IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – AUGUST 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS). Our September 27, 2010, report to your Board advised you of DHS' request to be excluded from future monthly reports due to the lack of impact experienced. Therefore, the following is a summary of the impact on Sheriff and DMH since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and August 31, 2011, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. This number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

"To Enrich Lives Through Effective And Caring Service"

**Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only**

Mental Health: Level/Type of Service	Cumulative Client Count	Cumulative Costs (1/1/10 to date)
Outpatient Clinics and Countywide Resource Management	792	\$ 2,867,508
Medication Costs for Unfunded Clients	366	\$ 476,375
Inpatient Admissions (includes State Hospitals)	973*	\$11,425,220
Institutions for Mental Disease Admissions	117*	\$ 1,321,920
Total		\$16,091,023

*Represents total number of admissions, not unduplicated clients.

Sheriff's Department

The table below represents monthly resources dedicated to Non-Revocable Parolees (NRP) during location searches, parolee contacts, and parolee arrests.

Month	Hours Dedicated to NRPs	Monthly Cost
2010 January	0	0
February	0	0
March	0	0
April	425	\$ 31,974
May	508	\$ 38,205
June	834	\$ 63,367

SUBJECT: **REPORT ON IMPACT ON MENTAL HEALTH SERVICES AS A RESULT OF THE RELEASE OF INMATES FROM STATE PRISONS**

This memo will provide you with information regarding the impact on Los Angeles County Department of Mental Health (DMH) services as a result of the release of inmates from State Prisons as requested during the February 2, 2010 meeting of your Board.

Overview of Impact of Changes in Status of Parolees

During the February 2, 2010 meeting of your Board, an outline was provided regarding three subgroups of individuals who are currently on parole or in State prison and whose change in status has the potential to affect service delivery in Los Angeles County. These groups, and their current impact on Los Angeles County Department of Mental Health, are as follows:

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

The first group is composed of individuals currently residing in Los Angeles County whose status will be reclassified to that of Non-Revocable Parole. The State of California has developed several measures in response to a federal court order to reduce the current State prison and parole population by 60,000 by the end of 2011. A provision that will reclassify the status of 7,700 parolees in Los Angeles County to that of Non-Revocable Parole was initiated on January 25, 2010 by the California Department of Corrections and Rehabilitation (CDCR). This provision eliminates the supervision requirement as well as eligibility for services provided by the Parole Outpatient Clinic (POC) system for those on Non-Revocable Parole. It is estimated that 1,200 of these individuals will have received mental health care from POC or while in prison and will no longer be expected to report to POC.

Between January 1, 2010 and February 5, 2010, DMH outpatient facilities treated individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from CDCR, it is likely that this number will be significantly understated as it is based on the self-report of individuals who disclose the information when they initiate a request for services. Some individuals may be reluctant to report their involvement with CDCR; others may report additional referral sources (e.g., primary care) resulting in difficulties tracking the CDCR referrals. DMH continues to work with CDCR to obtain a full list of those in need of mental health services.

"To Enrich Lives Through Effective And Caring Service"

As of Friday February 5, 2010 DMH directly operated clinics reported having seen 24 individuals believed to be on parole or referred by Parole Outpatient Clinics since January 1. An additional two individuals believed to be on parole were seen by Emergency Outreach Bureau (EOB) PMRT or SMART during this period. As of February 4, outpatient service claims had been submitted through the DMH information system on six of these individuals at a total cost of \$4,977. Episode data indicates that both individuals seen by the EOB teams were subsequently admitted to DHS psychiatric emergency rooms then inpatient units during this period (estimated total cost is approximately ~\$16,230). An additional individual identified by DMH Countywide Resource Management as being on parole was admitted to a contracted inpatient facility during this period at an estimated cost of \$1,569.

Incarcerated Individuals Slated for Early Release

The second group described in the February 2, 2010 meeting of your Board is composed of individuals currently in State prison who are slated for early release. This action has been stayed by court order and there is no current actual impact on the Department of Mental Health. Recent information provided by CDCR suggests that approximately 1,952 individuals currently incarcerated who are scheduled for release within the next six months will be placed on Non-Revocable Parole status and will, therefore, not receive outpatient parole mental health services once returned to Los Angeles County. The percentage that will require mental health services is yet to be determined. However, as previously reported, the potential impact on Los Angeles County, should this release occur, is estimated to be large.

