MONITORING REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM), conducted a review of Phoenix House Group Home in June 2013. Phoenix House has one site located in the Fifth Supervisorial District and provides services to Los Angeles County Probation and the Department of Children and Family Services (DCFS) foster children and youth. According to the Phoenix House program statement, its purpose is to provide a residential program with a daily structured regimen to meet the rehabilitation, development, treatment, educational, recreational and social needs of high risk adolescents assessed with a primary substance use disorder and co-occurring emotional and mental health problems.

Phoenix House has one site, which is a 140-bed residential facility, and is licensed to serve a capacity of 90 boys and 50 girls, ages 13 - 17.5. Phoenix House also serves privately placed youth from the community and foster children from other counties. At the time of review, Phoenix House served 42 Probation children and 11 DCFS placed children. The placed children's overall average length of placement was 2.21 months, and their average age was 16.63 years. The randomly selected interview sample includes seven (7) placed children, four (4) Probation children and three (3) DCFS children. At the time of the review, five (5) of the seven (7) placed children were prescribed psychotropic medication. These cases were reviewed to assess for timeliness of Psychotropic Medication Authorizations or sufficient documentation of psychiatric monitoring. Additionally, three (3) discharged children's files, two (2) Probation and one (1) DCFS, were reviewed to assess compliance with permanency efforts. Five (5) staff files were also reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the interviewed children generally reported feeling safe at Phoenix House and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. Phoenix House was in compliance with four (4) of the 10 areas of the Contract Compliance Review: Health and Medical Needs; Psychotropic Medication; Personal Needs/Survival and Economic Well-Being; and Discharged Children.

However, deficiencies were noted in the areas of Licensure/Contract Requirements; Facility and Environment; Maintenance of Required Documentation and Service Delivery; Educational and Workforce Readiness; Personal Rights and Social/Emotional Well-Being; and Personnel Records.

In one (1) of the Phoenix House vehicles, a seatbelt buckle was loose. There was one (1) Substantiated Community Care Licensing (CCL) complaint on Plan of Operation and Child Safety made in March 2013. Phoenix House also had deficiencies within the Group Home such as, torn sofa cushions, tagging on shower doorframes and walls needing paint. Deficiencies were also noted with the Needs and Services Plans (NSPs) in that the Group Home did not document their monthly contact with Caseworker. The NSPs lacked information such as, dates enrolled in school, academic achievements and extra-curricular activities, as well as, Life Skills information. Additionally, certain NSPs included excessive detail in the Outcome Goals sections making the Goals difficult to understand and making the Goals appear unachievable. Regarding Education and Workforce Readiness, there was only one (1) child's file missing a report card. Regarding Personal Rights and Social Emotional Well Being, three (3) children complained that they did not receive either private phone calls or private visits. Lastly, deficiencies were noted with Personnel Records such as, one (1) expired driver's license and a few expired emergency intervention trainings.

REVIEW OF REPORT

On July 2, 2013, Probation PPQA Monitor Lori Tchakerian held an Exit Conference with Phoenix House Managing Director LaRae Neal. When discussing the NSPs, Director of Mental Health Frank Sanchez joined in the Exit Conference. Phoenix House provided a copy of the new driver's license for one (1) employee and provided the missing grade report for one (1) child. The issue of private visits and private phone calls were discussed in detail. Additionally, the NSPs were discussed in detail, and Phoenix House representatives were already aware of the issues. Phoenix House representatives agreed with the review findings and recommendations were receptive to implementing systemic changes to improve their compliance with regulatory standards and agreed to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and CCL.

Phoenix House provided the attached approved CAP addressing the recommendations noted in this compliance report. Assessment for implementation of recommendations will be conducted during the next monitoring review.

**PHOENIX HOUSE GROUP HOME
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2012-2013**

SCOPE OF REVIEW

The purpose of this review was to assess Phoenix House's compliance with the County Contract and State regulations and include a review of their program statement, as well as internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, seven (7) placed children were selected for the sample, four (4) Probation children and three (3) DCFS children. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services they received. Additionally, three (3) discharged children's files were reviewed, two (2) Probation and one (1) DCFS, to assess Phoenix House's compliance with permanency efforts. At the time of the review, five (5) placed children were prescribed psychotropic medication. PPQA/GHM reviewed their case files to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring.

PPQA/GHM reviewed five (5) staff files for compliance with Title 22 Regulations and County contract requirements and conducted a site visit to assess the provision of quality of care and supervision.

CONTRACTUAL COMPLIANCE

The following six (6) areas were out of compliance.

