SUBJECT: **DIAKONIA INC. GROUP HOME CONTRACT COMPLIANCE MONITORING
REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM), conducted a review of Diakonia Inc. Group Home, in November 2015. Diakonia Inc. has three (3) sites, Maywright, Achieve, and Home of Excellence, located in the Third Supervisorial District of San Bernardino County. They provide services to Los Angeles County Probation foster children and Department of Children & Family Services (DCFS). According to Diakonia Inc.'s program statement, its purpose is to provide therapeutic treatment services to adolescents, focusing on behavior problems, interpersonal difficulties, low self-esteem, anger management, victims of abuse, poor school performance, substance abuse, and family conflicts.

Diakonia Inc.-Maywright is a 6-bed site and is licensed to serve a capacity of six (6) boys, 6-17 years old and Non-Minor Dependents (NMDs). Diakonia Inc.-Achieve is a 6-bed site and is licensed to serve a capacity of six (6) girls, 6-17 years old and NMDs. Diakonia Inc.-Home of Excellence is a 6-bed site and is licensed to serve a capacity of six (6) girls, 6-17 years old and NMDs. At the time of the review, Diakonia Inc. served three (3) Los Angeles County Probation foster children and four (4) Los Angeles County DCFS children, along with four (4) children from other counties. Based on the sample, the placed children's overall average length of placement was 12 months, and their average age was 17 years old.

Seven (7) children were randomly selected for the interview sample, three (3) Los Angeles County Probation children and four (4) Los Angeles County DCFS children. There were three (3) children in the sample who were prescribed psychotropic medication, two (2) of which were DCFS children, and those cases were reviewed for timeliness of Psychotropic

Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring. Additionally, five (5) discharged children's files, three (3) Los Angeles County Probation children and two (2) Los Angeles County DCFS children, were reviewed to assess compliance with permanency efforts, and five (5) staff files were also reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the interviewed children generally reported feeling safe at Diakonia, Inc. and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. Diakonia, Inc. was in compliance with three of the 10 areas of our Contract Compliance Review: "Health and Medical Needs"; "Psychotropic Medication"; and "Personal Rights and Social/Emotional Well-Being".

Although, PPQA/GHM noted deficiencies in seven (7) of the 10 areas, and although there were no egregious findings or child safety issues in any of the areas, the same deficiencies from the last review period were found in six (6) of the seven (7) areas. In the area of "Licensure/Contract Requirements", Diakonia, Inc. needed to ensure that all vehicles used to transport residents are in good repair. It was noted in the area of "Facility and Environment" that Diakonia, Inc. needed to make minor repairs in the common areas and the children's bedrooms. It was noted in the area of "Maintenance of Required Documentation and Service Delivery" that Diakonia, Inc. failed to provide a Concurrent Plan goal in at least one (1) Needs and Services Plan (NSP), two (2) NSPs were missing grievance procedures, one NSP had the same verbiage as the previous NSP and one was missing the sampled child's Special Incidents. In the area of "Education and Workforce Readiness", Diakonia, Inc. failed to enroll a child within three days of placement due to not having the proper paperwork ready for enrollment. In the area of "Personal Needs/Survival and Economic Well-Being", Diakonia, Inc. did not provide Life Books to two (2) different children. In the area of "Discharged Children", Diakonia, Inc. failed to discharge at least one child according to their permanency plan and progression towards goals. In the area of "Personnel Records", Diakonia, Inc. needed to ensure that all staff driver's licenses are available in their personnel files.

REVIEW OF REPORT

On December 22, 2015, Probation PPQA Monitor Joseph Ninofranco held an Exit Conference with Diakonia, Inc. Administrator Ingrid Peyrefitte. Administrator Peyrefitte agreed with the review findings and recommendations and was receptive to implementing systemic changes to improve their compliance with regulatory standards, as well as address the noted deficiencies in a Corrective Action Plan (CAP).

Diakonia, Inc. Group Home provided the attached approved CAP addressing the recommendations noted in this compliance report. A follow-up visit was conducted and all

deficiencies cited in the CAP were corrected or systems were put in place to avoid future deficiencies; however, an additional follow up will be conducted for all six (6) deficient areas to ensure the agency's adherence to the CAP in this area. Assessment for continued implementation of recommendations will be conducted during the next monitoring review.