Individuals in State Hospitals

The third group includes individuals who have been residing in State hospitals as incompetent to stand trial on felony charges, those who are not guilty by reason of insanity or mentally disordered offenders. In these cases the individuals have been referred for Lanterman-Petris-Short conservatorships and courts have determined that they will not extend their penal code commitments. Over the course of the past year, the State has been returning many of these individuals to their Counties of origin – including Los Angeles County. Individuals in this group have severe mental health issues that required treatment in locked settings such as Institutes for Mental Diseases (IMDs) and State hospitals. Although the total number of individuals on criminal charges released from State hospitals may be small, the costs associated with their care are high. Since January 1, 2010 six individuals have been referred and converted to DMH State hospital beds at a cost of approximately \$85,000.

As requested, we will provide you with weekly cumulative reports regarding the number of individuals referred by CDCR and the total cost of their care so that your Board is fully informed of the impact of these changes on Los Angeles County. If you have any questions, or need further information, please contact me at (213) 738-4601 or Robin Kay, Ph.D., at (213) 738-4108.

*To improve health
through leadership,
service and education.*

At your Board's February 8, 2010 meeting, Supervisor Antonovich requested the Chief Executive Officer, in collaboration with the Director of Mental Health, Interim Director of Health Services and the Sheriff, to provide weekly status reports beginning at the Board meeting of February 9, 2010 on the following: the fiscal impact on health and mental services being provided to patients resulting from the early release of inmates from State hospitals; the impact these additional services will have on the regular law-abiding clientele in mental health facilities and hospital emergency rooms; and an estimated cost that departments may incur for the provision of additional personnel and security enhancement.

CURRENT WORKLOAD AND EXPENDITURE LEVELS

Since 2006, DHS facilities have admitted at least 25¹ individuals from the State prison system, with a median length of stay of 29 days. The estimated cost of care for these individuals during calendar year 2009 was \$1.82 million. During this time period some individuals were also referred to DHS that did not require placement.

PROJECTED WORKLOAD AND EXPENDITURE LEVELS

At this time there is insufficient information to determine how many additional individuals may be released to Los Angeles County health facilities from State prisons or State hospitals, and what level of care they may require upon arrival. No additional information has been provided by the State. Therefore, it is not currently possible to develop estimates of the fiscal or service impacts of State plans to release additional individuals.

As we receive further information, we will keep your Board apprised of significant developments. If you have any questions, or need further information, please contact me or Dr. Robert Splawn at 213-240-8344.

SUBJECT: **REPORT ON IMPACT ON MENTAL HEALTH SERVICES AS A RESULT OF THE RELEASE OF INMATES FROM STATE PRISONS**

This memo will provide you with information regarding the impact on Los Angeles County Department of Mental Health (DMH) services as a result of the release of inmates from State Prisons as requested during the February 2, 2010 meeting of your Board.

Overview of Impact of Changes in Status of Parolees

During the February 2, 2010 meeting of your Board, an outline was provided regarding three subgroups of individuals who are currently on parole or in State prison and whose change in status has the potential to affect service delivery in Los Angeles County. These groups, and their current impact on Los Angeles County Department of Mental Health, are as follows:

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

The first group is composed of individuals currently residing in Los Angeles County whose status will be reclassified to that of Non-Revocable Parole. The State of California has developed several measures in response to a federal court order to reduce the current State prison and parole population by 60,000 by the end of 2011. A provision that will reclassify the status of 7,700 parolees in Los Angeles County to that of Non-Revocable Parole was initiated on January 25, 2010 by the California Department of Corrections and Rehabilitation (CDCR). This provision eliminates the supervision requirement as well as eligibility for services provided by the Parole Outpatient Clinic (POC) system for those on Non-Revocable Parole. It is estimated that 1,200 of these individuals will have received mental health care from POC or while in prison and will no longer be expected to report to POC.

Between January 1, 2010 and February 12, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from CDCR, it is likely that this number will be significantly understated as it is based on the self-report of individuals who disclose the information when they initiate a request for services. Some individuals may be reluctant to report their involvement with CDCR; others may report additional referral sources (e.g., primary care) resulting in difficulties tracking the CDCR referrals. DMH continues to work with CDCR to obtain a full list of those in need of mental health services.