Licensure/Contract Requirements

- Phoenix House had a total of six (6) vehicles; four (4) vans and two (2) cars that transport children to various appointments and activities. The vehicles were inspected and were found to be clean and, for the most part, in good repair. The vehicles had working headlights and brake lights and were stocked with First Aid kits; as well as, fire extinguishers. However, during the inspection, one (1) van was found to have a backseat, middle seatbelt buckle that was not secured properly to the belt.

- Community Care Licensing reported that Phoenix House had one (1) substantiated allegation from March 2013, alleging a deficiency in Plan of Operation, as well as, Child Injury. Phoenix House paid a fine for the deficiencies, and the case was closed on April 8, 2013.

Recommendation

Phoenix House management shall ensure that:

1. Their vehicles are maintained in good repair.
2. They exhibit proactive measures to be free of substantiated CCL complaints and that those CCL complaints on safety and plant deficiencies are corrected.

Facility and Environment

- It should be noted that there was an overall improvement in the appearance of the Phoenix House Living Units, in that, there were not as many deficiencies found in comparison to the prior year. There was an overall improvement in regards to tagging. However, there were still some deficiencies in the common areas of all three (3) Units. The common area deficiencies in Amethyst Unit included torn sofa cushions in the lounge, a stained/dirty table in the lounge, an expired fire extinguisher in the hallway, a shower handle leak, stains on a bathroom wall, and one missing toilet paper holder. Phoenix House maintenance was aware of the fire extinguisher needing to be replaced. The common area deficiencies in Odyssey Unit included, tagging on shower doorframes and bathroom toilet seats. The common area deficiencies in Genesis Unit included, a missing cover plate for cables in the lounge, tagging between the sofas in the lounge, a missing Personal Rights poster and tagging on shower doorframes and shower doors.
- Phoenix House had deficiencies in the children's bedrooms of Amethyst Unit, which included, missing paint on walls, a torn window curtain, scraped tint on windows, bedrooms needing sweeping and mopping, as well as, a bedroom evacuation plan frame needing removal due to sharp edges and exposed staples.

Recommendation

Phoenix House management shall ensure that:

3. The common areas of all Units are well maintained.
4. The children's bedrooms in Amethyst Unit are well maintained.

Maintenance of Required Documentation and Service Delivery

- Seven (7) placed children at Phoenix were interviewed; therefore, seven (7) initial Needs and Services Plans (NSPs) and four (4) updated NSPs were reviewed.

The NSPs reviewed included most of the necessary material such as, Caseworker signatures to implement the authorization of the NSPs, Group Home staff signatures, and therapeutic services received. However, one (1) of five (5) NSPs was missing information on the Group Home's contact with the Caseworker.

- Improvement was needed in the areas of timely and comprehensive initial NSPs. Of the seven (7) initial NSPs reviewed, five (5) were timely and two (2) were untimely, in that, one (1) was completed about 19 days after the due date, and the other initial NSP was completed about 30 days after the due date. Of the seven (7) initial NSPs reviewed, two (2) were comprehensive. The reason the other five (5) were not comprehensive was that they were missing information such as, dates children were enrolled in school, academic achievements and extra-curricular activities, as well as, Life Skills information. Additionally, a section of one (1) child's Outcome Goals was copied onto another child's Outcome Goals, and another initial NSP was missing the entire section of the Outcome Goals, even though, treatment plan goals were submitted onto the Phoenix House Electronic Records system. It should be noted that all seven (7) children interviewed stated that they participated in the development of their NSPs, in addition to all the initial NSPs including their signatures to show that they participated in the development of their case plan goals.
- Improvement was needed in the areas of timely and comprehensive updated NSPs. Four (4) updated NSPs were reviewed. Of the four (4) updated NSPs reviewed, two (2) were untimely, in that, one (1) indicated that the child was admitted to Phoenix House on March 11, 2013, and the updated NSP indicated that the same child was admitted to Phoenix House on April 19, 2013, and the updated NSP was completed on June 25, 2013. The other updated NSP had the same NSP completion date as the initial NSP. Regarding the comprehensiveness of the updated NSPs, they were similar to the initial NSPs, in that, they were missing information such as, dates children were enrolled in school, academic achievements and extra-curricular activities. Three (3) of four (4) updated NSPs indicated that they were initial NSPs. Additionally, one (1) of the four (4) updated NSPs was missing the section of Outcome Goals. Lastly, it appeared that several NSPs included excessive information in the section of Outcome Goals making the goals complicated, difficult to follow and not achievable. It should also be noted in this section that all children signed their NSPs.

Recommendation

Phoenix House management shall ensure that:

5. They document their monthly contact with County Workers and include dates of their visits.
6. Initial NSPs are timely and comprehensive.
7. Updated NSPs are timely and comprehensive.

