The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**HEARING ON RATE INCREASES
AT VARIOUS COUNTY PARKING FACILITIES
(ALL DISTRICTS - 3 VOTES)**

SUBJECT

Recommendation to adjust existing rates and establish new rates at ISD managed County parking facilities.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the recommended parking rates at County parking facilities located in the Los Angeles Civic Center and outlying areas, as specified in Attachment I.
2. Delegate authority to the Director of the Internal Services Department (ISD) or designee to amend the existing contracts with Five Star Parking and Classic Parking, Inc. to adjust the revenue percentage amounts.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

These actions will increase parking rates at County-operated lots and establish new rates during non-working business hours, including four lots that do not currently have parking fees. If approved by your Board, the revenue generated will be used to offset increased costs to manage the parking facilities, fund installation of automated parking revenue equipment, and support other parking lot improvements. The actions also authorize the Director of the ISD or designee to amend the two existing parking services contracts to lower the contractors' revenue percentage amounts.

ISD engaged Walker Parking Consultants (Walker), a parking consulting and design firm, to perform market evaluations of the County's parking rates. These evaluations assessed whether the County is charging parking rates that are comparable to local market rates. Based on the most recent market evaluation, completed in April 2009, Walker recommended that the County increase rates to levels comparable to nearby facilities.

In addition, a separate survey performed by one of the County's parking services contractors identified market demand and revenue opportunities during non-working business hours at several parking facilities, including four parking facilities that do not currently have parking fees. ISD established proposed rates for these parking lots based on the market evaluation discussed above.

In formulating its recommendations for rate increases, ISD reviewed the consultant's findings, occupancy rates, the cumulative change in Consumer Price Index (CPI) since rates were last increased, and the increased costs associated with operation and maintenance of the parking facilities. The recommendations would establish County parking rates that are comparable to current market rates and represent an average increase of 15.3% overall. We believe that this increase is reasonable given the cumulative 16.4% CPI increase since the last general rate increase in 2003. Considering other local parking rates, we anticipate that the proposed rate increases will have minimal impact on the use of the County parking facilities.

Under SB 1732 (the Trial Court Facilities Act of 2002), County-owned courthouse and related facilities (including parking lots) will transfer to the State Judicial Council. Effective July 1, 2009, the County will no longer receive courthouse parking lot revenue. Because the Superior Court will determine parking rate changes after July 1, no rate changes are proposed for court parking lots.

A portion of the revenue generated by the proposed rate increases will defray costs to implement an automated Parking Access and Revenue Control System (PARCS). PARCS is the automated technology used in parking operations to control access and revenue, provide electronic payment options (credit/debit card), and improve monitoring. First-year budgeted cost to install PARCS is \$704,000, with on-going annual costs of approximately \$29,000. Projected efficiencies resulting from the PARCS installations are expected to offset these ongoing costs.

Implementation of Strategic Plan Goals

Approval of these proposed rate increases is consistent with the County's strategic plan goal of operational effectiveness.

Honorable Board of Supervisors
July 28, 2009
Page 3

FISCAL IMPACT/FINANCING

The proposed parking rates are projected to generate approximately \$1.4 million in additional net County revenue during the first full year of implementation.

Our current parking services contractors are compensated through a combination of a percentage of revenue for revenue generating lots and management fees for employee lots. ISD has successfully negotiated a lower percentage of the revenue increase to be shared with the contractors. The contractor's reduced revenue share will result in approximately \$175,000 annual gain in net County revenue.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

County Counsel and the Chief Executive Office have reviewed and concur with the recommendations. Required public hearing notice was given pursuant to the procedures and requirements set forth in Government Code Sections 66018 and 6062(a).

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approved rate increases will offset cost increases resulting from changes in the CPI, and County and contractor costs for facilities improvements/maintenance costs. Consistent with the current contracts, revenue generated from these parking facilities will be shared with the parking services contractors.

It is our intent to implement the new rates within 45 days of your Board's approval.

Respectfully submitted,

TOM TINDALL
Director