"To Enrich Lives Through Effective And Caring Service"

As of Friday, February 12, 2010 DMH directly operated clinics reported having seen 67 individuals believed to be on parole or referred by Parole Outpatient Clinics since January 1. As of February 16, outpatient service claims had been submitted through the DMH information system at a total cost of \$34,707. Since claims submission lags behind service delivery, this figure can be expected to increase as programs enter data into our claiming system. An additional two individuals believed to be on parole were seen by Emergency Outreach Bureau (EOB) PMRT or SMART during this period. Episode data indicates that both individuals seen by the EOB teams were subsequently admitted to DHS psychiatric emergency rooms then inpatient units during this period. Six additional individuals were seen in inpatient settings; since costs are not generally claimed to those in inpatient units until the time of discharge, a total cost for these inpatient stays cannot yet be reported.

Incarcerated Individuals Slated for Early Release

The second group described in the February 2, 2010 meeting of your Board is composed of individuals currently in State prison who are slated for early release. This action has been stayed by court order and there is no current actual impact on the Department of Mental Health. Recent information provided by CDCR suggests that approximately 1,952 individuals currently incarcerated who are scheduled for release within the next six months will be placed on Non-Revocable Parole status and will, therefore, not receive outpatient parole mental health services once returned to Los Angeles County. The percentage that will require mental health services is yet to be determined. However, as previously reported, the potential impact on Los Angeles County, should this release occur, is estimated to be large.

Individuals in State Hospitals

The third group includes individuals who have been residing in State hospitals as incompetent to stand trial on felony charges, those who are not guilty by reason of insanity or mentally disordered offenders. In these cases the individuals have been referred for Lanterman-Petris-Short conservatorships and courts have determined that they will not extend their penal code commitments. Over the course of the past year, the State has been returning many of these individuals to their counties of origin – including Los Angeles County. Individuals in this group have severe mental health issues that required treatment in locked settings such as Institutes for Mental Diseases (IMDs) and State hospitals. Although the total number of individuals on criminal charges released from State hospitals may be small, the costs associated with their care are high. Since January 1, 2010 six individuals have been referred and converted to DMH State hospital beds.

Los Angeles County Workgroup

In order to identify and address the variety of issues stemming from the needs of individuals in State hospitals, a Los Angeles County workgroup has been formed. This workgroup is composed of representatives from the Office of the County Counsel, the Department of Mental Health Countywide Resource Management program, Office of the Public Guardian, and Justice Mental Health programs. The initial meeting of the workgroup will be held on February 26, 2010.

SUBJECT: **REPORT ON IMPACT ON MENTAL HEALTH SERVICES AS A RESULT OF THE RELEASE OF INMATES FROM STATE PRISONS**

This memo will provide you with information regarding the impact on Los Angeles County Department of Mental Health (DMH) services as a result of the release of inmates from State Prisons as requested during the February 2, 2010 meeting of your Board.

Overview of Impact of Changes in Status of Parolees

During the February 2, 2010 meeting of your Board, an outline was provided regarding three subgroups of individuals who are currently on parole or in State prison and whose change in status has the potential to affect service delivery in Los Angeles County. These groups, and their current impact on Los Angeles County Department of Mental Health, are as follows:

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

The first group is composed of individuals currently residing in Los Angeles County whose status will be reclassified to that of Non-Revocable Parole. The State of California has developed several measures in response to a federal court order to reduce the current State prison and parole population by 60,000 by the end of 2011. A provision that will reclassify the status of 7,700 parolees in Los Angeles County to that of Non-Revocable Parole was initiated on January 25, 2010 by the California Department of Corrections and Rehabilitation (CDCR). This provision eliminates the supervision requirement as well as eligibility for services provided by the Parole Outpatient Clinic (POC) system for those on Non-Revocable Parole. It is estimated that 1,200 of these individuals will have received mental health care from POC or while in prison and will no longer be expected to report to POC.

Between January 1, 2010 and February 19, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from CDCR, it is likely that this number will be significantly understated as it is based on the self-report of individuals who disclose the information when they initiate a request for services. Some individuals may be reluctant to report their involvement with CDCR; others may report additional referral sources (e.g., primary care) resulting in difficulties tracking the CDCR referrals. DMH continues to work with CDCR to obtain a full list of those in need of mental health services.