Educational and Workforce Readiness

- Phoenix House was in compliance with most elements in the area of Educational and Workforce Readiness. Of the seven (7) children's files reviewed, all seven (7) children were enrolled in school within three (3) days of placement, were attending school and were making some type of academic progress. The only issue in this area was that, while reviewing seven (7) children's files, one (1) file did not include a report card, progress report or transcript.

Recommendation

Phoenix House management shall ensure that:

8. Children's current report cards or progress reports are maintained in their files.

Personal Rights and Social/Emotional Well-Being

- Seven (7) children were interviewed regarding Personal Rights. Three (3) of seven (7) children stated that they do not receive private visits, and one (1) of seven (7) children stated that they do not receive private phone calls. This matter was discussed with Phoenix House Administration. It was explained that the children receive visits on Saturdays and Sundays, as well as visits during the week, which include time after family therapy sessions. It was explained that the visits that occur on the weekends are private, in that the Group Home staff are passively monitoring the visits. Regarding private phone calls, Phoenix House Administration explained that the children receive phone calls from their case managers who allow the children to make phone calls from Caseworker approved phone contacts. It was explained that phone calls are private, but due to past issues, phone calls are also passively monitored. It should be noted that this matter was discussed with an on-site Deputy Probation Officer who was aware of the Phoenix House visitation and phone call policies. In discussing this matter, Phoenix House was instructed to include the abovementioned information in the children's NSPs as a preventative measure to avoid future problems regarding private visits and private phone calls.

Recommendation

Phoenix House management shall ensure that:

9. Children receive private visits and private phone calls and that the information is documented in their NSPs.

Personnel Records

- Five (5) employee files were reviewed. The employee files had most of the necessary information placed in their files such as, appropriate background checks, timely health screenings and signed Group Home Policies and Procedures. However, there was one (1) of five (5) files reviewed that included an expired driver's license, and four (4) of five (5) employees had expired

emergency intervention trainings, in which, Phoenix House requires their employees to renew every two (2) years.

Recommendation

Phoenix House management shall ensure that:

10. Employees have current driver's licenses filed.
11. Employees receive renewed emergency intervention training in a timely manner.

I. LICENSURE/CONTRACT REQUIREMENTS

Recommendations:

1. Phoenix House management shall ensure that their vehicles are maintained in good repair.

The 2003 Windstar Van (license #5BVG996) in question was an older van that had a faulty seat belt mechanism. The seatbelt was ordered see invoice 336921. After assessing the van from a claim filed on 6/27/13 the van was removed from PHHA due to age and mileage. PH will be purchasing a new van to replace the older model. *(Exhibit A)*

2. Phoenix House management shall exhibit proactive measures to be free of substantiated CCL complaints and that those CCL complaints on safety and plant deficiencies are corrected.

PH introduced a new policy and procedure for transporting clients. As it relates to the CCL finding PH developed new protocols for Drivers and Counselors responsible for transporting clients. Every employee is now orientated on the transportation protocols and must sign an agreement before transporting clients. *(Exhibit B)*

II. FACILITY AND ENVIRONMENT

Recommendations:

3. Phoenix House management shall ensure that the deficiencies in the common areas of all Units are well maintained.

Each Clinical specialist on the Units are now responsible for daily monitoring creating a list of things that need to be done with completion dates when deficiency is corrected. A form has been created for daily monitoring. They will assign a staff every day for the initial sign off and they will check at the end of each day keeping a binder to reflect each task. *(Exhibit C)* the shower doors consisting of metal frames and replacement doors will be completed by October 31, 2013 we have experimented with different options and decided to sand and spray paint the frames which very time consuming but will work for all 3 units. Toilet seats are being replaced systematically. Personal rights both pages are now posted. The weight room is clean and presentable with an assigned team to keep it this way *(Exhibit D)*

4. Phoenix House management shall ensure that the children's bedrooms in Amethyst Unit are well maintained.

We have placed a request with PHC to order a new sofa the table was cleaned and is back on the unit. Extinguisher was replaced in room #69 and all other repairs were completed per attachment submitted except for #47 bathroom shower handle leak needs repair. It was determined that to repair the leak and outside plumber is necessary because the water need to be shut off in the entire building to replace the valve. The pop is at 25 designed for 40. The room is no longer occupied and will not be occupied until pop is at 38 consistently. We will notify probation prior to determine how long water will be off to make the repairs.

As with item II-3. Each Clinical specialist on the Units is now responsible for daily monitoring creating a list of things that need to be done with completion dates when deficiencies are

corrected using the same form as all other units. *(Exhibit C)* The leadership staff was advised to change out furniture any time it's torn beyond repair and report it

Both clinical specialist and case managers will take full responsibility for NSP content and that the developed plan fits the need of the minor with achievable goals. *(Exhibit F)*

- 7. Phoenix House management shall ensure that updated NSPs are timely and comprehensive.**
