08 56 59 00-0002 EA Electronic Two-Way Talk-thru Hands-Free Audio Communicator (Haven SC-350).....	1,434.10	172.14
Note: Communicator is designed for applications where a fire shutter or window shade is present. Two-way communication is accomplished through the use of speakers and micro-phones located on each side of the partition. The Master unit is equipped with a 15" gooseneck microphone, power on/off switch, power-on LED, and external volume controls. The Remote Unit is window-mounted and may incorporate a level 3 bullet-resistant insert.		
08 56 59 00-0003 EA Electronic Two-Way Audio Communicator (Haven SC-300).....	1,263.41	172.14
Note: Communicator is designed for application where a cutout in the barrier is impractical. Two-way communication is accomplished through the use of speakers and microphones located on each side of the partition. The master unit is equipped with a 20" gooseneck microphone, power on/off switch, power-on LED, and external volume controls. The Remote unit is vandal-resistant with all controls located within the housing.

09 29 00 00-0051 Finishing Gypsum Board Applications (09 29)		
Note: Includes flat or curved walls, columns, soffits, recesses, and chases. Tape, spackle, sand and finish gypsum board to the appropriate level as defined by ASTM C 840. No taping or finishing is required for Level 0. For Level 1, tape is set in compound at joints and interior angles. Ridges and tool marks are acceptable. For Level 2, tape is set in compound and wiped with a joint knife leaving a thin coating of compound over joints, interior angles, fastener heads, and beads. Ridges and tool marks are acceptable. Compound applied over the body of the tape at the time of the tape is set satisfies the conditions for this level. For Level 3, tape is set in compound and one additional coat of compound is applied over all joints and interior angles. Fastener heads and accessories receive two separate coats of joint compound. Ridges and tool marks are not acceptable. For Level 4, tape is set in compound and two separate coats of compound are applied over all flat joints with one separate coat of compound applied over interior angles. Fastener heads and accessories receive three separate coats of compound. Ridges and tool marks are not acceptable. A Level 5 finish is a Level 4 finish plus a thin skim coat of compound applied to the entire drywall surface. All levels of finish require that the surface be free of excess compound. A single modifier may be used to change the level of finish to the appropriate level.

09 30 Tiling (09)

Note: All tiles are standard grade ANSI 137.1 or higher, mounted and unmounted, cushioned or non-cushioned edge, all tile colors, all grout colors, PEI rating 1 through 4, and include patterns. Glazing shall meet ASTM C484 and C424. Mounted tiles are assembled into sheets to facilitate handling and installation. Perforated paper, fiber mesh, or other suitable bonding material applied to the front, backs or edges of the tile can be used to mount the tiles. Cushioned edge tile has facial edges with a distinct curvature that results in a slightly recessed joint. All floor, wall, ceiling, cove base and trim tile will be installed in accordance with ANSI 108.1 using these setting methods.

09 30 13 Ceramic Tiling (09 30)

Note: Includes grout and sealing. Excludes setting method. See CSI section 09 31 00 00-0000 for thin-set, 09 32 00 00-0000 for mortar-bed, 09 35 00 00-0000 for chemical-resistant.

-------	-----	-----	-------------	------------------------	----------------------

Note: Includes masking, safety signs, cleaning of area (dry wiping down walls, floors, doors, etc.), removal of loose paint (paint, caulk, etc.), feathering rough edges, protective work to contain dust and paint splatters (drop cloths), unless otherwise noted, removal and reinstallation of cabinet hardware, switch covers and outlet plates, equipment to place paint and ladders. New construction work additionally includes filling knots, divots, depressions, holes (screw and nail holes in drywall to 1/4" diameter of unlimited quantity). All work designated as "brush/roller" includes brush work for cut and roller work up to cut in. See CSI section 07 92 00 00-0000 for caulking where required, 09 01 20 00-0000 for severely damaged surface preparation in excess of items included above, hand scrape, pressure washing and chemical cleaning where required.

10 73 16 00-0005	EA 10' x 20' Canopy, Aluminum, Wall Hung.....	5,268.76	545.27

10 73 26 Walkway Coverings (10 73)

Note: Pre-engineered includes all framing and steel supports, integral gutter system. Excludes foundations.

10 73 26 00-0001	Steel Walkway/Parking Covers <small>(10 73 26)</small> Note: Factory applied polyester finish.		
10 73 26 00-0002	SF Flat Roofed Steel Walkway/Parking Cover.....	36.79	4.86
	Note: Includes factory applied polyester finish. For Snow Load (30 PSF), Add	10.82	
	For Wind Load (140 MPH), Add	13.53	
10 73 26 00-0003	SF Arch Roofed Steel Walkway/Parking Cover.....	39.22	5.24
	Note: Includes factory applied polyester finish. For Snow Load (30 PSF), Add	11.50	
	For Wind Load (140 MPH), Add	14.37	

10 73 26 00-0004	Aluminum Walkway/Parking Covers <small>(10 73 26)</small>		
10 73 26 00-0005	SF Flat Roofed Aluminum Walkway/Parking Cover.....	23.78	4.86
	Note: Includes factory applied polyester finish. For Snow Load (30 PSF), Add	5.62	
	For Wind Load (140 MPH), Add	7.02	
10 73 26 00-0006	SF Arch Roofed Aluminum Walkway/Parking Cover.....	25.80	5.24
	Note: Includes factory applied polyester finish. For Snow Load (30 PSF), Add	6.13	
	For Wind Load (140 MPH), Add	7.66	

10 75 Flagpoles (10 70)

Note: Metal bases are installed in a concrete base and fully rigged. Heights indicated are from ground to top of installed flag pole. Uninstalled lengths are longer. Includes top ball (color and material similar to pole), cleats and cleat cover, all caulking and sealants, and hoisting into place. Excludes excavation and concrete. See CSI section 10 75 16 00-0012 for bases.

10 75 16 Ground-Set Flagpoles (10 75)

10 75 16 00-0001	Free Standing Tapered Aluminum Flagpoles <small>(10 75 16)</small> Note: Heavy duty.		
10 75 16 00-0002	EA 20' Exposed Height, Tapered Satin Aluminum Flagpole.....	2,240.03	543.25
	Note: 5" butt diameter, 3" top diameter and 0.188" wall. For Internal Halyard, Winch System, Add	570.00	
	For Clear Anodized Finish, Add	150.00	
	For Bronze Anodized Finish, Add	180.00	
	For Black Anodized Finish, Add	230.00	
	For Rope Lock Box, Add	96.00