“To Enrich Lives Through Effective And Caring Service”

As of Friday, February 19, 2010 DMH directly operated programs reported having seen 87 individuals believed to be on parole or referred by Parole Outpatient Clinics since January 1. Cost of outpatient service claims submitted through the DMH information system totaled \$24,971. Please note that this figure is slightly lower than the total cost reported in the report issued last week as some inpatient costs were inadvertently contained in the outpatient figures previously released. Since claims submission lags behind service delivery, this figure can be expected to increase as programs enter data into our claiming system. There have been 12 known inpatient admissions since January 1 with an estimated cost of \$49,513. However, since costs are not generally claimed to those in inpatient units until the time of discharge, a total cost for these inpatient stays cannot yet be reported. Two individuals have been admitted to Institutes for Mental Disease (IMD) units for a total approximate cost of \$4,500.

Incarcerated Individuals Slated for Early Release

The second group described in the February 2, 2010 meeting of your Board is composed of individuals currently in State prison who are slated for early release. This action has been stayed by court order and there is no current actual impact on the Department of Mental Health. Recent information provided by CDCR suggests that approximately 1,952 individuals currently incarcerated who are scheduled for release within the next six months will be placed on Non-Revocable Parole status and will, therefore, not receive outpatient parole mental health services once returned to Los Angeles County. The percentage that will require mental health services is yet to be determined. However, as previously reported, the potential impact on Los Angeles County, should this release occur, is estimated to be large.

Individuals in State Hospitals

The third group includes individuals who have been residing in State hospitals as incompetent to stand trial on felony charges, those who are not guilty by reason of insanity or mentally disordered offenders. In these cases the individuals have been referred for Lanterman-Petris-Short conservatorships and courts have determined that they will not extend their penal code commitments. Over the course of the past year, the State has been returning many of these individuals to their counties of origin – including Los Angeles County. Individuals in this group have severe mental health issues that required treatment in locked settings such as Institutes for Mental Diseases (IMDs) and State hospitals. Although the total number of individuals on criminal charges released from State hospitals may be small, the costs associated with their care are high. Since January 1, 2010 six individuals have been referred and converted to DMH State hospital beds.

Los Angeles County Workgroup

In order to identify and address the variety of issues stemming from the needs of individuals in State hospitals, a Los Angeles County workgroup has been formed. This workgroup is composed of representatives from the Office of the County Counsel, the Department of Mental Health Countywide Resource Management program, Office of the Public Guardian, and Justice Mental Health programs. The initial meeting of the workgroup will be held on February 26, 2010.

SUBJECT: **REPORT ON IMPACT ON MENTAL HEALTH SERVICES AS A RESULT OF THE RELEASE OF INMATES TREATED IN STATE HOSPITALS**

As requested by your Board during the meeting of February 20, 2010, the Department of Mental Health (DMH) has provided regular updates regarding the impact on services of the release of inmates from State Prisons. More specifically, DMH provided your Board with information on the impact of parolees whose status will be reclassified to Non-Revocable Parole by the California Department of Corrections and Rehabilitation (CDCR). During the course of these updates, DMH differentiated these issues from those related to the status of inmates who reside and are treated in State hospitals. This memo will provide you with an update on the activities of the workgroup formed to focus on issues related to release of those in State hospitals.

Individuals in State Hospitals – Los Angeles County Workgroup

As previously reported, the Los Angeles County Department of Mental Health identified a group of individuals whose change in status has the potential to impact service delivery in Los Angeles County. This group includes individuals who have been residing in State hospitals as incompetent to stand trial on felony charges, those who are not guilty by reason of insanity or mentally disordered offenders. In these cases, the individuals have been referred for Lanterman-Petris-Short conservatorships and courts have determined that they will not extend their penal code commitments. Individuals in this group have severe mental health issues that required treatment in locked settings such as Institution for Mental Diseases (IMDs) and State hospitals. Although the total number of individuals on criminal charges released from State hospitals may be small, the costs associated with their care are high.

On Friday, April 9, 2010, the Los Angeles County workgroup reconvened for a second meeting to review the transition of individuals from Superior Court to the Los Angeles County Department of Mental Health. Participants from DMH, County Counsel, and Chief Executive Office reviewed an analysis of sixty individuals referred by the court system to the Office of the Public Guardian between March 2009 and March 2010.

