SUBJECT: **CHILDREN OUR ARE FUTURE GROUP HOME CONTRACT
COMPLIANCE MONITORING REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM), conducted a review of Children Are Our Future (CAOF) Group Home in January 2013. CAOF has eight (8) sites in Los Angeles County, of which seven (7) are located in the Fifth Supervisorial District and one (1) is located in the Third Supervisorial District. CAOF provides services to Los Angeles County Probation and Department of Children and Family Services (DCFS) foster children. According to the CAOF program statement, its purpose is to provide professional staff who offers children, counseling and psychotherapy to effectively restore their emotional health and development.

CAOF's eight (8) six-bed sites are licensed to serve a capacity of 48 boys, ages 13 - 17. At the time of review, CAOF was providing services to 22 Probation placed children and 21 DCFS placed children. The placed children's overall average length of placement was 4.39 months, and their average age was 17.56 years. The randomly selected interview sample size was seven (7) youth, six (6) Probation children and one (1) DCFS child, and three (3) children in the sample were prescribed psychotropic medication. These cases were reviewed to assess for timeliness of Psychotropic Medication Authorizations or sufficient documentation of psychiatric monitoring. Additionally, three (3) discharged children's files, two (2) Probation and one (1) DCFS, were reviewed to assess compliance with permanency efforts, and five (5) staff files were reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the children interviewed generally reported feeling safe at CAOF and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. CAOF was in compliance with four (4) of the 10 areas of the Contract Compliance Review: Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; and Discharged Children.

However, deficiencies were noted in the area of "Licensure Contract Requirements", in that, CAOF did not maintain their vehicles in good repair, did not have comprehensive allowance logs and were not free of substantiated Community Care License (CCL) complaints. In the area of "Facility and Environment", CAOF needed to repair the exteriors, common areas, and children's bedrooms of the Group Home sites. In the areas of "Maintenance of Required Documentation and Service Delivery" and "Educational and Workforce Readiness", the Needs and Services Plans were missing a few necessary signatures, as well as specific dates for goals; such as, Projected Completion Dates and Dates Goals Achieved, and there was not sufficient documentation of their efforts to enroll placed children in school within three (3) days of placement. Additionally, children's files were missing grade reports. Lastly, in the areas of "Personal Needs/Survival and Economic Well-Being" and "Personnel Records", CAOF did not provide children with the minimum monetary allowance and did not have sufficient documentation to show Department of Justice, Federal Bureau of Investigations and Child Abuse Clearance Index clearances prior to hire dates.

REVIEW OF REPORT

On March 7, 2013, Probation PPQA Monitor Lori Tchakerian held an Exit Conference with Executive Director Michael Linquata, Program Director Anthony Linquata, Assistant to the Directors Sandra Harris, and Case Manager Supervisor Theresa Pasqualino. Mr. Michael Linquata commented on the instrument used to determine deficiencies stating that it might be unfair due to no indication of improvement. Nevertheless, CAOF representatives agreed with the review findings and recommendations were receptive to implementing systemic changes to improve their compliance with regulatory standards and agreed to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and (CCL).

CAOF provided the attached approved CAP addressing the recommendations noted in this compliance report. Assessment for implementation of recommendations during will be conducted during next monitoring review.

If additional information is needed or any questions or concerns arise, please contact Director Lisa Campbell-Motton, Placement Permanency and Quality Assurance, at (323) 240-2435.

CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2012-2013**

SCOPE OF REVIEW

The purpose of this review was to assess CAOF's compliance with the County Contract Agreement and Title 22 State Regulations and include a review of the CAOF program statement, as well as internal Administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, seven (7) placed children were selected for the sample, six (6) Probation children and one (1) DCFS child. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services they received. Additionally, three (3) discharged children's files were reviewed, two (2) Probation and one (1) DCFS, to assess CAOF's compliance with permanency efforts. At the time of the review, three (3) placed children were prescribed psychotropic medication. Their case files were reviewed to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring.

Five (5) staff files were reviewed for compliance with Title 22 Regulations and County Contract requirements, and a site visit was conducted to assess the provision of quality of care and supervision.

CONTRACTUAL COMPLIANCE

The following six (6) areas were out of compliance.

Licensure/Contract Requirements

Eight (8) Group Home vehicles were inspected. Two (2) of eight (8) vehicles were not maintained in good repair. One (1) vehicle had excess tagging throughout, and the other vehicle had middle section seats torn apart. In discussing this matter with CAOF Administration, it was stated that the torn seat would be replaced immediately.

Allowance logs from eight (8) Group Home sites were reviewed. The Kezios site was the only site that had comprehensive allowance logs that were complete and comprehensive. Four (4) of the eight (8) Group Home sites had minor issues with the allowance logs, such as missing staff signatures. Three (3) of eight (8) allowance logs were incomplete, in that, not only did they not include staff signatures, they also did not

allowance logs, such as missing staff signatures. Three (3) of eight (8) allowance logs were incomplete, in that, not only did they not include staff signatures, they also did not include information, such as total money received and total paid out. The three (3) allowance logs were not comprehensive because they included sections for haircuts, bus money, stipends etc., making it difficult to determine if this money was coming from the children's allowance or elsewhere. Additionally, if allowance money was used as a form of a consequence, the log did not include explanations for how the allowance money was being used.

