William T Fuijoka

Chief Executive Officer

CADRE OF ADMINISTRATIVE RESERVE PERSONNEL (ITEM NO. 2, AGENDA OF MAY 21, 2013)

On May 21, 2013, your Board instructed the Chief Executive Office (CEO) to work with the Sheriff's Department (Department) to provide the Board with a report in three weeks that:

- 1. Describes the current use of Cadre Administrative Reserve Personnel (CARP) and its operational impact on the Department; and
- 2. Provides a proposed plan to phase out the regular use of CARPing as the 270 vacancies are filled.

Background and Current Use of CARP

In March 2010, the Department began a 16-month effort to cut \$128 million from its budget in Fiscal Year (FY) 2010-11. Part of that effort included the implementation of the CARP program. The program required the Department to hold between 270 - 280 positions vacant in order to generate \$36.6 million in savings. In order to ensure operations were not impacted, supervisory/administrative staff was required to work one shift (8 hours) per week to fill those vacancies instead of using overtime in core services such as Patrol, Custody, and Court Services.

The CARP program requires the reassignment of the majority of the Department's sworn supervisory, administrative, investigative, specialized services, and training

"To Enrich Lives Through Effective And Caring Service"

Each Supervisor June 20, 2013 Page 2

personnel to staff critical positions/vacancies once per week. CARPing employees are then left with 32 hours per week to focus on their primary duties.

Operational Impact on the Department

The Department indicates that the CARP program was effective for the short term by avoiding significant program curtailments; however, the long-term implementation has had a negative impact on operations as follows:

- The \$36.6 million in annual savings realized by the CARP program required the Department to hold vacant between 270 - 280 deputy sheriff positions (which translates into 5,600 monthly CARP shifts), delaying the hiring of new recruits.
- Between March 2010 and April 2013, the total number of CARP shifts worked was 189,670.
- These CARP shifts translate into over 1.5 million hours of lost supervisory, administrative, investigative, specialized services, and training time. For example:
 - ✓ Supervision of personnel has been reduced due to supervisors working in CARP assignments.
 - ✓ Processing/approval of administrative reports have been delayed due to personnel being away at a CARP assignment.
 - ✓ Investigators, ranging from station level detectives to Homicide Bureau, have been unable to initiate investigations or have delayed follow up on their investigations due to CARP responsibilities.
 - ✓ Specialized services, such as the Special Enforcement Detail, Mental Evaluation Team, and Community Policing Bureau, had to curtail routine operations or delay their response to critical incidents.
 - ✓ Training has suffered Department-wide due to training staff being unavailable due to CARP commitments and/or the employees that require training also having to work a CARP assignment.
- Staff is required to perform unfamiliar work assignments.
- Because the vacancies are filled by personnel throughout the Department, each vacant position is filled by a different person on a daily basis.

Each Supervisor June 20, 2013 Page 3

> Supervisory/administrative staff had to deal with weekly changes in schedules, working hours, work locations, and duties.

Proposed Plan to Phase Out CARPing

The CEO has reviewed various options to phase out CARPing over a two-year period, one of which included eliminating CARPing for detectives assigned to Patrol and Detective Bureau effective July 1, 2013; however, this option required an additional one-time funding of \$5.5 million in overtime. Another option is to provide \$18.6 million in funding in Year One, of which \$10 million would have to be redirected to overtime to eliminate CARPing for the detectives. This option, however, would delay the hiring process for recruits.

Based on this review, the CEO and Department are proposing a two-year plan to eliminate 5,600 monthly CARP shifts through the hiring of 280 deputy sheriff generalists (DSGs) at an ongoing cost of \$36.6 million (\$18.6 million in Year One plus \$18 million in Year Two). In order to expedite the hiring process, the Department will host a total of six academy classes with 365 recruits and graduate 280 DSGs. The academy training is 18 weeks or 4 1/2 months with an attrition rate of approximately 25 percent. The total number of academy classes held will be based on the actual number of successful graduates.

With \$18.6 million in funding in Year One, the Department plans to host four deputy sheriff trainee academy classes and graduate 204 DSGs. CARP shifts will be completely eliminated in Patrol (approximately 2,600 shifts monthly) by April 2014. Approximately \$7.1 million will be allocated to the General Support Budget to offset the costs of the training staff and recruits. The remaining \$11.5 million in funding will be allocated to Patrol and Court Services to eliminate CARPing for detectives beginning November 2013. The detectives are currently CARPing into these two areas.

The \$18 million allocated in Year Two will fund the ongoing costs of Year One DSGs and allow the Department to host two deputy sheriff trainee classes and graduate an additional 76 DSGs. CARP shifts in the remaining budget units will be eliminated by December 2014 in Year Two. For details of the proposed CARP hiring plan, refer to Attachment I.

In summary, in FY 2013-14 with \$18.6 million in funding, the Department will graduate 204 DSGs and eliminate approximately 2,600 monthly CARP shifts in Patrol by April 2014. The remaining CARP shifts in Custody, County Services, Court, General

Each Supervisor June 20, 2013 Page 4

Support, and Administration budget units will be eliminated by December of the second fiscal year for a total of 5,600 monthly CARP shifts.

If you have any questions, please feel free to contact Georgia Mattera, CEO Public Safety, at (213) 893-2374 or Glen Dragovich, Sheriff's Department Administrative Division, at (323) 526-5191.