Each Supervisor
April 27, 2010
Page 2

Several different groups of criminal case inmates were identified, and alternative approaches were identified. It was concluded that collaboration with the Court about the individual needs of clients as referrals are made is currently a successful approach; this course will be pursued and monitored on an ongoing basis. DMH will also explore options for engaging forensic experts that may assist with future evaluation and testimony should there be differences of opinion regarding clients' dispositions in the future.

The Los Angeles County workgroup will continue to meet on an as-needed basis to review the referrals and current approach. DMH will keep you informed of any developments related to release of inmates from State Hospitals and impact on service delivery. If you have any questions, or need further information, please contact me at (213) 738-4601, or your staff may contact Robin Kay, Ph.D., at (213) 738-4108.

SUBJECT: **REPORT ON IMPACT ON MENTAL HEALTH SERVICES AS A RESULT OF THE RELEASE OF INMATES FROM STATE PRISONS**

This memo will provide you with information recently received by Los Angeles County Department of Mental Health (DMH) regarding the protocol established by the California Department of Corrections and Rehabilitation (CDCR) for inmates with mental illness who are released from State prison on Non-Revocable Parole (NRP) status that have a need for continuing mental health services. Information regarding actions taken by DMH is also included.

Background

During the March 2, 2010 Board meeting, representatives of the CDCR reported on several measures undertaken in response to a federal court order to reduce the current State prison and parole population by 60,000 by the end of 2011. A provision that will reclassify the status of 7,700 parolees in Los Angeles County to that of NRP was initiated on January 25, 2010, by CDCR. This provision eliminated the supervision requirement as well as eligibility for mental health services provided by the Parole Outpatient Clinic (POC) system for those on NRP.

Incarcerated Individuals Slated for Early Release – CDCR Protocol

In reports to your Board, Los Angeles County Department of Mental Health (DMH) staff differentiated several populations of inmates affected by the new provisions. One group is composed of individuals who were incarcerated at the time the provision was enacted, who were to be released early on NRP status. During their presentation to your Board, representatives of the CDCR indicated that they would provide 30 days' prior notification of inmates' release to Los Angeles County. CDCR staff further indicated that a comprehensive referral packet would be provided several weeks prior to inmates' release in order to ensure continuity of mental health care for those treated for mental illness while incarcerated. It was anticipated that inmates identified for early release would begin to leave State correctional facilities in April. DMH was asked for a single point of contact and provided that information to the CDCR.

"To Enrich Lives Through Effective And Caring Service"

Each Supervisor
May 25, 2010
Page 2

Since April 1, 2010, DMH has received only 2 referrals from CDCR, despite frequent inquiries. Minimal clinical information was provided for only one of these individuals. Based upon information provided by CDCR within the last 10 days, DMH has serious concerns that inmates with mental illness that are in need of ongoing mental health services and supports are being released early on NRP status without prior notification. According to information provided by CDCR, approximately 14% of the 2,000 individuals slated for early release on NRP status require ongoing mental health services. We are concerned that the lack of referral information precludes us from providing adequate outreach or coordination of care for individuals who may need ongoing mental health services in order to successfully integrate into our community.

Actions Taken

Due to our concerns about being able to provide continuing mental health services to inmates released early on NRP status, I have sent the attached letter to representatives of CDCR. The letter requests that the CDCR take adequate steps to ensure that their protocols are followed. DMH staff also continues to contact representatives of CDCR on a regular basis to request referral information.

If you have any questions, or need further information regarding this matter, please contact me at (213) 738-4601 or Robin Kay, Ph.D., at (213) 738-4108.

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

STATUS OF THE EARLY RELEASE PROGRAM-MONTHLY REPORT

This correspondence is in response to your February 15, 2005, request for monthly reports regarding: 1) the actual spending in custody; 2) the actual bed count of inmates in custody; 3a) the number of deputies and 3b) custody assistants actually deployed in Custody Division; and 4) early releases.

The Early Release Program involves a rather complicated formula to reduce the current inmate population. Attachment A summarizes the current spending in Custody Division. The table found in Attachment B delineates the actual bed count of inmates in custody, the number of personnel deployed in custody, and the number of inmates released from custody under the Early Release Program.

Should you have any questions, please feel free to contact me or Chief Alexander Yim at (213) 893-5017.

