SUBJECT: **CHILDREN ARE OUR FUTURE CONTRACT COMPLIANCE MONITORING
REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) conducted a review of Children Are Our Future (CAOF) in January 2014. CAOF has eight (8) sites, in which seven (7) are located in the Fifth Supervisorial District and one (1) is located in the Third Supervisorial District of Los Angeles. CAOF provides services to Los Angeles County Probation children and the Department of Children and Family Services (DCFS). According to the CAOF program statement, its purpose is to provide professional staff who offers children counseling and psychotherapy to effectively restore their emotional health and development.

CAOF has eight (8) six-bed sites and is licensed to serve a capacity of six (6) boys, 13 - 17 years of age. At the time of the review, CAOF was providing care for 15 Probation children and 29 DCFS children. The placed children's overall average length of placement was 1.83 months, and their average age was 16.65 years.

Seven (7) children were randomly selected for the interview sample, four (4) Probation children, and three (3) DCFS children. Two (2) children in the sample were on psychotropic medication, and those cases were reviewed for timeliness of Psychotropic Medication Authorizations and to confirm the required documentation of psychiatric monitoring. Additionally, three (3) discharged children's files were reviewed to assess compliance with permanency efforts, and five (5) staff files were reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the interviewed children generally reported feeling safe at CAOF, and that they were provided with good care and appropriate services, were comfortable in their environment, and treated with respect and dignity. CAOF was in compliance with three (3) of the 10 areas of our Contract Compliance Review: "Health and Medical Needs", "Psychotropic Medication", and "Discharged Children".

However, deficiencies were noted in the area of "Licensure and Contract Requirements", in that, CAOF needed to maintain their vehicles by keeping them in good repair and needed to have staff's signatures on the allowance logs. Additionally, CAOF management needed to exhibit proactive measures to be free of substantiated Community Care Licensing (CCL) complaints. Deficiencies were also noted in the area of "Facility and Environment", in that, CAOF needed to repair the exteriors, the common areas, and the children's bedrooms of the Group Home sites. CAOF agreed to correct the deficiencies noted at each site. Deficiencies were also noted in the area of "Maintenance of Required Documentation and Service Delivery", in that, Case Worker and staff signatures were missing on Needs and Services Plans (NSPs). Additionally, the NSPs were not child specific and appeared to include unnecessary and excessive information in the section of Outcome Goals making them difficult to understand.

Deficiencies were also noted in the area of "Educational and Workforce Readiness", in that, CAOF needed to provide documentation to show that children were being encouraged to participate in Youth Development Services or vocational training. Deficiencies were also noted in the areas of "Personal Rights and Social/Emotional Well Being" and of "Personal Needs/Survival and Economic Well Being", in that, personal rights were being violated related to feeling safe, food, religious and extracurricular activity and allowance. Lastly, deficiencies were noted in the area of "Personnel Records", in that, CAOF needed to provide documentation to show that staff were qualified to work in specific positions and that staff received training.

REVIEW OF REPORT

On March 6, 2014, Probation PPQA Monitor Lori Tchakerian held an Exit Conference with CAOF Executive Director Michael Linquata, Program Director Anthony Linquata, Assistant to the Directors Sandra Harris and Case Manager Supervisor Judy Isaac. Michael Linquata shared that several facility deficiencies were corrected prior to the Exit Conference. Additionally, documents were provided to show that CAOF was in compliance in certain areas. For example, documents to show that staff were current with their drivers' licenses were provided. The difficulties in obtaining Caseworker signatures were addressed at length, as well as, the NSPs in general, and staff qualifications. On March 19, 2014, a second exit interview was conducted due to the Administrators being in disagreement with some of the original findings. These remaining issues were discussed and CAOF representatives agreed with the review findings and recommendations and were receptive to implementing systemic changes to improve their compliance with regulatory standards, as well as address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and CCL.

CAOF provided the attached approved CAP addressing the recommendations noted in this compliance report. A follow-up visit was conducted, and most deficiencies cited in CAP were corrected or systems were put in place to avoid future deficiencies. There were a few remaining minor deficiencies that still need attention due to maintenance scheduling, and PPQA/GHM will provide continue monitoring to ensure full compliance. Assessment for continued implementation of recommendations will be conducted during the next monitoring review.

If additional information is needed or any questions or concerns arise, please contact Director Lisa Campbell-Motton, Placement Permanency and Quality Assurance, at (323) 240-2435.

