

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

AUGUST 24, 2010

The California Enterprise Zone Program was created to stimulate economic growth in economically distressed areas throughout the State of California. The Enterprise Zone Program is a 15-year designation that seeks to generate new private sector investment and growth through the award of State tax credits and incentives.

On April 15, 2010, the State Department of Housing and Community Development (HCD) issued a request for applications for Enterprise Zone designation to fill two expiring Enterprise Zones statewide. Applications must be completed and submitted to HCD by September 15, 2010. During this application period, the County of Los Angeles (County) and the Cities of Palmdale and Lancaster are applying for a regional Enterprise Zone.

The application for a multi-jurisdictional Enterprise Zone, to be called the Antelope Valley Enterprise Zone, will encompass approximately 61 square miles of commercial and industrial land in the Antelope Valley. The City of Palmdale currently administers an Enterprise Zone that was designated in 1997. Therefore, if the Antelope Valley Enterprise Zone application is successful, the joint County/City application would replace the current Enterprise Zone, keeping available the two Enterprise Zone openings for the rest of the State. The County will work cooperatively with the City of Palmdale and Lancaster, to implement and maintain the Enterprise Zone for a period of not less than 15 years.