A copy of this compliance report has been sent to the Auditor-Controller and Community Care Licensing.

**DIAKONIA INC. GROUP HOME
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2015-2016**

SCOPE OF REVIEW

The purpose of this review was to assess Diakonia Inc.'s compliance with the County contract and State regulations and include a review of the Diakonia Inc. program statement, as well as internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, seven (7) placed children, three (3) Probation and four (4) DCFS, were randomly selected for the sample. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services they received. At the time of this review, three (3) placed children were prescribed psychotropic medication, two (2) DCFS children and one (1) Probation child. Their case files were reviewed to assess for timeliness of Psychotropic Medication Authorizations (PMAs) and to confirm the required documentation of psychiatric monitoring. Additionally, five (5) discharged children's files were reviewed, three (3) Probation and two (2) DCFS, to assess Diakonia Inc.'s compliance with permanency efforts

Five (5) staff files were reviewed for compliance with Title 22 Regulations and County contract requirements, and a site visit was conducted to assess the provision of quality care and supervision.

CONTRACTUAL COMPLIANCE

The following seven (7) areas were out of compliance.

Licensure/Contract Requirements

During an inspection of the facility vehicles, the vehicle located at the Maywright site had a broken tire wall for the jack storage, the tire wrench is loose, and there is ripped upholstery on the passenger side seat.

Recommendation:

Diakonia Inc. management shall ensure that:

1. All vehicles remain are in good repair with no missing or broken items, such as, the tire wall jack storage area and that the upholstery is repaired and maintained.

Facility and Environment

An inspection of the interiors and exteriors of Diakonia Inc. revealed some cosmetic deficiencies in the common areas and children's' bedroom and issues with expired food that required correction.

- At the Maywright House, a living room plug under the window is broken
- At the Achieve House, the outlet covers need to be tightened in the living room. Also, an outlet cover is needed near the kitchen table.
- At the Maywright House, there are several deficiencies within the children's bedrooms. In bedroom #1, the cable wire needs to be secured, remove graffiti on the wall near the window and in the closet and patch the holes in ceiling. In bedroom #3, graffiti needs to be removed in drawers and the closet.
- At the House of Excellence, there are several deficiencies within the children's bedrooms. In bedroom #1, a window screen needs to be tightened. In bedroom #2, loose wires coming from the wall needs to be removed. In bedroom #3, paint peeling near the closet needs to be re-painted.
- At the Achieve House, there are several deficiencies within the children's bedrooms. In bedroom #1, remove the loose wires in the closet. In bedroom #2, the closet rod is loose and needs to be secured. In bedroom #3, remote holder is cracked and needs to be removed or replaced.

- At the Maywright House, Home of Excellence House, and the Achieve House, some food was not immediately dated when it was purchased and shelved in pantry or refrigerator.

Recommendation

Diakonia Inc.'s management shall ensure that:

1. All of the aforementioned physical deficiencies sited in the common areas are repaired in a timely manner.
2. All of the aforementioned physical deficiencies sited in children's bedrooms are repaired in a timely manner.
3. All perishable foods are adequate and have the purchase and expiration dates clearly marked on items prior to storing on shelves.

Maintenance of Required Documentation and Service Delivery

Seven (7) children's Needs and Services Plans (NSPs) were reviewed, and of those, two (2) children were not placed long enough to have an Updated NSP in their file. Therefore, only five (5) of the children had Updated NSPs reviewed, and seven (7) of the children had Initial NSPs reviewed. Of the NSPs reviewed, the following deficiencies were found:

- Three (3) children had Initial NSPs that were not comprehensive in that one (1) did not have the Psychotropic Medication Authorization (PMA) attached to the NSP when there was clear documentation that this youth was receiving psychotropic medication, one (1) file was missing the Initial NSP for 10/26/15, and one (1) did not have the Serious Incidents Reports documented. Additionally, two (2) children stated that they received their orientation packet, which has the grievance procedures included; however, the grievance procedures were not in the file.
- Three (3) children had Updated NSPs that were not comprehensive in that one (1) Updated NSP was missing from the file and could not be reviewed. Of those reviewed, one (1) child had the same verbiage in the "Adjustment to Placement" section on two (2) Updated NSPs with no update or modification and needed to be more comprehensive with an explanation of "parental involvement", one (1) was missing the total number of Serious Incident Reports (SIRs) documented during the reporting period and one (1) did not have a concurrent plan for the child.