**CHILDREN ARE OUR FUTURE
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2013-2014**

SCOPE OF REVIEW

The purpose of this review was to assess Children Are Our Future's (CAOF) compliance with the County contract and State regulations and include a review of their program statement, as well as, internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, seven (7) placed children were selected for the sample, four (4) Probation children, and three (3) DCFS children. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess for care and services they received. Additionally, three (3) discharged children's files were reviewed, two (2) Probation and one (1) DCFS, to assess CAOF's compliance with permanency efforts. At the time of the review, two (2) placed children were prescribed psychotropic medication. These case files were reviewed to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring.

PPQA/GHM reviewed five (5) staff files for compliance with Title 22 Regulations and County contract requirements, and conducted a site visit to assess the provision of quality of care and supervision.

CONTRACTUAL COMPLIANCE

The following seven (7) areas were out of compliance:

Licensure/Contract Requirements

- Each of the eight (8) Group Home sites has one (1) vehicle used to transport children. Eight (8) Group Home vehicles were inspected. Five (5) of eight (8) vehicles were not maintained in good repair. One (1) vehicle had torn ceiling material, tagging throughout, and a missing bumper. Two (2) vehicles were missing second row middle seatbelts. One (1) vehicle did not have working break lights or a left turn signal, and lastly, one (1) other vehicle did not have proof of insurance, at time of inspection.

- Allowance logs from eight (8) Group Home sites were reviewed. Six (6) of eight (8) sites kept comprehensive allowance logs, which were legible and included staff signatures. However, two (2) Group Home sites were not fully completing allowance logs, in that, they were missing staff signatures.
- The following is a list of substantiated complaints reported by Community Care Licensing (CCL). According to CCL, these complaints were addressed and/or corrected:
 - **Chatsworth:** 10/09/13 no lock on pool gate; latch needs repair.
 - **Legg:** 1/17/14 vehicle issue; sliding door broken. 11/19/13 missing smoke detector and exposed wires in bedroom #1
 - **Saticoy:** 9/20/13 bathroom faucet in bedroom #1 not working; no water

Recommendation

CAOF Group Home management shall ensure that:

1. Group Home vehicles are maintained in good repair and have current insurance placed in their vehicles.
2. Allowance logs are comprehensive and include staff signatures
3. Substantiated complaints made by CCL are addressed and/or corrected

Facility and Environment

A walk through inspection was completed at all eight (8) Group Home sites. Deficiencies were noted in the areas of the exterior of Group Home sites, as well as, the common areas and the children's bedrooms.

The following exterior deficiencies were noted:

It should be noted that some deficiencies, such as, smoke detectors not working, were corrected on-site during inspection. These corrections were also noted at the time of the follow-up.

Recommendation

CAOF Group Home management shall ensure that:

1. The exterior of the Group Home sites are well maintained, and deficiencies are repaired in a timely manner
2. The common areas of the Group Home sites are well maintained, and deficiencies are repaired in a timely manner
3. The children's bedrooms are well maintained, and deficiencies are repaired in a timely manner

Maintenance of Required Documentation and Service Delivery

- Seven (7) children's initial and updated Needs and Services Plans (NSPs) were reviewed. Four of (4) of seven (7) NSPs reviewed did not include Case Worker signatures authorizing the implementation of NSPs. Attached to the NSPs were fax forms submitted to Case Workers to show that CAOF made an attempt in obtaining their signatures.
- Four (4) of seven (7) initial and updated NSPs were missing staff signatures to show that NSPs were discussed and implemented with staff. These NSP signature pages included space for Clinical Supervisor and/or Program Director signatures. However, those signatures were missing.
- Seven (7) children's initial NSPs were reviewed. Six (6) of seven (7) initial NSPs were completed in a timely manner. However, one (1) initial NSP was completed 25 days after it was due. All seven (7) initial NSPs included children's signatures showing that they participated in the development of their NSPs; however, all seven (7) initial NSPs were not completed appropriately and were not child specific. Several goals were not clearly defined and were not measurable.

- Of the seven (7) children whose initial NSPs were reviewed, four (4) had updated NPS. It was discovered that one (1) of four (4) updated NSPs was not completed; therefore, only three (3) updated NSPs were reviewed. All three (3) NSPs were completed in a timely manner. Two (2) of three (3) updated NSPs included the children's signatures showing that they participated in the development of the NSPs. However, the updated NSPs were not completed appropriately and were not child specific. Several goals were not clearly defined and were not measurable. The Outcome Goals sections of the NSPs included unnecessary and excessive information making the NSPs difficult to understand.