Sincerely,

LEROY D. BACA
SHERIFF

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – JUNE 2010 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department, Department of Mental Health (DMH), and Department of Health Services (DHS). In response to this direction, provided herein is a summary of the impact of the State's prison and parole reforms upon these County departments since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and June 30, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation (CDCR), this number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for services.

"To Enrich Lives Through Effective And Caring Service"

**Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only**

Mental Health: Level/Type of Service	Cumulative Client Count	Cumulative Costs (1/1/10 to date)
Outpatient Clinics and Countywide Resource Management	143	\$ 287,710
Medication Costs for Unfunded Clients	29	\$ 11,259
Inpatient Admissions	138*	\$ 1,371,331
Institutions for Mental Disease Admissions	14*	\$ 106,920
Total		\$ 1,777,220

*Represents total number of admissions, not unduplicated clients.

Sheriff's Department

The table below represents monthly resources dedicated to non-revocable parolees during location searches, parolee contacts, and parolee arrests.

Month	Hours Dedicated to NRPs	Monthly Cost
2010 January	0	0
February	0	0
March	0	0
April	425	\$ 31,974.32
May	1,900	\$ 38,205.71
Total	2,325	\$ 70,180.03

Department of Health Services

Between February 9, 2010 and June 25, 2010, DHS has received 14 total requests from the State prison system for inmates to be placed in DHS facilities. Five requests have been canceled, for a total of nine placements. The cost of the nine placements is approximately \$181,096.

It is important to note that the above information does not capture the total number of parolees for which DHS provides care. Parolees released directly into the community often require DHS services at some point subsequent to release. However, because these individuals are not always immediately identifiable as parolees, it is difficult to quantify the number DHS serves or the cost of providing that care. As the State paroles more individuals, DHS expects its costs in this area will increase.

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – JULY 2010 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS).

The following is a summary of the impact the State's prison and parole reforms have upon our County departments since the implementation of Senate Bill X3 18 on January 25, 2010:

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole (NRP) Status

Between January 1, 2010 and July 22, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation, this number should be considered an estimate as it is based on the self-report of individuals who disclosed the information when they initiate a request for services.

Mental Health: Level/Type of Service	Cumulative Client Count	Cumulative Costs (1/1/10 to date)
Outpatient Clinics and Countywide Resource Management	211	\$ 462,851
Medication Costs for Unfunded Clients	35	\$ 14,461
Inpatient Admissions	191*	\$ 1,880,081
Institutions for Mental Disease Admissions	23*	\$ 170,820
Total		\$ 2,528,213

*Represents total number of admissions, not unduplicated clients.

Sheriff's Department

The table below represents monthly resources dedicated to NRP during location searches, parolee contacts and parolee arrests.

Month	Hours Dedicated to NRPs	Monthly Cost
January 2010	0	0
February	0	0
March	0	0
April	425	\$ 31,974.32
May	1,900	\$ 38,205.71
June	834	\$ 63,367.95
Total	3,159	\$ 133,547.98

Department of Health Services

Month	Inpatient Days	Emergency Department Visits	Monthly Cost
February 2010	5	0	\$ 13,185
March	23	2	\$ 63,805
April	12	1	\$ 34,752
May	55	0	\$ 152,405
June	49	2	\$ 139,033
July	56	1	\$ 159,122
Total	200	6	\$ 562,302

Each Supervisor
August 16, 2010
Page 2

Between February 9, 2010 and July 21, 2010, DHS has provided healthcare services to 14 parolees. As noted in the chart above, the cost of the 200 inpatient days and the six emergency department visits is approximately \$562,302.

It is important to note that the above information does not capture the total number of parolees for which DHS provides care. Parolees released directly into the community often require DHS services at some point subsequent to release. However, because these individuals are not always immediately identifiable as parolees, it is difficult to quantify the number DHS serves or the cost of providing that care. As the State paroles more individuals, DHS expects its costs in this area to increase.

The CEO, Sheriff, DMH and DHS will continue to monitor the status of the State's prison reform efforts and to provide your Board with updates on the financial impacts to the County of Los Angeles. Should you have any questions, please contact me or your staff may contact Deputy Chief Executive Officer Jacqueline A. White, Public Safety, at (213) 893-2374.

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – AUGUST 2010 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS).

