CONTRACT COMPLIANCE MONITORING REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) conducted a review of Moore's Cottage (Pomona site) Group Home in May 2013. Moore's Cottage Pomona is located in the Fifth Supervisorial District and provides service to Los Angeles County Probation youth. According to Moore's Cottage program statement, its purpose is to help children develop skills and self-esteem which will enable them to become self-sufficient and productive in society.

Moore's Cottage Pomona is a six-bed site and is licensed to serve a capacity of six boys, ages 13 - 17. At the time of review, Moore's Cottage Pomona served two (2) Probation children, three (3) children who were under the supervision of both Probation and Department of Children and Family Services (DCFS) and one (1) DCFS placed child. The placed children's overall average length of placement was two (2) months, and their average age was 15 years. There were four (4) youth, two (2) Probation, one (1) DCFS and one (1) Dual Supervision child (under the supervision of both Probation and DCFS), in the randomly selected interview sample, and one (1) of those youth was prescribed psychotropic medication. This case was reviewed to assess for timeliness of Psychotropic Medication Authorizations and sufficient documentation of psychiatric monitoring. Additionally, two (2) discharged children's files, one (1) Probation and one (1) DCFS, were reviewed to assess compliance with permanency efforts. Four (4) staff files were also reviewed for compliance with Title 22 Regulations and County Contract Requirements.

## SUMMARY

During the PPQA/GHM review, the interviewed children generally reported feeling safe at Moore's Cottage Pomona and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. Moore's Cottage was in compliance with seven (7) of the 10 areas of the Contract Compliance Review: Licensure/Contract Requirements; Educational and Workforce Readiness; Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Personal Needs/Survival and Economic Well-Being and Discharged Children.

However, there were deficiencies noted in three (3) areas: Facility and Environment, Maintenance of Required Documentation and Service Delivery and Personnel Records. Moore's Cottage Pomona needs to develop comprehensive initial Needs and Services Plans, repair the minor facility deficiencies noted and ensure that all personnel receive a timely health screening. Moore's Cottage Pomona supervisory staff were instructed to enhance monitoring in order to eliminate documentation issues.

### REVIEW OF REPORT

**MOORE'S COTTAGE (POMONA) GROUP HOME  
CONTRACT COMPLIANCE MONITORING REVIEW  
FISCAL YEAR 2012-2013**

**SCOPE OF REVIEW**

The purpose of this review was to assess Moore's Cottage Pomona compliance with the County contract and State regulations and to include a review of the Moore's Cottage program statement, as well as internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, four (4) placed children were selected for the sample, two (2) Probation children, one (1) DCFS child and one (1) Dual Supervision child (under the supervision of both Probation and DCFS). Placement Permanency & Quality Assurance (PPQA) Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services they received. Additionally, two (2) discharged children's files were reviewed, one (1) Probation and one (1) DCFS, to assess Moore's Cottage compliance with permanency efforts. At the time of the review, one (1) placed child was prescribed psychotropic medication. This case file was reviewed to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring.

PPQA/GHM reviewed four (4) staff files for compliance with Title 22 Regulations and County contract requirements, and conducted a site visit to assess the provision of quality of care and supervision.

**CONTRACTUAL COMPLIANCE**

The following four (4) areas were out of compliance.

**Facility and Environment**

During the inspection, it was noted that there was a broken outlet plate in bedroom #2, and there was graffiti on the wall in bedroom #3.

**Recommendation**

1. Moore's Cottage management shall ensure that the aforementioned deficiencies will be corrected in a timely manner, in accordance with the

Community Care Licensing, Title 22 standards, which state that all Group Home sites are to be "clean, safe, sanitary and in good repair at all times".

### **Maintenance of Required Documentation and Service Delivery**

During the review of the children files, it was noted that two (2) out of the four (4) initial NSP's that were reviewed were not comprehensive. The goal sections in the two (2) NSP's were generic and not child specific. The other two (2) youth were not there long enough to have an initial NSP, and none of the youth were there long enough to require an updated NSP. Since monthly case worker contact is only required for updated NSP's, this area was non-applicable.

### **Recommendation**

1. Moore's Cottage management shall make an effort to ensure that all initial NSP's are comprehensive by creating goals that are unique and specific to each child. The goals should be specific, measurable, attainable, results oriented and time limited.

### **Discharged Children**

Out of the two discharged files reviewed, one child went AWOL from the Group Home; therefore, the youth was not able to be discharged according to their permanency plan. In addition, the child was at the Group Home less than 30 days; therefore, there was no way to determine if the child was making progress towards their NSP goals. Lastly, the PPQA Monitor was unable to determine attempts made to stabilize the child.

### **Recommendation**

1. Moore's Cottage management shall ensure that all efforts are made to stabilize the child to prevent AWOL and complete permanency plan goals for the children.

### **Personnel Records**

During the review of the personnel files, it was noted that one (1) of the employee's health screening was completed late.

### **Recommendation**

1. Moore's Cottage management shall ensure that all future employees have a health screening form completed in a timely manner

### **PRIOR YEAR FOLLOW-UP FROM PROBATION'S PPQA GHM'S GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW**

PPQA/GHM's last compliance report dated August 1, 2011, identified one recommendation, for which the Group Home corrected and has remained in compliance:

- Replace existing electrical outlet with GCIF outlet.

**MOST RECENT FISCAL REVIEW CONDUCTED BY THE AUDITOR-CONTROLLER**

The most recent Fiscal Review for Moore's Cottage Group Homes from the Department of Auditor Controller is dated May 22, 2008, for the fiscal period of January 1, 2006, to December 31, 2006. The report dated May 22, 2008, indicated that Moore's Cottage Group Home had questioned/disallowed costs. Moore's Cottage Group Homes submitted a timely approved fiscal Corrective Action Plan (CAP), which is being monitored by the Department of Children and Family Services, Fiscal Monitoring Section.