Recommendation

CAOF Group Home management shall ensure that:

1. County Worker's signatures authorizing implementation of NSPs are obtained.
2. Staff signatures are obtained to show that NSPs are implemented and discussed with staff.
3. Initial NSPs are develop timely, complete, and comprehensive
4. Updated NSPs are developed in a timely, complete and comprehensive manner, which includes children's participation

Educational and Workforce Readiness

- Four (4) of seven (7) children interviewed were qualified to receive Youth Development Services (YDS) or vocational training. During interviews, one (1) child reported that these types of services were never offered to him. Another child reported that these services were received prior to placement at CAOF, and another child reported that CAOF was, "Working on it." The last youth reported that CAOF encourages participation in these types of services. CAOF was asked to provide documentation to show ways in which these children were being encouraged and how they were participating. However, CAOF was unable to provide this information.

Recommendation

CAOF Group Home management shall ensure that:

1. Children are encouraged to participate in YDS or vocational programs and that the information is documented.

Personal Rights and Social/Emotional Well-Being

- Two (2) of seven (7) children interviewed reported that they did not feel safe at CAOF. In speaking with one (1) child, it was reported that she did not feels safe because she was placed with Probation children who were violent. In speaking

with the other child, it was reported that he did not feel safe because he was uncomfortable around the Group Home managers. These matters were discussed with CAOF Administration, who were already well aware of these children's concerns. Additionally, the Case Workers for these children had been notified of the concerns.

- Three (3) of seven (7) children interviewed reported that CAOF did not provide them with nutritious and palatable meals and snacks. The children reported not having enough fresh fruit and vegetables, that snacks were only given in the evening, and that only frozen foods were cooked and served to children. It should be noted that each Group Home site was inspected and that there appeared to be a sufficient amount of food and snacks; nutritious, palatable, fresh, and frozen. These issues were discussed with CAOF Administration. Additionally, this Group Home site was found to have enough food; however, they did not have a "pantry" for the children to choose snacks from as they pleased. This issue was brought to the attention of the Facility Manager, as well as, CAOF Administration.
- One (1) of seven (7) children interviewed reported that, on one (1) occasion, she was unable to attend church services because staff had told her that they did not share the same religion. There was no other information provided on this issue. CAOF Administration was asked to look into this issue in order to ensure the children attend religious services of their choice.
- One (1) of seven (7) children interviewed reported that he was not able to attend an activity on a specific day, due to not having gas in the van. This issue was discussed with CAOF Administration, as well as, with the Recreation Coordinator who kept logs of activities attended. It was discovered that one (1) of the logs indicated that there was no gas in the van and, therefore, the children did not attend their activity. This issue was immediately brought to the attention of CAOF Administration to enforce that this is never acceptable and that the agency must ensure that all vehicles are prepared to ensure that children attend all planned activities.

Recommendation

CAOF Group Home management shall ensure that:

1. Children in the Group Home feel safe
2. Efforts are made to provide children with nutritious and palatable meals and snacks
3. Children are free to attend religious services and activities
4. Children are given the opportunity to participate in extra-curricular, enrichment and social activities and that vehicles are readily available to ensure transportation to planned activities

Personal Needs/Survival and Economic Well-Being

- One (1) of seven (7) children interviewed reported that she did not receive the minimum weekly monetary allowance. This child reported that on most weeks, the minimum allowance was received, but when chores were not completed, only \$2.00 or \$3.00 was received. Several allowance logs were reviewed, and it was found that most children were receiving their minimum weekly monetary allowances. However, some monies were taken as a form of "restitution" for property damage leaving the children without the minimum weekly monetary allowance. This issue was discussed with CAOF Administration.

Recommendation

CAOF Group Home management shall ensure that:

1. Children are provided with the minimum weekly monetary allowance; that they review the 2013-2014 allowance logs and identify each child who did not receive the appropriate allowance monies and return the allowance monies owed to them

Personnel Records

- Five (5) staff files were reviewed to see if they had the required education/experience qualifications. It appeared that three (3) of five (5) staff did not have the supporting documentation in the file, and CAOF was unable to provide the documents as confirmation.
- Five (5) staff files were reviewed to see if the Group Home policies and procedures manual were signed and placed in their files. One (1) of five (5) staff did not have a signed Group Home policies and procedures manual signed and placed in their file.
- Five (5) staff files were reviewed to see if they received all necessary trainings. One (1) of five (5) staff did not have the necessary training, in that, First Aid and CPR were expired.

Recommendation

CAOF Group Home management shall ensure that:

1. Staff have the required education/experience qualifications and that the documents are maintained in their files
2. Staff sign Group Home policies and procedures manuals and that the manuals are maintained in their files
3. Staff attend all required training, including First Aid and CPR and that proof of training is maintained in their files