During this review period, CAOF received several CCL complaints. The following is a list of substantiated complaints on safety and/or physical plant deficiencies reported by CCL:

8/07/12, physical plant deficiencies at Terry site/repairs completed.

1/10/13, medication error at Howard site/Group Home staff terminated.

1/17/13, physical plant deficiencies at Kezios site/repairs completed.

2/25/13, physical plant deficiencies at Chatsworth site/repair completed.

Recommendation

CAOF Management shall ensure that:

1. Group Home vehicles are maintained in good repair
2. Monetary allowance logs are comprehensive and include staff signatures, as well as total money received and total money paid out clearly documented
3. The agency is free of substantiated CCL complaints

Facility and Environment

A walk through inspection was completed at all eight (8) Group Home sites. There appeared to be a significant improvement at all eight (8) Group Home sites, in that there were not as many deficiencies as the previous year. However, there were still some deficiencies noted.

The following exterior deficiencies were noted:

- **WEST HILLS:** Backyard left side protruding cable, backyard tagging near kitchen window
- **HARVEY:** Right side yard protruding cable
- **HOWARD:** Protruding cable wire on back porch
- **KEZIOS:** Right side yard protruding cable, backyard tagging on block wall, backyard block on ground needs securing

- **LEGG:** Backyard open vent, backyard open drains, backyard missing blocks at gate near slope

In discussing Group Home site deficiencies with CAOF Administration, it was stated that the interior of the West Hills site was scheduled to be painted and all window screens are scheduled to be replaced. Additionally, it was stated that the Harvey site had its roof repaired and that the Terry site interior was to be painted, as well.

Recommendation:

CAOF management shall ensure that:

1. All deficiencies noted above are repaired or replaced in accordance with the Community Care Licensing, Title 22 standards, which states that all Group Home sites are to be "clean, safe, sanitary and in good repair at all times".

Maintenance of Required Documentation and Service Delivery

Seven (7) children's NSPs were reviewed. It was noted that five (5) of seven (7) NSPs included the County Worker's signature authorizing the implementation of the NSPs. However, two (2) initial NSPs did not include the County Case Workers signature, but did include faxes submitted to the County Worker requesting their signatures. The issue, in this case, was that the faxes were not submitted to the County Worker's until months after the initial NSPs were due.

Seven (7) children's updated NSPs were timely and included the participation of the age appropriate child. The updated NSPs reviewed included measurable goals that were child specific and included interventions, as well as, the persons responsible in assisting the children to meet their goals. Children's progress was also documented in the updated NSPs. However, all seven (7) children's updated NSPs were not comprehensive, in that, they were missing Projected Completion Dates and Dates Goal Achieved making it difficult to determine if the goals were achievable.

Recommendation

CAOF management shall ensure that:

1. They obtain authorization and the signature of the caseworker in a timely manner in order to implement Needs and Services Plan for each child.
2. Updated Needs and Services Plans are comprehensively completed and include all required elements, specifically related to "Projected Completion Dates" and "Date Goal Achieved".

Educational and Workforce Readiness

Of the seven (7) children's files reviewed, six (6) of seven (7) children were enrolled in school within three (3) days of placement. However, for one (1) child, there was no documentation to show the reason the child was not enrolled in school within three (3) days of placement. Additionally, two (2) of seven (7) children's files were missing report cards and/or progress reports.

Recommendation

CAOF management shall ensure that:

1. Children are enrolled in school within three school days and have clear and acceptable documentation for the reason when a child was not be enrolled within the three days and all efforts made to comply with this standard.
2. Report cards and/or progress reports are maintained in children's files.

Personal Needs/Survival and Economic Well-Being

Of the seven (7) children interviewed, one (1) of seven (7) children stated that the minimum monetary allowance was not provided. This one (1) child stated that she was only receiving a \$2.00 allowance. The allowance logs were reviewed and showed that children were receiving their allowance on a weekly basis. However, it was noticed at the Saticoy site that, during the weeks of 1/08/13, 1/22/13, 1/29/13, 2/06/13 and 2/19/13, two (2) to four (4) children, each of those weeks, received an allowance of \$2.00-\$5.00 for the week without any explanations or documentation. This matter was discussed with CAOF administration, along with the importance of further investigating this matter and returning the allowance monies was communicated. This matter will be resolved immediately, and the results of this investigation will be provided in the next review.

Recommendation

CAOF management shall ensure that:

1. Children are provided with the minimum monetary allowance of \$7.00 a week as mandated by the County Contract, SOW and Title 22.

Personnel Records

Of the five (5) employee files reviewed, all five (5) employees had DOJ, FBI, and CACI clearances; however, it appeared that one (1) employee was not cleared prior to the hire date. Even though CAOF provided their Fingerprint Clearance Transfer Information form that indicated DOJ, FBI and CACI clearances, there was no official documentation to show that the clearance was submitted prior to the hire date.

Recommendation

CAOF management shall ensure that:

1. All child abuse and criminal records clearances for all employed staff, specifically DOJ, FBI and CACI, are submitted prior to hire dates, in accordance with the Master County Contract, SOW.
