinations within five (5) days of the exit interview. The other four (4) Probation children were new arrivals and had not been placed at the Group Home over 30 days and were exempt from documentation. However, one (1) of the residents had documentation showing he had already received his initial medical examination. An interview was conducted with Facility Manager, Doris Edwards. She stated that she was fully aware that each youth

was required to have a medical and dental exam within 30 days of arrival and that she would notify the Probation Department if there were any issues in this regard.

During the second follow-up visit on April 28, 2011, a review of Facility Manager, Claretta Hart's staff file was reviewed to ensure that the deficiency cited in the area of "Personnel Records" was corrected. During the original review, Ms. Hart's file did not have a valid driver's license on file. During the second review a copy of a valid driver's license was in her file with an expiration date of 2015.
