Dear Supervisors:

**APPROVAL FOR A SOLE SOURCE AMENDMENT
WITH DIDI HIRSCH PSYCHIATRIC SERVICE FOR
SUICIDE PREVENTION PROGRAM SERVICES UNDER THE MENTAL HEALTH SERVICES ACT-
PREVENTION AND EARLY INTERVENTION PLAN'S EARLY START PROGRAM
(SUPERVISORIAL DISTRICT 2)
(3 VOTES)**

SUBJECT

Request approval for a sole source amendment with Didi Hirsch Psychiatric Service to implement the Mental Health Services Act-Prevention and Early Intervention Plan's Early Start Suicide Prevention Program.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and instruct the Director of Mental Health, or his designee, to prepare, sign, and execute a sole source amendment, substantially similar to Attachment I, with Didi Hirsch Psychiatric Service (Didi Hirsch), LE Agreement No. MH120441. This amendment is for Didi Hirsch to implement the Department of Mental Health's (DMH) Suicide Prevention Program under the Mental Health Services Act (MHSA)-Prevention and Early Intervention (PEI) Plan's Early Start Program. The amendment in the amount of \$802,733 is for Fiscal Year (FY) 2009-10, effective upon Board approval, and is fully funded with MHSA PEI Early Start Program funding.

2 Delegate authority to the Director of Mental Health, or his designee, to prepare, sign, and execute future amendments to the Agreement with Didi Hirsch, provided that: 1) the County's total payments under this Agreement for the applicable fiscal year shall not exceed an increase of 20 percent from the applicable revised Board approved MCA; 2) any such increase shall be used to provide additional services or to reflect program and/or policy changes; 3) your Board has appropriated sufficient funds for all increases; 4) approval of the Chief Executive Office (CEO) and County Counsel, or their designees, is obtained prior to any such Amendment; 5) the parties may by written amendment mutually agree to reduce programs or services, without reference to the 20 percent limitation; and 6) the Director of Mental Health shall provide written notification to your Board within 30 days after the execution of each Amendment.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Board approval is required for DMH to implement the MHSA PEI Plan's Early Start Suicide Prevention Program through a sole source amendment with Didi Hirsch. Suicide is a significant mental health issue within Los Angeles County. California Department of Public Health reported that 664 residents of the Los Angeles County committed suicide in 2007. Additionally, it was reported that 4,361 residents of Los Angeles County were hospitalized for attempted suicide. The recommended actions will provide increased safeguards to the population at risk through transformation and expansion of the suicide prevention services currently provided by Didi Hirsch.

The selection of Didi Hirsch is consistent with the guidelines provided by the State Department of Mental Health and Mental Health Oversight and Accountability Commission to consider only those projects that can be readily and quickly implemented and that enhance ongoing suicide prevention efforts. The agency has the necessary personnel, facilities and services to facilitate the implementation through transformation and expansion. Didi Hirsch provides suicide prevention services at the Center. Located in Culver City, the Center was founded in 1958. The Center was the first in the nation to provide 24-hour suicide prevention Crisis Line. It is one of the eight accredited hotlines in California that are members of the National Lifeline. It is the only National Suicide Prevention Lifeline serving the entire Los Angeles County.

Without this sole source amendment, the benefits of MHSA PEI Plan's Early Start Suicide Prevention Program services will be unduly delayed to the most vulnerable population in Los Angeles County.

Implementation of Strategic Plan Goals

The recommended actions are consistent with County Strategic Plan Goal 2, Children, Family and Adult Well-Being and Goal 4, Health and Mental Health.

FISCAL IMPACT/FINANCING

There is no increase in net County cost.

This amendment in the amount of \$802,733 is fully funded by the State MHSA PEI Plan's Early Start Program. This amount includes \$708,333 for the expansion of services and \$94,400 for one time costs for the Suicide Prevention Program. The revised FY 2009-10 MCA of \$20,008,171 is included in the Department's FY 2009-10 Final Adopted Budget. Continuation of this program in subsequent fiscal years will be contingent upon the availability of future MHSA PEI funding.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

DMH has selected Didi Hirsch to implement the Suicide Prevention Program under the MHSA PEI Plan's Early Start. As previously discussed, the agency has the necessary personnel, facilities and services to facilitate the implementation through transformation and expansion. Didi Hirsch provides suicide prevention services at the Center, which is located in Culver City. The Center was the first in the nation to provide 24-hour suicide prevention Crisis Line. It is one of the eight accredited hotlines in California that are members of the National Lifeline. It is the only National Suicide Prevention Lifeline serving the entire Los Angeles County.

