MONITORING REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) conducted a review of Delilu Achievement Home (Delilu) in April 2013. Delilu has one site located in the Second Supervisorial District and provides services to Los Angeles County Probation and Department of Children and Family Services (DCFS) foster children and youth. According to Delilu's program statement, its purpose is to increase the likelihood for children to demonstrate an increase in academic and social skills and a decrease in maladaptive behaviors that will enable them to adjust successfully as adults.

Delilu has one eight (8)-bed site and is licensed to serve a capacity of eight (8) girls, ages 12 - 17. At the time of review, Delilu was serving seven (7) Probation children, and there were no DCFS children placed at the Group Home. The placed children's overall average length of placement was 3.58 months, and their average age was 15.77 years. The randomly selected interview sample size was seven (7) Probation youth due to the fact that there were no DCFS children placed at the Group Home at the time of this review. Three (3) children in the sample were prescribed psychotropic medication, and those case files were reviewed to assess for timeliness of Psychotropic Medication Authorizations or sufficient documentation of psychiatric monitoring. Additionally, three (3) discharged children's files, two (2) Probation and one (1) DCFS, were reviewed to assess compliance with permanency efforts, and five (5) staff files were reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the interviewed children reported feeling safe at Delilu and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. Delilu was in compliance with four (4) of the 10 areas of the Contract Compliance Review: Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Personal Needs/Survival and Economic Well-Being; and Discharged Children.

However, deficiencies were noted in the areas of Licensure/Contract Requirements; Facility and Environment; Maintenance of Required Documentation and Service Delivery; Educational and Workforce Readiness; Health and Medical Needs; and Personnel Records.

The Delilu facility vehicle was missing proof of car insurance. The home pass log was missing a few staff signatures/initials. Additionally, there was one (1) substantiated Community Care Licensing (CCL) complaint made in January 2013 related to pest control. Delilu also had some minor deficiencies within the Group Home; such as, a leaky bathroom faucet, cracked bedroom ceiling and a broken glass window. Under Maintenance of Required Documentation of Services and Delivery, the Needs and Services Plans lacked detailed information and were not personalized for each child. There were deficiencies noted related to one child's academic progress; as well as, another child's progress with school attendance. Regarding Medical Needs, there was one (1) child who received a late dental appointment without any documentation to show the reason for the late appointment. Lastly, deficiencies noted under Personnel Records were untimely health screenings, an unsigned Group Home Policy and Procedures manual and expired First Aid and CPR. Delilu Administration was instructed on the significance of enhancing monitoring in all areas; as well as, fully completing all documents, in order to eliminate the abovementioned issues.

REVIEW OF REPORT

On May 08, 2013, the Probation PPQA Monitor Lori Tchakerian held an Exit Conference with Delilu Executive Director Mary Davis, and Group Home Administrator Lisa Seibel. During the Exit Review, Delilu Administration stated that they repaired several deficiencies in the area of Facility and Environment. It should be noted that Delilu Administration did provide proof of First Aid and CPR for an employee at the Exit Review. Delilu representatives agreed with the review findings and recommendations were receptive to implementing systemic changes to improve their compliance with regulatory standards and agreed to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and CCL.

Delilu provided the attached approved CAP addressing the recommendations noted in this compliance report. Assessment for implementation of recommendations will be conducted during the next monitoring review.

If additional information is needed or any questions or concerns arise, please contact Director Lisa Campbell-Motton, Placement Permanency and Quality Assurance, at (323) 240-2435.

**DELILU GROUP HOME
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2012-2013**

SCOPE OF REVIEW

The purpose of this review was to assess Delilu's compliance with the County contract and State regulations and include a review of Delilu's program statement, as well as internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, seven (7) placed children were selected for the sample, and all seven (7) were Probation children. No DCFS children were placed at the Group Home at the time of this review. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services being received. Additionally, three (3) discharged children's files were reviewed, two (2) Probation and one (1) DCFS, to assess Delilu's compliance with permanency efforts. At the time of review, three (3) placed children were prescribed psychotropic medication. PPQA/GHM reviewed their case files to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring.

PPQA/GHM reviewed five (5) staff files for compliance with Title 22 Regulations and County contract requirements, and conducted a site visit to assess the provision of quality of care and supervision.

CONTRACTUAL COMPLIANCE

The following six (6) areas were out of compliance.

Licensure/Contract Requirements

- Delilu has one (1) van that transports children to school and to appointments that was inspected. The van was found to be in good repair; it was clean with working seatbelts; as well as, working break lights and taillights. However, during the inspection, Delilu was unable to provide proof of car insurance. Within an hour of inspection, Delilu provided proof of car insurance.

Delilu Compliance Review
April 2013

- Visitor logs and home pass logs were reviewed, and it was found that Delilu is maintaining logs of all visitors coming into the Group Home to meet with the children, as well as, signing children out when they leave for home passes and signing them in when they return from home passes. However, a few logs were incomplete, since they were missing Group Home staff signatures.
- Community Care Licensing reported that Delilu had one (1) substantiated allegation from January 2013. The allegation was that the Group Home had roaches. It should be noted that Delilu Administration took care of the problem immediately, by hiring a Pest Control Company.

Recommendation

Delilu management shall ensure that:

1. The vehicle is maintained in good repair.
2. Detailed Sign In/Out Logs are maintained.
3. CCL complaints on safety and plant deficiencies are corrected.