The following is a summary of the impact the State's prison and parole reforms have had upon our County departments since the implementation of Senate Bill X3 18 on January 25, 2010:

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole (NRP) Status

Between January 1, 2010 and August 19, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation (CDCR), this number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

Mental Health: Level/Type of Service	Cumulative Client Count	Cumulative Costs (1/1/10 to date)
Outpatient Clinics and Countywide Resource Management	255	\$ 507,338
Medication Costs for Unfunded Clients	101	\$ 63,674
Inpatient Admissions	221*	\$ 2,220,968
Institutions for Mental Disease Admissions	29*	\$ 212,040
Total		\$ 3,004,020

*Represents total number of admissions, not unduplicated clients.

Sheriff's Department

The table below represents monthly resources dedicated to NRP during location searches, parolee contacts, and parolee arrests.

2010	Hours Dedicated to NRPs	Monthly Cost
January	0	0
February	0	0
March	0	0
April	425	\$ 31,974.32
May	508	\$ 38,205.71
June	834	\$ 63,367.95
July	776	\$ 58,515.95
Total	2,543	\$ 192,063.93

Department of Health Services

Since February 2010, DHS has been reporting on the number of parolees that have been transferred directly from State prisons to DHS facilities. DHS received no new referrals from the CDCR in the month of August. On average, DHS has received two patients per month, which is consistent with past years before the implementation of the State's Early Release Program. Any increases previously noted in referrals are most likely due to better communication between CDCR and the DHS facilities.

Each Supervisor
September 27, 2010
Page 3

Please note that the parolees that have been released into DHS' care have supervising parole officers, therefore, they do not have NRP status. NRPs by definition are not assigned parole officers and are no longer monitored and/or supervised by a parole officer. DHS has not seen a drastic increase in parolees since the State started the Early Release Program in January 2010.

As mentioned in previous reports, DHS likely serves many additional parolees that were not directly referred by the State. If a parolee is released into the community by the State, he or she would have the ability to enter the DHS system just like any other Los Angeles County resident. Similar to all DHS patients, these parolees will be assessed for third-party payer sources and will be billed accordingly. DHS does not collect information regarding parole status because it is not a prerequisite to receive healthcare services and has no impact on DHS' billing processes. Therefore, DHS has no systemic way to track the number of parolees that have recently been released from the State.

Since changes in the State's Early Release Program do not appear to be affecting the average number of parolees directly transferred to DHS facilities and DHS has no mechanism to track any additional parolees served from the community, DHS respectfully requests that their department be excluded from future monthly reports. However, DHS will notify your Board if the department experiences a significant increase in parolee transfer volumes.

The CEO, Sheriff, and DMH will continue to monitor the status of the State's prison reform efforts and to provide your Board with updates on the financial impacts to the County of Los Angeles. Should you have any questions, please contact me or your staff may contact Deputy Chief Executive Officer Jacqueline A. White, Public Safety, at (213) 893-2374.

November 17, 2010

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

STATUS OF THE EARLY RELEASE PROGRAM-MONTHLY REPORT

This correspondence is in response to your February 15, 2005, request for monthly reports regarding: 1) the actual spending in custody; 2) the actual bed count of inmates in custody; 3a) the number of deputies and 3b) custody assistants actually deployed in Custody Division; and 4) early releases.

The Early Release Program involves a rather complicated formula to reduce the current inmate population. Attachment A summarizes the current spending in Custody Division. The table found in Attachment B delineates the actual bed count of inmates in custody, the number of personnel deployed in custody, and the number of inmates released from custody under the Early Release Program.

Should you have any questions, please feel free to contact me or Chief Alexander Yim at (213) 893-5017.

Sincerely,

LEROY D. BACA

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – JANUARY 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and the Department of Health Services (DHS). The following is a summary of the impact the State's prison and parole reforms have had upon these County departments since the implementation of Senate Bill X3 18 on January 25, 2010:

Department of Mental Health

Individuals Currently Residing in Los Angeles County have been Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and December 29, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation (CDCR), this number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

"To Enrich Live through Effective and Caring Service"

**Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only**

Mental Health: Level/Type of Service	Cumulative Client Count	Cumulative Costs (1/1/10 to date)
Outpatient Clinics and Countywide Resource Management	423	\$ 1,080,303
Medication Costs for Unfunded Clients	185	\$ 149,082
Inpatient Admissions	414*	\$ 4,462,054
Institutions for Mental Disease Admissions	44*	\$ 485,820
Total		\$ 6,177,259

*Represents total number of admissions, not unduplicated clients.