The Center's 24-hour Crisis Line provides direct, confidential telephone counseling to the target population of individuals, of any age, who are contemplating, threatening or attempting suicide, as well as concerned friends or family members. The 24-hour Crisis Line receives several thousand suicide related calls each month. Each caller receives immediate and focused crisis intervention assistance from a team of highly trained volunteers, consultants and professional staff.

To implement the MHSA PEI Plan's Early Start Suicide Prevention Program, Didi Hirsch will transform the Center's 24-hour Crisis Line services into an evidence-based Applied Suicide Intervention Skills Training (ASIST) model. The ASIST model emphasizes suicide first-aid to help a person at risk to stay safe and seek further help as needed. According to studies, four out of five people who commit suicide have warned others of their intent through verbal statements, written notes, or other behaviors indicating that they are planning to end their life. The ASIST model emphasizes training the community on how to recognize and respond appropriately to such "invitations" to help. It is designed to give participants knowledge and skills that will help them know how to intervene when they fear someone might be at risk. Evidence-based practices such as ASIST have undergone scientific evaluation and ensure that each call to the 24-hour Crisis Line is conducted in accordance with a proven intervention model. Transformation of the 24-hour Crisis Line also includes rigorous monitoring to ensure fidelity to this evidence-based practice.

The Center will expand its ASIST model training to the law enforcement personnel on the proper suicide first-aid response. The Center will also develop support groups for survivors of suicide and for family members who suffer suicide losses. Activities will include support groups, weekly meeting, telephone counseling, and community outreach.

The Center will expand the 24-hour Crisis Line to include bilingual services. This will increase the linguistic capacity of the suicide prevention 24-hour Crisis Line to serve under-represented and ethnic communities. The first steps in this process will be the hiring of Spanish-speaking bi-lingual supervisors and staff and training them on the ASIST model and put them on the 24-hour Crisis Line to serve the Spanish-speaking ethnic community.

The attached amendment has been approved as to form by County Counsel. CEO has approved the attached Sole Source Contract Checklist and recommendations. DMH will monitor the contractor's performance to ensure its adherence to and compliance with the MHSA PEI Plan's Early Start Suicide Prevention Program requirements and quality management.

CONTRACTING PROCESS

This is a sole source amendment with Didi Hirsch. The sole source selection is based on historical evidence that Didi Hirsch has established suicide prevention services which provide a ready foundation to implement the MHSA PEI Plan's Early Start Suicide Prevention Program. The Amendment requires Didi Hirsch to transform and expand its current services in accordance with the Service Exhibit on service elements, service goals, and performance-based criteria. The One-Time Expenses Exhibit specifies cost categories eligible for one-time costs reimbursements.

Attached is the required Sole Source Contract Checklist (Attachment II), identifying and justifying the need for the sole source amendment with Didi Hirsch.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The amendment will augment the suicide prevention services currently provided by Didi Hirsch and enable communities in Los Angeles County to significantly increase their suicide prevention knowledge and respond to persons at risk of suicide and save lives. Upon full implementation, it is estimated that 12,000 individuals and families will receive training in suicide prevention and early intervention activities.

Bi-lingual services, e.g. Spanish-speaking, are also included. Hotline telephone counseling services shall include referrals to appropriate mental health agencies;

B. Weekly support groups, telephone support counseling, and community outreach offered to survivors of suicide and family members who have experienced loss as a result of a suicide;

; C. Training and consultation services provided to law enforcement and first responders to ensure the proper response to suicide, including how to deal with family members experiencing a loss as a result of suicide;

D. Apprising residents of Los Angeles County, through various public media, of the availability of suicide prevention and early intervention services, including the Contractor's telephone counseling services.

5. SERVICE GOALS

As a result of the transformation and expansion of suicide prevention services, prevention and early intervention services will be offered. "Prevention" is defined as reducing risk factors or stressors, building protective factors and skills, and increasing support. Prevention promotes positive cognitive, social and emotional development and encourages a state of well-being that allows the individual to function well in the face of changing and sometimes challenging circumstances. "Universal prevention" targets the general public or a whole population group that has not been identified on the basis of individual risks. "Selective prevention" targets individuals or a subgroup whose risk of developing mental illness is significantly higher than average.

"Early Intervention" is defined as **intervention** directed toward individuals and families for whom a short duration (usually less than one year) of relatively low-intensity intervention is appropriate to measurably improve a mental health problem or concern very early in its manifestation, thereby avoiding the need for more extensive mental health treatment or services, or to prevent a mental health problem from getting worse.

It is expected that:

- There will be an increased capacity of the suicide hotline services to underrepresented and ethnic communities;
- Support groups for survivors of suicide attempts and family members bereaved by suicide will be offered to members of the community;
- Law enforcement and first responders will receive training and consultation to respond appropriately to suicide and suicide attempts; and
- Community agencies will receive training in suicide prevention activities in

order to raise awareness and increase community capacity.