Facility and Environment

- Delilu had maintained the appearance of the exterior of the Group Home. There was only one (1) exterior deficiency noted which was the peeling black safety tape on the backyard steps. Delilu Administration stated that new safety tape has been purchased.
- Delilu had minor deficiencies in the common quarters of the Group Home. The common quarter deficiencies included the upstairs computer room having dirty windowsills and a popped out window screen, a leaky faucet in bathroom #1, a scratched toilet seat in bathroom #2, and a dirty toilet seat in bathroom #3.
- Delilu had deficiencies in the children's bedrooms, which included, a broken dresser drawer in bedroom #1, an "odor" in bedroom #2, as well as, a cracked, bubbled ceiling, a broken piece of window glass in bedroom #3, paint needed near smoke detector in bedroom #4, and a trash can needed in bedroom #5.

Recommendation

Delilu management shall ensure that:

1. The exterior of the Group Home is well maintained.
2. The common quarters of the Group Home are well maintained.
3. The children's bedrooms are well maintained.

Maintenance of Required Documentation and Service Delivery

- At the time of this review, there were seven (7) children placed at Delilu, and two (2) of those children were placed less than 30 days. Therefore, only five (5) initial NSPs were reviewed. Additionally, only four (4) updated NSPs were

Delilu Compliance Review
April 2013

reviewed, since three (3) were not due to be completed at the time of review. Of all NSPs reviewed, one (1) NSP was missing a Group Home staff signature.

- Of all the NSPs reviewed, there was no documentation to show that the Group Home has had contact with the County workers. In discussing this matter with Delilu Administration, they made it clear that Delilu has had contact with County Workers by telephone and/or email, as well as, in person.
- Regarding initial NSPs, all five (5) were completed in a timely manner. Of the five (5) initial NSPs reviewed, only one (1) did not include the child's signature. The initial NSPs lacked pertinent information; such as, concurrent case plans, school enrollment dates, and Life Skills Training information. Additionally, several Case Plan Goals were quite similar to each other and Reason for Goals did not note the problem to be addressed, subsequently, making it impersonal for each child.
- Regarding the updated NSPs, only four (4) were reviewed. Three (3) of four (4) NSPs were timely; however, they did not include children's signatures to show that they participated in the development of their case plan goals. The updated NSPs also lacked pertinent information, in that mental health session dates were not documented. Most importantly, regarding the Outcome Goals, even though there were Modified Dates documented, there was no reason for the modifications documented.

Recommendation

Delilu management shall ensure that:

1. NSPs implemented are discussed with Group Home staff.
2. Group Home's monthly contact with County Workers is documented by providing dates of contact on the NSPs.
3. Initial NSPs are comprehensive and include child's participation by acquiring their signatures.
4. Updated NSPs are developed timely, are comprehensive and include child's participation by acquiring their signatures.

Educational and Workforce Readiness

- Two (2) updated NSPs reviewed showed that one (1) child was not improving academically at school indicating that her school progress is less than average and that she displays little effort to improve at school. For the other child, it is indicated that, even though she is receiving decent grades and on her way to graduate from high school, she has not increased her school attendance.

Recommendation

Delilu management shall ensure that:

1. Children's academics and/or attendance is increased.

Health and Medical Needs

- All seven (7) children received dental exams. However, one (1) of the seven (7) was untimely. There was no information documented to show the reason for the untimeliness of the dental exam.

Recommendation

Delilu management shall ensure that:

1. Dental exams are conducted in a timely manner; within 30 days of placement and shall ensure that they document their efforts to provide timely dental exams.

Personnel Records

- Five (5) employee files were reviewed. Of the five (5), three (3) had untimely health screenings. One (1) employee did not have documentation of a physical or TB test filed. Another employee had proof of receiving a physical, but no proof of a TB test. The third employee had both, a physical and TB test; however, they were both dated two (2) months after their hire date.
- Of the five (5) employee files reviewed, only one (1) did not include a signed Group Home Policies and Procedures manual.
- Of the five (5) employee files reviewed, one (1) had First Aid and CPR that was expired.

Recommendation

Delilu management shall ensure that:

1. All employees receive timely health screenings and TB tests and that the information is maintained in the employee file.
2. All employees sign the Group Home Copies of Group Home Policies and Procedures.
3. All employees receive required training including First Aid and CPR.

PRIOR YEAR FOLLOW-UP FROM PROBATION'S PPQA GHMU'S GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

PPQA GHM's last compliance report dated October 1, 2012, identified 22 recommendations.

Results

Based on our prior year follow-up, Delilu fully implemented 13 previous recommendations for which they were to ensure that:

1. Group Home providing sufficient recreation equipment
2. Initial NSPs included DPO signatures

Delilu Compliance Review
April 2013

3. Children making progress towards their NSP goals
4. Children enrolled in school timely, and if not, the information was documented
5. Children are attending school
6. Children participating in daily living skills and/or ILP
7. Group Home encouraging children to participate in ILP
8. Children receiving timely medical examinations, and if not, the information was documented
9. Dental follow-up exams (N/A)
10. Children report being treated with dignity and respect
11. Children report planning activities
12. Children report participating in activities
13. Group Home providing all children with Life Books

The following nine (9) recommendations from the previous year were not corrected:

1. The exterior of the Group Home needed safety tape on the backyard steps
2. Several areas of the common quarters needed repair
3. Several areas of the children's bedrooms needed repair
4. One (1) NSP was missing a Group Home staff signature
5. There was no documentation to show Group Home contact with the Caseworker
6. Updated NSPs were not comprehensive
7. One (1) child needed increased academics and another child increased attendance
8. There was one (1) untimely dental exam
9. Three (3) employees had untimely health screenings

MOST RECENT FISCAL REVIEW CONDUCTED BY THE AUDITOR-CONTROLLER

The most recent Fiscal Review for Delilu from the Department of Auditor Controller is dated May 9, 2012, for the fiscal period of July 1, 2008, to June 30, 2009. The report dated May 9, 2012, indicated that Delilu had questioned/disallowed costs.