Sheriff's Department

The table below represents monthly resources dedicated to NRP during location searches, parolee contacts, and parolee arrests.

Month	Hours Dedicated to NRPs	Monthly Cost
January 2010	0	0
February	0	0
March	0	0
April	425	\$ 31,974.32
May	508	\$ 38,205.71
June	834	\$ 63,367.95
July	776	\$ 58,515.95
August	552	\$ 42,456.22
September	521	\$ 51,705.66
October	571	\$ 42,603.26
November	339	\$ 25,502.51
Total	4,526	\$ 354,331.58

The CEO, Sheriff, and DMH will continue to monitor the status of the State's prison reform efforts and to provide your Board with updates on the financial impacts to the County of Los Angeles. Should you have any questions, please contact me or your staff may contact Deputy Chief Executive Officer Jacqueline A. White, Public Safety, at (213) 893-2374.

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – MARCH 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS). Our September 27, 2010, report to your Board advised you of DHS' request to be excluded from future monthly reports due to the lack of impact experienced. Therefore, the following is a summary of the impact on Sheriff and DMH since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and December 29, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation (CDCR), this number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – MARCH 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS). Our September 27, 2010, report to your Board advised you of DHS' request to be excluded from future monthly reports due to the lack of impact experienced. Therefore, the following is a summary of the impact on Sheriff and DMH since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and December 29, 2010, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. Until DMH receives identifying information regarding this group from the California Department of Corrections and Rehabilitation (CDCR), this number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

June 14, 2011

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

STATUS OF THE EARLY RELEASE PROGRAM-MONTHLY REPORT

This correspondence is in response to your February 15, 2005, request for monthly reports regarding: 1) the actual spending in custody; 2) the actual bed count of inmates in custody; 3a) the number of deputies and 3b) custody assistants actually deployed in Custody Division; and 4) early releases.

The Early Release Program involves a rather complicated formula to reduce the current inmate population. Attachment A summarizes the current spending in Custody Division. The table found in Attachment B delineates the actual bed count of inmates in custody, the number of personnel deployed in custody, and the number of inmates released from custody under the Early Release Program.

Should you have any questions, please feel free to contact me or Chief Alexander Yim at (213) 893-5017.

Sincerely,

LEROY D. BACA
SHERIFF

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – MAY 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS). Our September 27, 2010, report to your Board advised you of DHS' request to be excluded from future monthly reports due to the lack of impact experienced. Therefore, the following is a summary of the impact on Sheriff and DMH since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and June 22, 2011, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. This number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – JULY 2011 (ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS). Our September 27, 2010, report to your Board advised you of DHS' request to be excluded from future monthly reports due to the lack of impact experienced. Therefore, the following is a summary of the impact on Sheriff and DMH since the implementation of Senate Bill X3 18 on January 25, 2010.

Department of Mental Health

Individuals Currently Residing in Los Angeles County Reclassified to Non-Revocable Parole Status

Between January 1, 2010 and July 26, 2011, DMH outpatient facilities treated a number of individuals whose services were terminated by Parole Mental Health facilities as a result of the reclassification of their parole status. This number should be considered an estimate as it is based on the self-report of individuals who disclose the information when they initiate a request for service.

**IMPACT OF THE STATE'S EARLY RELEASE PROGRAM – JANUARY 2012
(ADMINISTRATIVE MEMO, AGENDA OF MARCH 2, 2010)**

On March 2, 2010, your Board directed the Chief Executive Officer (CEO) to provide monthly reports on the impact the State's prison and parole reforms have on the Sheriff's Department (Sheriff), Department of Mental Health (DMH), and Department of Health Services (DHS).

On October 1, 2011, the Non-Revocable Parole (NRP) program was discontinued in conjunction with the implementation of Assembly Bill 109 (AB109) Post Release Community Supervision program. Individuals who may previously have been released as NRPs are now released under this new AB109 program. The Sheriff, DMH, and DHS, in conjunction with several other County departments, regularly report service utilization and other pertinent data to the Board regarding this population under this new process.

This correspondence will be our final report addressing the March 2, 2010, administrative memo. Should you have any questions, please contact me or your staff may contact Georgia Mattera at (213) 893-2374 or Dardy Chen at (213) 974-1162.