Recommendation

Diakonia Inc.'s management shall ensure that:

1. The aforementioned NSP deficiencies are corrected, so that each child has a comprehensive Initial NSP and have child specific language in all initial NSPs.
2. The aforementioned NSP deficiencies are corrected, so that each child has a comprehensive Updated NSP, which includes child specific language, correctly documenting all the children's SIRs and completed NSPs are placed and readily available in each child's file.

Education and Workforce Readiness

Seven (7) children's files were reviewed for education and workforce readiness. One (1) child stated that she was not enrolled into school within three (3) days of being placed at the Group Home. The child's NSP confirmed that she was not enrolled due to not having all the appropriate paperwork for enrollment.

Recommendation

Diakonia Inc.'s management shall ensure that:

1. Children are enrolled into school within three (3) days of being placed and all paperwork is available.

Personal Needs/ Survival and Economic Well-Being

It was also revealed that two (2) of the children did not have Life Books. Both children reported that they were told about a Life Book, but never received it. When staff were asked about this, they explained that they have the Life Books available, but the children refused to receive them. The Group Home has documentation that the children will receive Life Books but not an actual form stating that the books were received.

Recommendation

Diakonia Inc.'s management shall ensure that:

1. Life Books are provided to all children with an explanation of what goes in a Life Book and assistance and encouragement to use of their Life Books. This is in accordance with the Master County Contract, which states that the Provider "shall encourage and assist each Placed Child in creating

and updating a life book/photo album of items that relate to their childhood memories.”

Discharge Children

Five (5) discharge files were reviewed, two (2) Probation and three (3) DCFS and the following deficiencies were found:

- One (1) child was completely defiant during his stay at Diakonia Inc. The child constantly assaulted staff, and the police were called out but did not detain the child. The child was ultimately given a “7-day removal notice”; therefore, the child was not discharged according to their permanency plan and the child was not at all progressing towards their goals.

Recommendation

Diakonia Inc.’s management shall ensure that:

1. All placed children are discharged according to their permanency plan
2. All placed children are progressing towards their goals

Personnel Records

A review of the Personnel files revealed that one (1) of the five (5) files did not have a valid Driver’s License for that employee.

Recommendation

Diakonia Inc.’s management shall ensure that:

1. All employees have a copy of their valid driver’s license in their personnel files.

PRIOR YEAR FOLLOW-UP FROM THE PROBATION PPQA GHM GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

PPQA/GHM’s last compliance report dated August 17, 2015, identified 15 recommendations.

Results

Based on the follow-up, Diakonia Inc. fully implemented seven (7) of the 15 previous recommendations for which they were to ensure that:

- All children files have a comprehensive allowance/clothing log which ensures that all children are receiving their monthly clothing allowance. They shall also ensure that all children's files contain a monthly clothing allowance waiver if the clothing allowance is not issued monthly.
- All sites continue to strive to be free of substantiated complaints by adhering to all Community Care Licensing Requirements and Standards
- All children's NSP's have the County Workers signature authorizing the implementation of the NSP.

- All children's NSP's document the county workers monthly contact
- All placed children receive their minimum weekly allowance
- All employees have documentation of their education/experience included in their personnel files.

However, it was discovered that Diakonia Inc. failed to fully implement eight (8) of the previous 15 recommendations for which they were to ensure that:

- All of the aforementioned physical deficiencies sited in the common areas and children's bedrooms are repaired in a timely fashion.
- Comprehensive Initial NSPs are developed and include all required elements in accordance with the NSP template
- Comprehensive Updated NSPs are developed and include all required elements in accordance with the NSP template
- All NSP's are present in the file and all discharge files document the child's progress toward their permanency goals in all updated NSPs.
- Documentation of progress toward meeting NSP goals is maintained in NSP's for discharged children placed at least 30 days
- All placed children receive a Life Book and are encouraged and assisted in maintaining their book throughout their placement.

- All employees have a copy of their valid driver's license in their personnel files.

There was not a valid driver's license of J. Jordan in the personnel file at the facility.

Details on correcting the non-compliance:

There is a master personnel file of all employees stored in a different location. The current copy of the license was only filed in the master file. This was an oversight in error.
